Annual Management Report of Fund Performance

BMO Harris Canadian Growth Equity Portfolio

For the period ended December 31, 2013

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the Portfolio. If the annual financial statements of the Portfolio do not accompany the mailing of this report, you may obtain a copy of the annual financial statements at your request, and at no cost, by calling 1-800-361-1392, by e-mailing us at **contact.centre@bmo.com**, by writing to us at BMO Harris Investment Management Inc., 1 First Canadian Place, 100 King St. W., 41st Floor, Toronto, Ontario, M5X 1A1 or by visiting our website at **www.bmoharrisprivatebanking.com** or SEDAR at **www.sedar.com**. You may also contact us using one of these methods to request a copy of the Portfolio's proxy voting policies and procedures, proxy voting disclosure record and/or quarterly portfolio disclosure.

Management Discussion of Fund Performance

BMO Harris Investment Management Inc. ("BHIMI" or the "Manager"), the manager and portfolio manager, is responsible for the management of the overall business, investments and operations of the BMO Harris Private Portfolios and has engaged BMO Asset Management Inc. ("BMO AM Inc." or the "sub-advisor") as the sub-advisor of BMO Harris Canadian Growth Equity Portfolio (the "Portfolio").

Investment Objective and Strategies

The Portfolio's investment objective is to provide above average long term returns through investing primarily in growth-oriented equity securities of Canadian issuers.

To seek to achieve the Portfolio's objectives, the sub-advisor employs bottom-up security selection to identify reasonable stock price valuations for its holdings that is based on quantitative and fundamental analyses, including assessment of the company's projected earnings, quality of management, and identification of reasonable stock price valuations relative to other companies in the same industry.

The Portfolio may use derivative instruments to try to reduce risk by protecting the Portfolio against potential losses from changes in interest rates and reducing the impact of currency fluctuations on the Portfolio's holdings (i.e., hedging purposes).

Risk

Effective July 12, 2013, as outlined in the Portfolio's most recent prospectus, the risk rating of the Portfolio was reduced from "High" to "Medium to High" to better align with the Portfolio's risk level. The investment objectives, investment strategies and management of the Portfolio did not change as a result of the change in risk rating.

Results of Operations

Over the 12-month period ended December 31, 2013, the Portfolio returned 18.62%, after expenses. The Portfolio's benchmark is the S&P/TSX Composite Index, which generated a 12.99% total return over the same 12-month period.

The U.S. Federal Reserve Board (the "Fed") announced its intention to begin reducing its monetary stimulus program over the period. Global bond yields rose, and economic activity in the United States strengthened, while growth in China and the emerging markets slowed. Rising bond yields had a negative impact on interest rate sensitive securities. Stronger economic activity in the United States, as well as talk of the Fed reducing its monetary stimulus program, had a negative impact on gold equities. Slowing economic activity in China and the emerging markets negatively affected the share prices of other commodity producers. During the period, Canadian equities, as measured by the S&P/TSX Composite Index ("S&P/TSX"), returned approximately 13%, despite weakness in commodities markets and general market volatility resulting from the U.S. budget debate and partial government shutdown. The Financials sector was the most significant contributor to the S&P/TSX's solid returns. The Materials sector was the most significant detractor from the S&P/TSX's performance.

The Portfolio outperformed the benchmark over the period. The Portfolio's overweight exposure to the United States contributed to performance as U.S. equities outperformed Canadian equities. The Portfolio's overweight positions in the Information Technology and Consumer Discretionary sectors, and its underweight position in the Materials sector, also contributed to performance. Significant individual contributors to performance included Imperial Metals Corporation, Manulife Financial Corporation and Kelt Exploration Ltd. Imperial Metals Corporation's share price rose as a result of solid financial results and increasing copper and gold production. Manulife Financial Corporation benefited from rising long-term interest rates and a renewed emphasis on earnings growth. Kelt Exploration Ltd. benefited from rising natural gas prices.

The Portfolio's underweight positions in the Health Care and Financials sectors detracted from performance. In the Health Care sector, the Portfolio's lack of exposure to Valeant Pharmaceuticals International, Inc. detracted from performance. This company has a large weighting in the benchmark index, and its share price rose strongly in response to an active acquisition strategy. In the Financials sector, banks and insurance companies benefited from rising interest rates and improving equity markets. In addition, asset managers benefited from solid global equity market returns. Significant individual detractors from performance included Perseus Mining Ltd., Catamaran Corp. and Athabasca Oil Corp. Perseus Mining Ltd.'s share price fell in response to declining gold prices, and the company struggled with operating issues that affected production. Catamaran Corp.'s share price declined primarily as a result of concern about the implementation of the U.S. Affordable Care Act and its impact on the demand for pharmacy benefit management services. Athabasca Oil Corp. struggled with the delayed approval of a development project, which put its growth profile at risk.

