BMO Growth ETF	
BMO International Dividend ETF	
BMO International Dividend Hedged to CAD ETF	
BMO Low Volatility Canadian Equity ETF	
BMO Low Volatility Emerging Markets Equity ETF	
BMO Low Volatility International Equity ETF	

Collectively, the Index BMO ETFs and the Non-Index BMO ETFs are referred to as the “**BMO ETFs**”, and each a “**BMO ETF**”.

The BMO ETFs are exchange traded mutual funds established as trusts under the laws of the Province of Ontario.

Each Index BMO ETF seeks to replicate, to the extent possible, the performance of an index (each, an “**Index**” and collectively, the “**Indices**”), net of expenses. See “Investment Objectives - Index BMO ETFs”.

The Non-Index BMO ETFs seek to do the following:

BMO Balanced ESG ETF seeks to provide a balance of income and potential for long-term capital appreciation, primarily by investing in ETFs that have been selected based on ESG factors and that provide exposure to a diversified portfolio of global equity and fixed income securities.

BMO Balanced ETF seeks to provide a balance of income and potential for long-term capital appreciation, primarily by investing in ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities.

BMO Canadian Dividend ETF seeks to provide exposure to the performance of a yield weighted portfolio of Canadian dividend paying stocks. The selected companies will have the potential for long-term capital appreciation.

BMO Canadian High Dividend Covered Call ETF seeks to provide exposure to the performance of a portfolio of dividend paying Canadian companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

BMO Conservative ETF seeks to provide income and the potential for moderate long-term capital appreciation, primarily by investing in ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities.

BMO Covered Call Canadian Banks ETF seeks to provide exposure to the performance of a portfolio of Canadian banks to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of U.S. stocks to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options. BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

BMO Covered Call Technology ETF seeks to provide exposure to the performance of a portfolio of technology and technology related companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

BMO Covered Call US Banks ETF seeks to provide exposure to the performance of a portfolio of US banks to generate income and provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

BMO Covered Call Utilities ETF seeks to provide exposure to the performance of a portfolio of utilities companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

BMO Europe High Dividend Covered Call ETF seeks to provide exposure to the performance of a portfolio of dividend paying European companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

BMO Europe High Dividend Covered Call Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of dividend paying European companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options. BMO Europe High Dividend Covered Call Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge foreign currency exposure.

BMO Floating Rate High Yield ETF seeks to provide exposure to a diversified portfolio of debt securities of high yield bond issuers while aiming to mitigate the effects of interest rate fluctuations.

BMO Global High Dividend Covered Call ETF seeks to provide exposure to the performance of a portfolio of dividend paying global companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

BMO Growth ETF seeks to provide the potential for long-term capital appreciation, primarily by investing in ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities.

BMO International Dividend ETF seeks to provide exposure to the performance of a yield weighted portfolio of high dividend paying equities of international companies. The selected companies will have the potential for long-term capital appreciation.

BMO International Dividend Hedged to CAD ETF seeks to provide exposure to the performance of a yield weighted portfolio of high dividend paying equities of international companies to provide long-term capital appreciation and to generate income. BMO International Dividend Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge foreign currency exposure.

BMO Low Volatility Canadian Equity ETF seeks to provide exposure to the performance of a portfolio of Canadian equities that have lower sensitivity to market movements with the potential for long-term capital appreciation.

BMO Low Volatility Emerging Markets Equity ETF seeks to provide exposure to the performance of a portfolio of emerging market stocks that have lower sensitivity to market movements with the potential for long-term capital appreciation.

BMO Low Volatility International Equity ETF seeks to provide exposure to the performance of a portfolio of international stocks that have lower sensitivity to market movements with the potential for long-term capital appreciation.

BMO Low Volatility International Equity Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of international stocks that have lower sensitivity to market movements with the potential for long-term capital appreciation. BMO Low Volatility International Equity Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge foreign currency exposure.

BMO Low Volatility US Equity ETF seeks to provide exposure to the performance of a portfolio of U.S. stocks that have lower sensitivity to market movements with the potential for long-term capital appreciation.

BMO Low Volatility US Equity Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of U.S. stocks that have lower sensitivity to market movements with the potential for long-term capital appreciation. BMO Low Volatility US Equity Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

BMO Money Market ETF seeks to provide income and liquidity consistent with short-term money market rates while preserving capital by investing primarily in Canadian dollar-denominated money market securities and other instruments.

BMO Monthly Income ETF seeks to provide monthly cash distributions, with the potential for modest long-term capital appreciation, generally by investing in BMO ETFs that provide exposure to a diversified portfolio of income-bearing investments, including common equities, preferred shares, fixed income securities and trust units.

BMO Premium Yield ETF seeks to provide exposure to a portfolio of U.S. large capitalization companies, primarily by investing in U.S. equity securities and derivative instruments to provide long-term capital appreciation, generate income and mitigate downside risk. In respect of the Hedged Units, BMO Premium Yield ETF will also invest in or use derivative instruments to seek to hedge U.S. currency exposure.

BMO Ultra Short-Term Bond ETF seeks to provide exposure to a variety of fixed income securities with a remaining effective term to maturity of one year or less.

BMO Ultra Short-Term US Bond ETF seeks to provide exposure to a variety of U.S. fixed income securities, primarily with a remaining effective term to maturity of one year or less.

BMO US Dividend ETF seeks to provide exposure to a yield weighted portfolio of U.S. dividend paying stocks. The selected companies will have the potential for long-term capital appreciation.

BMO US Dividend Hedged to CAD ETF seeks to provide exposure to a yield weighted portfolio of U.S. dividend paying stocks. The selected companies will have the potential for long-term capital appreciation. BMO US Dividend Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

BMO US High Dividend Covered Call ETF seeks to provide exposure to the performance of a portfolio of dividend paying U.S. companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

BMO US High Dividend Covered Call Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of dividend paying U.S. companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options. BMO US High Dividend Covered Call Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

BMO US Put Write ETF seeks to provide exposure to the performance of a portfolio of put options on U.S. large capitalization equity securities to generate income.

BMO US Put Write Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of put options on U.S. large capitalization equity securities to generate income. BMO US Put Write Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

See “Investment Objectives – Non-Index BMO ETFs”.

Units of each of the BMO ETFs are being issued and sold on a continuous basis and there is no maximum number of Units that may be issued. Units of the BMO ETFs may be either Canadian dollar denominated or U.S. dollar denominated. Any exposure that the portfolio of each of the Hedged ETFs (defined below) and the portion of the portfolio of each Hedged Unit ETF (defined below) attributable to Hedged Units (defined below) may have to any currency other than the Canadian dollar will be hedged back to the Canadian dollar. Except as described above, the BMO ETFs will not hedge any foreign currency exposure back to the currency in which the Units are denominated.

BMO Asset Management Inc. (the “**Manager**”) is the trustee, manager, portfolio manager and promoter of the BMO ETFs and is responsible for the administration of the BMO ETFs. See “Organization and Management Details – Trustee, Manager, Portfolio Manager and Promoter”. In this prospectus, BMO Financial Group means the group of companies that includes Bank of Montreal and all of its direct or indirect wholly-owned subsidiaries. See “Overview of the Legal Structure of the BMO ETFs”.

Unitholders may redeem Units for cash, subject to a redemption discount. Unitholders may also exchange a Prescribed Number of Units (or integral multiple thereof) for Baskets of Securities of the issuers held by each BMO ETF and cash, or, with respect to certain BMO ETFs, cash only.

The BMO ETFs issue Units directly to Designated Brokers and Dealers. BMO Nesbitt Burns Inc. acts or will act as Designated Broker for the BMO ETFs listed under “Organization and Management Details of the BMO ETFs - Conflicts of Interest” and also acts or will act as a Dealer for all BMO ETFs. The initial issuance of the Units of a New BMO ETF, the New Hedged Units or the New USD Units will not occur until the New BMO ETF, the New Hedged Units or New USD Units has received, in aggregate, subscriptions sufficient to satisfy the original listing requirements of the Toronto Stock Exchange (“**TSX**”).

The TSX has conditionally approved the listing of the Units of the New BMO ETFs, the New Hedged Units and the New USD Units on the TSX. Listing of the Units of the New BMO ETFs is subject to the New BMO ETFs fulfilling all of the requirements of the TSX on or before January 12, 2022 and listing of the New Hedged Units and the New USD Units is subject to the New Hedged Units and the New USD Units fulfilling all of the requirements of the TSX on or before December 8, 2021. Subject to satisfying the TSX’s original listing requirements, the Units of the New BMO ETFs, the New Hedged Units and the New USD Units will be listed on the TSX and offered on a continuous basis, and an investor will be able to buy or sell these Units on the TSX through registered brokers and dealers in the

province or territory where the investor resides. Investors may incur customary brokerage commissions in buying or selling the Units.

Units of the BMO ETFs (other than the Units of the New BMO ETFs, the New Hedged Units and the New USD Units) are listed on the TSX or the NEO Exchange, as applicable, and offered on a continuous basis.

**No underwriter has been involved in the preparation of this prospectus or has performed any review or independent due diligence of the contents of this prospectus.**

**For a discussion of the risks associated with an investment in Units of the BMO ETFs, see “Risk Factors”. Your investment in any of the BMO ETFs is not guaranteed by any entity, including Bank of Montreal. Unlike bank accounts or guaranteed investment certificates, your investment in a BMO ETF is not covered by the Canada Deposit Insurance Corporation or any other government deposit insurer.**

Additional information about each BMO ETF is or will be available in the most recently filed annual financial statements, any interim financial statements filed after those annual financial statements, the most recently filed annual management report of fund performance (“MRFP”), any interim MRFP filed after the annual MRFP for each BMO ETF, and the most recently filed ETF Facts for each class of securities of the BMO ETF. These documents are incorporated by reference into this prospectus which means that they legally form part of this prospectus. See “Documents Incorporated by Reference”.

The Manager and/or an affiliate has entered into license agreements with the Index Providers (defined below) to use the Indices and certain other trademarks. See “Material Contracts – License Agreements”.

Each of S&P DJI, FTSE, FTSE Canada, Bloomberg, NASDAQ OMX, MSCI, MSCI ESG Research and Solactive (each as defined below) is an **“Index Provider”**. The Units of the BMO ETFs are not in any way sponsored, endorsed, sold or promoted by the Index Providers or Brookfield (defined below) or BNY (defined below), as applicable, and the Index Providers and Brookfield, as applicable, make no representation or warranty, express or implied, regarding the advisability of investing in securities generally or in the BMO ETFs particularly or the ability of the Indices to track general market performance.

## IMPORTANT TERMS

*Unless otherwise indicated, all references to dollar amounts in this prospectus are to Canadian dollars and all references to times in this prospectus are to Toronto time.*

**Accumulating Units** – a class of units of certain BMO ETFs whereby distributions, if any, are paid by issuing additional units that will be automatically reinvested and consolidated.

**ADRs** – American Depository Receipts. An ADR is a type of negotiable financial security that is traded on a local stock exchange but which represents a security that is issued by a foreign publicly-listed company.

**Basket of Securities** – in relation to a particular BMO ETF, a group of securities or assets determined by the Manager from time to time representing the constituents of the BMO ETF.

**Bloomberg** – Bloomberg Index Services Limited.

**Brookfield** – Brookfield Office Properties Inc.

**BMO ESG ETFs** – means collectively, BMO Balanced ESG ETF, BMO ESG Corporate Bond Index ETF, BMO ESG US Corporate Bond Hedged to CAD Index ETF, BMO ESG High Yield US Corporate Bond Index ETF, BMO MSCI EAFE ESG Leaders Index ETF, BMO MSCI Canada ESG Leaders Index ETF, BMO MSCI Global ESG Leaders Index ETF and BMO MSCI USA ESG Leaders Index ETF.

**BMO ETFs** – means collectively, the Index BMO ETFs and the Non-Index BMO ETFs.

**BMO NB** – BMO Nesbitt Burns Inc.

**BNY** – The Bank of New York Mellon

**CAD Units** – the Canadian dollar denominated Units of certain BMO ETFs.

**Canadian Securities Legislation** – the applicable securities legislation in force in each province and territory of Canada, all regulations, rules, orders and policies made thereunder and all multilateral and national instruments adopted by the securities regulatory authorities.

**Capital Gains Refund** – has the meaning given under “Income Tax Considerations – Taxation of the BMO ETFs”.

**CDS** – CDS Clearing and Depository Services Inc.

**CDS Participant** – a participant in CDS that holds Units on behalf of beneficial owners of Units.

**Continuous Distribution Agreement** – an agreement between the Manager, on behalf of one or more BMO ETFs, and a Dealer, as amended from time to time.

**CRA** – Canada Revenue Agency.

**Custodian** – State Street Trust Company Canada.

**Custodian Agreement** – the custodian contract effective June 1, 2018 (as amended from time to time) between the Manager, BMO Investments Inc. and State Street Trust Company Canada, as custodian.

**Dealer** – a registered dealer (that may or may not be a Designated Broker), including BMO NB, an affiliate of the Manager, that has entered into a Continuous Distribution Agreement with the Manager, on behalf of one or more BMO ETFs, pursuant to which the Dealer may subscribe for Units of that BMO ETF as described under “Purchases of Units – Issuance of Units”.

**Declaration of Trust** – the amended and restated master declaration of trust dated February 7, 2019 (as amended or as amended and restated from time to time) under which the BMO ETFs (and other exchange traded funds managed by the Manager) have been established.

**Designated Broker** – a registered dealer, including BMO NB, an affiliate of the Manager, that has entered into a Designated Broker Agreement with the Manager, on behalf of one or more BMO ETFs pursuant to which the Designated Broker agrees to perform certain duties in relation to the BMO ETFs.

**Designated Broker Agreement** – an agreement between the Manager, on behalf of a BMO ETF, and a Designated Broker, as amended from time to time.

**Distribution Payment Date** – a day that is no later than the 10<sup>th</sup> business day following the applicable Distribution Record Date, on which a BMO ETF pays a distribution to its Unitholders.

**Distribution Record Date** – a date determined by the Manager as a record date for the determination of Unitholders of a BMO ETF entitled to receive a distribution.

**Distribution Reinvestment Plan** – the distribution reinvestment plan of each BMO ETF, the key terms of which are described under “Distribution Policy – Distribution Reinvestment Plan”.

**DJIA** – Dow Jones Industrial Average.

**Dow Jones** – Dow Jones Trademark Holdings LLC.

**DPSPs** – deferred profit sharing plans as defined in the Tax Act.

**EAFE** – Europe, Australasia and Far East.

**ESG** – Environmental, social and governance.

**ETF** – exchange traded fund.

**Exchange** – the TSX or the NEO Exchange, as applicable.

**FTSE** – FTSE International Limited.

**FTSE Canada** – FTSE Global Debt Capital Markets Inc.

**GAAP** – Canadian generally accepted accounting principles.

**GICS** – Global Industry Classification Standard.

**Hedged ETFs** – means, collectively, BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF, BMO Dow Jones Industrial Average Hedged to CAD Index ETF, BMO Emerging Markets Bond Hedged to CAD Index ETF, BMO Equal Weight Global Base Metals Hedged to CAD Index ETF, BMO Equal Weight US Banks Hedged to CAD Index ETF, BMO Equal Weight US Health Care Hedged to CAD Index ETF, BMO Europe High Dividend Covered Call Hedged to CAD ETF, BMO Global Consumer Discretionary Hedged to CAD Index ETF, BMO Global Consumer Staples Hedged to CAD Index ETF, BMO High Yield US Corporate Bond Hedged to CAD Index ETF, BMO International Dividend Hedged to CAD ETF, BMO Low Volatility International Equity Hedged to CAD ETF, BMO Low Volatility US Equity Hedged to CAD ETF, BMO Mid-Term US IG Corporate Bond Hedged to CAD Index ETF, BMO MSCI EAFE Hedged to CAD Index ETF, BMO MSCI Europe High Quality Hedged to CAD Index ETF, BMO Nasdaq 100 Equity Hedged to CAD Index ETF, BMO S&P 500 Hedged to CAD Index ETF, BMO Short-Term US IG Corporate Bond Hedged to CAD Index ETF, BMO ESG US Corporate Bond Hedged to CAD Index ETF, BMO US Dividend Hedged to CAD ETF, BMO US High Dividend Covered Call Hedged to CAD ETF, BMO US Preferred Share Hedged to CAD Index ETF and BMO US Put Write Hedged to CAD ETF.

**Hedged Units** – means the Canadian dollar denominated class of units of certain BMO ETFs where the portfolio assets allocable to the class of units are hedged back to the Canadian dollar.

**Hedged Unit ETFs** – means, collectively, BMO ESG High Yield US Corporate Bond Index ETF, BMO Long-Term Treasury Bond Index ETF, BMO MSCI USA ESG Leaders Index ETF, BMO MSCI USA High Quality Index ETF, BMO Premium Yield ETF, BMO S&P US Mid Cap Index ETF, BMO S&P US Small Cap Index ETF and BMO Short-Term US TIPS Index ETF.

**HST** – the harmonized sales tax imposed under the *Excise Tax Act* (Canada) that is applicable in certain provinces of Canada.

**IFRS** – means the International Financial Reporting Standards, as published by the International Accounting Standards Board.

**Index/Indices** – a benchmark or index, provided by an Index Provider, or a replacement or alternative benchmark or index that applies substantially similar criteria to those currently used by the Index Provider for the benchmark or index or a successor index that is comprised of or would be comprised of the same or similar constituent securities, which may be used by a BMO ETF in relation to the BMO ETF's investment objective.

**Index Providers** – third-party providers of Indices, including but not limited to S&P DJI, FTSE, FTSE Canada, Bloomberg, NASDAQ OMX, MSCI, MSCI ESG Research and Solactive, with which the Manager or Bank of

Montreal, as applicable, has entered into licensing arrangements permitting the Manager to use the relevant Indices and certain trademarks in connection with the operation of the applicable BMO ETF.

**IRC** – the Independent Review Committee of the BMO ETFs.

**License Agreements** – the license agreements entered into by the Manager, BMO Investments Inc. and/or Bank of Montreal, as applicable, with each Index Provider.

