Annual Management Report of Fund Performance

BMO Harris Canadian Corporate Bond Portfolio

For the period ended December 31, 2013

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the Portfolio. If the annual financial statements of the Portfolio do not accompany the mailing of this report, you may obtain a copy of the annual financial statements at your request, and at no cost, by calling 1-800-361-1392, by e-mailing us at **contact.centre@bmo.com**, by writing to us at BMO Harris Investment Management Inc., 1 First Canadian Place, 100 King St. W., 41st Floor, Toronto, Ontario, M5X 1A1 or by visiting our website at **www.bmoharrisprivatebanking.com** or SEDAR at **www.sedar.com**. You may also contact us using one of these methods to request a copy of the Portfolio's proxy voting policies and procedures, proxy voting disclosure record and/or quarterly portfolio disclosure.

Management Discussion of Fund Performance

BMO Harris Investment Management Inc. ("BHIMI" or the "Manager"), the manager and portfolio manager, is responsible for the management of the overall business, investments and operations of the BMO Harris Private Portfolios and has engaged BMO Asset Management Inc. ("BMO AM Inc." or the "sub-advisor") as the sub-advisor of BMO Harris Canadian Corporate Bond Portfolio (the "Portfolio").

Investment Objective and Strategies

The Portfolio's investment objective is to produce superior returns through a combination of interest income and capital growth while also pursuing capital preservation. The Portfolio invests primarily in high quality fixed income securities such as bonds and debentures issued by Canadian corporations that mature in more than one year.

To achieve the Portfolio's objectives, the sub-advisor selects fixed income securities in reference to the characteristics of a widely recognized Canadian corporate bond index (which includes bonds with remaining effective terms of over one year).

Risk

Effective July 12, 2013, as outlined in the Portfolio's most recent prospectus, the risk rating of the Portfolio was reduced from "Low to Medium" to "Low" to better align with the Portfolio's risk level. The investment objectives, investment strategies and management of the Portfolio did not change as a result of the change in risk rating.

Results of Operations

Effective January 25, 2013, the Portfolio's investment strategies changed to permit the sub-advisor to select fixed income securities in reference to the characteristics of a widely recognized Canadian corporate bond index (which includes bonds with remaining effective terms of over one year).

Over the 12-month period ended December 31, 2013, the Portfolio returned 0.62%, after expenses. The Portfolio's benchmark is the DEX Universe All Corporate Bond Index, which generated a 0.84% total return over the same 12-month period.

In the first half of the period, the U.S. Federal Reserve Board (the "Fed") indicated that it could begin to reduce its quantitative easing program (monetary policy used by the Fed to increase money supply). Bonds and dividend-paying equities declined as a result. The Canadian and U.S. yield curves steepened, and yields for bonds with a term to maturity of three years or longer rose. Broader equity markets also declined somewhat, but recovered and rose through the rest of the period. In December, the Fed indicated that the reduction would begin in January 2014. Investors took this as an indication that the economy was improving, and equity markets rallied, while fixed income markets continued to struggle.

Meanwhile, equity market volatility and global macroeconomic risk remained low, contributing to a further rise in bond yields over the period. Corporate credit spreads (the incremental yield on corporate bonds versus Government of Canada bonds of similar maturity) in most areas of the Canadian bond market tightened as a result of the stronger macroeconomic environment. Both mid- and long-term provincial bond spreads also tightened, while short-term provincial bond spreads widened. Rising interest rates were also negative for bond markets, particularly for bonds with longer-term maturities. Given rising interest rates, shorter-term bonds outperformed longer-term bonds. However, corporate bonds outperformed government bonds.

The Portfolio underperformed the benchmark over the period. The Portfolio's long-term corporate bond holdings detracted from performance, as longer-term bonds struggled with rising interest rates. The Portfolio's duration and cash position also detracted from performance.

The Portfolio's short-term corporate bond holdings contributed to performance.

For information on the Portfolio's longer-term performance and composition, please refer to the Past Performance section and Summary of Investment Portfolio section of this report.

