Is a Power of Attorney/mandatory Limited Authority on file with BMO Life Assurance Company? Yes No

Note: Indexed Accounts credit an interest amount mirroring the percentage change in value of a specified underlying investment. Returns are calculated between consecutive valuation days. Returns may either be positive or negative and may be adjusted for currency fluctuations. A BMO Life Assurance Company (BMO Insurance) daily management fee will be subtracted each calendar day. The valuation day is any business day that the underlying investment is traded (or valued, as reasonably determined by BMO Insurance) and BMO Insurance Head Office is open. Policyowners do not purchase units or legal interest in the underlying investment.

I understand that a Guaranteed Market Indexed Account (GMIA) is a fixed term investment account that credits an interest amount linked to the performance of a specified Market Index. GMIA Credited Interest Rate Factors that determine the amount of interest credited to the Fund Value of the policy may change annually. Refer to GMIA Fact Sheets, available at www.bmoinvestpro.ca, for complete terms and conditions.