**Management Fee Distribution** – as described under “Fees and Expenses – Management Fee Distributions”, an amount equal to the difference between the management fee otherwise chargeable and a reduced fee determined by the Manager, from time to time, that is distributed in cash to certain Unitholders of the BMO ETFs.

**Manager** – BMO Asset Management Inc., a corporation established under the laws of the Province of Ontario and a registered portfolio manager, investment fund manager, exempt market dealer and commodity trading manager.

**MBS** – mortgage backed securities.

**MER** – management expense ratio based on management fees and operating expenses (excluding commissions and other portfolio transaction costs) expressed as an annualized percentage of daily average net asset value.

**MSCI** – MSCI Inc.

**MSCI ESG Research** – MSCI ESG Research (UK) Limited.

**NASDAQ OMX** – The NASDAQ OMX Group, Inc.

**NAV** and **NAV per Unit** – in relation to a particular class of a BMO ETF, the net asset value of the BMO ETF attributable to that class and the net asset value per Unit of that BMO ETF attributable to the class, calculated by the Valuation Agent as described in “Calculation of Net Asset Value”.

**NEO Exchange or NEO** – Neo Exchange Inc.

**New BMO ETFs** – means, collectively, BMO Clean Energy Index ETF, BMO Covered Call Technology ETF, BMO ESG High Yield US Corporate Bond Index ETF, BMO Money Market ETF, BMO MSCI Fintech Innovation Index ETF, BMO MSCI Genomic Innovation Index ETF, BMO MSCI Innovation Index ETF, BMO MSCI Next Gen Internet Innovation Index ETF, BMO MSCI Tech & Industrial Innovation Index ETF and BMO Short-Term US TIPS Index ETF.

**New Hedged Units** – means, collectively, the Hedged Units of BMO ESG High Yield US Corporate Bond Index ETF, BMO MSCI USA ESG Leaders Index ETF and BMO Short-Term US TIPS Index ETF.

**New USD Units** – means, collectively, the USD Units of BMO High Yield US Corporate Bond Index ETF, BMO NASDAQ 100 Equity Index ETF and BMO Short-Term US TIPS Index ETF.

**Non-Hedged Units** – means the CAD Units, USD Units and Accumulating Units of the Hedged Unit ETFs.

**NI 81-102** – National Instrument 81-102 *Investment Funds*.

**NI 81-107** – National Instrument 81-107 *Independent Review Committee for Investment Funds*.

**Non-Index BMO ETFs** – means, collectively, BMO Balanced ESG ETF, BMO Balanced ETF, BMO Canadian Dividend ETF, BMO Canadian High Dividend Covered Call ETF, BMO Conservative ETF, BMO Covered Call Canadian Banks ETF, BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF, BMO Covered Call Technology ETF, BMO Covered Call US Banks ETF, BMO Covered Call Utilities ETF, BMO Europe High Dividend Covered Call ETF, BMO Europe High Dividend Covered Call Hedged to CAD ETF, BMO Floating Rate High Yield

ETF, BMO Global High Dividend Covered Call ETF, BMO Growth ETF, BMO International Dividend ETF, BMO International Dividend Hedged to CAD ETF, BMO Low Volatility Canadian Equity ETF, BMO Low Volatility Emerging Markets Equity ETF, BMO Low Volatility International Equity ETF, BMO Low Volatility International Equity Hedged to CAD ETF, BMO Low Volatility US Equity ETF, BMO Low Volatility US Equity Hedged to CAD ETF, BMO Money Market ETF, BMO Monthly Income ETF, BMO Premium Yield ETF, BMO Ultra Short-Term Bond ETF, BMO Ultra Short-Term US Bond ETF, BMO US Dividend ETF, BMO US Dividend Hedged to CAD ETF, BMO US High Dividend Covered Call ETF, BMO US High Dividend Covered Call Hedged to CAD ETF, BMO US Put Write ETF and BMO US Put Write Hedged to CAD ETF and each an investment trust established under the laws of the Province of Ontario pursuant to the Declaration of Trust.

**Other Securities** – securities, other than the constituent securities of an applicable Index, included in the portfolio of an Index BMO ETF, including ETFs, mutual funds or other investment funds, ADRs or derivative instruments.

**Permitted Merger** – as defined under “Unitholder Matters – Matters Requiring Unitholders’ Approval”.

**Plan Agent** – State Street Trust Company Canada, plan agent for the Distribution Reinvestment Plan.

**Plan Participant** and **Plan Unit** – as defined under “Distribution Policy – Distribution Reinvestment Plan”.

**Prescribed Number of Units** – in relation to a particular BMO ETF, the number of Units determined by the Manager from time to time for the purpose of subscription orders, exchanges, redemptions or for other purposes.

**Proxy Voting Guidelines** – as defined under “Proxy Voting Disclosure for Portfolio Securities Held”.

**RDSPs** – registered disability savings plans as defined in the Tax Act.

**REIT** – real estate investment trust.

**RESPs** – registered education savings plans as defined in the Tax Act.

**RRIFs** – registered retirement income funds as defined in the Tax Act.

**RRSPs** – registered retirement savings plans as defined in the Tax Act.

**Registered Plans** – means, collectively, RRSPs, RRIFs, DPSPs, RDSPs, RESPs and TFSAs.

**Registrar and Transfer Agent** – State Street Trust Company Canada.

**S&P** – Standard & Poor’s Financial Services LLC.

**S&P DJI** – S&P Dow Jones Indices LLC.

**Securities Lending Agent** – State Street Bank and Trust Company acts as agent for securities lending transactions for those BMO ETFs that engage in securities lending. The Securities Lending Agent is independent of the Manager.

**Securities Lending Agreement** – the securities lending authorization agreement dated June 12, 2018, as amended from time to time between the Manager and State Street Bank and Trust Company.

**securities regulatory authorities** – the securities commission or similar regulatory authority in each province and territory of Canada that is responsible for administering the Canadian Securities Legislation in force in such province or territory.

**SIFT** – a specified investment flow-through trust or partnership as defined in the Tax Act.

**SIFT Rules** – rules in the Tax Act that are applicable to “SIFT trusts” and “SIFT partnerships” (as defined in the Tax Act).

**Solactive** – Solactive AG.

**T+3 Securities** – securities, the trades in respect of which, customarily settle on the third business day after the date upon which pricing for the securities is determined.

**Tax Act** – the *Income Tax Act* (Canada), as amended from time to time.

**TER** – trading expense ratio and represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value.

**TFSA**s – tax-free savings accounts as defined in the Tax Act.

**Trading Day** – for each BMO ETF, a day on which: (i) a regular session of the TSX is held; and (ii) the primary market or exchange for the majority of the securities held by the BMO ETF is open for trading.

**TSX** – the Toronto Stock Exchange.

**Underlying Funds** – ETFs, mutual funds or other investment funds.

**Unit** – in relation to a particular BMO ETF, a redeemable, transferable unit of that BMO ETF, which represents an equal, undivided interest in the net assets of that BMO ETF. Units include CAD Units, Hedged Units, USD Units and Accumulating Units.

**Unitholder** – a holder of Units of a BMO ETF.

**US or U.S. or United States** – the United States of America.

**USD Units** – the U.S. dollar denominated Units of certain BMO ETFs.

**Valuation Agent** – State Street Trust Company Canada.

**Valuation Date** – each day on which a regular session of the TSX is held. If that BMO ETF elects to have a December 15 year-end for tax purposes as permitted by the Tax Act, the NAV per Unit will be calculated on December 15.

**Valuation Time** – 4:00 p.m. on each Valuation Date or, if the market closes earlier that day, then the time as of which the market closes.

## PROSPECTUS SUMMARY

*The following is a summary of the principal features of Units of the BMO ETFs and should be read together with the more detailed information and financial data and statements contained elsewhere in this prospectus or incorporated by reference in this prospectus. For an explanation of certain terms and abbreviations used in this prospectus and not otherwise defined, please refer to “Important Terms”.*

BMO International Dividend ETF	BMO US Put Write ETF
BMO International Dividend Hedged to CAD ETF	BMO US Put Write Hedged to CAD ETF

(each, a “**Non-Index BMO ETF**” and collectively, the “**Non-Index BMO ETFs**”).

Collectively, the Index BMO ETFs and the Non-Index BMO ETFs are referred to as the “**BMO ETFs**”, and each a “**BMO ETF**”.

The BMO ETFs are exchange traded mutual funds established as trusts under the laws of the Province of Ontario. BMO Asset Management Inc. is the trustee, manager, portfolio manager, and promoter of the BMO ETFs. See “Overview of the Legal Structure of the BMO ETFs”.

**Offerings:** Each BMO ETF, other than BMO Ultra Short-Term US Bond ETF, offers a class of units denominated in Canadian dollars (CAD Units).

BMO ESG High Yield US Corporate Bond Index ETF, BMO Long-Term US Treasury Bond Index ETF, BMO MSCI USA ESG Leaders Index ETF, BMO MSCI USA High Quality Index ETF, BMO Premium Yield ETF, BMO S&P US Mid Cap Index ETF, BMO S&P US Small Cap Index ETF and BMO Short-Term US TIPS Index ETF offer Hedged Units.

BMO High Yield US Corporate Bond Index ETF, BMO Long-Term US Treasury Bond Index ETF, BMO Low Volatility US Equity ETF, BMO Mid-Term US IG Corporate Bond Index ETF, BMO Mid-Term US Treasury Bond Index ETF, BMO MSCI USA High Quality Index ETF, BMO Nasdaq 100 Equity Index ETF, BMO S&P 500 Index ETF, BMO S&P US Mid Cap Index ETF, BMO S&P US Small Cap Index ETF, BMO Short-Term US TIPS Index ETF, BMO Short-Term US Treasury Bond Index ETF, BMO Ultra Short-Term US Bond ETF, BMO US Dividend ETF, BMO US High Dividend Covered Call ETF, BMO Premium Yield ETF, BMO US Preferred Share Index ETF and BMO US Put Write ETF offer a class of units denominated in U.S. dollars (USD Units).

BMO Short Corporate Bond Index ETF, BMO Short Federal Bond Index ETF, BMO Short Provincial Bond Index ETF, BMO Ultra Short-Term Bond ETF and BMO Ultra Short-Term US Bond ETF offer Accumulating Units.

**Continuous Distribution:** Units of each of the BMO ETFs are being issued and sold on a continuous basis and there is no maximum number of Units that may be issued. The Units of the BMO ETFs may be either Canadian dollar denominated or U.S. dollar denominated. Any exposure that the portfolio of each of the Hedged ETFs and the portion of the portfolio of each Hedged Unit ETF attributable to Hedged Units may have to any currency other than the Canadian dollar will be hedged back to the Canadian dollar. Except as described above, the BMO ETFs will not hedge any foreign currency exposure back to the currency in which the Units are denominated.

The BMO ETFs issue Units directly to Designated Brokers and Dealers. BMO Nesbitt Burns Inc. acts or will act as Designated Broker for the BMO ETFs listed under “Organization and Management Details of the BMO ETFs - Conflicts of Interest” and also acts or will act as a Dealer for all BMO ETFs. The initial issuance of the Units of a New BMO ETF, the New Hedged Units

or the New USD Units will not occur until the New BMO ETF, the New Hedged Units or New USD Units has received, in aggregate, subscriptions sufficient to satisfy the original listing requirements of the TSX.

The TSX has conditionally approved the listing of the Units of the New BMO ETFs, the New Hedged Units and the New USD Units on the TSX. Listing of the Units of the New BMO ETFs is subject to the New BMO ETFs fulfilling all of the requirements of the TSX on or before January 12, 2022 and listing of the New Hedged Units and the New USD Units is subject to the New Hedged Units and the New USD Units fulfilling all of the requirements of the TSX on or before December 8, 2021. Subject to satisfying the TSX’s original listing requirements, the Units of the New BMO ETFs, the New Hedged Units and the New USD Units will be listed on the TSX and offered on a continuous basis, and an investor will be able to buy or sell these Units on the TSX through registered brokers and dealers in the province or territory where the investor resides. Investors may incur customary brokerage commissions in buying or selling the Units.

See “Purchases of Units – Issuance of Units” and “Purchases of Units – Buying and Selling Units”.

Units of the BMO ETFs (other than the Units of the New BMO ETFs, the New Hedged Units and the New USD Units) are listed on the TSX or the NEO Exchange, as applicable, and offered on a continuous basis.

**Investment Objectives of the Index BMO ETFs:** Each Index BMO ETF seeks to replicate, to the extent possible, the performance of the applicable Index, net of expenses. The following table sets out the current Index and Index Provider for each of the Index BMO ETF

BMO ETF	Current Index	Index Provider
BMO Aggregate Bond Index ETF	FTSE Canada Universe Bond Index™	FTSE Canada

The Manager may, subject to any required Unitholder approval, change the Index underlying a BMO ETF to another widely-recognized index in order to provide investors with substantially the same exposure to the asset class to which that BMO ETF is currently exposed. If the Manager changes the Index underlying any BMO ETF, or any index replacing such Index, the Manager will issue a press release identifying the new Index, describing its constituent securities and specifying the reasons for the change in the Index.

See “Investment Objectives – Investment Objectives of the Index BMO ETFs”.

**Investment Objectives of the Non-Index BMO ETFs :**

***BMO Balanced ESG ETF***

BMO Balanced ESG ETF seeks to provide a balance of income and potential for long-term capital appreciation, primarily by investing in ETFs that have been selected based on ESG factors and that provide exposure to a diversified portfolio of global equity and fixed income securities.

***BMO Balanced ETF***

BMO Balanced ETF seeks to provide a balance of income and potential for long-term capital appreciation, primarily by investing in ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities.

***BMO Canadian Dividend ETF***

BMO Canadian Dividend ETF seeks to provide exposure to the performance of a yield weighted portfolio of Canadian dividend paying stocks. The selected companies will have the potential for long-term capital appreciation.

***BMO Canadian High Dividend Covered Call ETF***

BMO Canadian High Dividend Covered Call ETF seeks to provide exposure to the performance of a portfolio of dividend paying Canadian companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

### ***BMO Conservative ETF***

BMO Conservative ETF seeks to provide income and the potential for moderate long-term capital appreciation, primarily by investing in ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities.

### ***BMO Covered Call Canadian Banks ETF***

BMO Covered Call Canadian Banks ETF seeks to provide exposure to the performance of a portfolio of Canadian banks to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

### ***BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF***

BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of U.S. stocks to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options. BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

### ***BMO Covered Call Technology ETF***

BMO Covered Call Technology ETF seeks to provide exposure to the performance of a portfolio of technology and technology related companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options. BMO Covered Call US Banks ETF

BMO Covered Call US Banks ETF seeks to provide exposure to the performance of a portfolio of US banks to generate income and provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

### ***BMO Covered Call Utilities ETF***

BMO Covered Call Utilities ETF seeks to provide exposure to the performance of a portfolio of utilities companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

### ***BMO Europe High Dividend Covered Call ETF***

BMO Europe High Dividend Covered Call ETF seeks to provide exposure to the performance of a portfolio of dividend paying European companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

### ***BMO Europe High Dividend Covered Call Hedged to CAD ETF***

BMO Europe High Dividend Covered Call Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of dividend paying European companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options. BMO Europe High Dividend Covered Call Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge foreign currency exposure.

***BMO Floating Rate High Yield ETF***

BMO Floating Rate High Yield ETF seeks to provide exposure to a diversified portfolio of debt securities of high yield bond issuers while aiming to mitigate the effects of interest rate fluctuations.

***BMO Global High Dividend Covered Call ETF***

BMO Global High Dividend Covered Call ETF seeks to provide exposure to the performance of a portfolio of dividend paying global companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

***BMO Growth ETF***

BMO Growth ETF seeks to provide the potential for long-term capital appreciation, primarily by investing in ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities.

***BMO International Dividend ETF***

BMO International Dividend ETF seeks to provide exposure to the performance of a yield weighted portfolio of high dividend paying equities of international companies. The selected companies will have the potential for long-term capital appreciation.

***BMO International Dividend Hedged to CAD ETF***

BMO International Dividend Hedged to CAD ETF seeks to provide exposure to the performance of a yield weighted portfolio of high dividend paying equities of international companies to provide long-term capital appreciation and to generate income. BMO International Dividend Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge foreign currency exposure.

***BMO Low Volatility Canadian Equity ETF***

BMO Low Volatility Canadian Equity ETF seeks to provide exposure to the performance of a portfolio of Canadian equities that have lower sensitivity to market movements with the potential for long-term capital appreciation.

***BMO Low Volatility Emerging Markets Equity ETF***

BMO Low Volatility Emerging Markets Equity ETF seeks to provide exposure to the performance of a portfolio of emerging market stocks that have lower sensitivity to market movements with the potential for long-term capital appreciation.

***BMO Low Volatility International Equity ETF***

BMO Low Volatility International Equity ETF seeks to provide exposure to the performance of a portfolio of international stocks that have lower sensitivity to market movements with the potential for long-term capital appreciation.

***BMO Low Volatility International Equity Hedged to CAD ETF***

BMO Low Volatility International Equity Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of international stocks that have lower sensitivity to market

movements with the potential for long-term capital appreciation. BMO Low Volatility International Equity Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge foreign currency exposure.

***BMO Low Volatility US Equity ETF***

BMO Low Volatility US Equity ETF seeks to provide exposure to the performance of a portfolio of U.S. stocks that have lower sensitivity to market movements with the potential for long-term capital appreciation.

***BMO Low Volatility US Equity Hedged to CAD ETF***

BMO Low Volatility US Equity Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of U.S. stocks that have lower sensitivity to market movements with the potential for long-term capital appreciation. BMO Low U.S. Equity Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

***BMO Money Market ETF***

BMO Money Market ETF seeks to provide income and liquidity consistent with short-term money market rates while preserving capital by investing primarily in Canadian dollar-denominated money market securities and other instruments.