Recent Developments

The sub-advisor believes that corporate bonds will continue to outperform government bonds, and anticipates a further narrowing of credit spreads, should economic activity continue to improve. The sub-advisor expects the yield curve to steepen steadily, and shorter-term bonds to outperform mid- and long-term bonds. The sub-advisor believes that much of the effects of the Fed's reduction to its quantitative easing program have already been priced into the market. The sub-advisor, therefore, does not anticipate a sharp rise in bond yields unless the Fed increases the pace of this reduction, but believes that is unlikely unless there is a significant decline in unemployment.

The sub-advisor believes that the improving macroeconomic environment and an extended period of low equity market volatility could further challenge fixed income markets, as investors would continue to move toward equities. This could cause bond yields to rise too quickly, in the sub-advisor's view. The sub-advisor will continue to position the Portfolio such that it reflects the characteristics of the Canadian corporate short- and mid-term bond market.

Effective January 1, 2014, the Portfolio's benchmark will change to a blended benchmark made up of the DEX Short Term Corporate Bond Index (50%) and DEX Mid Term Corporate Bond Index (50%), from DEX Universe All Corporate Bond Index (100%), in order to better reflect the universe from which the Portfolio selects securities in which to invest.

Future Accounting Standards

Canadian investment entities will be required to prepare their financial statements in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board, for fiscal years beginning on or after January 1, 2014. As a result, the Portfolio will report its financial results for the interim period ending June 30, 2014, prepared on an IFRS basis. It will also provide comparative data on an IFRS basis, including an opening balance sheet as at January 1, 2013 ("transition date").

The differences between the Portfolio's accounting policies under Canadian Generally Accepted Accounting Principles ("GAAP") and IFRS requirements will result in measurement and recognition differences on transition to IFRS. The net impact of these differences will be recorded in the increase/decrease in net assets attributable to redeemable unitholders.

Significant Accounting Changes Resulting from Our Adoption of IFRS

The main accounting changes listed below should not be considered a comprehensive list of impacts of adopting IFRS, but rather the most significant of certain key changes.

The framework for fair valuation is set out under IFRS 13 Fair Value Measurement, which includes the requirements for the measurement and disclosure of fair value. If an asset or liability measured at fair value has a bid price and an ask price, the standard requires valuation to be based on a price within the bid-ask spread that is most representative of fair value. The standard allows the use of mid-market pricing or other pricing conventions that are used by market participants as a practical means for fair value measurements within a bid-ask spread. Thus this standard will impact the net assets per unit for financial statement reporting purposes compared to current standards, and may also result in the elimination of the differences between the net asset per unit and Net Asset Value per unit ("NAVPU") at the financial statement reporting date.

While IFRS does not require interest income to be disclosed for debt instruments measured at Fair Value through Profit or Loss, when interest income is disclosed, IFRS requires that the effective interest rate method of calculating accrued interest be used rather than the straight-line amortization method. The Manager is assessing the impact of this change to the Portfolio's financial statements. The Manager has not identified any changes that will impact NAVPU as a result of the transition to IFRS.

Where the Portfolio holds controlling interest in an investment, it is the Manager's expectation that the Portfolio will qualify as an Investment Entity in accordance with IFRS 10 Consolidated Financial Statements. As such, the Portfolio will not be required to consolidate its investments, but rather to hold the investments at Fair Value through Profit or Loss regardless of whether those investments are controlled. If the Portfolio fair values the investments it controls, it may be required to make additional financial statement disclosures on its controlled investments in accordance with IFRS 12 Disclosure of Interests in Other Entities ("IFRS 12"). IFRS 12 also requires additional disclosures if the Portfolio is determined to qualify as an investment entity without having all of the typical characteristics of an investment entity.

The criteria contained within IAS 32 Financial Instruments: Presentation ("IAS 32") will result in the classification of the unitholders' equity as a liability within the Portfolio's Statement of Net Assets, unless all conditions required for equity classification are met. The Manager is currently assessing the Portfolio's unitholder structure to determine classification under IAS 32.

Under IFRS, cash flows statement is one of the primary financial statements required to be presented. The Portfolio will therefore be presenting cash flows statement in its set of financial statements in accordance with the presentation requirements in IAS 7 Statement of Cash Flows.

Related Party Transactions

BMO Trust Company, an indirect, wholly-owned subsidiary of Bank of Montreal ("BMO"), is the trustee (the "trustee") and BHIMI is the manager of the Portfolio. From time to time, BHIMI may, on behalf of the Portfolio, enter into transactions or arrangements with or involving other members of BMO Financial Group, or certain other persons or companies that are related or connected to the Portfolio (each, a "related party" and collectively, the "related parties").

