

Semi-Annual Financial Statements

BMO Harris Private Portfolios June 30, 2014

BMO Harris U.S. Equity Portfolio

NOTICE OF NO AUDITOR REVIEW OF THE SEMI-ANNUAL FINANCIAL STATEMENTS

BMO Harris Investment Management Inc., the Manager of the Portfolios, appoints independent auditors to audit the Portfolio's Annual Financial Statements. Under Canadian securities laws (National Instrument 81-106), if an auditor has not reviewed the Semi-Annual Financial Statements, this must be disclosed in an accompanying notice.

The Portfolio's independent auditors have not performed a review of these Semi-Annual Financial Statements in accordance with standards established by the Canadian Institute of Chartered Accountants.

NOTES TO FINANCIAL STATEMENTS

(All amounts in thousands of Canadian dollars, except per unit data) June 30, 2014

1.The Portfolio

BMO Harris U.S. Equity Portfolio ("the Portfolio") is an open-ended mutual fund trust established by a Declaration of Trust under the laws of the Province of Ontario, most recently amended on September 18, 2007. BMO Harris Investment Management Inc. ("the Manger") is the Manager of the Portfolio. The address of the Portfolio's registered office is 1 First Canadian Place, 41st Floor, Toronto, Ontario.

The information provided in these interim financial statements is for the periods ended June 30, 2014 and June 30, 2013, except for the comparative information in the Statement of Financial Position and the related notes, which are as at December 31, 2013 and January 1, 2013.

These financial statements were authorized for issue by BMO Trust Company, the trustee, on August 12, 2014.

2.Basis of preparation and presentation

These interim financial statements have been prepared in accordance with International Accounting Standards ("IAS") IAS 34 Interim Financial Reporting. These are the Portfolio's first interim financial statements during the first year of reporting in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

As required by Canadian securities legislation and the Canadian Accounting Standards Board, the Portfolio has adopted this basis of accounting effective January 1, 2014. The Portfolio's financial statements were previously prepared in accordance with Canadian generally accepted accounting principles ("Canadian GAAP"), as previously defined and as described in the notes to the Portfolio's annual financial statements for the year ended December 31, 2013. Canadian GAAP, as previously defined, differs in some areas from IFRS. To comply with IFRS, the Portfolio has amended certain accounting policies, classification, measurement and disclosure previously applied in the Canadian GAAP financial statements.

As required under IFRS, the Portfolio has:

- provided comparative financial information including an opening Statement of Financial Position as at the transition date
- retroactively applied all IFRS, other than in respect of elections taken under IFRS 1; and
- applied all mandatory exceptions as applicable for the first-time adopters of IFRS.

The interim financial statements should be read in conjunction with the Portfolio's Canadian GAAP annual financial statements for the year-ended December 31, 2013.

Note 8(h) contains reconciliations and descriptions of the effects of the transition to IFRS on the Portfolio's reported financial position, financial performance and cash flows.

The policies applied in these interim financial statements are based on IFRS issued and outstanding as of August 12, 2014, the date the Manager approved the statements. Any subsequent changes to IFRS that are given effect in the Portfolio's annual financial statements for the period ending December 31, 2014 could result in a restatement of these interim financial statements, including the transition adjustments.

3.Summary of significant accounting policies Financial instruments

The Portfolio records financial instruments at fair value. Investment transactions are accounted for on the trade date. The Fund's investments are either designated as fair value through profit or loss ("FVTPL") at inception or classified as held for trading. The changes in the investment fair values and related transaction costs are recorded in the Portfolio's Statement of Comprehensive Income.

Financial assets or financial liabilities held for trading are those acquired or incurred principally for the purpose of selling or repurchasing in the near future, or on initial recognition, are part of a portfolio of identified financial instruments that the Portfolio manages together and that have a recent actual pattern of short-term profit taking. The Portfolio classifies all derivatives and short positions as held for trading. The Portfolio does not designate any derivatives as hedges in a hedging relationship.

The Portfolio designates all other investments as FVTPL, as they have reliably measurable fair values, are part of a group of financial assets or liabilities that are managed and have their performance evaluated on a fair value basis in accordance with the Fund's investment strategy.