***BMO Monthly Income ETF***

BMO Monthly Income ETF seeks to provide monthly cash distributions, with the potential for modest long-term capital appreciation, generally by investing in BMO ETFs that provide exposure to a diversified portfolio of income-bearing investments, including common equities, preferred shares, fixed income securities and trust units.

***BMO Premium Yield ETF***

BMO Premium Yield ETF seeks to provide exposure to a portfolio of U.S. large capitalization companies, primarily by investing in U.S. equity securities and derivative instruments to provide long-term capital appreciation, generate income and mitigate downside risk. In respect of the Hedged Units, BMO Premium Yield ETF will also invest in or use derivative instruments to seek to hedge U.S. currency exposure.

***BMO Ultra Short-Term Bond ETF***

BMO Ultra Short-Term Bond ETF seeks to provide exposure to a variety of fixed income securities with a remaining effective term to maturity of one year or less.

***BMO Ultra Short-Term US Bond ETF***

BMO Ultra Short-Term US Bond ETF seeks to provide exposure to a variety of U.S. fixed income securities, primarily with a remaining effective term to maturity of one year or less.

***BMO US Dividend ETF***

BMO US Dividend ETF seeks to provide exposure to a yield weighted portfolio of U.S. dividend paying stocks. The selected companies will have the potential for long-term capital appreciation.

#### ***BMO US Dividend Hedged to CAD ETF***

BMO US Dividend Hedged to CAD ETF seeks to provide exposure to a yield weighted portfolio of U.S. dividend paying stocks. The selected companies will have the potential for long-term capital appreciation. BMO US Dividend Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

#### ***BMO US High Dividend Covered Call ETF***

BMO US High Dividend Covered Call ETF seeks to provide exposure to the performance of a portfolio of dividend paying U.S. companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

#### ***BMO US High Dividend Covered Call Hedged to CAD ETF***

BMO US High Dividend Covered Call Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of dividend paying U.S. companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options. BMO US High Dividend Covered Call Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

#### ***BMO US Put Write ETF***

BMO US Put Write ETF seeks to provide exposure to the performance of a portfolio of put options on U.S. large capitalization equity securities to generate income.

#### ***BMO US Put Write Hedged to CAD ETF***

BMO US Put Write Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of put options on U.S. large capitalization equity securities to generate income. BMO US Put Write Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

See “Investment Objectives – Investment Objectives of the Non-Index BMO ETFs”.

#### **Investment Strategies of the Index BMO ETFs:**

The investment strategy of the Index BMO ETFs is generally to invest in and hold a proportionate share of the constituent securities of the applicable Index, or Other Securities, to seek to replicate the performance of that Index, in order to achieve their investment objectives. The Index BMO ETFs may also hold cash and cash equivalents or other money market instruments in order to meet their current obligations.

The Manager may use a sampling methodology in selecting investments for an Index BMO ETF. Sampling means that the Manager will use quantitative analysis to select securities from the applicable Index to obtain a representative sample of securities that may resemble the Index in terms of key risk factors, performance attributes, industry weightings, market capitalization and other appropriate financial characteristics. The quantity of constituent securities of an Index selected using such sampling methodology will be based on a number of factors, including the asset base of the Index BMO ETF.

When an Index BMO ETF invests in Underlying Funds, it will predominantly, if not exclusively, invest in Underlying Funds that are managed by the Manager or one of its affiliates. For more information about the conflicts of interest associated with the Index BMO ETFs investing in Underlying Funds associated with the Manager, please see “Organization and Management Details of the BMO ETFs – Conflicts of Interest”.

The Index BMO ETFs may invest in or use derivative instruments and may engage in securities lending transactions in order to earn additional income for the Index BMO ETFs, provided that the use of such derivative instruments and such securities lending transactions is in compliance with applicable Canadian Securities Legislation and is consistent with the investment objective and investment strategies of the applicable Index BMO ETF.

Any exposure that the portfolio of an Index BMO ETF that is also a Hedged ETF and the portion of the portfolio of each Index BMO ETF that is also a Hedged Unit ETF attributable to Hedged Units may have to any currencies other than the Canadian dollar will be hedged back to the Canadian dollar. The prior approval of investors will be obtained before the currency hedging strategy used for the Hedged ETFs or the Hedged Units of an Index BMO ETF is changed; however, the Index BMO ETF may make changes to its current hedging methodology (i.e., the way in which it implements its currency hedging strategy) without obtaining investor approval.

See “Investment Strategies of the Index BMO ETFs”.

#### **Investment Strategies of the Non-Index BMO ETFs:**

The investment strategy of each Non-Index BMO ETF is to invest in and hold a portfolio of securities selected by the Manager and/or use derivative instruments in order to achieve its investment objectives. The Non-Index BMO ETFs may also hold cash and cash equivalents or other money market instruments in order to meet their current obligations.

The Non-Index BMO ETFs may invest in or use derivative instruments and may engage in securities lending transactions in order to earn additional income for the Non-Index BMO ETFs, provided that the use of such derivative instruments and such securities lending transactions is in compliance with applicable Canadian Securities Legislation and is consistent with the investment objective and investment strategies of the applicable Non-Index BMO ETF.

Any exposure that the portfolio of a Non-Index BMO ETF that is also a Hedged ETF may have to any currency other than the Canadian dollar will be hedged back to the Canadian dollar. Any exposure that the portfolio of a Non-Index BMO ETF which is allocable to Hedged Units, may have to any currency other than the Canadian dollar, will be hedged back to the Canadian dollar. The prior approval of investors will be obtained before the currency hedging strategy used for the Hedged ETFs or in respect of the Hedged Units of an Non-Index BMO ETF is changed; however, these Non-Index BMO ETFs may make changes to their current hedging methodology (i.e., the way in which they implement their currency hedging strategy) without obtaining investor approval.

When a Non-Index BMO ETF invests in Underlying Funds, it will predominantly, if not exclusively, invest in Underlying Funds that are managed by the Manager or one of its affiliates. For more information about the conflicts of interest associated with the Non-Index BMO ETFs investing in Underlying Funds associated with the Manager, please see “Organization and Management Details of the BMO ETFs – Conflicts of Interest”.

In addition, the Non-Index BMO ETFs employ the investment strategies described below:

#### ***BMO Balanced ESG ETF***

BMO Balanced ESG ETF will employ a strategic asset allocation strategy and is expected to primarily invest in other BMO ETFs. The BMO ETF's asset class weightings will be approximately 60% in equity securities and 40% in fixed income. The equity and fixed income securities will primarily be selected based on ESG ratings assigned by the index providers associated with the underlying ETFs.

As an alternative to or in conjunction with investing directly in ETFs, exposure may be obtained by investing directly in equity and fixed income securities, in mutual funds and/or in derivative instruments.

***BMO Balanced ETF***

BMO Balanced ETF will employ a strategic asset allocation strategy and is expected to primarily invest in other BMO ETFs. The BMO ETF's asset class weightings will be approximately 60% in equity securities and 40% in fixed income securities.

As an alternative to or in conjunction with investing directly in ETFs, exposure may be obtained by investing directly in equity and fixed income securities, in mutual funds and/or in derivative instruments.

***BMO Canadian Dividend ETF***

BMO Canadian Dividend ETF will primarily invest in and hold dividend paying equity securities of Canadian companies.

Securities will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

***BMO Canadian High Dividend Covered Call ETF***

BMO Canadian High Dividend Covered Call ETF will primarily invest in and hold dividend paying equity securities of Canadian companies.

The selected companies will have the potential for long-term capital appreciation.

Securities will be selected using a rules based methodology that considers dividend growth, yield, and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

Depending on market volatility and other factors, BMO Canadian High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO Canadian High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

***BMO Conservative ETF***

BMO Conservative ETF will employ a strategic asset allocation strategy and is expected to primarily invest in other BMO ETFs. The BMO ETF's asset class weightings will be approximately 60% in fixed income securities and 40% in equity securities.

As an alternative to or in conjunction with investing directly in ETFs, exposure may be obtained by investing directly in equity and fixed income securities, in mutual funds and/or in derivative instruments.

### ***BMO Covered Call Canadian Banks ETF***

BMO Covered Call Canadian Banks ETF will primarily invest in and hold the securities of Canadian banks, ETFs, or a combination of these. BMO Covered Call Canadian Banks ETF currently invests in BMO Equal Weight Banks Index ETF.

Depending on market volatility and other factors, BMO Covered Call Canadian Banks ETF will write covered call options on these securities. Under such call options, BMO Covered Call Canadian Banks ETF will sell to the buyer of the option, for a premium, either a right to buy the security from the ETF at an exercise price or, if the option is cash settled, the right to a payment from the ETF equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

### ***BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF***

BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF will primarily invest in and hold securities of the issuers included in the Dow Jones Industrial Average in the proportions in which they are reflected in the Dow Jones Industrial Average.

Depending on market volatility and other factors, BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF will write covered call options on these securities. Under such call options, BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF will sell to the buyer of the option, for a premium, either a right to buy the security from the ETF at an exercise price or, if the option is cash settled, the right to a payment from the ETF equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

### ***BMO Covered Call Technology ETF***

BMO Covered Call Technology ETF will primarily invest in and hold the equity securities of technology companies and technology related companies. The selected companies will have the potential for long-term capital appreciation.

Securities will be selected using a rules based methodology that considers quality, growth potential, and yield. Securities will also be subject to a screening process to ensure sufficient liquidity.

Depending on market volatility and other factors, BMO Covered Call Technology ETF will write covered call options on these securities. Under such call options, BMO Covered Call Technology ETF will sell to the buyer of the option, for a premium, either a right to buy the security from the ETF at an exercise price or, if the option is cash settled, the right to a payment from the ETF equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

### ***BMO Covered Call US Banks ETF***

BMO Covered Call US Banks ETF will primarily invest in and hold the equity securities of US banks.

Depending on market volatility and other factors, BMO Covered Call US Banks ETF will write covered call options on these securities. Under such call options, BMO Covered Call US Banks ETF will sell to the buyer of the option, for a premium, either a right to buy the security from the ETF at an exercise price or, if the option is cash settled, the right to a payment from the ETF equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

### ***BMO Covered Call Utilities ETF***

BMO Covered Call Utilities ETF will primarily invest in and hold the equity securities of Canadian companies widely recognized as utilities companies, which may also include telecommunication and pipeline companies, and use derivative instruments to hedge US dollar securities back to the Canadian dollar.

Depending on market volatility and other factors, BMO Covered Call Utilities ETF will write covered call options on these securities. Under such call options, BMO Covered Call Utilities ETF will sell to the buyer of the option, for a premium, either a right to buy the security from the ETF at an exercise price or, if the option is cash settled, the right to a payment from the ETF equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

### ***BMO Europe High Dividend Covered Call ETF***

BMO Europe High Dividend Covered Call ETF will primarily invest in and hold the equity securities of dividend paying European companies.

Securities will be selected using a rules based methodology that considers dividend growth, yield, and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

Depending on market volatility and other factors, BMO Europe High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO Europe High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

### ***BMO Europe High Dividend Covered Call Hedged to CAD ETF***

BMO Europe High Dividend Covered Call Hedged to CAD ETF will primarily obtain exposure to equity securities of dividend paying European companies. Currently, the ETF primarily invests in BMO Europe High Dividend Covered Call ETF.

Securities held by BMO Europe High Dividend Covered Call ETF will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

Depending on market volatility and other factors, BMO Europe High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO Europe High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by BMO Europe High Dividend Covered Call ETF at the time the options are written by BMO Europe High Dividend Covered Call ETF. The call options written by BMO Europe High Dividend Covered Call ETF may be either exchange traded options or over-the-counter options.

As an alternative to or in conjunction with obtaining exposure to equity securities of dividend paying European companies by investing in BMO Europe High Dividend Covered Call ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

### ***BMO Floating Rate High Yield ETF***

BMO Floating Rate High Yield ETF will primarily hold securities and derivative instruments that provide exposure to the credit risk of non-investment grade issuers, and Government of Canada T-Bills. To gain high yield credit exposure, BMO Floating Rate High Yield ETF may invest directly in debt securities, other ETFs, mutual funds or other investment funds and may utilize derivatives, such as credit default swaps (CDS), indices of CDS, interest rate swaps and other derivatives.

### ***BMO Global High Dividend Covered Call ETF***

BMO Global High Dividend Covered Call ETF will primarily invest in and hold dividend paying equity securities of global companies. The selected companies will have the potential for long-term capital appreciation.

Securities will be selected using a rules based methodology that considers dividend growth, yield, and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

Depending on market volatility and other factors, BMO Global High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO Global High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

### ***BMO Growth ETF***

BMO Growth ETF will employ a strategic asset allocation strategy and is expected to primarily invest in other BMO ETFs. The BMO ETF's asset class weightings will be approximately 80% in equity securities and 20% in fixed income securities.

As an alternative to or in conjunction with investing directly in ETFs, exposure may be obtained by investing directly in equity and fixed income securities, in mutual funds and/or in derivative instruments.

### ***BMO International Dividend ETF***

BMO International Dividend ETF will primarily invest in and hold dividend paying equity securities of international companies.

Securities will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

### ***BMO International Dividend Hedged to CAD ETF***

BMO International Dividend Hedged to CAD ETF will primarily obtain exposure to dividend paying equity securities of international companies. Currently, the ETF primarily invests in BMO International Dividend ETF.

Securities held by BMO International Dividend ETF will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

As an alternative to or in conjunction with obtaining exposure to dividend paying equity securities of international companies by investing in BMO International Dividend ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and /or derivative instruments.

### ***BMO Low Volatility Canadian Equity ETF***

BMO Low Volatility Canadian Equity ETF will primarily invest in and hold equities of Canadian companies.

Securities will be selected from the largest and most liquid securities in Canada. The securities that have lower sensitivity to market movements (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

### ***BMO Low Volatility Emerging Markets Equity ETF***

BMO Low Volatility Emerging Markets Equity ETF will primarily invest in and hold equity securities of emerging market companies.

Securities will be selected from the large capitalization emerging market equity universe. The securities that have lower sensitivity to market movement (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

### ***BMO Low Volatility International Equity ETF***

BMO Low Volatility International Equity ETF will primarily invest in and hold equity securities of international companies.

Securities will be selected from the international equity universe. The securities that have lower sensitivity to market movement (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

### ***BMO Low Volatility International Equity Hedged to CAD ETF***

BMO Low Volatility International Equity Hedged to CAD ETF will primarily obtain exposure to equity securities of international companies. Currently, the ETF primarily invests in BMO Low Volatility International Equity ETF.

Securities held by BMO Low Volatility International Equity ETF will be selected from the international equity universe. The securities that have lower sensitivity to market movements (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

As an alternative to or in conjunction with obtaining exposure to equity securities of international companies by investing in BMO Low Volatility International Equity ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

### ***BMO Low Volatility US Equity ETF***

BMO Low Volatility US Equity ETF will primarily invest in and hold equity securities of US companies.

Securities will be selected from the large capitalization U.S. equity universe. The securities that have lower sensitivity to market movements (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

### ***BMO Low Volatility US Equity Hedged to CAD ETF***

BMO Low Volatility US Equity Hedged to CAD ETF will primarily obtain exposure to equity securities of US companies. Currently, the ETF primarily invests in BMO Low Volatility US Equity ETF.

Securities of BMO Low Volatility US Equity ETF will be selected from the large capitalization U.S. equity universe. The securities that have lower sensitivity to market movements (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

As an alternative to or in conjunction with obtaining exposure to equity securities of US companies by investing in BMO Low Volatility US Equity ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

### ***BMO Money Market ETF***

BMO Money Market ETF primarily invests in Canadian dollar-denominated money market securities and other instruments of Canadian issuers, including short-term debt obligations of governments, banks or corporations, such as treasury bills, bankers' acceptances and commercial paper.

The BMO ETF will select securities based on both economic fundamentals and capital market developments.

#### ***BMO Monthly Income ETF***

BMO Monthly Income ETF employs a strategic asset allocation strategy and is expected to primarily invest in other BMO ETFs. The BMO ETF's asset class weightings will be approximately 60% in equity securities and 40% in fixed income securities. Exposure to such income-bearing investments may be obtained by investing in them directly or by investing in other ETFs, mutual funds or other investment funds, in ADRs or in derivative instruments. In allocating the portfolio, the Manager will consider average market valuations across regions, sectors and asset classes, relative economic conditions that may affect the investment and any perceived downside risks.

#### ***BMO Premium Yield ETF***

BMO Premium Yield ETF will primarily invest in a portfolio of U.S. large capitalization equity securities and derivative instruments to gain exposure to U.S. large capitalization companies. Securities will be selected using a rules based methodology that considers quality, yield, and liquidity.

BMO Premium Yield ETF may also employ derivative strategies.

Depending on market volatility and other factors, BMO Premium Yield ETF may write call options that will be selected considering volatility, fundamental and technical analysis, price sensitivity to the broad market, and sector diversification. When writing calls on portfolio securities and ETFs, BMO Premium Yield ETF will sell to the buyer of the option, for a premium, the right to buy the security from the ETF at an exercise price. The call options written by the ETF may be either exchange traded options or over-the-counter options. Written call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF.

Depending on market volatility and other factors, BMO Premium Yield ETF may purchase call options to gain potential exposure to U.S. equity securities and U.S. markets.

Depending on market volatility and other factors, BMO Premium Yield ETF may write put options to reduce the net cost of acquiring portfolio securities. Such options will only be written in respect of securities in which the BMO Premium Yield ETF is permitted to invest, and will be selected considering volatility, fundamental and technical analysis, price sensitivity to the broad market, and sector diversification. When writing puts on portfolio securities, BMO Premium Yield ETF will sell to the buyer of the option, for a premium, a right to sell the security at an exercise price. The put options written by the ETF may be either exchange traded options or over-the-counter options.

Depending on market volatility and other factors, BMO Premium Yield ETF may purchase put options to potentially limit the loss from significant declines of U.S. equity securities and U.S. markets.

Each exchange traded put option will be a “clearing corporation option” (as defined in NI 81-102) and will be cleared and settled by a clearing corporation. In the event that put options written by BMO Premium Yield ETF are over-the-counter, such put options are not expected to be cleared and settled by a clearing corporation.