Sub-advisor

BHIMI has hired BMO AM Inc., a related party, to provide investment advice and make investment decisions for the Portfolio's investment portfolio. BMO AM Inc. receives an investment advisory fee based on assets under management that is paid monthly. BMO AM Inc. is paid by BHIMI.

Buying and Selling Securities

Investing in BMO Debt Securities in the Secondary Market, Investing in Non-Government Debt Securities Underwritten by BMO Nesbitt Burns Inc., Trading in Debt Securities with BMO Nesbitt Burns Inc., Trading as Principal, and Inter-fund Trades

During the period, the Manager relied on an approval and standing instruction provided by the Portfolio's Independent Review Committee ("IRC") with respect to the following related party transactions:

(a) investments in debt securities issued by BMO, or an issuer related to BMO, in the secondary market;

(b) investments in a class of equity and/or non-government debt securities of an issuer during the period of distribution of those securities to the public and/or the 60-day period following the distribution period where BMO Nesbitt Burns Inc., an affiliate of the Manager, acted as an underwriter in the distribution;

(c) trades in debt securities in the secondary market with BMO Nesbitt Burns Inc., who is trading with the Portfolio as principal; and

(d) inter-fund trades (each, a "Related Party Transaction").

In accordance with the IRC's approval and standing instruction, in making a decision to cause the Portfolio to make a Related Party Transaction, the Manager and the sub-advisor of the Portfolio are required to comply with the Manager's written policies and procedures governing the Related Party Transaction and report periodically to the IRC, describing each instance that the Manager and the sub-advisor relied on the approval and standing instruction and their compliance or non-compliance with the governing policies and procedures. The governing policies and procedures are designed to ensure the Related Party Transaction (i) is made free from any influence by an entity related to the Manager or any associate or affiliate of the Manager and without taking into account any consideration relevant to the Manager or any associate or affiliate of the Manager, (ii) represents the business judgement of the Manager or sub-advisor, as the case may be, uninfluenced by considerations other than the best interests of the Portfolio, and (iii) achieves a fair and reasonable result for the Portfolio.

Wealth Management Fee

Units of the Portfolio are only available through the wealth management service offered by BMO Financial Group. The trustee, a related party, receives an annual fee from each investor for the wealth management service offered by BMO Financial Group. A tiered schedule is applied to calculate the annual fee for this service. The fee schedule starts at 1.95% and declines to 0.20% (depending on the nature and size of the investor's investment portfolio), and is calculated as a percentage of the assets under management. The actual wealth management fee payable by each investor is set out in BHIMI's *Investment Management Fee Schedule* that has been provided to the investor when the investor enters into an investment management agreement with the trustee and BHIMI. The wealth management fee is paid directly by the investor to the trustee. The trustee may compensate financial institutions and securities registrants within BMO Financial Group for client referrals to the wealth management service.

Unitholder Services

The Portfolio is provided with certain facilities and services by related parties. BMO AM Inc. is the registrar of the Portfolio. The trustee and BMO AM Inc. are paid by the Portfolio for fees relating to the custodial and administrative services they provide, respectively. Administrative services include fund accounting, record keeping and purchases/redemption order processing. The fees charged to the Portfolio during the period were as follows:

	Period ended Dec. 31, 2013 ($000s)	Period ended Dec. 31, 2012 ($000s)
Unitholder Services	85	89

Management Fee

There is no management fee charged to the Portfolio. The trustee receives an annual fee from investors for the wealth management service offered by BMO Financial Group.

Financial Highlights

The following tables show selected key financial information about the Portfolio and are intended to help you understand the Portfolio's financial performance for the periods indicated.