During the final three months of the period, there was a change in the sub-advisor's personnel responsible for portfolio management of the Portfolio. As a result, the Portfolio was repositioned, with several names being added and others eliminated. As well, positions in select holdings were increased.

For information on the Portfolio's longer-term performance and composition, please refer to the Past Performance section and Summary of Investment Portfolio section of this report.

Recent Developments

The sub-advisor remains encouraged by improving household balance sheets, with households reducing debt even as housing and other asset prices rise. In addition, employment and personal income data continue to show gradual improvement, which, the sub-advisor believes, will support consumer spending. Furthermore, the sub-advisor expects business capital spending to pick up. The Fed's monetary policy remains a risk for global markets, as it continues to reduce its quantitative easing program (monetary policy used by the Fed to increase money supply). However, the sub-advisor believes that the Fed's policies will remain responsive to evolving economic conditions and, ultimately, accommodative to financial markets.

The sub-advisor continues to find attractive opportunities in equity markets. The sub-advisor will continue to position the Portfolio to benefit from a North American economic recovery by maintaining its significant exposure to the United States. The sub-advisor will continue to seek both U.S.- and Canadian-listed securities with a high degree of U.S. end-market exposure. The sub-advisor also continues to find attractive investment opportunities in many traditionally cyclical sectors, including the Information Technology, Industrials and Consumer Discretionary sectors. The sub-advisor will maintain the Portfolio's underweight position in the Materials sector, as well as in yield-driven sectors such as Utilities and real estate investment trusts. In general, the focus will remain on higher-quality companies that, in the sub-advisor's view, have solid growth prospects and are trading at reasonable valuations.

Future Accounting Standards

Canadian investment entities will be required to prepare their financial statements in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board, for fiscal years beginning on or after January 1, 2014. As a result, the Portfolio will report its financial results for the interim period ending June 30, 2014, prepared on an IFRS basis. It will also provide comparative data on an IFRS basis, including an opening balance sheet as at January 1, 2013 ("transition date").

The differences between the Portfolio's accounting policies under Canadian Generally Accepted Accounting Principles ("GAAP") and IFRS requirements will result in measurement and recognition differences on transition to IFRS. The net impact of these differences will be recorded in the increase/decrease in net assets attributable to redeemable unitholders.

Significant Accounting Changes
Resulting from Our Adoption of IFRS
The main accounting changes listed below should not be considered a comprehensive list of impacts of adopting IFRS, but rather the most significant of certain key changes.

The framework for fair valuation is set out under IFRS 13 Fair Value Measurement, which includes the requirements for the measurement and disclosure of fair value. If an asset or liability measured at fair value has a bid price and an ask price, the standard requires valuation to be based on a price within the bid-ask spread that is most representative of fair value. The standard allows the use of mid-market pricing or other pricing conventions that are used by market participants as a practical means for fair value measurements within a bid-ask spread. Thus this standard will impact the net assets per unit for financial statement reporting purposes compared to current standards, and may also result in the elimination of the differences between the net asset per unit and Net Asset Value per unit ("NAVPU") at the financial statement reporting date.

While IFRS does not require interest income to be disclosed for debt instruments measured at Fair Value through Profit or Loss, when interest income is disclosed, IFRS requires that the effective interest rate method of calculating accrued interest be used rather than the straight-line amortization method. The Manager is assessing the impact of this change to the Portfolio's financial statements. The Manager has not identified any changes that will impact NAVPU as a result of the transition to IFRS.

Where the Portfolio holds controlling interest in an investment, it is the Manager's expectation that the Portfolio will qualify as an Investment Entity in accordance with IFRS 10 Consolidated Financial Statements. As such, the Portfolio will not be required to consolidate its investments, but rather to hold the investments at Fair Value through Profit or Loss regardless of whether those investments are controlled. If the Portfolio fair values the investments it controls, it may be required to make additional financial statement disclosures on its controlled investments in accordance with IFRS 12 Disclosure of Interests in Other Entities ("IFRS 12"). IFRS 12 also requires additional disclosures if the Portfolio is determined to qualify as an investment entity without having all of the typical characteristics of an investment entity.