The portion of BMO Premium Yield ETF's portfolio allocable to Hedged Units will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

### ***BMO Ultra Short-Term Bond ETF***

BMO Ultra Short-Term Bond Fund ETF will primarily invest in money market instruments and directly in fixed income securities, including corporate, Government of Canada, provincial and municipal bonds.

BMO Ultra Short-Term Bond ETF may invest in floating rate instruments, floating rate preferred shares and other floating rate securities, subject to the rate reset date being no greater than one year and the term being no greater than five years.

### ***BMO Ultra Short-Term US Bond ETF***

BMO Ultra Short-Term US Bond ETF will primarily invest in U.S. money market instruments and fixed income securities, including corporate and government bonds.

BMO Ultra Short-Term US Bond ETF may invest in floating rate instruments, floating rate preferred shares and other floating rate securities, subject to the rate reset date being no greater than one year and the term being no greater than five years.

### ***BMO US Dividend ETF***

BMO US Dividend ETF will primarily invest in and hold dividend paying equity securities of US companies.

Eligible securities will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

### ***BMO US Dividend Hedged to CAD ETF***

BMO US Dividend Hedged to CAD ETF will primarily obtain exposure to equity securities of US companies. Currently, the ETF primarily invests in BMO US Dividend ETF.

Securities held by BMO US Dividend ETF will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

As an alternative to or in conjunction with obtaining exposure to equity securities of US companies by investing in BMO US Dividend ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

### ***BMO US High Dividend Covered Call ETF***

BMO US High Dividend Covered Call ETF will primarily invest in and hold the equity securities of dividend paying U.S. companies.

Securities will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. In addition, depending on market volatility and other factors, BMO US High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO US High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are

written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

#### ***BMO US High Dividend Covered Call Hedged to CAD ETF***

BMO US High Dividend Covered Call Hedged to CAD ETF will primarily obtain exposure to equity securities of dividend paying U.S. companies. Currently, the ETF primarily invests in BMO US High Dividend Covered Call ETF.

Securities of BMO US High Dividend Covered Call ETF will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity. In addition, depending on market volatility and other factors, BMO US High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO US High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by BMO US High Dividend Covered Call ETF at the time the options are written by BMO US High Dividend Covered Call ETF. The call options written by the BMO US High Dividend Covered Call ETF may be either exchange traded options or over-the-counter options.

As an alternative to or in conjunction with obtaining exposure to equity securities of dividend paying U.S. companies by investing in BMO US High Dividend Covered Call ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

#### ***BMO US Put Write ETF***

BMO US Put Write ETF will primarily invest in a portfolio of put options to gain exposure to US large capitalization companies.

BMO US Put Write ETF will sell put options that will be selected considering volatility, fundamental and technical analysis, price sensitivity to the broad market, and sector diversification.

Depending on market volatility and other factors, BMO US Put Write ETF may sell to the buyer of the option, for a premium, either a right to sell the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the exercise price and the value of the security. The put options written by the ETF may be either exchange traded options or over-the-counter options. Generally, BMO US Put Write ETF will hold investments that qualify as “cash cover” (as defined in NI 81-102, such as treasury bills and securities issued by a money market fund, and other investments listed in the definition of “cash cover”). In particular, the put options written by the ETF will be covered through investments that qualify as “cash cover” (as defined in NI 81-102). If assigned on an option, BMO US Put Write ETF may temporarily hold the underlying security before selling the position.

The put options written by BMO US Put Write ETF may be either exchange traded or over-the-counter. Each exchange traded put option will be a “clearing corporation option” (as defined in NI 81-102) and will be cleared and settled by a clearing corporation. In the event that put options written by BMO US Put Write ETF are over-the-counter, such put options are not expected to be cleared and settled by a clearing corporation. BMO US Put Write ETF may also purchase put options to potentially limit the loss from significant stock price declines.

### ***BMO US Put Write Hedged to CAD ETF***

BMO US Put Write Hedged to CAD ETF will primarily obtain exposure to a portfolio of put options to gain exposure to US large capitalization companies. Currently, the ETF primarily invests in BMO US Put Write ETF.

BMO US Put Write ETF will sell put options that will be selected considering volatility, fundamental and technical analysis, price sensitivity to the broad market, and sector diversification. Depending on market volatility and other factors, BMO US Put Write ETF may sell to the buyer of the option, for a premium, either a right to sell the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the exercise price and the value of the security. The put options written by BMO US Put Write ETF may be either exchange traded options or over-the-counter options. Generally, BMO US Put Write ETF will hold investments that qualify as “cash cover” (as defined in NI 81-102, such as treasury bills and securities issued by a money market fund, and other investments listed in the definition of “cash cover”). In particular, the put options written by BMO US Put Write ETF will be covered through investments that qualify as “cash cover” (as defined in NI 81-102). If assigned on an option, BMO US Put Write ETF may temporarily hold the underlying security before selling the position.

The put options written by BMO US Put Write ETF may be either exchange traded or over-the-counter. Each exchange traded put option will be a “clearing corporation option” (as defined in NI 81-102) and will be cleared and settled by a clearing corporation. In the event that put options written by BMO US Put Write ETF are over-the-counter, such put options are not expected to be cleared and settled by a clearing corporation. BMO US Put Write ETF may also purchase put options to potentially limit the loss from significant stock price declines.

As an alternative to or in conjunction with obtaining exposure to put a portfolio of put options to gain exposure to US large capitalization companies by investing in BMO Put Write ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

See “Investment Strategies of the Non-Index BMO ETFs”.

#### **Special Considerations for Purchasers:**

The provisions of the so-called “early warning” requirements set out in Canadian Securities Legislation do not apply in connection with the acquisition of Units. In addition, the BMO ETFs have obtained exemptive relief from the securities regulatory authorities to permit Unitholders to acquire more than 20% of the Units of any BMO ETF through purchases on the Exchange without regard to the take-over bid requirements of Canadian Securities Legislation, provided that any such Unitholder, and any person acting jointly or in concert with the Unitholder, undertakes to the Manager not to vote more than 20% of the Units of the BMO ETF at any meeting of Unitholders.

Each BMO ETF that invests a portion of its portfolio assets in T+3 Securities has obtained exemptive relief from the securities regulatory authorities to permit such BMO ETF to settle primary market trades in Units of the BMO ETF no later than the third business day after the date upon which pricing for the Units is determined. This settlement cycle differs from the standard settlement cycle for secondary market trades in the Units of the BMO ETF, which customarily occurs no later than the second business day after the date upon which pricing for the Units is determined.

#### **Distributions:**

Cash distributions on Units (other than the Accumulating Units) of a BMO ETF will be made in the currency in which the Units of the BMO ETF are denominated and at the frequency set forth in the following table, if at all.

<b>Frequency of Distributions</b> <b>Index BMO ETFs</b>

Cash distributions on Units of a BMO ETF are expected to be paid primarily out of dividends or distributions, and other income or gains, received by the BMO ETF less the expenses of the BMO ETF, but may also consist of non-taxable amounts including returns of capital, which may be paid in the Manager's sole discretion. To the extent that the expenses of a BMO ETF exceed the income generated by such BMO ETF in any given month, quarter, or year, as the case may be, it is not expected that a monthly, quarterly, or annual distribution will be paid.

<b>Frequency of Distributions</b> <b>Accumulating Units</b>

<b>Frequency of Distributions</b> <b>Accumulating Units</b>			
<b>BMO ETF</b>	<b>Monthly</b>	<b>Quarterly</b>	<b>Annually</b>
BMO Ultra Short-Term Bond ETF			✓
BMO Ultra Short-Term US Bond ETF			✓

Distributions in respect of the Accumulating Units of BMO Short Corporate Bond Index ETF, BMO Short Federal Bond Index ETF, BMO Short Provincial Bond Index ETF, BMO Ultra Short-Term Bond ETF and BMO Ultra Short-Term US Bond ETF, if any, will be automatically reinvested in additional Accumulating Units of the applicable BMO ETF. Following each distribution, the number of Accumulating Units of the applicable BMO ETF is immediately consolidated so that the number of outstanding Accumulating Units of the applicable BMO ETF will be the same as the number of outstanding Accumulating Units before the distribution. Non-resident investors may have the number of securities reduced due to withholding tax.

For each taxation year, each BMO ETF will ensure that its income (including income received from special dividends on securities held by that BMO ETF) and net realized capital gains, if any, have been distributed to Unitholders to such an extent that the BMO ETF will not be liable for ordinary income tax thereon. To the extent that a BMO ETF has not distributed the full amount of its net income or capital gains in any taxation year, the difference between such amount and the amount actually distributed by the BMO ETF will be paid as a “reinvested distribution”. Reinvested distributions, net of any required withholding taxes, will be reinvested automatically in additional Units at a price equal to the NAV per Unit of the BMO ETF and the Units will be immediately consolidated such that the number of outstanding Units of each class following the distribution will equal the number of Units of each class outstanding prior to the distribution. See “Distribution Policy”.

In addition to the distributions described above, a BMO ETF may from time to time pay additional distributions on its Units, including without restriction in connection with a special dividend or in connection with returns of capital. See “Distribution Policy”.

**Distribution Reinvestment:** The BMO ETFs may provide Unitholders with the opportunity to reinvest cash distributions in additional Units through participation in a distribution reinvestment plan. See “Distribution Policy – Distribution Reinvestment Plan”.

**Exchanges and Redemptions** Unitholders may redeem Units for cash, subject to a redemption discount. Unitholders may also exchange a Prescribed Number of Units (or integral multiple thereof) for Baskets of Securities and cash, or, with respect to certain BMO ETFs, cash only. See “Redemption and Exchange of Units”.

**Termination:** The BMO ETFs do not have a fixed termination date, but may be terminated by the Manager upon not less than 60 days’ written notice to Unitholders. See “Termination of the BMO ETFs”.

In the event that an Index Provider ceases to calculate an Index or the applicable License Agreement is terminated, the Manager may terminate an Index BMO ETF on 60 days’ notice, change the investment objective of that Index BMO ETF, seek to replicate an alternative index or make such other arrangements as the Manager considers appropriate and in the best interests of Unitholders of the Index BMO ETF in the circumstances. See “Investment Objectives – Termination of the Indices”.

**Eligibility for Investment:** In the opinion of legal counsel, provided that a BMO ETF qualifies as a mutual fund trust within the meaning of the Tax Act, or that the Units of the BMO ETF are listed on a designated stock exchange within the meaning of the Tax Act, which includes the TSX and the NEO Exchange, or

are registered investments under the Tax Act, the Units of the BMO ETF will be qualified investments for trusts governed by Registered Plans. See “Eligibility for Investment”. Holders of TFSAs and RDSPs, subscribers of RESPs, and annuitants of RRSPs and RRIFs, should consult with their tax advisors as to whether Units would be a prohibited investment for such accounts or plans in their particular circumstances. See “Eligibility for Investment”.

**Risk Factors:** There are certain general risks inherent in an investment in the BMO ETFs, including:

- (i) general risks of investments
- (ii) fund-of-funds investment risk;
- (iii) asset class risk;
- (iv) cease trading of constituent securities risk;
- (v) fluctuations in the NAV and NAV per Unit risk;
- (vi) liquidity risk;
- (vii) distribution in specie risk;
- (viii) use of derivative instruments risk;
- (ix) securities lending risk;
- (x) trading price of units risk;
- (xi) absence of an active market for the units and lack of operating history;
- (xii) reliance on the Manager risk;
- (xiii) risk of loss;
- (xiv) rebalancing and adjustment risk;
- (xv) changes in legislation risk;
- (xvi) other tax-related risks;
- (xvii) cyber security risk; and
- (xviii) potential conflicts of interest risk

See “Risk Factors – General Risks Relating to an Investment in the BMO ETFs”.

In addition, the following risks are inherent in an investment in one or more of the BMO ETFs:

- (i) base metals risk;
- (ii) calculation and termination of the indices risk;
- (iii) call risk;
- (iv) China-focused ETF risks;
- (v) concentration risk;
- (vi) credit rating related risk;
- (vii) currency hedging risk;
- (viii) emerging markets risk;
- (ix) energy risk;

- (x) equity investment risk;
- (xi) exchange rate risk;
- (xii) extension risk;
- (xiii) factor-based investment strategy risk;
- (xiv) foreign investment risk;
- (xv) general risks of debt instruments;
- (xvi) general risks of preferred share investing;
- (xvii) index investment strategy risk;
- (xviii) index tracking risk;
- (xix) precious metals risk
- (xx) put writing risk; and
- (xxi) tax treatment of options risk.

See “Risk Factors – Additional Risks Relating to an Investment in one or more BMO ETFs”.

**Income Tax Considerations:**

This summary of Canadian tax considerations for the BMO ETFs and for Canadian resident Unitholders is subject in its entirety to the qualifications, limitations and assumptions set out in “Income Tax Considerations”.

A Unitholder who is resident in Canada for the purposes of the Tax Act will generally be required to include in the Unitholder’s income for tax purposes for any year the Canadian dollar amount of net income and net taxable capital gains of the BMO ETF paid or payable to the Unitholder in the year and deducted by the BMO ETF in computing its income. Any non-taxable distributions from a BMO ETF (other than the non-taxable portion of any net realized capital gains of a BMO ETF) paid or payable to a Unitholder in a taxation year, such as a return of capital, will reduce the adjusted cost base of the Unitholder’s Units of that BMO ETF. To the extent that a Unitholder’s adjusted cost base would otherwise be a negative amount, the negative amount will be deemed to be a capital gain realized by the Unitholder and the adjusted cost base of the Unit to the Unitholder will be nil immediately thereafter. Any loss realized by a BMO ETF cannot be allocated to, and cannot be treated as a loss of, the Unitholders of such BMO ETF. Upon the actual or deemed disposition of a Unit held by the Unitholder as capital property, including the exchange or redemption of a Unit, a capital gain (or a capital loss) will generally be realized by the Unitholder to the extent that the proceeds of disposition of the Unit exceed (or are less than) the aggregate of the adjusted cost base to the Unitholder of the Unit and any reasonable costs of disposition.

The Declaration of Trust governing each of the BMO ETFs requires that each BMO ETF distribute its net income and net realized capital gains, if any, for each taxation year to Unitholders to such an extent that the BMO ETF will not be liable in any taxation year for ordinary income tax.

Each investor should satisfy himself or herself as to the tax consequences of an investment in Units by obtaining advice from his or her own tax advisor. See “Income Tax Considerations”

**Organization and Management of the BMO ETFs**

**Manager:**

BMO Asset Management Inc. is the manager of the BMO ETFs and, as such, manages the overall business and operations of the BMO ETFs. The Manager is a Canadian investment manager. Its clients include pension funds, endowments, trusts, insurance company reserves,

corporations and mutual funds. The Manager is an indirect, wholly-owned subsidiary of Bank of Montreal. The office for service of notice to the BMO ETFs and the Manager is located at 250 Yonge Street, 7th Floor, Toronto, Ontario M5B 2M8 (the registered office of the BMO ETFs and the Manager is located at 100 King Street West, 43rd Floor, Toronto, Ontario M5X 1A1). See “Organization and Management Details – Trustee, Manager, Portfolio Manager and Promoter”.

<b>Portfolio Manager:</b>	In its capacity as Portfolio Manager, the Manager manages, or causes to be managed, the investment portfolio of each BMO ETF. The Manager has the authority to appoint one or more sub-advisors to provide advice on or manage the investment portfolio of a BMO ETF. See “Organization and Management Details – Trustee, Manager, Portfolio Manager and Promoter – Portfolio Management”.
<b>Trustee:</b>	The Manager acts as the trustee of the BMO ETFs pursuant to the Declaration of Trust. See “Organization and Management Details – The Trustee, Manager, Portfolio Manager and Promoter – Duties and Services to be Provided by the Trustee, Manager, Portfolio Manager and Promoter”
<b>Valuation Agent:</b>	State Street Trust Company Canada acts as the valuation agent of the BMO ETFs and provides certain fund accounting and valuation services to the BMO ETFs including, without limitation, calculating the NAV, NAV per Unit, net income and net realized capital gains of the BMO ETFs. The principal office of the Valuation Agent is located in Toronto, Ontario. The Valuation Agent is independent of the Manager.
<b>Promoter:</b>	The Manager has taken the initiative in founding and organizing the BMO ETFs and is, accordingly, the promoter of the BMO ETFs within the meaning of securities legislation of certain provinces and territories of Canada. See “Organization and Management Details – Trustee, Manager, Portfolio Manager and Promoter – Duties and Services to be Provided by the Trustee, Manager, Portfolio Manager and Promoter”.
<b>Custodian:</b>	State Street Trust Company Canada is the custodian of the assets of the BMO ETFs. The Custodian is entitled to receive fees from the Manager as described under “Fees and Expenses” and to be reimbursed for all expenses and liabilities that are properly incurred by the Custodian in connection with the activities of the BMO ETFs. The principal office of the Custodian is located in Toronto, Ontario. The Custodian is independent of the Manager. See “Organization and Management Details – Custodian”.
<b>Registrar and Transfer Agent:</b>	State Street Trust Company Canada, at its principal offices in Toronto, Ontario, is the registrar and transfer agent for the Units of the BMO ETFs and maintains the register of registered Unitholders. The register of the BMO ETFs is kept in Toronto. The Registrar and Transfer Agent is independent of the Manager. See “Organization and Management Details – Transfer Agent and Registrar”.
<b>Plan Agent:</b>	State Street Trust Company Canada, at its principal offices in Toronto, Ontario, is the Plan Agent and administers the Distribution Reinvestment Plan for the BMO ETFs. The Plan Agent is independent of the Manager. See “Organization and Management Details – Plan Agent”.
<b>Auditor:</b>	PricewaterhouseCoopers LLP, at its principal offices in Toronto, Ontario, is the auditor of the BMO ETFs. See “Organization and Management Details – Auditor”.
<b>Securities Lending Agent:</b>	State Street Bank and Trust Company, a sub-custodian of the BMO ETFs, acts as agent for securities lending transactions for those BMO ETFs that engage in securities lending and administers securities lending transactions entered by the BMO ETFs. The Securities Lending Agent is independent of the Manager. The principal office of the Securities Lending Agent is located in Boston, Massachusetts. The Securities Lending Agent is independent of the Manager. See “Organization and Management Details – Securities Lending Agent”.