The Portfolio's redeemable units contain multiple contractual obligations and consequently, do not meet the conditions to be classified as equity. As a result, the Fund's obligations for net assets attributable to holders of redeemable units are presented at the redemption amounts.

(unaudited)

NOTES TO FINANCIAL STATEMENTS (cont'd)

(All amounts in thousands of Canadian dollars, except per unit data) June 30, 2014

All other financial assets and liabilities are measured at amortized cost. Under this method, financial assets and liabilities reflect the amount required to be received or paid or discounted, when appropriate, at the contract's effective interest rate.

Cost of investments

The cost of investments represents the amount paid for each security and is determined on an average cost basis.

Fair value measurement

Investments are recorded at their fair value with the change between this amount and their average cost being recorded as change in unrealized appreciation (depreciation) in the Statement of Comprehensive Income.

For exchange traded securities, close prices are considered to be fair value if they fall within the bidask spread. In circumstances where the close price is not within the bidask spread, the Manager determines the point within the bidask spread that is most representative of fair value based on the specific facts and circumstances.

Procedures are in place to fair value securities traded in countries outside of North America daily, to avoid stale prices and to take into account among, other things, any significant events occurring after the close of a foreign market.

For bonds, debentures, asset-backed securities and other debt, securities fair value is represented by bid prices provided by independent security pricing services. Short-term investments, if any, are amortized at cost which approximates fair value.

Exchange traded funds held as investments are valued at their respective Net Asset Value ("NAV") on each Valuation Date (the "Valuation Date" is each day on which the Toronto Stock Exchange is open for trading), as these values are the most readily and regularly available.

For securities where market quotes are not available, unreliable or not considered to reflect the current value, the Portfolio may determine another value which it considers to be fair and reasonable, or using a valuation technique that, to the extent possible, makes maximum use of inputs and assumptions based on observable market data, including volatility, comparable companies and other applicable rates or prices. These estimation techniques include discounted

cash flows, internal models that utilize observable data, or comparisons with other securities that are substantially similar. In limited circumstances, the Fund uses internal models where the inputs are not based on observable market data.

Derivative instruments

Derivative instruments are financial contracts that derive their value from underlying changes in interest rates, foreign exchange rates, or other financial or commodity prices or indices.

Derivative instruments are either regulated exchangetraded contracts or negotiated over-the-counter contracts. The Portfolio may use these instruments for trading purposes, as well as to manage the Portfolio's risk exposures.

Derivatives are marked to fair value. Realized and unrealized gains and losses are recorded in the Statement of Comprehensive Income.

Forward currency contracts

A forward currency contract is an agreement between two parties (the Portfolio and the counterparty) to purchase or sell a currency against another currency at a set price on a future date. The Portfolio may enter into forward currency contracts for hedging purposes, which can include the economic hedging of all or a portion of the currency exposure of an investment or group of investments, either directly or indirectly. The Portfolio may also enter into these contracts for non-hedging purposes, which can include increasing the exposure to a foreign currency, or shifting the exposure to foreign currency fluctuations from one country to another. The value of forward currency contracts entered into by the Portfolio is recorded as the difference between the value of the contract on the Valuation Date and the value on the date the contract originated.

Income recognition

Dividend income and distributions from investment trust units are recognized on the ex-dividend and exdistribution date, respectively.

Interest income from interest bearing investments is recognized in the Statement of Comprehensive Income using the effective interest rate. Interest receivable shown in the Statement of Financial Position is accrued based on the interest bearing instruments' stated rates of interest.

Interest on inflation-indexed bonds is paid based on a principal value, which is adjusted for inflation.

(unaudited)

NOTES TO FINANCIAL STATEMENTS (cont'd)

(All amounts in thousands of Canadian dollars, except per unit data) June 30, 2014

The inflation adjustment of the principal value is recognized as part of interest income in the Statement of Comprehensive Income. If held to maturity, the Portfolio will receive, in addition to a coupon interest payment, a final payment equal to the sum of the par value and the inflation compensation accrued from the original issue date. Interest is accrued on each Valuation Date based on the inflation adjusted par value at that time and is included in "Interest income" in the Statement of Comprehensive Income.