The criteria contained within IAS 32 Financial Instruments: Presentation ("IAS 32") will result in the classification of the unitholders' equity as a liability within the Portfolio's Statement of Net Assets, unless all conditions required for equity classification are met. The Manager is currently assessing the Portfolio's unitholder structure to determine classification under IAS 32.

Under IFRS, cash flows statement is one of the primary financial statements required to be presented. The Portfolio will therefore be presenting cash flows statement in its set of financial statements in accordance with the presentation requirements in IAS 7 Statement of Cash Flows.

Related Party Transactions

BMO Trust Company, an indirect, wholly-owned subsidiary of Bank of Montreal, is the trustee (the "trustee") and BHIMI is the manager of the Portfolio. From time to time, BHIMI may, on behalf of the Portfolio, enter into transactions or arrangements with or involving other members of BMO Financial Group, or certain other persons or companies that are related or connected to the Portfolio (each, a "related party" and collectively, the "related parties").

Sub-advisor
BHIMI has hired BMO AM Inc., a related party, to provide investment advice and make investment decisions for the Portfolio's investment portfolio. BMO AM Inc. receives an investment advisory fee based on assets under management that is paid monthly. BMO AM Inc. is paid by BHIMI.

Buying and Selling Securities

Related Party Underwritings

During the period, the Manager relied on an approval and standing instruction provided by the Portfolio's Independent Review Committee ("IRC") to enable the Portfolio to invest in a class of equity and/or non-government debt securities of an issuer during the period of distribution of those securities to the public and/or the 60-day period following the distribution period where BMO Nesbitt Burns Inc., an affiliate of the Manager, acted as an underwriter in the distribution (each investment, a "Related Party Transaction"). In accordance with the IRC's approval and standing instruction, in making a decision to cause the Portfolio to make a Related Party Transaction, the Manager and the sub-advisor of the Portfolio are required to comply with the Manager's written policies and procedures governing the Related Party Transaction and report periodically to the IRC, describing each instance that the Manager and the sub-advisor relied on the approval and standing instruction and their compliance or non-compliance with the governing policies and procedures. The governing policies and procedures are designed to ensure the Related Party Transaction (i) is made free from any influence by an entity related to the Manager or any associate or affiliate of the Manager and without taking into account any consideration relevant to the Manager or any associate or affiliate of the Manager, (ii) represents the business judgement of the Manager or sub-advisor, as the case may be, uninfluenced by considerations other than the best interests of the Portfolio, and (iii) achieves a fair and reasonable result for the Portfolio.

Brokerage Commissions

The Portfolio pays standard brokerage commissions at market rates to BMO Nesbitt Burns Inc., an affiliate of the Manager, for executing a portion of its trades. The brokerage commissions charged to the Portfolio during the period were as follows:

	Period ended Dec. 31, 2013 ($000s)	Period ended Dec. 31, 2012 ($000s)
Total Brokerage Commissions	82	76
Brokerage Commissions paid to BMO Nesbitt Burns Inc.	2	2

Wealth Management Fee

Units of the Portfolio are only available through the wealth management service offered by BMO Financial Group. The trustee, a related party, receives an annual fee from each investor for the wealth management service offered by BMO Financial Group. A tiered schedule is applied to calculate the annual fee for this service. The fee schedule starts at 1.95% and declines to 0.20% (depending on the nature and size of the investor's investment portfolio), and is calculated as a percentage of the assets under management. The actual wealth management fee payable by each investor is set out in BHIMI's *Investment Management Fee Schedule* that has been provided to the investor when the investor enters into an investment management agreement with the trustee and BHIMI. The wealth management fee is paid directly by the investor to the trustee. The trustee may compensate financial institutions and securities registrants within BMO Financial Group for client referrals to the wealth management service.

Unitholder Services

The Portfolio is provided with certain facilities and services by related parties. BMO AM Inc. is the registrar of the Portfolio. The trustee and BMO AM Inc. are paid by the Portfolio for fees relating to the custodial and administrative services they provide, respectively. Administrative services include fund accounting, record keeping and purchases/redemption order processing. The fees charged to the Portfolio during the period were as follows:

	Period ended Dec. 31, 2013 ($000s)	Period ended Dec. 31, 2012 ($000s)
Unitholder Services	75	65

Management Fee

There is no management fee charged to the Portfolio. The trustee receives an annual fee from investors for the wealth management service offered by BMO Financial Group.

Financial Highlights

The following tables show selected key financial information about the Portfolio and are intended to help you understand the Portfolio's financial performance for the periods indicated.