## SUMMARY OF FEES AND EXPENSES

### **Fees and Expenses Payable by the BMO ETFs**

The table set forth below lists the fees and expenses payable by the BMO ETFs. The value of a Unitholder's investment in a BMO ETF will be reduced by the amount of fees and expenses charged to such BMO ETF. See "Fees and Expenses".

**Management Fees:** Each BMO ETF will pay the Manager a management fee as set forth in the table below based on the average daily NAV of the applicable BMO ETF. The management fee, plus applicable taxes, will be accrued daily and paid quarterly in arrears. The Manager may, from time to time in its discretion, waive all or a portion of the management fee charged.

**Underlying Fund Fees:**

A BMO ETF may, in accordance with applicable Canadian securities legislation, invest in exchange traded funds, mutual funds or other investment funds which may be managed by the Manager, its affiliates or independent fund managers. There are fees and expenses payable by these Underlying Funds in addition to the fees and expenses payable by a BMO ETF. No management fees or incentive fees are payable by a BMO ETF in respect of an investment in an Underlying Fund that, to a reasonable person, would duplicate a fee payable by such Underlying Fund for the same service.

To ensure that there is no duplication of management fees chargeable in connection with the BMO ETF and any investment in an Underlying Fund, the management fee of the BMO ETF will be reduced by the amount of the management fee paid by the BMO ETF in respect of its investment in the Underlying Fund. Further, no sales fees or redemption fees are payable by a BMO ETF in relation to purchases or redemptions of the securities of the Underlying Funds in which it invests if these Underlying Funds are managed by the Manager or an affiliate or associate of the Manager, and no sales fees or redemption fees are payable by a BMO ETF in relation to its purchases or redemptions of securities of Underlying Funds that, to a reasonable person, would duplicate a fee payable by an investor in a BMO ETF.

**Operating Expenses:**

In addition to the payment of the management fee, each BMO ETF is responsible for the costs and expenses incurred in complying with NI 81-107 (including any expenses related to the implementation and on-going operation of the IRC), brokerage expenses and commissions, income and withholding taxes as well as all other applicable taxes, including HST, the costs of complying with any new governmental or regulatory requirement introduced after the first BMO ETFs were established and extraordinary expenses. The Manager is responsible for all other costs and expenses of the BMO ETFs, including the fees payable to the Custodian, Registrar and Transfer Agent and Plan Agent and fees payable to other service providers, including the Index Providers, retained by the Manager. See "Organization and Management Details – Trustee,

Manager, Portfolio Manager and Promoter – Duties and Services to be Provided by the Trustee, Manager, Portfolio Manager and Promoter”.

If a BMO ETF holds securities of one or more exchange traded funds, mutual funds or other investment funds which may be managed by the Manager, its affiliates or independent fund managers, the expenses incurred by each such other fund in connection with its operations are indirectly paid by the BMO ETF in addition to those operating expenses incurred directly by the BMO ETF.

**Management Fee Distributions:** To achieve effective and competitive management fees, the Manager may agree to charge a reduced management fee as compared to the management fee it otherwise would be entitled to receive from the BMO ETFs with respect to investments in the BMO ETFs by certain Unitholders. In such cases, an amount equal to the difference between the fee otherwise chargeable and the reduced fee will be distributed to the applicable Unitholders as Management Fee Distributions. The availability, amount and timing of Management Fee Distributions with respect to Units of a BMO ETF will be determined from time to time by the Manager in its sole discretion. See “Fees and Expenses”.

### **Fees and Expenses Payable Directly by You**

Unitholders who buy and sell their Units through the facilities of an Exchange do not pay a fee directly to the Manager or the BMO ETF in respect of those purchases and sales.

If stated in the applicable designated broker agreement or dealer agreement, the Manager or a BMO ETF may charge the Designated Brokers and/or Dealers a fee to offset certain transaction costs associated with an issue, exchange or redemption of Units of that BMO ETF to or by such Designated Broker and/or Dealer. See “Purchases of Units” and “Redemption and Exchange of Units”.

### **Annual Returns, Management Expense Ratio and Trading Expense Ratio**

The following chart provides the annual returns, MER and TER for each BMO ETF as disclosed in the BMO ETF’s annual management report of fund performance for each of the past five years.

#### **Index BMO ETFs**

## OVERVIEW OF THE LEGAL STRUCTURE OF THE BMO ETFs

The BMO ETFs are exchange traded mutual funds established as trusts under the laws of the Province of Ontario. The BMO ETFs have been established pursuant to the Declaration of Trust.

The TSX has conditionally approved the listing of the Units of the New BMO ETFs, the New Hedged Units and the New USD Units on the TSX. Listing of the Units of the New BMO ETFs is subject to the New BMO ETFs fulfilling all of the requirements of the TSX on or before January 12, 2022 and listing of the New Hedged Units and the New USD Units is subject to the New Hedged Units and the New USD Units fulfilling all of the requirements of the TSX on or before December 8, 2021. Subject to satisfying the TSX's original listing requirements, the Units of the New BMO ETFs, the New Hedged Units and the New USD Units will be listed on the TSX and offered on a continuous basis, and an investor will be able to buy or sell these Units on the TSX through registered brokers and dealers in the province or territory where the investor resides. Investors may incur customary brokerage commissions in buying or selling the Units.

Units of the BMO ETFs (other than the Units of the New BMO ETFs, the New Hedged Units and the New USD Units) are listed on the TSX or the NEO Exchange, as applicable, and offered on a continuous basis.

While each BMO ETF will be a mutual fund under the securities legislation of each of the provinces and territories of Canada, each has been granted exemptive relief from certain provisions of Canadian Securities Legislation applicable to conventional mutual funds. See "Exemptions and Approvals".

The Index BMO ETFs are "index mutual funds" as such term is defined in NI 81-102. The Non-Index BMO ETFs are not index mutual funds and are managed at the discretion of the Manager in accordance with their investment strategies and, as such, are generally more active in nature than index mutual funds.

The office for service of notice to the BMO ETFs and the Manager is located at 250 Yonge Street, 7th Floor, Toronto, Ontario M5B 2M8 (the registered office of the BMO ETFs and the Manager is located at 100 King Street West, 43rd Floor, Toronto, Ontario M5X 1A1).

### **The Indices**

#### ***Bloomberg Barclays Emerging Markets Tradable External Debt (EMTED) GDP Weighted Capped Index CAD Hedged***

The Bloomberg Barclays Emerging Markets Tradable External Debt (EMTED) GDP Weighted Capped Index CAD Hedged is a rules-based index designed to provide diversified exposure to USD-denominated sovereign debt from emerging market issuers spanning four broad regions: (i) Latin America; (ii) Europe; (iii) the Middle East and Africa; and (iv) Asia. The basket is designed to be broad-based in its coverage of emerging market sovereign issuers, yet tradable by specifically focusing on the most liquid securities and countries from each region within predefined maturity bands (i.e., from 18 months to no greater than 10 years to maturity at rebalancing). The Bloomberg Barclays Emerging Markets Tradable External Debt (EMTED) GDP Weighted Capped Index CAD Hedged is rebalanced annually and is differentiated by its use of gross domestic product as a measure of economy size to determine the relative weights of each country within the basket, rather than using the market value of outstanding debt as in traditional benchmark bond indices. Further information about the Bloomberg Barclays Emerging Markets Tradable External Debt (EMTED) GDP Weighted Capped Index CAD Hedged and its constituent issuers is available from Bloomberg on its website at <http://bloombergindices.com>.

#### ***Bloomberg Barclays MSCI Canadian Corporate Sustainability SRI Index***

The Bloomberg Barclays MSCI Canadian Corporate Sustainability SRI Index screens issuers from the parent index, Bloomberg Barclays Canadian Corporate Index based on MSCI ESG ratings. The Index captures the performance of fixed income securities that have been assigned higher ESG ratings by MSCI relative to their peers. The index excludes securities of companies that earn a significant portion of revenues from tobacco, adult entertainment, alcohol, gambling, conventional weapons and civilian firearms, any controversial weapons, significant generation of nuclear power, unconventional oil and gas as well as companies involved in severe business controversies (in each case as determined by the Index Provider). The Index has been developed by Bloomberg Barclays with ESG rating inputs from MSCI ESG Research pursuant to an agreement between MSCI ESG Research and Bloomberg Index Services Limited (a subsidiary of Bloomberg Barclays) or an affiliate. Further information about the Bloomberg Barclays MSCI Canadian Corporate Sustainability SRI Index and its constituent issuers is available from Bloomberg on its website at <http://bloombergindices.com>.

#### ***Bloomberg Barclays MSCI US Corporate Sustainability SRI Index***

The Bloomberg Barclays MSCI US Corporate Sustainability SRI Index screens issuers from the parent index, Bloomberg Barclays US Corporate Index based on MSCI ESG ratings. The Index captures the performance of fixed income securities that have been assigned higher ESG ratings by MSCI relative to their peers. The index excludes securities of companies that earn a significant portion of revenues from tobacco, adult entertainment, alcohol, gambling, conventional weapons and civilian firearms, any controversial weapons, significant generation of nuclear power, unconventional oil and gas as well as companies involved in severe business controversies (in each case as determined by the Index Provider). #### ***Bloomberg Barclays MSCI US High Yield Liquid Corporate Sustainability SRI Index***

The Bloomberg Barclays MSCI US High Yield Liquid Corporate Sustainability SRI Index screens issuers from the parent index, Bloomberg Barclays Capital U.S. High Yield Very Liquid Index based on MSCI ESG ratings. The Index aims to capture the performance of fixed income securities that have been assigned higher ESG ratings by MSCI relative to their peers. The Index excludes securities of companies that earn a significant portion of revenues from tobacco, adult entertainment, alcohol, gambling, conventional weapons and civilian firearms, any controversial weapons, significant generation of nuclear power, unconventional oil and gas as well as companies involved in severe

business controversies (in each case as determined by the Index Provider). The Index has been developed by Bloomberg Barclays with ESG rating inputs from MSCI ESG Research pursuant to an agreement between MSCI ESG Research and Bloomberg Index Services Limited (a subsidiary of Bloomberg Barclays) or an affiliate. Further information about the Bloomberg Barclays MSCI US High Yield Corporate ESG Sustainability SRI Index and its Constituent Issuers is available from Bloomberg on its website at <http://bloombergindices.com>.

#### ***Bloomberg Barclays US Government Inflation-Linked 0-5 Year Bond Index***

The Bloomberg Barclays US Government Inflation-Linked 0-5 Year Bond Index measures the performance of the US Treasury Inflation Protected Securities (TIPS) market. Eligible securities must have maturities between 0 and 5 years, greater than US \$500 million outstanding, and principal and interest must be inflation-linked and denominated in USD.

#### ***Bloomberg Barclays U.S. High Yield Very Liquid Index***

The Bloomberg Barclays U.S. High Yield Very Liquid Index is a more liquid version of the U.S. Corporate High Yield Index that consists of United States dollar-denominated, non-investment grade, fixed rate, taxable corporate bonds. In addition, each issue has a US\$500 million minimum amount outstanding and must be less than five years from issue date. The Index also limits the exposure to each issuer to 2% of the total market value. Each security in the Bloomberg Barclays U.S. High Yield Very Liquid Index is weighted by its relative market capitalization and rebalanced on a monthly basis. Further information about the Bloomberg Barclays U.S. High Yield Very Liquid Index and its constituent issuers is available from Bloomberg on its website at <http://bloombergindices.com>.

#### ***Bloomberg Barclays U.S. High Yield Very Liquid Index CAD Hedged***

The Bloomberg Barclays U.S. High Yield Very Liquid Index CAD Hedged is a more liquid version of the U.S. Corporate High Yield Index that consists of United States dollar-denominated, non-investment grade, fixed rate, taxable corporate bonds. In addition, each issue has a US\$500 million minimum amount outstanding and must be less than five years from issue date. The Index also limits the exposure to each issuer to 2% of the total market value. Each security in the Bloomberg Barclays U.S. High Yield Very Liquid Index CAD Hedged is weighted by its relative market capitalization and rebalanced on a monthly basis. Further information about the Bloomberg Barclays U.S. High Yield Very Liquid Index CAD Hedged and its constituent issuers is available from Bloomberg on its website at <http://bloombergindices.com>.

#### ***Bloomberg Barclays US Investment Grade 5 to 10 Year Corporate Bond Capped Index***

Bloomberg Barclays US Investment Grade 5 to 10 Year Corporate Bond Capped Index measures the investment grade, fixed-rate, taxable, corporate bond market. It includes U.S. dollar denominated securities publicly issued by U.S. and non-U.S. industrial, utility, and financial issuers. Eligible securities must have less than five years from issue date, between five and ten years to maturity, and greater than US \$750 million outstanding. The Index includes only the three largest issues from each issuer. Exposure to each issuer is limited to 2% of the total market value of the Index, any excess market value is redistributed index-wide on a pro-rata basis. Further information about the Bloomberg Barclays US Investment Grade 5 to 10 Year Corporate Bond Capped Index and its constituent issuers is available from Bloomberg on its website at <http://bloombergindices.com>.

#### ***Bloomberg Barclays US Investment Grade 1 to 5 Year Corporate Bond Capped Index CAD Hedged***

The Bloomberg Barclays US Investment Grade 1 to 5 Year Corporate Bond Capped Index CAD Hedged measures the investment grade, fixed-rate, taxable, corporate bond market. It includes U.S. dollar denominated securities publicly issued by U.S. and non-U.S. industrial, utility, and financial issuers. Eligible securities must have less than five years from issue date, between one and five years to maturity, and greater than US \$750 million outstanding. The Index includes only the three largest issues from each issuer. Exposure to each issuer is limited to 2% of the total market value of the Index, any excess market value is redistributed index-wide on a pro-rata basis. The U.S. dollar currency exposure is hedged back to Canadian dollars. Further information about the Bloomberg Barclays US Investment Grade 1 to 5 Year Corporate Bond Capped Index CAD Hedged and its constituent issuers is available from Bloomberg on its website at <http://bloombergindices.com>.

Further information about the Bloomberg Barclays U.S. Treasury 20+ Year Index is available from Bloomberg on its website at <http://bloombergindices.com>.

### ***Dow Jones Brookfield Global Infrastructure North American Listed Index***

The Dow Jones Brookfield Global Infrastructure North American Listed Index is a float-adjusted market capitalization weighted index that reflects shares of securities actually available to investors in the marketplace. To be eligible for inclusion in the Dow Jones Brookfield Global Infrastructure North American Listed Index, a company must have a minimum float-adjusted market capitalization of US\$500 million as well as a minimum three-month average daily trading volume of US\$1 million. Securities of constituent issuers also must be listed on a North American stock exchange. Further information about the Dow Jones Brookfield Global Infrastructure North American Listed Index and its constituent issuers is available from Dow Jones on its website at [www.djindexes.com](http://www.djindexes.com).

### ***Dow Jones Industrial Average (CAD hedged)***

The DJIA was first published in 1896. Initially comprised of 12 companies, the DJIA has evolved into the most recognizable stock indicator in the world, and the only index composed of companies that have sustained earnings performance over a significant period of time. In its second century, the DJIA is the oldest continuous barometer of the United States stock market, and the most widely quoted indicator of United States stock market activity. The 30 stocks now comprising the DJIA are all leaders in their respective industries, and their stocks are widely held by individuals and institutional investors. The DJIA is a price-weighted stock index, meaning that the component stocks of the DJIA are accorded relative importance based on their prices. In this regard, the DJIA is unlike many other stock indices which weight their component stocks by market capitalization (price times shares outstanding). The DJIA is called an “average” because originally it was calculated by adding up the component stock

prices and then dividing by the number of stocks. The method remains the same today, but the number of significant digits in the divisor (the number that is divided into the total of the stock prices) has been increased to eight significant digits to minimize distortions due to rounding and has been adjusted over time to ensure continuity of the DJIA after component stock changes and corporate actions. The DJIA divisor is adjusted due to corporate actions that change the price of any of its component shares. The most frequent reason for such an adjustment is a stock split.

Changes in the composition of the DJIA are made entirely by the editors of The Wall Street Journal without consultation with the companies, the respective stock exchange or any official agency. Additions or deletions of components may be made to achieve better representation of the broad market and of American industry. In selecting components for the DJIA, the following criteria are used: (i) the company is not a utility or in the transportation business; (ii) the company has a premier reputation in its field; (iii) the company has a history of successful growth; and (iv) there is wide interest in the company among individual and institutional investors. Whenever one component is changed, the others are reviewed. For the sake of historical continuity, composition changes are rarely made. Further information about the Dow Jones Industrial Average (CAD hedged) and its constituent issuers is available from Dow Jones on its website at [www.djindexes.com](http://www.djindexes.com).

#### ***Dow Jones North America Select Junior Gold Index***

The Dow Jones North America Select Junior Gold Index is a float-adjusted market capitalization weighted index that tracks the securities that are classified on the Industry Classification Benchmark as gold mining. The Dow Jones North America Select Junior Gold Index is constructed by identifying and selecting, from the securities that constitute the Dow Jones Canada Total Stock Market Index and the Dow Jones U.S. Total Stock Market Index, the securities of companies that possess float-adjusted market values that are between certain established thresholds. To be included in the Index as a constituent security, an issue generally must be: (i) a company's common shares or other securities that have the characteristics of common equities; and (ii) the security of a company that is incorporated in, or has its primary market listing in, Canada or the United States and that meets certain minimum trading volume requirements. Further information about the Dow Jones North America Select Junior Gold Index and its constituent issuers is available from Dow Jones on its website at [www.djindexes.com](http://www.djindexes.com).