Foreign currency translation

The fair value of investments and other assets and liabilities in foreign currencies are translated into the Portfolio's functional currency at the rates of exchange prevailing at the period-end date. Purchases and sales of investments, and income and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions. Foreign exchange gains (losses) on completed transactions are included in "Realized gains (losses)" and unrealized foreign exchange gains (losses) are included in "Change in unrealized appreciation (depreciation)" in the Statement of Comprehensive Income. Foreign exchange gains and losses relating to cash are included as "Foreign exchange gain (loss) on cash".

Securities lending

A Portfolio may engage in securities lending pursuant to the terms of an agreement, which includes restrictions as set out in Canadian securities legislation. Collateral held is government Treasury Bills and qualified Notes.

Income from securities lending, where applicable, is included in the Statement of Comprehensive Income and is recognized when earned. The market value of the securities loaned and collateral held is determined daily. Aggregate values of securities held in trust as at June 30, 2014, and December 31, 2013 and January 1, 2013, where applicable, are disclosed in Note 8(e).

Short-term trading penalty

To discourage excessive trading, the Portfolio may, at the Manager's sole discretion, charge a short-term trading penalty. This penalty is paid directly to the Portfolio and is included in "Short-term penalty fees" in the Statement of Comprehensive Income.

Cash

Cash is comprised of cash and deposits with banks, which include banker acceptances and overnight demand deposits. Cash is recorded at amortized cost.

Other assets and other liabilities

Dividend receivable, interest receivable, distributions from investment trust units receivable, due from broker and subscriptions receivable, are initially measured at fair value and subsequently measured at amortized cost. Similarly, due to broker, redemptions payable and accrued expenses, are initially measured at amortized cost. Other assets and liabilities are short-term in nature, and are carried at cost or amortized cost, which approximates fair value.

Increase or decrease in net assets attributable to holders of redeemable units

"Increase (decrease) in net assets attributable to holders of redeemable units" in the Statement of Comprehensive Income represents, the increase (decrease) in net assets attributable to holders of redeemable units divided by the weighted average number of units outstanding during the period.

Taxation

The Portfolio qualifies as a mutual fund trust under the provisions of the Income Tax Act (Canada). Distributions of all net taxable income and sufficient amounts of net realized capital gains for each taxation year will be paid to unitholders so that the Portfolio will not be subject to income tax. As a result, the Portfolio has determined that it is in substance not taxable and therefore does not record income taxes in the Statement of Comprehensive Income and or recognize any deferred tax assets in the Statement of Financial Position.

The Portfolio may incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis with the related withholding taxes shown as a separate expense in the Statement of Comprehensive Income.

Investments in subsidiaries, joint ventures and associates

Subsidiaries are entities over which the Portfolio has control through its exposure or rights to variable returns from its investment, and has the ability to affect those returns through its power over the entity. The Portfolio has determined that it is an investment entity and as such, it accounts for subsidiaries at fair value. Joint ventures are those where the Portfolio exercises joint control through an agreement with other shareholders. Associates are investments in which the Portfolio exerts significant influence over operating, investing, and financing decisions (such as companies in which the

(unaudited)

NOTES TO FINANCIAL STATEMENTS (cont'd)

(All amounts in thousands of Canadian dollars, except per unit data) June 30, 2014

Portfolio owns 20% - 50% of voting shares), all of which have been designated at FVTPL.

Accounting standards issued but not yet adopted

Below are accounting standards issued or amended but not yet effective and not yet adopted. The Manager does not expect the adoption of these standards or amendments to have a significant impact to the Portfolio's financial statements.

In July 2014, the IASB issued the most recent version of IFRS 9 Financial Instruments, which addresses classification and measurement, impairment and hedge accounting.

