BMO Financial Group was established in 1817. Headquartered in Canada, we serve 13 million personal, commercial, corporate and institutional customers in North America and internationally.

BMO Capital Markets is a leading, full-service North American financial services provider offering equity and debt underwriting, corporate lending and project financing, merger and acquisitions advisory services, merchant banking, securitization, treasury and market risk management, debt and equity research and institutional sales and trading.

Capital Structuring & Origination Rotational Program Analysts in the Capital Structuring & Origination Rotational Program gain experience and build relationships across different functions of the investment bank as they rotate through various product groups including Securitization, Equity Capital Markets and Debt Capital Markets. This 2 year program consists of 6 month rotational units, with the possibility of advancing into a trading room position upon completion of the program.

What we have to offer:

- Specialized knowledge training in select investment banking and trading product groups
- Hands-on experience in a fast-paced trading room environment
- Mentorship by key business leads in origination product groups

What makes us unique:

- Career development through customizable rotations in various areas of the Bank
- Continuous feedback from all levels of management
- An intensive orientation training program with the Investment & Corporate Banking group
- Networking opportunities and exposure to senior management