#### ***FTSE Canada 1-10 year A+ Corporate Bond Index™***

The MSCI ACWI IMI Next Generation Internet Innovation Index is based on the parent index, MSCI ACWI IMI Index, which includes large, mid and small-cap capitalization stocks across developed market and emerging market countries. The Index aims to capture the performance of companies which have significant revenues from the migration of technology infrastructure to the cloud, the increased use of shared technology, infrastructure and services as well as from the increased adoption of internet-based products and services, new payment methods, big data, the internet of things, and social media. Further information about the MSCI ACWI IMI Next Generation Internet Innovation Index is available from MSCI on its website at [www.msci.com](http://www.msci.com).

#### ***MSCI ACWI Quality Index***

The MSCI ACWI Quality Index is based on the parent index, the MSCI ACWI, which includes large- and mid-capitalization stocks across developed market and emerging market countries. The index aims to capture the performance of quality stocks selected from the parent index, by identifying stocks with high quality scores based on three main fundamental variables: high return on equity; stable year-over-year earnings growth, which may be measured by the standard deviation of earnings growth over the last five fiscal years; and low financial leverage, which may be measured by the debt-to-equity ratio. The quality score for each security is calculated by normalizing the three fundamental variables using winsorized Z scores. Computing a Z score is a widely used method of standardizing a variable in order to combine it with other variables that may have a different unit of measurement or a different scale. Based on the quality scores, a fixed number of constituent securities are selected for the MSCI ACWI Quality Index. The MSCI ACWI Quality Index weights the securities by the product of their market capitalization weight in the parent index and the quality score. The MSCI ACWI Quality Index reweights the selected quality growth

stocks from the parent index to emphasize stocks with high quality scores. Further information about the MSCI ACWI Quality Index is available from MSCI on its website at [www.msci.com](http://www.msci.com).

#### ***MSCI Canada Enhanced Value Capped Index***

The MSCI Canada Enhanced Value Capped Index is based on the parent index, the MSCI Canada Index, which includes large and mid-capitalization stocks across Canada. The Index aims to capture the performance of securities that have been assigned higher value characteristics relative to their peers within the corresponding GICS® sector. The Index aims to capture the performance of higher value stocks selected from the parent index, by identifying stocks with higher value characteristics based on three variables: price-to-book value, price-to-forward earnings and enterprise value-to-cash flow from operations. The value score for each security is calculated by combining the z-scores of the three variables. The Index is constructed with a fixed number of securities, by selecting constituents from their parent index based on their final value scores and a 10% security cap is applied. Further information about the MSCI Canada Enhanced Value Capped Index and its constituent issuers is available from MSCI on its website at [www.msci.com](http://www.msci.com).

#### ***MSCI Canada ESG Leaders Index***

The MSCI Canada ESG Leaders Index is based on the parent index, the MSCI Canada Index, which includes large and mid-capitalization stocks across Canada. The Index aims to capture the performance of securities that have been assigned higher ESG ratings by MSCI relative to their peers within the corresponding Global Industry Classification Standard (GICS®) sector. The Index uses MSCI ESG ratings to identify companies and targets 50% of the free float-adjusted market capitalization within each GICS® sector by only selecting companies that have the highest ratings in each such sector. The portfolio is weighted by market capitalization. The index excludes securities of companies that earn a significant portion of revenues from tobacco, alcohol, gambling, conventional weapons and civilian firearms, any controversial weapons, significant generation of nuclear power, unconventional oil and gas as well as companies involved in severe business controversies (in each case as determined by the Index Provider). Further information about the MSCI Canada ESG Leaders Index and its constituent issuers is available from MSCI on its website at [www.msci.com](http://www.msci.com).

#### ***MSCI EAFE 100% Hedged to CAD Index***

The MSCI EAFE 100% Hedged to CAD Index is an equity index that captures large and mid-capitalization representation across developed market countries around the world, excluding the U.S. and Canada. MSCI EAFE 100% Hedged to CAD Index covers approximately 85% of the free float-adjusted market capitalization in each country. Foreign currency exposure is also hedged back to the Canadian dollar. Further information about the MSCI EAFE 100% Hedged to CAD Index and its constituent issuers is available from MSCI on its website at [www.msci.com](http://www.msci.com).

#### ***MSCI EAFE ESG Leaders Index***

The MSCI EAFE ESG Leaders Index is based on the parent index, the MSCI EAFE Index, which includes large and mid-capitalization stocks internationally. The Index aims to capture the performance of securities that have been assigned higher MSCI ESG ratings relative to their peers within the corresponding Global Industry Classification Standard (GICS®) sector. The Index uses MSCI ESG ratings to identify companies and targets 50% of the free float-adjusted market capitalization within each GICS® sector by only selecting companies that have the highest ratings in each such sector. The portfolio is weighted by market capitalization. The Index excludes securities of companies that earn a significant portion of revenues from tobacco, alcohol, gambling, conventional weapons and civilian firearms, any controversial weapons, significant generation of nuclear power, unconventional oil and gas as well as companies involved in severe business controversies (in each case as determined by the Index Provider). Further information about the MSCI EAFE ESG Leaders Index and its constituent issuers is available from MSCI on its website at [www.msci.com](http://www.msci.com).

#### ***MSCI EAFE Index***

The MSCI EAFE Index is an equity index that captures large and mid-capitalization representation across developed market countries around the world, excluding the United States and Canada. The MSCI EAFE Index covers approximately 85% of the free float-adjusted market capitalization in each country. Further information about the MSCI EAFE Index is available from MSCI on its website at [www.msci.com](http://www.msci.com).

### ***MSCI Emerging Markets Index***

The MSCI Emerging Markets Index is an equity index that captures large and mid-capitalization representation across emerging markets countries. The MSCI Emerging Markets Index covers approximately 85% of the free float-adjusted market capitalization in each country. Further information about the MSCI Emerging Markets Index and its constituent issuers is available from MSCI on its website at [www.msci.com](http://www.msci.com).

### ***MSCI Europe Quality 100% Hedged to CAD Index***

The MSCI Europe Quality 100% Hedged to CAD Index is based on a traditional market capitalization-weighted parent index, the MSCI Europe Index, which includes large- and mid-capitalization stocks. The Index aims to capture the performance of quality stocks selected from the parent index, by identifying stocks with high quality scores based on three main fundamental variables: high return on equity; stable year-over-year earnings growth, which may be measured by the standard deviation of earnings growth over the last five fiscal years; and low financial leverage, which may be measured by the debt-to-equity ratio. The quality score for each security is calculated by normalizing the three fundamental variables using winsorized Z scores. Computing a Z score is a widely used method of standardizing a variable in order to combine it with other variables that may have a different unit of measurement or a different scale. Based on the quality scores, a fixed number of constituent securities are selected for the MSCI Europe Quality 100% Hedged to CAD Index. The MSCI Europe Quality 100% Hedged to CAD Index weights the securities by the product of their market capitalization weight in the parent index and the quality score. The MSCI Europe Quality 100% Hedged to CAD Index is 100% hedged to CAD by notionally selling each foreign currency forward at the one-month forward exchange rate at the end of each month. The components of the MSCI Europe Quality 100% Hedged to CAD Index, as well as the countries included in it, may change over time. Further information about the MSCI Europe Quality 100% Hedged to CAD Index and its constituent issuers is available from MSCI on its website at [www.msci.com](http://www.msci.com).

### ***MSCI World ESG Leaders Index***

The MSCI World ESG Leaders Index is based on the parent index, the MSCI World, which includes large and mid-capitalization stocks globally. The Index aims to capture the performance of securities that have been assigned higher MSCI ESG ratings relative to their peers within the corresponding Global Industry Classification Standard (GICS®) sector. The Index uses MSCI ESG ratings to identify companies and targets 50% of the free float-adjusted market capitalization within each GICS® sector by only selecting companies that have the highest ratings in each such sector. The portfolio is weighted by market capitalization. The Index excludes securities of companies that earn a significant portion of revenues from tobacco, alcohol, gambling, conventional weapons and civilian firearms, any controversial weapons, significant generation of nuclear power, unconventional oil and gas as well as companies involved in severe business controversies (in each case as determined by the Index Provider). Further information about the MSCI World ESG Leaders Index and its constituent issuers is available from MSCI on its website at [www.msci.com](http://www.msci.com).

### ***MSCI USA Enhanced Value Capped Index***

The MSCI USA Enhanced Value Capped Index is based on the parent index, the MSCI USA Index, which includes large and mid-capitalization stocks across the U.S. The Index aims to capture the performance of securities that exhibit higher value characteristics relative to their peers within the corresponding GICS® sector. The Index aims to capture the performance of higher value stocks selected from the parent index, by identifying stocks with higher value characteristics based on three variables: price-to-book value, price-to-forward earnings and enterprise value-to-cash flow from operations. The value score for each security is calculated by combining the z-scores of the three variables. The Index is constructed with a fixed number of securities, by selecting constituents from the parent index based on their final value scores and a 10% security cap is applied. Further information about the MSCI USA Enhanced Value Capped Index and its constituent issuers is available from MSCI on its website at [www.msci.com](http://www.msci.com).

### ***MSCI USA ESG Leaders Index***

The MSCI USA ESG Leaders Index is based on the parent index, the MSCI USA Index, which includes large and mid-capitalization stocks across the US. The Index aims to capture the performance of securities that have been assigned higher MSCI ESG ratings relative to their peers within the corresponding Global Industry Classification Standard (GICS®) sector. The Index uses MSCI ESG ratings to identify companies and targets 50% of the free float-adjusted market capitalization within each GICS® sector by only selecting companies that have the highest ratings in

each such sector. The portfolio is weighted by market capitalization. The Index excludes securities of companies that earn a significant portion of revenues from tobacco, alcohol, gambling, conventional weapons and civilian firearms, any controversial weapons, significant generation of nuclear power, unconventional oil and gas as well as companies involved in severe business controversies (in each case as determined by the Index Provider). Further information about the MSCI USA ESG Leaders Index and its constituent issuers is available from MSCI on its website at [www.msci.com](http://www.msci.com).

#### ***MSCI USA Quality Index***

The MSCI USA Quality Index is based on a traditional market capitalization-weighted parent index, the MSCI USA Index, which includes large- and mid-capitalization stocks across the US. The Index aims to capture the performance of quality stocks selected from the parent index, by identifying stocks with high quality scores based on three main fundamental variables: high return on equity; stable year-over-year earnings growth, which may be measured by the standard deviation of earnings growth over the last five fiscal years; and low financial leverage, which may be measured by the debt-to-equity ratio. The quality score for each security is calculated by normalizing the three fundamental variables using winsorized Z scores. Computing a Z score is a widely used method of standardizing a variable in order to combine it with other variables that may have a different unit of measurement or a different scale. Based on the quality scores, a fixed number of constituent securities are selected for the MSCI USA Quality Index. The MSCI USA Quality Index weights the securities by the product of their market capitalization weight in the parent index and the quality score. The MSCI USA Quality Index reweights the selected quality growth stocks from the parent index to emphasize stocks with high quality scores. Further information about the MSCI USA Quality Index and its constituent issuers is available from MSCI on its website at [www.msci.com](http://www.msci.com).

#### ***NASDAQ-100 Index***

The NASDAQ-100 Index is a modified market capitalization weighted index that tracks 100 of the largest non-financial securities listed on the Nasdaq Stock Market based on market capitalization. The NASDAQ-100 Index is constructed by identifying and selecting, from the securities that constitute the Nasdaq Stock Market, the securities of companies that rank in the top 100 eligible securities based on market capitalization. To be included in the Index as a Constituent security, an issue generally must be: (i) an eligible security type including common stocks, ordinary shares, ADRs, shares of beneficial interest or limited partnerships interests and tracking stocks; and (ii) the security of a company that is exclusively listed on the Nasdaq Global Select Market (unless the security was dually listed on another United States market prior to January 1, 2004 and has continuously maintained such listing) having an average daily trading volume of at least 200,000 shares. Constituent securities of the Index and the total constituent securities outstanding of any constituent issuer of the Index are updated quarterly after the close of trading on the third Friday of March, June, September and December and such updates become effective at the opening of trading on the first Monday thereafter. In addition to these scheduled reviews, the Index is also reviewed and updated on an on-going basis to account for extraordinary events such as delistings, bankruptcies, spin-offs, mergers or take-overs involving constituent issuers. Further information about the NASDAQ-100 Index and its constituent issuers is available from NASDAQ on its website at <https://indexes.nasdaqomx.com/>.

#### ***NASDAQ-100 Index Hedged to CAD***

The NASDAQ-100 Index Hedged to CAD is a modified market capitalization weighted index that tracks 100 of the largest non-financial securities listed on the Nasdaq Stock Market based on market capitalization. The NASDAQ-100 Index Hedged to CAD is constructed by identifying and selecting, from the securities that constitute the Nasdaq Stock Market, the securities of companies that rank in the top 100 eligible securities based on market capitalization. To be included in the Index as a constituent security, an issue generally must be: (i) an eligible security type including common stocks, ordinary shares, ADRs, shares of beneficial interest or limited partnerships interests and tracking stocks; and (ii) the security of a company that is exclusively listed on the Nasdaq Global Select Market (unless the security was dually listed on another United States market prior to January 1, 2004 and has continuously maintained such listing) having an average daily trading volume of at least 200,000 shares. Constituent securities of the Index and the total constituent securities outstanding of any constituent issuer of the Index are updated quarterly after the close of trading on the third Friday of March, June, September and December and such updates become effective at the opening of trading on the first Monday thereafter. In addition to these scheduled reviews, the Index is also reviewed and updated on an on-going basis to account for extraordinary events such as delistings, bankruptcies, spin-offs, mergers or take-overs involving constituent issuers. Further information about the NASDAQ-100 Index

Hedged to CAD and its constituent issuers is available from NASDAQ on its website at <https://indexes.nasdaqomx.com/>.

#### ***S&P/BNY Mellon China Select ADR Index***

The S&P/BNY Mellon China Select ADR Index (as calculated in Canadian dollars) is comprised of a select group of American depository receipts traded on the New York Stock Exchange (“NYSE”), NYSE Amex or NASDAQ which are domiciled in China. ### ***Solactive US Preferred Share Select Index (NTR)***

The Solactive US Preferred Share Select Index (NTR) measures the U.S. Preferred Share market that pays higher dividends. Eligible securities must be U.S. listed, have a minimum market capitalization of US\$100 million and meet the minimum liquidity requirements. Further information about the Solactive US Preferred Share Select Index (NTR) and its constituent issuers is available from Solactive on its website at [www.solactive.com](http://www.solactive.com).

### **Change in an Underlying Index**

The Manager may, subject to any required Unitholder approval, change the Index underlying an Index BMO ETF to another widely-recognized index in order to provide substantially the same exposure to the asset class to which that Index BMO ETF is currently exposed. If the Manager changes the Index underlying any Index BMO ETF, or any index replacing such Index, the Manager will issue a press release identifying the new Index, describing the new Index's constituent securities and specifying the reasons for the change in the Index.

### **Termination of the Indices**

The Index Providers calculate, determine and maintain the respective Indices. In the event that an Index Provider ceases to calculate an Index or a License Agreement is terminated, the Manager may terminate the applicable Index BMO ETF(s) on 60 days' notice, change the investment objective of that Index BMO ETF, seek to replicate an alternative index or make such other arrangements as the Manager considers appropriate and in the best interests of Unitholders of the Index BMO ETF in the circumstances.

### **Use of the Indices**

The Manager and the applicable Index BMO ETF are permitted to use the applicable Index pursuant to the applicable License Agreement described below under "Material Contracts – License Agreements". The Manager and the Index BMO ETFs do not accept responsibility for, or guarantee the accuracy and/or completeness of, the Indices or any data included in the Indices.

### **Non-Index BMO ETFs**

Each of the Non-Index BMO ETFs seeks to provide a specified investment result, as outlined herein.

#### ***BMO Balanced ESG ETF***

BMO Balanced ESG ETF seeks to provide a balance of income and potential for long-term capital appreciation, primarily by investing in ETFs that have been selected based on ESG factors and that provide exposure to a diversified portfolio of global equity and fixed income securities.

#### ***BMO Balanced ETF***

BMO Balanced ETF seeks to provide a balance of income and potential for long-term capital appreciation, primarily by investing in ETFs that provide exposure to a diversified portfolio of global equity and fixed income securities.

#### ***BMO Canadian Dividend ETF***

BMO Canadian Dividend ETF seeks to provide exposure to the performance of a yield weighted portfolio of Canadian dividend paying stocks. The selected companies will have the potential for long-term capital appreciation.

#### ***BMO Canadian High Dividend Covered Call ETF***

BMO Canadian High Dividend Covered Call ETF seeks to provide exposure to the performance of a portfolio of dividend paying Canadian companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

#### **BMO Conservative ETF**

BMO US Put Write Hedged to CAD ETF seeks to provide exposure to the performance of a portfolio of put options on U.S. large capitalization equity securities to generate income. BMO US Put Write Hedged to CAD ETF will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

## INVESTMENT STRATEGIES

### **Index BMO ETFs**

The investment strategy of each Index BMO ETF is generally to invest in and hold a proportionate share of the constituent securities of the applicable Index, or Other Securities, to seek to replicate the performance of that Index, in order to achieve its investment objectives. The Index BMO ETFs may also hold cash and cash equivalents or other money market instruments in order to meet their current obligations.

The Manager may use a sampling methodology in selecting investments for an Index BMO ETF. Sampling means that the Manager will use quantitative analysis to select securities from the applicable Index to obtain a representative sample of securities that resemble the Index in terms of key risk factors, performance attributes, industry weightings, market capitalization and other appropriate financial characteristics. The quantity of constituent securities selected using such sampling methodology will be based on a number of factors, including the asset base of the Index BMO ETF.

When an Index BMO ETF invests in Underlying Funds, it will predominantly, if not exclusively, invest in Underlying Funds that are managed by the Manager or one of its affiliates. For more information about the conflicts of interest associated with the Index BMO ETFs investing in Underlying Funds associated with the Manager, please see “Organization and Management Details of the BMO ETFs – Conflicts of Interest”.