The new standard requires assets to be carried at amortised cost, fair value through profit and loss or fair value through

comprehensive income based on the entity's business model for managing financial assets and the contractual cash flow characteristics of the financial asset. The classification and measurement of liabilities remains generally unchanged with the exception of liabilities recorded at fair value through profit and loss. For these liabilities, fair value changes attributable to changes in the entity's own credit risk are to be presented in other comprehensive income unless they affect amounts recorded in income.

The new standard also addresses impairment of financial assets. It also introduced a new hedge accounting model that expands the scope of eligible hedged items and risks eligible for hedge accounting, and aligns hedge accounting more closely with risk management.

The new standard is effective for the Portfolio for its fiscal year beginning January 1, 2018. The Portfolio is evaluating the impact of this standard on its financial statements.

4. Critical accounting estimates and judgments

The most significant accounting estimates and judgments that the Portfolio has made in preparing the financial statements relate to the fair value measurement and classification of investments.

The Portfolio has established policies and control procedures that are intended to ensure these judgments are well controlled, independently reviewed, and consistently applied from period to period. The estimates of the value of the Portfolio's assets and liabilities are believed to be appropriate as at the reporting date.

The Portfolio may hold financial instruments that are not quoted in active markets. Note 3 discusses the estimates used in determining fair value.

In classifying and measuring financial instruments held by the Portfolio, the Manager is required to make significant judgments about whether or not the business of the Portfolio is to invest on a total return basis for the purpose of applying the fair value options for financial assets.

5. Units and unit transactions

The redeemable units of the Portfolio are classified as liabilities.

The units have no par value and are entitled to distributions, if any. Upon redemption, a unit is entitled to a proportionate share of the Portfolio's NAV. The Portfolio is required to pay distributions in an amount not less than the amount necessary to ensure the Portfolio will not be liable for income taxes. The Portfolio has no restrictions or specific capital requirements on the subscriptions and redemptions of units except as disclosed in Note 8(a). The relevant movements in redeemable units are shown on the Statement of Changes in Net Assets Attributable to Holders of Redeemable Units. In accordance with its investment objectives and strategies, and the risk management practices outlined in Note 7, the Portfolio endeavours to invest the subscriptions received in appropriate investments, while maintaining sufficient liquidity to meet redemptions, with such liquidity being augmented by short-term borrowings or disposal of investments where necessary.

Redeemable units of the Portfolio are offered for sale on a continuous basis and may be purchased or redeemed on any Valuation Date at the NAV per unit of a particular series. The NAV per unit for the purposes of subscription or redemption is computed by dividing the NAV of the Portfolio (that is, the total fair value of the assets less the liabilities) by the total number of units of the Portfolio outstanding at such time.

6.Related party transactions

(a) Unitholder servicing, sub-advisory commissions and other portfolio transaction costs

The Portfolio is provided with certain facilities and services by affiliates of the Manager. Expenses incurred in the administration of the Portfolio were paid to BMO Trust Company ("the Trustee") and to BMO Asset Management Inc. ("the Registrar") and charged to the Portfolio. These expenses are included in "Unitholder"

(unaudited)

NOTES TO FINANCIAL STATEMENTS (cont'd)

(All amounts in thousands of Canadian dollars, except per unit data) June 30, 2014

servicing fees" in the Statement of Comprehensive Income.

The sub-advisors (including affiliates of the Manager, where applicable) engaged by the Manager provide investment advice and make investment decisions for the Portfolio. For these services, the sub-advisors receive sub-advisory fees that are paid monthly by the Manager. These expenses are included in "Sub-advisory fees" in the Statement of Comprehensive Income. Any sub-advisory fees less than or equal to 0.15% of the net asset value of the Portfolio are absorbed by the Manager.

The Portfolio may execute trades with and or through BMO Nesbit Burns Inc., an affiliate of the Manager, based on established standard brokerage agreements, at market prices. These fees are included in "Commissions and other portfolio transaction costs" in the Statement of Comprehensive Income. Refer to Note 8(d) for related party fees charged to the Portfolio for the periods ended June 30, 2014 and June 30, 2013.

