Best Practice Guide to Completing the BMO Insurance Application for Life Insurance and Critical Illness Insurance application (126E)

This Guide has been created for you.
It is made up of two parts.

Part 1 - Hints, tips and reminders.

Part 2 – A mock-up of a completed application (Application Aid) with additional important information denoted by this symbol

Part 1 - Hints, tips and reminders that will help you navigate the New Business and Underwriting process, get your business issued faster and get you paid faster.

1. Read all of the *Important Instructions For The Advisor* on page A1 as well as any other instructions found at the beginning of each Section throughout the application. The information can help you save time and effort.

2. **Print** all information clearly. Trying to interpret handwriting will slow down the new business and underwriting process.

3. Complete all questions on the application thoroughly in order to avoid delays and amendments. This will result in prompt payment of compensation/commission.

4. The application is a legal document that forms part of the policy contract. If you need to change any of the information provided at time of application, we will require a signed amendment/endorsement

5. You can request multiple policies from the lives listed on one application. Provide specific instructions in the Advisor cover letter and in Sections 14 and 15, General Comments.

6. Submit an illustration for every policy requested. This eliminates guess work on our part.

7. An Advisor cover letter is always appreciated by the Underwriter. The method used to calculate the face amount; explaining the insurance need; details on lifestyle… are just some examples of the additional information that is useful to the underwriter.

8. Standard underwriting questionnaires are available on the Wave illustration software and at www.bominsurance.com/advisor. When an occupation, avocation or lifestyle issue has been identified in the taking of the application, completion of underwriting questionnaires at time of application may save time. For your convenience, the Application Aid is hyperlinked to many of the underwriting questionnaires.

9. If the client has received an underwriting offer from us, but requests an offer from reinsurers, our offer is automatically withdrawn and the offer received from the reinsurer will be final.

10. Tracking the progress of your business:
    If you do not already have a User ID and Password, go to www.bmoinsurance.com/advisorsupport and select Login Assist to request one.
    Then select Sales Tracking to find the underwriting status of your case(s).

11. Replacement forms do not cancel a policy at any company. To protect your client's coverage, cancellation letters should be sent only when the new coverage is in place. If the application is a replacement for coverage, BMO Insurance cannot proceed with the application without replacement documentation in accordance to the rules established in the jurisdiction where the applicant resides. It is the Advisors responsibility to ensure that the replacement is in the best interest of the consumer and maintain a record of such review.

12. Write in your Advisor Code number. When you were first contracted with BMO Insurance you received a 10 digit alpha numeric code that is unique to you. Write your Advisor Code in Section 14.3 – Advisor Information, every time. Use your individual advisor code number not your corporate code number. If you do not remember your Advisor Code, request it from your MGA.

13. Premium Payments. Premium payments are due and payable on the **Policy Effective Date** (date the insurance coverage starts**)** shown in the **Policy Information Pages** of the insurance contract.

Example of premium payments due:

- *Assume payment of $75.00 by pre-authorized deposit*
- *Assume no initial payment received with the application (no TIA)*
- Policy Effective Date is April 15th
- Policy is delivered to the client on May 4th
- Withdrawal Day request is May 5th
- O/S requirements received and processed on May 9th
- BMO Insurance will debit account for $150.00 (April and May coverage) immediately
- BMO Insurance will commence regular monthly debits of $75.00 beginning on June 5th

14. Request to Save Age (back dating a policy).
    Depending on the plan of insurance, you can request that a policy be back dated to 'save age' in order to receive a younger age premium
    - For term, universal life and whole life plans, you can request a policy be back dated up to 6 months
    - For critical illness plans, you can request a policy be back dated up to 3 months

    - You must indicate the request on the application (Section 14 – Advisor Report, #5)
    - All outstanding premium payments will be required in order to effect coverage
        - E.g., request to back date 4 months will require 4 months of premium payments in order to effect coverage

15. Ordering and arranging routine age and amount requirements. With the exception of the Attending Physician's Statement (APS), it is the responsibility of the Advisor/MGA to order the routine age and amount requirements, based on the plan of insurance.
    - A BMO Insurance underwriter will order the APS.
    - Routine age and amount requirements are conveniently listed on all Wave illustration output.
    - Routine age and amount requirements can also be found in the Underwriting Guidelines, form 319E