#### ***BMO Aggregate Bond Index ETF***

The investment strategy of BMO Aggregate Bond Index ETF is currently to invest in and hold the constituent securities of the FTSE Canada Universe Bond Index™ in the same proportion as they are reflected in the Index. The portfolio of each Index BMO ETF is generally expected to be rebalanced by the end of the first Trading Day after the day on which any adjustment is effected.

#### **Non-Index BMO ETFs**

The investment strategy of each Non-Index BMO ETF is to invest in and hold a portfolio of securities selected by the Manager and/or use derivative instruments in order as set forth under “Investment Objectives”. The Non-Index BMO ETFs may also hold cash and cash equivalents or other money market instruments in order to meet their current obligations.

When a Non-Index BMO ETF invests in Underlying Funds, it will predominantly, if not exclusively, invest in Underlying Funds that are managed by the Manager or one of its affiliates. For more information about the conflicts of interest associated with the Non-Index BMO ETFs investing in Underlying Funds associated with the Manager, please see “Organization and Management Details of the BMO ETFs – Conflicts of Interest”.

In addition, the Non-Index BMO ETFs employ the investment strategies described below:

### ***BMO Balanced ESG ETF***

BMO Balanced ESG ETF will employ a strategic asset allocation strategy and is expected to primarily invest in other BMO ETFs. The BMO ETF's asset class weightings will be approximately 60% in equity securities and 40% in fixed income. The equity and fixed income securities will primarily be selected based on ESG ratings assigned by the index providers associated with the underlying ETFs. As an alternative to or in conjunction with investing directly in ETFs, exposure may be obtained by investing directly in equity and fixed income securities, in mutual funds and/or in derivative instruments.

### ***BMO Balanced ETF***

BMO Balanced ETF will employ a strategic asset allocation strategy and is expected to primarily invest in other BMO ETFs. The BMO ETF's asset class weightings will be approximately 60% in equity securities and 40% in fixed income securities.

As an alternative to or in conjunction with investing directly in ETFs, exposure may be obtained by investing directly in equity and fixed income securities, in mutual funds and/or in derivative instruments.

### ***BMO Canadian Dividend ETF***

BMO Canadian Dividend ETF will primarily invest in and hold dividend paying equity securities of Canadian companies.

Securities will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

### ***BMO Canadian High Dividend Covered Call ETF***

BMO Canadian High Dividend Covered Call ETF will primarily invest in and hold dividend paying equity securities of Canadian companies.

The selected companies will have the potential for long-term capital appreciation.

Securities will be selected using a rules based methodology that considers dividend growth, yield, and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

Depending on market volatility and other factors, BMO Canadian High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO Canadian High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

### ***BMO Conservative ETF***

BMO Conservative ETF will employ a strategic asset allocation strategy and is expected to primarily invest in other BMO ETFs. The BMO ETF's asset class weightings will be approximately 60% in fixed income securities and 40% in equity securities.

As an alternative to or in conjunction with investing directly in ETFs, exposure may be obtained by investing directly in equity and fixed income securities, in mutual funds and/or in derivative instruments.

### ***BMO Covered Call Canadian Banks ETF***

BMO Covered Call Canadian Banks ETF will primarily invest in and hold the securities of Canadian banks, ETFs, or a combination of these. BMO Covered Call Canadian Banks ETF currently invests in BMO Equal Weight Banks Index ETF.

Depending on market volatility and other factors, BMO Covered Call Canadian Banks ETF will write covered call options on these securities. Under such call options, BMO Covered Call Canadian Banks ETF will sell to the buyer of the option, for a premium, either a right to buy the security from the ETF at an exercise price or, if the option is cash settled, the right to a payment from the ETF equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

#### ***BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF***

BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF will primarily invest in and hold securities of the issuers included in the Dow Jones Industrial Average in the proportions in which they are reflected in the Dow Jones Industrial Average and use derivative instruments to hedge back to the Canadian dollar.

Depending on market volatility and other factors, BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF will write covered call options on these securities. Under such call options, BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF will sell to the buyer of the option, for a premium, either a right to buy the security from the ETF at an exercise price or, if the option is cash settled, the right to a payment from the ETF equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

#### ***BMO Covered Call Technology ETF***

BMO Covered Call Technology ETF will primarily invest in and hold the equity securities of technology companies and technology related companies that have the potential for long-term capital appreciation.

Depending on market volatility and other factors, BMO Covered Call Technology ETF will write covered call options on these securities. Under such call options, BMO Covered Call Technology ETF will sell to the buyer of the option, for a premium, either a right to buy the security from the ETF at an exercise price or, if the option is cash settled, the right to a payment from the ETF equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

#### ***BMO Covered Call US Banks ETF***

BMO Covered Call US Banks ETF will primarily invest in and hold the equity securities of US banks.

Depending on market volatility and other factors, BMO Covered Call US Banks ETF will write covered call options on these securities. Under such call options, BMO Covered Call US Banks ETF will sell to the buyer of the option, for a premium, either a right to buy the security from the ETF at an exercise price or, if the option is cash settled, the right to a payment from the ETF equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

#### ***BMO Covered Call Utilities ETF***

BMO Covered Call Utilities ETF will primarily invest in and hold the equity securities of Canadian companies widely recognized as utilities companies, which may also include telecommunication and pipeline companies, and use derivative instruments to hedge US dollar securities back to the Canadian dollar.

Depending on market volatility and other factors, BMO Covered Call Utilities ETF will write covered call options on these securities. Under such call options, BMO Covered Call Utilities ETF will sell to the buyer of the option, for a premium, either a right to buy the security from the ETF at an exercise price or, if the option is cash settled, the right to a payment from the ETF equal to the difference between the value of the security and the exercise

price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

#### ***BMO Europe High Dividend Covered Call ETF***

BMO Europe High Dividend Covered Call ETF will primarily invest in and hold the equity securities of dividend paying European companies.

Securities will be selected using a rules based methodology that considers dividend growth, yield, and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

Depending on market volatility and other factors, BMO Europe High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO Europe High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

#### ***BMO Europe High Dividend Covered Call Hedged to CAD ETF***

BMO Europe High Dividend Covered Call Hedged to CAD ETF will primarily obtain exposure to equity securities of dividend paying European companies. Currently, the ETF primarily invests in BMO Europe High Dividend Covered Call ETF and uses derivative instruments to hedge back to the Canadian dollar.

Securities held by BMO Europe High Dividend Covered Call ETF will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

Depending on market volatility and other factors, BMO Europe High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO Europe High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by BMO Europe High Dividend Covered Call ETF at the time the options are written by BMO Europe High Dividend Covered Call ETF. The call options written by BMO Europe High Dividend Covered Call ETF may be either exchange traded options or over-the-counter options.

As an alternative to or in conjunction with obtaining exposure to equity securities of dividend paying European companies by investing in BMO Europe High Dividend Covered Call ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

#### ***BMO Floating Rate High Yield ETF***

BMO Floating Rate High Yield ETF will primarily hold securities and derivative instruments that provide exposure to the credit risk of non-investment grade issuers, and Government of Canada T-Bills. To gain high yield credit exposure, BMO Floating Rate High Yield ETF may invest directly in debt securities, other ETFs, mutual funds or other investment funds and may utilize derivatives, such as credit default swaps (CDS), indices of CDS, interest rate swaps and other derivatives.

#### ***BMO Global High Dividend Covered Call ETF***

BMO Global High Dividend Covered Call ETF will primarily invest in and hold dividend paying equity securities of global companies. The selected companies will have the potential for long-term capital appreciation.

Securities will be selected using a rules based methodology that considers dividend growth, yield, and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

Depending on market volatility and other factors, BMO Global High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO Global High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

#### ***BMO Growth ETF***

BMO Growth ETF will employ a strategic asset allocation strategy and is expected to primarily invest in other BMO ETFs. The BMO ETF's asset class weightings will be approximately 80% in equity securities and 20% in fixed income securities.

As an alternative to or in conjunction with investing directly in ETFs, exposure may be obtained by investing directly in equity and fixed income securities, in mutual funds and/or in derivative instruments.

#### ***BMO International Dividend ETF***

BMO International Dividend ETF will primarily invest in and hold dividend paying equity securities of international companies.

Securities will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

#### ***BMO International Dividend Hedged to CAD ETF***

BMO International Dividend Hedged to CAD ETF will primarily obtain exposure to dividend paying equity securities of international companies. Currently, the ETF primarily invests in BMO International Dividend ETF and uses derivative instruments to hedge back to the Canadian dollar.

Securities held by BMO International Dividend ETF will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

As an alternative to or in conjunction with obtaining exposure to dividend paying equity securities of international companies by investing in BMO International Dividend ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

#### ***BMO Low Volatility Canadian Equity ETF***

BMO Low Volatility Canadian Equity ETF will primarily invest in and hold equities of Canadian companies.

Securities will be selected from the largest and most liquid securities in Canada. The securities that have lower sensitivity to market movements (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

#### ***BMO Low Volatility Emerging Markets Equity ETF***

BMO Low Volatility Emerging Markets Equity ETF will primarily invest in and hold equity securities of emerging market companies.

Securities will be selected from the large capitalization emerging market equity universe. The securities that have lower sensitivity to market movement (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

#### ***BMO Low Volatility International Equity ETF***

BMO Low Volatility International Equity ETF will primarily invest in and hold equity securities of international companies.

Securities will be selected from the international equity universe. The securities that have lower sensitivity to market movement (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

#### ***BMO Low Volatility International Equity Hedged to CAD ETF***

BMO Low Volatility International Equity Hedged to CAD ETF will primarily obtain exposure to equity securities of international companies. Currently, the ETF primarily invests in BMO Low Volatility International Equity ETF and uses derivative instruments to hedge back to the Canadian dollar.

Securities held by BMO Low Volatility International Equity ETF will be selected from the international equity universe. The securities that have lower sensitivity to market movements (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

As an alternative to or in conjunction with obtaining exposure to equity securities of international companies by investing in BMO Low Volatility International Equity ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

#### ***BMO Low Volatility US Equity ETF***

BMO Low Volatility US Equity ETF will primarily invest in and hold equity securities of US companies.

Securities will be selected from the large capitalization U.S. equity universe. The securities that have lower sensitivity to market movements (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

#### ***BMO Low Volatility US Equity Hedged to CAD ETF***

BMO Low Volatility US Equity Hedged to CAD ETF will primarily obtain exposure to equity securities of US companies. Currently, the ETF primarily invests in BMO Low Volatility US Equity ETF and uses derivative instruments to hedge back to the Canadian dollar.

Securities of BMO Low Volatility US Equity ETF will be selected from the large capitalization U.S. equity universe. The securities that have lower sensitivity to market movements (beta) will be selected for the portfolio and it will be weighted so that a higher allocation is given to securities with lower beta.

As an alternative to or in conjunction with obtaining exposure to dividend paying equity securities of US companies by investing in BMO Low Volatility US Equity ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

#### ***BMO Money Market ETF***

BMO Money Market ETF primarily invests in Canadian dollar-denominated money market securities and other instruments of Canadian issuers, including short-term debt obligations of governments, banks or corporations, such as treasury bills, bankers' acceptances and commercial paper.

#### ***BMO Monthly Income ETF***

BMO Monthly Income ETF employs a strategic asset allocation strategy and is expected to primarily invest in other BMO ETFs. The BMO ETF's asset class weightings will be approximately 60% in equity securities and 40% in fixed income securities. Exposure to such income-bearing investments may be obtained by investing in them directly or by investing in other ETFs, mutual funds or other investment funds, in ADRs or in derivative instruments. In allocating the portfolio, the Manager will consider average market valuations across regions, sectors and asset classes, relative economic conditions that may affect the investment and any perceived downside risks.

#### ***BMO Premium Yield ETF***

BMO Premium Yield ETF will primarily invest in a portfolio of U.S. large capitalization equity securities and derivative instruments to gain exposure to U.S. large capitalization companies.

Securities will be selected using a rules based methodology that considers quality, yield, and liquidity.

BMO Premium Yield ETF may also employ derivative strategies.

Depending on market volatility and other factors, BMO Premium Yield ETF may write call options that will be selected considering volatility, fundamental and technical analysis, price sensitivity to the broad market, and sector diversification. When writing calls on portfolio securities and ETFs, BMO Premium Yield ETF will sell to the buyer of the option, for a premium, the right to buy the security from the ETF at an exercise price. The call options written by the ETF may be either exchange traded options or over-the-counter options. Written call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF.

Depending on market volatility and other factors, BMO Premium Yield ETF may purchase call options to gain potential exposure to U.S. equity securities and U.S. markets.

Depending on market volatility and other factors, BMO Premium Yield ETF may write put options to reduce the net cost of acquiring portfolio securities. Such options will only be written in respect of securities in which the BMO Premium Yield ETF is permitted to invest, and will be selected considering volatility, fundamental and technical analysis, price sensitivity to the broad market, and sector diversification. When writing puts on portfolio securities and ETFs, BMO Premium Yield ETF will sell to the buyer of the option, for a premium, a right to sell the security at an exercise price. The put options written by the ETF may be either exchange traded options or over-the-counter options.

Depending on market volatility and other factors, BMO Premium Yield ETF may purchase put options to potentially limit the loss from significant declines of U.S. equity securities and U.S. markets.

Each exchange traded put option will be a “clearing corporation option” (as defined in NI 81-102) and will be cleared and settled by a clearing corporation. In the event that put options written by BMO Premium Yield ETF are over-the-counter, such put options are not expected to be cleared and settled by a clearing corporation.

The portion of BMO Premium Yield ETF’s portfolio allocable to Hedged Units will invest in or use derivative instruments to seek to hedge U.S. currency exposure.

#### ***BMO Ultra Short-Term Bond ETF***

BMO Ultra Short-Term Bond Fund ETF will primarily invest in money market instruments and directly in fixed income securities, including corporate, Government of Canada, provincial and municipal bonds.

BMO Ultra Short-Term Bond ETF may invest in floating rate instruments, floating rate preferred shares and other floating rate securities, subject to the rate reset date being no greater than one year and the term being no greater than five years.

#### ***BMO Ultra Short-Term US Bond ETF***

BMO Ultra Short-Term US Bond ETF will primarily invest in U.S. money market instruments and fixed income securities, including corporate and government bonds.

BMO Ultra Short-Term US Bond ETF may invest in floating rate instruments, floating rate preferred shares and other floating rate securities, subject to the rate reset date being no greater than one year and the term being no greater than five years.

#### ***BMO US Dividend ETF***

BMO US Dividend ETF will primarily invest in and hold dividend paying equity securities of US companies.

Eligible securities will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

### ***BMO US Dividend Hedged to CAD ETF***

BMO US Dividend Hedged to CAD ETF will primarily obtain exposure to equity securities of US companies. Currently, the ETF primarily invests in BMO US Dividend ETF and uses derivative instruments to hedge back to the Canadian dollar.

Securities held by BMO US Dividend ETF will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity.

As an alternative to or in conjunction with obtaining exposure to equity securities of US companies by investing in BMO US Dividend ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

### ***BMO US High Dividend Covered Call ETF***

BMO US High Dividend Covered Call ETF will primarily invest in and hold the equity securities of dividend paying U.S. companies.

Securities will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. In addition, depending on market volatility and other factors, BMO US High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO US High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by the ETF at the time the options are written by the ETF. The call options written by the ETF may be either exchange traded options or over-the-counter options.

### ***BMO US High Dividend Covered Call Hedged to CAD ETF***

BMO US High Dividend Covered Call Hedged to CAD ETF will primarily obtain exposure to equity securities of dividend paying U.S. companies. Currently, the ETF primarily invests in BMO US High Dividend Covered Call ETF and uses derivative instruments to hedge back to the Canadian dollar.

Securities of BMO US High Dividend Covered Call ETF will be selected using a rules based methodology that considers dividend growth, yield and payout ratio. Securities will also be subject to a screening process to ensure sufficient liquidity. In addition, depending on market volatility and other factors, BMO US High Dividend Covered Call ETF will write covered call options on these securities. Under such call options, BMO US High Dividend Covered Call ETF will sell to the buyer of the option, for a premium, either a right to buy the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the value of the security and the exercise price. Covered call options partially hedge against a decline in the price of the securities on which they are written to the extent of the premiums received by BMO US High Dividend Covered Call ETF at the time the options are written by BMO US High Dividend Covered Call ETF. The call options written by the BMO US High Dividend Covered Call ETF may be either exchange traded options or over-the-counter options.

As an alternative to or in conjunction with obtaining exposure to equity securities of dividend paying U.S. companies by investing in BMO US High Dividend Covered Call ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

### ***BMO US Put Write ETF***

BMO US Put Write ETF will primarily invest in a portfolio of put options to gain exposure to US large capitalization companies.

BMO US Put Write ETF will sell put options that will be selected considering volatility, fundamental and technical analysis, price sensitivity to the broad market, and sector diversification.

Depending on market volatility and other factors, BMO US Put Write ETF may sell to the buyer of the option, for a premium, either a right to sell the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the exercise price and the value of the security. The put options written by the ETF may be either exchange traded options or over-the-counter options. Generally, BMO US Put Write ETF will hold investments that qualify as “cash cover” (as defined in NI 81-102, such as treasury bills and securities issued by a money market fund, and other investments listed in the definition of “cash cover”). In particular, the put options written by the ETF will be covered through investments that qualify as “cash cover” (as defined in NI 81-102). If assigned on an option, BMO US Put Write ETF may temporarily hold the underlying security before selling the position.

The put options written by BMO US Put Write ETF may be either exchange traded or over-the-counter. Each exchange traded put option will be a “clearing corporation option” (as defined in NI 81-102) and will be cleared and settled by a clearing corporation. In the event that put options written by BMO US Put Write ETF are over-the-counter, such put options are not expected to be cleared and settled by a clearing corporation. BMO US Put Write ETF may also purchase put options to potentially limit the loss from significant stock price declines.

#### ***BMO US Put Write Hedged to CAD ETF***

BMO US Put Write Hedged to CAD ETF will primarily obtain exposure to a portfolio of put options to gain exposure to US large capitalization companies. Currently, the ETF primarily invests in BMO US Put Write ETF and uses derivative instruments to hedge back to the Canadian dollar.