(b) Other related party transactions

From time to time, the Manager may on behalf of the Portfolio enter into transactions or arrangements with or involving subsidiaries or affiliates of Bank of Montreal group, or certain other persons or companies that are related or connected to the Manager of the Portfolio. These transactions or arrangements may include transactions or arrangements with or involving subsidiaries or affiliates of Bank of Montreal, BMO Trust Company, BMO Nesbitt Burns Inc., Harris Investment Management Inc., BMO Asset Management Inc., BMO Investments Inc., Pyrford International Ltd, Lloyd George Management Inc., F&C Asset Management plc, or other investment funds offered by BMO, and may involve the purchase or sale of portfolio securities through or from a subsidiary or affiliate of Bank of Montreal, the purchase or sale of securities issued or guaranteed by a subsidiary or affiliate of Bank of Montreal, entering into forward contracts with a subsidiary or affiliate of Bank of Montreal acting as counterparty, the purchase or redemption of units of other BMO Harris Private Portfolios or the provision of services to the Manager.

7. Financial instrument risk

The Portfolio's activities expose it to a variety of risks associated with the financial instruments, as follows: market risk (including currency risk, interest rate risk and other market risk), credit risk and liquidity risk. The concentration table groups securities by asset

type, geographic location and/or market segment. The Portfolio's risk management practice outlines the monitoring of compliance to investment guidelines.

The Manager manages the potential effects of these financial risks on the Portfolio's performance by employing and overseeing professional and experienced portfolio managers that regularly monitor the Portfolio's positions, market events and diversify investment portfolios within the constraints of the investment guidelines.

(a) Currency risk

Currency risk is the risk that the value of financial instruments denominated in currencies, other than the functional currency of the Portfolio, will fluctuate due to changes in foreign exchange rates. Investments in foreign markets are exposed to currency risk as the prices denominated in foreign currencies are converted to the Portfolio's functional currency in determining fair value. The Portfolio may enter into forward currency contracts for hedging purposes to reduce foreign currency exposure or to establish exposure to foreign currencies. The Portfolio's exposure to currency risk, if any, is further disclosed in Note 8(e).

(b) Interest rate risk

Interest rate risk is the risk that the fair value of the Portfolio's interest-bearing investments will fluctuate due to changes in market interest rates. The Portfolio's exposure to interest rate risk is concentrated in its investment in debt securities (such as bonds, money market instruments, short-term investments and debentures) and interest rate derivative instruments, if any. Other assets and liabilities are short-term in nature and/or non-interest bearing. The Portfolio's exposure to interest rate risk, if any, is further discussed in Note 8(e).

(c) Other market risk

Other market risk is the risk that the fair value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in a market or market segment. Other assets and liabilities are monetary items that are short-term in nature, and as such they are not subject to other market risk. The Portfolio's exposure to other market risk, if any, is further discussed in Note 8(e).

(unaudited)

NOTES TO FINANCIAL STATEMENTS (cont'd)

(All amounts in thousands of Canadian dollars, except per unit data) June 30, 2014

(d) Credit risk

Credit risk is the risk that a loss could arise from a security issuer or counterparty to a financial instrument not being able to meet its financial obligations. The fair value of debt securities includes consideration of the credit worthiness of the debt issuer. Credit risk exposure for over-the-counter derivative instruments is based on the Portfolio's unrealized gain of the contractual obligations with the counterparty as at the reporting date. The credit exposure of other assets is represented by its carrying amount. The Portfolio's exposure to credit risk, if any, is further discussed in Note 8(e).

The Portfolio may enter into securities lending transactions with approved counterparties. Credit risk associated with these transactions is considered minimal as all counterparties have a sufficient approved credit rating and the market value of collateral held by the Portfolio must be at least 102% of the fair value of securities loaned, as disclosed in Note 8(e).

(e) Liquidity risk

The Portfolio's exposure to liquidity risk is concentrated in the daily cash redemptions of units. The Portfolio primarily invests in securities that are traded in active markets and can be readily disposed. In addition, the Portfolio retains sufficient cash and cash equivalent positions to maintain liquidity. The Portfolio may, from time to time, enter into over-the-counter derivative contracts or invest in unlisted securities, which are not traded in an organized market and may be illiquid. The proportion of illiquid securities to the NAV of the Portfolio is monitored by the Manager to ensure it does not exceed the regulatory limit and does not significantly affect the liquidity required to meet the Portfolio's financial obligations.