The Portfolio's Net Assets Per Unit (1)		Years ended December 31 2013	2012	2011	2010	2009
Net assets, beginning of period	$	9.22	8.87	10.88	8.81	6.48
Increase (decrease) from operations:						
Total revenue	$	0.20	0.17	0.15	0.18	0.16
Total expenses	$	(0.03)	(0.02)	(0.03)	(0.03)	(0.02)
Realized gains (losses) for the period	$	(0.48)	(0.25)	0.52	0.83	(0.10)
Unrealized gains (losses) for the period	$	1.96	0.59	(2.47)	1.38	2.41
Total increase (decrease) from operations (2)	$	1.65	0.49	(1.83)	2.36	2.45
Distributions:						
From income (excluding dividends)	$	0.00	—	—	—	—
From dividends	$	0.21	0.18	0.19	0.12	0.16
From capital gains	$	—	—	—	—	—
Return of capital	$	0.00	0.00	0.00	0.00	0.00
Total Annual Distributions (3)	$	0.21	0.18	0.19	0.12	0.16
Net assets, end of period	$	10.73	9.22	8.87	10.88	8.81

(1) This information is derived from the Portfolio's audited annual financial statements. The net assets per unit presented in the financial statements differs from the net asset value calculated for Portfolio pricing purposes. An explanation of these differences can be found in the notes to the financial statements.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

(3) Distributions were paid in cash or reinvested in additional units of the Portfolio, or both.

Ratios and Supplemental Data		Years ended December 31 2013	2012	2011	2010	2009
Total net asset value (000s) (1)	$	69,008	73,271	84,542	130,354	84,872
Number of units outstanding (000s) (1)		6,425	7,932	9,500	11,949	9,609
Management expense ratio (2)	%	0.16	0.12	0.11	0.10	0.10
Management expense ratio before waivers or management absorptions	%	0.29	0.14	0.11	0.10	0.10
Trading expense ratio (3)	%	0.12	0.10	0.18	0.19	0.17
Portfolio turnover rate (4)	%	26.98	17.41	29.17	53.29	33.99
Net asset value per unit	$	10.74	9.24	8.90	10.91	8.83

(1) This information is provided as at December 31 of the period shown.

(2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

(4) The portfolio turnover rate indicates how actively the Portfolio's investment manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Portfolio buying and selling all of the securities in its portfolio once in the course of the year. The higher a portfolio turnover rate in a year, the greater the trading costs payable by the Portfolio in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Portfolio.

Past Performance

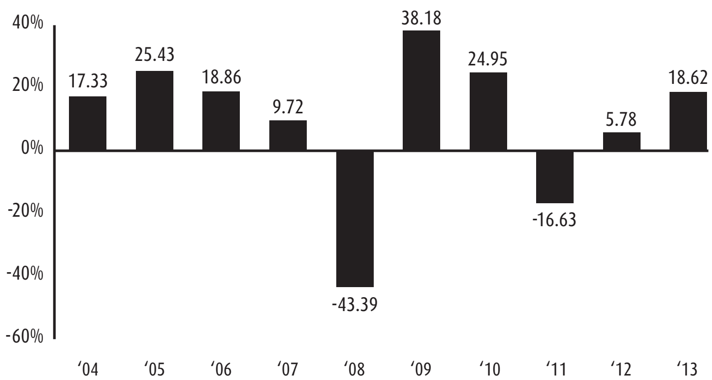
General

The Portfolio's performance information assumes that all distributions made by the Portfolio in the periods shown were reinvested in additional units of the Portfolio and is based on the net asset value of the Portfolio.

The performance information does not take into account sales, redemption, distribution or other optional charges that, if applicable, would have reduced returns or performance. Please remember, how the Portfolio has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the performance for each of the financial years shown and illustrates how the performance has changed from year to year. The bar chart shows in percentage terms how an investment made on the first day of each financial year would have increased or decreased by the last day of each financial year.



Annual Compound Returns

This chart compares the historical annual compound returns of the Portfolio with the S&P/TSX Composite Index. The S&P/TSX Composite Index reflects the price movements of a floating list of companies on the Toronto Stock Exchange that meet Standard & Poor's criteria for inclusion in the index.

	1 yr %	3 yrs %	5yrs %	10yrs %
BMO Harris Canadian Growth Equity Portfolio‡	18.62	1.51	12.55	6.97
S&P/TSX Composite Index	12.99	3.40	11.92	7.97

‡The Portfolio's return is after the deduction of expenses, while the benchmark does not include any costs of investing.

A commentary on the market and/or information regarding the relative performance of the Portfolio as compared to its benchmark can be found under the Results of Operations section of this report.

Summary of Investment Portfolio
