<input type="checkbox"/>	Reclassify from Class A or Class A Prestige Fund Units to Class F or Class F Prestige Fund Units (75/75 only)*
<input type="checkbox"/>	Reclassify from Class F or Class F Prestige Fund (75/75 only) Units to Class A or Class A Prestige**

** A switch is processed as a sell and a buy if the switch is from Class F or Class F Prestige to Class A or Class A Prestige under the chargeback or deferred sales charge option and is a taxable disposition in a non-registered contract and may result in a capital gain or loss.	

Section 10: Request for Cancellation of Death Guarantee Reset Option (GIF 100/100 Guarantee Option only)

<input type="checkbox"/> Cancel Death Guarantee Reset Option (once cancelled, cannot be re-elected)

Section 11: Renewal of Maturity Date (GIF 100/100 Guarantee Option only)

Select the term for the subsequent maturity date (one only):	<input type="checkbox"/> 15 years	<input type="checkbox"/> _____ (number of years)
The subsequent maturity date must be for a term of at least 15 but not more than 25 years, except if there is less than 15 years remaining to the contract maturity date. If no selection is made, the term will be 15 years.		

Section 12: Owner Acknowledgement and Agreement

If there is more than one owner, all owners must sign here.
For corporations, sign according to corporate resolution.
For trusts, all trustees must sign unless the trust agreement provides otherwise.

Your signature below (as applicable) confirms that:

- You authorize us to act on the transactions you have requested, subject to the terms of the contract. Please consult the BMO GIF Information Folder or Policy, or ask your advisor for the terms that apply to the transaction you have requested.
- Except for the applicable maturity and death guarantees, the value of a segregated fund fluctuates according to changes in the market value.
- Withdrawals may result in tax consequences. Any withdrawal from a BMO GIF policy will impact guarantees on a proportionate basis. You may incur deferred sales charges or short-term trading fees when you request a withdrawal.
- Switches may be subject to switch fees (if applicable), and/or short-term trading fees; and may also result in a capital gain or loss as it creates a taxable disposition.
- If you are switching mature units or DSC-free units, you understand and acknowledge that where applicable, the trailing commission paid by BMO Insurance for front-end sales charge funds is generally greater than that paid for DSC funds. If this is a taxable event, the implications have been disclosed to you.
- If you are moving between funds of different sales charges or Guarantee Options, or transferring units of the same fund between contracts with different attributes, the transaction will be treated as a sell and a buy, which means that guarantees under your policy could be negatively impacted. The sell may result in a taxable disposition in a non-registered contract. You may be charged a deferred sales charge and short-term trading fees may apply to the sell transaction.
- A transfer between policies with common attributes may result in a taxable disposition if the registration types are different.
- If you are transferring to a RIF, you hereby ask us to convert and register your RSP contract as a RIF as provided under the terms under the contract. Deferred sales charges and taxes may apply to RIF payments.
- When there is less than 15 years to the maturity date or contract maturity date, the maturity guarantee is 75% of deposits (as defined under your GIF 100/100 Policy).
- If you are borrowing money to finance the purchase of segregated funds, this involves greater risk than a purchase using cash resources only. If you borrow money to purchase segregated funds, your responsibility to repay the loan and pay interest as required by its terms remains the same even if the value of the segregated funds purchased has declined.