(unaudited)

NOTES TO FINANCIAL STATEMENTS (cont'd)

(All amounts in thousands of Canadian dollars, except per unit data) June 30, 2014

8. Portfolio specific information

(a) Portfolio information and change in units

The Portfolio's inception date was May 15, 1997.

The number of units that have been issued and are outstanding are disclosed in the table below.

For the periods ended (in thousands of units)	Jun. 30, 2014	Jun. 30, 2013
Units issued and outstanding, beginning of period	86,021	59,827
Issued for cash	11,661	9,764
Redeemed during the period	(9,160)	(4,310)
Units issued and outstanding, end of period	88,522	65,281

(b) Increase (decrease) in net assets attributable to holders of redeemable units per unit

The increase (decrease) in net assets attributable to holders of redeemable units per unit for the periods ended June 30, 2014 and June 30, 2013 is calculated as follows:

	Jun. 30,	Jun. 30,	
	2014	2013	
Increase in net assets attributable to holders of redeemable units	120,664	142,571	
Weighted average units outstanding during the period	86,316	62,028	
Increase in net assets attributable to holders of redeemable units per unit	1.40	2.30	

(c) Income taxes

As at the tax year-ended December 2013, the Portfolio had the following capital and non-capital losses for income tax purposes:

Total Capital Losses (\$)	Total Non- Capital Losses (\$)	Non-Capi	tal Losses Th	at Expire in
				2026 and
		2014 (\$)	2015 (\$)	thereafter (\$)
61,258	_	_	_	_

(d) Related party transactions

Unitholder servicing

The related party fees charged for unitholder servicing fees are as follows:

	Jun. 30, 2014	Jun. 30, 2013
Unitholder servicing (\$)	135	134

Brokerage commissions and soft dollars

Brokerage commissions paid on securities transactions and amounts paid to related parties of the Manager for brokerage services provided to the Portfolio for the periods are as follows:

	Jun. 30, 2014	Jun. 30, 2013
Total brokerage amounts paid (\$)	552	398
Total brokerage amounts paid to related parties (\$)	_	_

The Manager may select brokers who charge a commission in "soft dollars" if they determine in good faith that the commission is reasonable in relation to the order execution and research services utilized. There were no ascertainable soft dollars paid or payable to dealers by the Portfolio during the periods.

(e) Financial instrument risk

The Portfolio's objective is to provide long term capital appreciation by investing primarily in larger capitalization U.S. equity securities.

No changes affecting the overall level of risk of investing in the Portfolio were made during the period.

Currency risk

The tables below summarize the Portfolio's exposure to currency risk. Amounts shown are based on the carrying value of monetary and non-monetary assets (including derivatives and the underlying principle (notional) amount of forward currency contracts, if any).

As at Jun. 3	0, 2014 Cash and other current		Forward	Net	As a %
	receivables & payables (\$)	Invest- ments (\$)	currency contracts (\$)	currency exposure (\$)	of Net
U.S. Dollar	37,321	1,618,317	-	1,655,638	99.9

All amounts in Canadian Dollars

As at Dec. 3	31, 2013 Cash and other current receivables & payables (\$)	Invest- ments (\$)	Forward currency contracts (\$)	Net currency exposure (\$)	As a % of Net Assets (%)
U.S. Dollar	37,878	1,449,455	_	1,487,333	100.0

All amounts in Canadian Dollars

(unaudited)

NOTES TO FINANCIAL STATEMENTS (cont'd)

(All amounts in thousands of Canadian dollars, except per unit data) June 30, 2014

As at Jan. 1	•				
	Cash and other				
	current receivables & payables (\$)	Invest- ments (\$)	Forward currency contracts (\$)	Net currency exposure (\$)	As a % of Net Assets (%)
U.S. Dollar	18,505	720,293	-	738,798	100.0

All amounts in Canadian Dollars

As at the periods ended June 30, 2014, December 31, 2013 and January 1, 2013, if the Canadian dollar had strengthened or weakened by 5% in relation to all foreign currencies, with all factors remaining constant, Net Assets could possibly have increased or decreased, respectively, by approximately \$82,782 (December 31, 2013 – \$74,367; January 1, 2013 – \$36,940). In practice, actual results may differ from this sensitivity analysis and the difference could be material.

