BMO Growth GICs are issued by Bank of Montreal Mortgage Corporation and guaranteed by Bank of Montreal. The principal amount of a BMO Growth GIC is guaranteed and is repayable upon maturity, but there is no guarantee of earning any return linked to the performance of the underlying securities. The rate of return for the term payable, if any, will be the return on the Reference Portfolio but will not be less than zero or more than the Maximum Rate of Return for the Term. The return on the Reference Portfolio, if any, is determined without reference to any dividends or distributions paid on the securities and is the simple average of the percentage changes in the value of each underlying security in the Reference Portfolio over the term of the GIC. The rate of return for the term is not an annual rate but is the rate of return over the entire term of the GIC. If market disruptions or other special circumstances affect the calculation of the return, the calculation agent may adjust or delay the calculation or payment of interest, estimate the value of an underlying security, replace a security and/or determine the amount of interest, if any, that may be payable in an alternate manner. The Terms and conditions for BMO Growth GICs are available at your local BMO Bank of Montreal branch.