		Years ended December 31				
The Portfolio's Net Assets Per Unit (1)		**2013**	**2012**	**2011**	**2010**	**2009**
Net assets, beginning of period	$	10.66	10.65	10.40	10.22	9.68
Increase (decrease) from operations:						
Total revenue	$	0.45	0.46	0.49	0.51	0.45
Total expenses	$	(0.01)	(0.00)	(0.00)	(0.00)	(0.01)
Realized gains (losses) for the period	$	0.17	(0.03)	0.01	(0.02)	(0.09)
Unrealized gains (losses) for the period	$	(0.57)	0.03	0.24	0.20	0.58
Total increase (decrease) from operations (2)	$	0.04	0.46	0.74	0.69	0.93
Distributions:						
From income (excluding dividends)	$	0.46	0.45	0.49	0.51	0.42
From dividends	$	—	—	—	—	—
From capital gains	$	—	—	—	—	—
Return of capital	$	0.00	0.00	0.00	—	0.00
Total Annual Distributions (3)	$	0.46	0.45	0.49	0.51	0.42
Net assets, end of period	$	10.27	10.66	10.65	10.40	10.22

(1) This information is derived from the Portfolio's audited annual financial statements. The net assets per unit presented in the financial statements differs from the net asset value calculated for Portfolio pricing purposes. An explanation of these differences can be found in the notes to the financial statements.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

(3) Distributions were paid in cash or reinvested in additional units of the Portfolio, or both.

		Years ended December 31				
Ratios and Supplemental Data		**2013**	**2012**	**2011**	**2010**	**2009**
Total net asset value (000s) (1)	$	233,409	356,605	306,432	283,582	299,161
Number of units outstanding (000s) (1)		22,727	33,445	28,769	27,256	29,282
Management expense ratio (2)	%	0.05	0.05	0.06	0.05	0.07
Management expense ratio before waivers or management absorptions	%	0.18	0.08	0.06	0.05	0.07
Trading expense ratio (3)	%	—	—	—	—	—
Portfolio turnover rate (4)	%	89.28	9.10	29.41	40.39	54.02
Net asset value per unit	$	10.27	10.66	10.65	10.40	10.22

(1) This information is provided as at December 31 of the period shown.

(2) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period. For all the financial periods listed, no commissions or portfolio transaction costs were incurred by the Portfolio. As a result, the trading expense ratio for each of the periods was zero.

(4) The portfolio turnover rate indicates how actively the Portfolio's sub-advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Portfolio buying and selling all of the securities in its portfolio once in the course of the year. The higher a portfolio turnover rate in a year, the greater the trading costs payable by the Portfolio in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Portfolio.

Past Performance

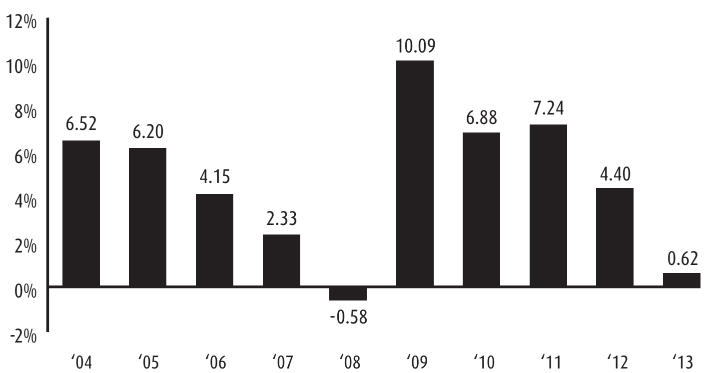
General

The Portfolio's performance information assumes that all distributions made by the Portfolio in the periods shown were reinvested in additional units of the Portfolio and is based on the net asset value of the Portfolio.

The performance information does not take into account sales, redemption, distribution or other optional charges that, if applicable, would have reduced returns or performance. Please remember, how the Portfolio has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the performance for each of the financial years shown and illustrates how the performance has changed from year to year. The bar chart shows in percentage terms how an investment made on the first day of each financial year would have increased or decreased by the last day of each financial year.



Annual Compound Returns

This chart compares the historical annual compound returns of the Portfolio with the DEX Universe All Corporate Bond Index, which reflects marketable Canadian corporate bonds with a rating of BBB or better with terms to maturity greater than one year.

	1 yr %	3 yrs %	5yrs %	10yrs %
BMO Harris Canadian Corporate Bond Portfolio‡	0.62	4.05	5.80	4.74
DEX Universe All Corporate Bond Index	0.84	5.05	7.67	5.77

‡The Portfolio's return is after the deduction of expenses, while the benchmarks do not include any costs of investing.

A commentary on the market and/or information regarding the relative performance of the Portfolio as compared to its benchmark can be found under the Results of Operations section of this report.