Interest rate risk

As at June 30, 2014, December 31, 2013 and January 1, 2013, the Portfolio did not have any significant exposure to interest rate risk.

Other market risk

The Portfolio has a significant exposure to other market risk arising from its investment in equity securities. The Portfolio's exposure to equity securities determine the extent to which the Portfolio reacts to the movements in the relevant Benchmark. Using historical correlation between the Portfolio's return and the return of its Benchmark, if the Benchmark, S&P 500 Index (CAD), had increased or decreased by 10%, with all other variables held constant, the Net Assets of the Portfolio would have increased or decreased, respectively, by \$148,756 (December 31, 2013 – \$130,722; January 1, 2013 – \$64,106). Historical correlation may not be representative of future correlation, and accordingly, actual results may differ and the difference could be material.

Credit risk

As at June 30, 2014, December 31, 2013 and January 1, 2013, the Portfolio did not have any significant exposure to credit risk.

Securities lending

The Portfolio had assets involved in securities lending transactions outstanding as at June 30, 2014, December 31, 2013 and January 1, 2013 as follows:

	Aggregate Value of Securities on Loan (\$)	Aggregate Value of Collateral Received for the Loan (\$)
June 30, 2014	79,200	83,957
December 31, 2013	75,871	80,347
January 1, 2013	13,785	14,508

Concentration risk

The following is a summary of the Portfolio's concentration risk:

	Jun. 30, 2014	Dec. 31, 2013	Jan. 1, 2013
Equities			
Consumer Discretionary	14.9%	14.2%	13.8%
Consumer Staples	7.2%	6.6%	8.8%
Energy	11.0%	7.2%	11.8%
Financials	17.0%	19.6%	15.7%
Health Care	11.2%	13.4%	15.0%
Industrials	9.6%	12.6%	5.7%
Information Technology	18.1%	17.3%	17.0%
Materials	3.6%	4.7%	5.5%
Telecommunication			
Services	1.9%	%	0.4%
Utilities	3.2%	1.8%	3.8%
Other Assets Less			
Liabilities	2.3%	2.6%	2.5%
	100.0%	100.0%	100.0%

(f) Financial assets and financial liabilitiesCategories of financial assets and financial liabilities

The table below shows the categories of financial assets and financial liabilities.

	Jun. 30, 2014	Dec. 31, 2013	Jan. 1, 2013
Financial assets designated at FVTPL	1,618,317	1,449,732	720,213
Loans and receivables Financial liabilities measured	2,531	2,060	781
at amortized cost	657	703	290

(unaudited)

NOTES TO FINANCIAL STATEMENTS (cont'd)

(All amounts in thousands of Canadian dollars, except per unit data) June 30, 2014

Net gains and losses on financial assets and financial liabilities at fair value

	Jun. 30,	Jun. 30,
	2014	2013
Net realized gains on financial assets at FVTPL		
Designated at FVTPL	119,055	76,473
	119,055	76,473
Total net realized gains on financial assets at FVTPL	119,055	76,473
Change in unrealized gains on financial assets at FVTPL		
Designated at FVTPL	4,457	66,015
	4,457	66,015
Total change in unrealized gains on financial assets at FVTPL	4,457	66,015

(g) Fair value hierarchy

The Portfolio classifies its financial instruments into three levels based on the inputs used to value the financial instruments. Level 1 securities are valued based on quoted prices in active markets for identical securities. Level 2 securities are valued based on significant observable market inputs, such as quoted prices from similar securities and quoted prices in inactive markets or based on observable inputs to models. Level 3 securities are valued based on significant unobservable inputs that reflect the Manager's determination of assumptions that market participants might reasonably use in valuing the securities. The tables below show the relevant disclosure.

