Investment Objectives and Strategies

This fund's objective is to provide a regular distribution by investing primarily in exchange traded funds and/or other mutual funds that invest in fixed income securities. The fund may also invest directly in fixed income securities, and cash or cash equivalents.

These are the strategies the portfolio manager uses to try and achieve the fund's objective:

- may invest up to 100% of the fund's assets in securities of exchange traded funds and/or other mutual funds, including funds that are managed by us or one of our affiliates or associates
- may invest directly in fixed income securities in cash or cash equivalents
- the underlying funds selected by the portfolio manager will invest primarily in Canadian and foreign fixed income securities, and will be selected on the basis that they help the portfolio to achieve the same strategies that it uses when investing directly in those securities
- allocates assets among the underlying exchange traded funds and other mutual funds based on each mutual fund's investment objectives and strategies, among other factors. The underlying funds as well as the percentage holding in each underlying fund, may be changed without notice from time to time

BMO Asset Management Inc.

- may invest up to 45% of the fund's assets in foreign fixed income securities

Robert Bechard, CFA
Alfred Lee, CFA, CMT, DMS

BMO Investments Inc. intends to waive a portion of the fees listed in the prospectus to meet a current target MER of approximately 1.58%. This current target MER could be subject to change should BMO Investments Inc. decide not to waive fees in future years.

Disclaimer

BMO Mutual Funds are offered by BMO Investments Inc., a financial services firm and separate legal entity from Bank of Montreal.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus of the mutual fund before investing. Except as otherwise noted, the indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. For money market funds, the performance data assumes reinvestment of distributions only and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. In addition, for money market funds, there can be no assurances that the fund will be able to maintain its net asset value per unit at a constant amount or that the full amount of your investment in the fund will be returned to you. Mutual funds are not guaranteed or covered by the Canada Deposit Insurance Corporation, the Régie de l'assurance-dépôts du Québec or by any other government deposit insurer. The value of mutual funds changes frequently and past performance may not be repeated.