As at Jun. 30, 2014				
Financial assets	Level 1	Level 2	Level 3	Total
Equity Securities	1,618,317	_	_	1,618,317
As at Dec. 31, 2013				
Financial assets	Level 1	Level 2	Level 3	Total
Equity Securities	1,449,732		_	1,449,732
As at Jan. 1, 2013				
Financial assets	Level 1	Level 2	Level 3	Total
Equity Securities	720,213	_	_	720,213

Transfers between levels

There were no transfers between levels during the periods.

(h) Transition to IFRS

The differences between the Portfolio's Canadian GAAP accounting policies and IFRS requirements resulted in measurement and classification differences on transition to IFRS. The net impact of these differences was recorded in opening Net Assets as of January 1, 2013.

The following information reflects the Portfolio's transition elections under IFRS 1, First-time Adoption of International Financial Reporting Standards ("IFRS 1"), the standard for first-time adoption and the significant accounting changes resulting from our adoption of IFRS. The general principle under IFRS 1 is retroactive application, such that the Portfolio's Statement of Financial Position as at January 1, 2013 was restated as though the Portfolio has always applied IFRS with the net impact shown as an adjustment to opening Net Assets.

Transition elections

The fund had applied the voluntary exemption upon transition to designate financial assets or financial liabilities at FVTPL. All financial assets designated at FVTPL upon transition were previously recorded at fair value under Canadian GAAP as required by Accounting Guideline 18, Investment Companies.

Statement of cash flows

Under Canadian GAAP, the Portfolio was exempt from providing a Statement of Cash Flows. IAS 1, Presentation of Financial Statements ("IAS 1"), requires that a Statement of Cash Flows to be presented as part of a complete set of financial statements. As such, the Portfolio has presented a Statement of Cash Flows in the interim financial statements for the periods ended June 30, 2014 and June 30, 2013.

Classification of redeemable units issued by the Portfolio

Under Canadian GAAP, redeemable units of the Portfolio were presented as net assets. IAS 32, Financial Instruments: Disclosure and Presentation ("IAS 32"), however, requires an assessment to determine whether the units issued to unitholders are puttable instruments that qualify for equity classification. The Portfolio's units do not meet the criteria in IAS 32 for equity classification and therefore, have been reclassified as financial liabilities on transition to IFRS and presented on the Statement of Financial Position as Net Assets.

NOTES TO FINANCIAL STATEMENTS (cont'd)

(All amounts in thousands of Canadian dollars, except per unit data) June 30, 2014

Revaluation of investments at FVTPL

Canadian GAAP required the use of bid prices for long positions and ask prices for short positions in determining fair valuation of investments traded in an active market, rather than the use of close prices used for the purpose of determining NAV. IFRS 13, Fair Value Measurement ("IFRS 13"), requires that if an asset or a liability has a bid price and an ask price, then its fair value is to be based on a price within the bid-ask spread that is most representative of fair value. The standard also allows the use of mid-market pricing or other pricing conventions that are used by market participants as a practical expedient for fair value measurements within a bid-ask spread. Upon adoption of IFRS, the fund has determined that for traded securities, close prices on the reporting date are considered to be fair value, if they fall within the bid-ask spread. See Note 3 for the Portfolio's fair value measurement policy.

Reconciliation of Net Assets as reported under Canadian GAAP to IFRS

	Dec. 31, 2013	Jun. 30, 2013	Jan. 1, 2013
Net assets representing unitholders' equity under Canadian GAAP	1,487,737	956,862	738,735
Revaluation of investments at FVTPL	276	494	(80)
Net assets attributable to holders of redeemable units	1,488,013	957,356	738,655

Reconciliation of increase (decrease) in net assets reported under Canadian GAAP to IFRS

	Dec. 31, 2013	Jun. 30, 2013
	2013	2013
Increase in net assets from operations under		
Canadian GAAP	366,216	141,997
Revaluation of investments at FVTPL	277	574
Increase in net assets attributable to holders of		
redeemable units	366,493	142,571