BMO US Put Write ETF will sell put options that will be selected considering volatility, fundamental and technical analysis, price sensitivity to the broad market, and sector diversification.

Depending on market volatility and other factors, BMO US Put Write ETF may sell to the buyer of the option, for a premium, either a right to sell the security at an exercise price or, if the option is cash settled, the right to a payment equal to the difference between the exercise price and the value of the security. The put options written by BMO US Put Write ETF may be either exchange traded options or over-the-counter options. Generally, BMO US Put Write ETF will hold investments that qualify as “cash cover” (as defined in NI 81-102, such as treasury bills and securities issued by a money market fund, and other investments listed in the definition of “cash cover”). In particular, the put options written by BMO US Put Write ETF will be covered through investments that qualify as “cash cover” (as defined in NI 81-102). If assigned on an option, BMO US Put Write ETF may temporarily hold the underlying security before selling the position.

The put options written by BMO US Put Write ETF may be either exchange traded or over-the-counter. Each exchange traded put option will be a “clearing corporation option” (as defined in NI 81-102) and will be cleared and settled by a clearing corporation. In the event that put options written by BMO US Put Write ETF are over-the-counter, such put options are not expected to be cleared and settled by a clearing corporation. BMO US Put Write ETF may also purchase put options to potentially limit the loss from significant stock price declines.

As an alternative to or in conjunction with obtaining exposure to put a portfolio of put options to gain exposure to US large capitalization companies by investing in BMO Put Write ETF, exposure may be obtained by investing directly in equity securities, other mutual funds and/or derivative instruments.

#### **Securities Lending**

A BMO ETF may, in compliance with NI 81-102, lend securities to securities borrowers acceptable to it in order to earn additional income for the BMO ETF pursuant to the terms of a securities lending agreement between the BMO ETF and a securities lending agent under which: (i) the borrower will pay to the BMO ETF a negotiated securities lending fee and will make compensation payments to the BMO ETF equal to any distributions received by the borrower on the securities borrowed; (ii) the securities loans qualify as “securities lending arrangements” for the purposes of the Tax Act; (iii) the BMO ETF will receive collateral security equal to at least 102% of the value of the portfolio securities loaned; and (iv) immediately after the BMO ETF enters into the transaction, the aggregate market value of all securities loaned and not yet returned to it does not exceed 50% of the total assets of the BMO ETF. The

securities lending agent for a BMO ETF will be responsible for the ongoing administration of the securities loans, including the obligation to mark-to-market the collateral on a daily basis.

## **Use of Derivative Instruments**

The BMO ETFs may hold or use derivative instruments, such as options, futures, forward contracts and swaps, for hedging and/or non-hedging purposes. The BMO ETFs may invest in or use derivative instruments only if the use of such derivative instruments is in compliance with applicable securities law, including with respect to limits on counterparty exposure, and is consistent with the investment objective and investment strategies of the applicable BMO ETF. Any exposure that the portfolio of each of the Hedged ETFs and the portion of the portfolio of a Hedged Unit ETF attributable to Hedged Units may have to any currency other than the Canadian dollar will be hedged back to the Canadian dollar. See “Risk Factors – General Risks Relating to an Investment in the BMO ETFs – Use of Derivative Instruments”.

## **Underlying Funds**

In accordance with applicable Canadian Securities Legislation, including NI 81-102, a BMO ETF may invest in Underlying Funds in a manner that is consistent with the investment objectives and investment strategies of the BMO ETF, provided that there shall be no duplication of management fees chargeable in connection with securities held indirectly by a BMO ETF through its investments in Underlying Funds and the management fees directly charged to the BMO ETF. In the event that a BMO ETF invests in an Underlying Fund and the management fee payable by the Underlying Fund is higher than that of the BMO ETF, the BMO ETF may indirectly pay the higher management fee on the portion of the BMO ETF’s assets invested in the Underlying Fund, regardless of whether the Underlying Fund is managed by the Manager (or affiliate of the Manager) or by an independent fund manager. When a BMO ETF invests in Underlying Funds, it will predominantly, if not exclusively, invest in Underlying Funds that are managed by the Manager or one of its affiliates. For more information about the conflicts of interest associated with the BMO ETFs investing in Underlying Funds, please see “Organization and Management Details of the BMO ETFs – Conflicts of Interest”.

## **OVERVIEW OF THE SECTORS IN WHICH THE BMO ETFS INVEST**

### **Index BMO ETFs**

#### ***BMO Aggregate Bond Index ETF***

BMO Aggregate Bond Index ETF generally invests in a variety of debt securities primarily with a term to maturity greater than one year and a credit rating of BBB or higher. These securities represent the Canadian bond market across federal, provincial and corporate issuers in Canada. See “Investment Objectives – The Indices – FTSE Canada Universe Bond Index™”.

#### ***BMO BBB Corporate Bond Index ETF***

BMO BBB Corporate Bond Index ETF generally invests in corporate bonds issued domestically in Canada in Canadian dollars, with a credit rating of BBB. See “Investment Objectives – The Indices – FTSE Canada 1-10 year BBB Corporate Bond Index™”.

#### ***BMO Canadian MBS Index ETF***

The BMO Canadian MBS Index ETF generally invests in Canadian mortgage backed securities. See “Investment Objectives – The Indices – FTSE Canada NHA MBS 975 Index”.

#### ***BMO China Equity Index ETF***

BMO China Equity Index ETF generally invests in a broad Chinese equity markets index on an un-hedged CNY currency basis. See “Investment Objectives – The Indices – S&P/BNY Mellon China Select ADR Index”.

### **BMO Clean Energy Index ETF**

BMO Clean Energy Index ETF generally invests in a variety of global clean energy companies. These securities are involved in clean energy related businesses. The index comprises a diversified mix of clean energy production and clean energy equipment & technology companies. See “Investment Objectives – The Indices – S&P Global Clean Energy Index”.

### **BMO Corporate Bond Index ETF**

BMO Corporate Bond Index ETF generally invests in corporate bonds issued domestically in Canada in Canadian dollars, with an investment grade rating. See “Investment Objectives – The Indices – FTSE Canada All Corporate Bond Index™”.

### **BMO Discount Bond Index ETF**

The BMO ETFs are subject to certain restrictions and practices contained in Canadian Securities Legislation. The BMO ETFs are managed in accordance with these restrictions and practices, except as otherwise permitted by exemptions provided by securities regulatory authorities. See “Exemptions and Approvals”. A change to the fundamental investment objective of a BMO ETF would require the approval of the Unitholders of that BMO ETF. See “Unitholder Matters – Matters Requiring Unitholders’ Approval”.

### **FEES AND EXPENSES**

#### **Fees and Expenses Payable by the BMO ETFs**

The value of a Unitholder’s investment in a BMO ETF will be reduced by the amount of fees and expenses charged to such BMO ETF.

##### **Management Fees**

Each BMO ETF will pay the Manager a management fee as set forth in the table below based on the average daily NAV of the applicable BMO ETF. The management fee is payable to the Manager in consideration of the services that the Manager provides to each BMO ETF in its capacity as the manager, which include acquiring or arranging to acquire securities on behalf of the BMO ETFs, calculating NAV, NAV per Unit, net income and net realized capital gains of the BMO ETFs, authorizing the payment of operating expenses incurred on behalf of the BMO ETFs, preparing financial statements and financial and accounting information as required by the BMO ETFs, ensuring that Unitholders are provided with financial statements (including interim and annual financial statements) and other reports as are required by applicable law from time to time, ensuring that the BMO ETFs comply with regulatory requirements and applicable stock exchange listing requirements, preparing the BMO ETFs’ reports to Unitholders and the securities regulatory authorities, determining the amount of distributions to be made by the BMO ETFs and negotiating contractual agreements with third-party providers of services, including Designated Brokers, the Custodian, the Registrar and Transfer Agent, the auditor and printers. See “Organization and Management Details – Trustee, Manager, Portfolio Manager and Promoter – Duties and Services to be Provided by the Trustee, Manager, Portfolio Manager and Promoter” for more information. The management fee, plus applicable taxes, will be accrued daily and paid quarterly in arrears. The Manager may, from time to time in its discretion, waive all or a portion of the management fee charged.

### ***Underlying Fund Fees***

A BMO ETF may, in accordance with applicable Canadian securities legislation, invest in exchange traded funds, mutual funds or other investment funds which may be managed by the Manager, its affiliates or independent fund managers. There are fees and expenses payable by these Underlying Funds in addition to the fees and expenses payable by an BMO ETF. No management fees or incentive fees are payable by a BMO ETF that, to a reasonable person, would duplicate a fee payable by such Underlying Fund for the same service. To ensure that there is no duplication of management fees chargeable in connection with the BMO ETF and any investment in an Underlying Fund, the management fee of the BMO ETF will be reduced by the amount of the management fee paid by the BMO ETF in respect of its investment in the Underlying Fund.

Further, no sales fees or redemption fees are payable by a BMO ETF in relation to purchases or redemptions of the securities of the Underlying Funds in which it invests if these Underlying Funds are managed by the Manager or an affiliate or associate of the Manager, and no sales fees or redemption fees are payable by a BMO ETF in relation to its purchases or redemptions of securities of Underlying Funds that, to a reasonable person, would duplicate a fee payable by an investor in a BMO ETF.

### ***Operating Expenses***

In addition to the payment of the management fee, each BMO ETF is responsible for the costs and expenses incurred in complying with NI 81-107 (including any expenses related to the implementation and on-going operation of the IRC), brokerage expenses and commissions, income and withholding taxes as well as all other applicable taxes, including HST, the costs of complying with any new governmental or regulatory requirement introduced after the first BMO ETFs were established and extraordinary expenses. The Manager is responsible for all other costs and expenses of the BMO ETFs, including the fees payable to the Custodian, Registrar and Transfer Agent and Plan Agent and fees payable to other service providers, including the Index Providers, retained by the Manager. See “Organization and Management Details – Trustee, Manager, Portfolio Manager and Promoter – Duties and Services to be Provided by the Trustee, Manager, Portfolio Manager and Promoter”.

If a BMO ETF holds securities of one or more exchange traded funds, mutual funds or other investment funds which may be managed by the Manager, its affiliates or independent fund managers, the expenses incurred by each such other fund in connection with its operations are indirectly paid by the BMO ETF in addition to those operating expenses incurred directly by the BMO ETF.

### ***Management Fee Distributions***

To achieve effective and competitive management fees, the Manager may agree to charge a reduced management fee as compared to the management fee it would otherwise be entitled to receive from the BMO ETFs with respect to investments in the BMO ETFs by certain Unitholders. An amount equal to the difference between the fee otherwise chargeable and the reduced fee of the BMO ETF will be distributed in cash by the BMO ETF to those Unitholders as “Management Fee Distributions”.

The availability, amount and timing of Management Fee Distributions with respect to Units of a BMO ETF will be determined from time to time by the Manager in its sole discretion. Management Fee Distributions will generally be calculated and applied based on a Unitholder’s average holdings of Units (excluding Units lent by those Unitholders under the terms of securities lending agreements) over each applicable period as specified by the Manager from time to time. Management Fee Distributions will be available only to beneficial owners of Units (including Designated Brokers and Dealers) and not to the holdings of Units by dealers, brokers or other CDS Participants that hold Units on behalf of beneficial owners. Management Fee Distributions will be paid first out of net income of the BMO ETF then out of capital gains of the BMO ETF and thereafter out of capital. See “Income Tax Considerations – Taxation of Unitholders” for further details. In order to receive a Management Fee Distribution for any applicable period, a beneficial owner of Units must submit a claim for a Management Fee Distribution that is verified by a CDS Participant on the beneficial owner’s behalf and provide the Manager with such further information as the Manager may require in accordance with the terms and procedures established by the Manager from time to time.

The Manager reserves the right to discontinue or change Management Fee Distributions at any time. The tax consequences of Management Fee Distributions made by a BMO ETF generally will be borne by the Unitholders receiving these distributions.

## Fees and Expenses Payable Directly by You

Unitholders who buy and sell their Units through the facilities of an Exchange do not pay a fee directly to the Manager or the BMO ETF in respect of those purchases and sales.

If stated in the applicable designated broker agreement or dealer agreement, the Manager or a BMO ETF may charge the Designated Brokers and/or Dealers a fee to offset certain transaction costs associated with an issue, exchange or redemption of Units of that BMO ETF to or by such Designated Broker and/or Dealer. See “Purchases of Units” and “Redemption and Exchange of Units”.

## ANNUAL RETURNS, MANAGEMENT EXPENSE RATIO AND TRADING EXPENSE RATIO

The following chart provides the annual returns, MER and TER for each BMO ETF as disclosed in the BMO ETF’s annual management report of fund performance for each of the past five years.

## RISK FACTORS

In addition to the considerations set out elsewhere in this prospectus, the following are certain considerations relating to an investment in Units that prospective investors should consider before purchasing such Units.

### General Risks Relating to an Investment in the BMO ETFs

#### *General Risks of Investments*

An investment in a BMO ETF should be made with an understanding that the value of a BMO ETF may fluctuate in accordance with changes in the financial condition of the underlying investments, the condition of markets generally and other factors. Underlying investments held by a BMO ETF and the value of a BMO ETF may fluctuate over short term periods due to market movements and over longer periods during more prolonged market upturns or downturns. In addition to changes in the condition of markets generally, local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues and recessions could have a significant impact on a fund and its investments and could also result in fluctuations in the value of a fund. The identity and weighting of the assets held by a BMO ETF may also change from time to time.

### ***Fund-of-Funds Investment Risk***

The BMO ETFs may invest directly in, or obtain exposure to, other ETFs, mutual funds or other investment funds as part of their investment strategy. These BMO ETFs will be subject to the risks of the Underlying Funds. Also, if an Underlying Fund suspends redemptions, the BMO ETF will be unable to accurately value part of its investment portfolio and may be unable to redeem its Units.

### ***Asset Class Risk***

The investments held by a BMO ETF may underperform the returns of other investments that track different countries, regions, industries, asset classes or sectors. Various asset classes tend to experience cycles of outperformance and underperformance in comparison to the general securities markets.

### ***Cease Trading of Securities Risk***

If securities held by a BMO ETF are cease-traded at any time by order of the TSX, a securities regulatory authority or other relevant regulator or stock exchange, the Manager may suspend the exchange or redemption of Units until such time as the transfer of the securities is permitted by law.

### ***Fluctuations in NAV and NAV per Unit Risk***

The NAV per Unit will vary according to, among other things, the value of the securities held by the BMO ETFs. The Manager and the BMO ETFs have no control over the factors that affect the value of the securities held by the BMO ETFs, including factors that affect the equity and bond markets generally such as general economic and political conditions, fluctuations in interest rates and factors unique to the issuers of the securities such as changes in management, changes in strategic direction, achievement of strategic goals, mergers, acquisitions and divestitures, changes in distribution and dividend policies and other events.

### ***Liquidity Risk***

If a BMO ETF is unable to dispose of some or all of the securities held by it, that BMO ETF may experience a delay in the receipt of the proceeds of disposition until such time as it is able to dispose of such securities or may be able to do so only at prices which may not reflect the true value of such investments. Likewise, if certain securities are particularly illiquid, the Manager may be unable to acquire the number of securities it would like to at a price acceptable to the Manager on a timely basis.

### ***Distributions In Specie Risk***

A portion of a BMO ETF's portfolio may be invested in illiquid securities and instruments. There can be no assurance that all of a BMO ETF's investments will be liquidated prior to the termination of the BMO ETF and that only cash will be distributed to its Unitholders. The securities and instruments that Unitholders may receive on termination may not be readily marketable and may have to be held for an indefinite period of time.

### ***Use of Derivative Instruments Risk***

The BMO ETFs may use derivative instruments from time to time as described under "Investment Strategies – Use of Derivative Instruments". The use of derivative instruments involves risks different from, and possibly greater than, the risks associated with investing directly in securities and other traditional investments. Risks associated with the use of derivatives include: (i) there is no guarantee that hedging to reduce risk will not result in a loss or that there will be a gain; (ii) there is no guarantee that a market will exist when the BMO ETFs want to complete the derivative contract, which could prevent the BMO ETFs from reducing a loss or making a profit; (iii) securities exchanges may impose trading limits on options and futures contracts, and these limits may prevent the BMO ETFs from completing the derivative contract; (iv) the BMO ETFs could experience a loss if the other party to the derivative contract is unable to fulfill its obligations, including in instances where the other party is adversely affected by regulatory or market changes; (v) if the BMO ETF has an open position in an option, a swap, a futures contract or a forward contract with a dealer who goes bankrupt, the BMO ETF could experience a loss and, for an open futures or forward contract, a loss of margin deposited with that dealer; and (vi) if a derivative is based on a stock market index and trading is halted on a substantial number of stocks in the index or there is a change in the composition of the index, there could be an adverse effect on the derivative. In circumstances where there is an interest rate hedge employed, total return on the investment portfolio of a BMO ETF may be higher with the hedge than without it when interest rates rise significantly, but may be lower when interest rates are stable or decrease.

### ***Securities Lending Risk***

The BMO ETFs may engage in securities lending transactions in accordance with NI 81-102 in order to earn additional income for the BMO ETFs. Although they will receive collateral security equal to at least 102% of the value of the portfolio securities loaned and such collateral will be marked-to-market, the BMO ETFs may be exposed to the risk of loss should the borrower default on its obligation to return the borrowed securities and the collateral be insufficient to reconstitute the portfolio of loaned securities.

### ***Trading Price of Units Risk***

Units may trade in the market at a premium or discount to the NAV per Unit. There can be no assurance that Units will trade at prices that reflect their NAV. The trading price of the Units will fluctuate in accordance with changes in the BMO ETF's NAV, as well as market supply and demand on the Exchange. However, given that generally only a Prescribed Number of Units are issued to Designated Brokers and Dealers, and that holders of a Prescribed Number of Units (or an integral multiple thereof) may redeem such Units at their NAV, the Manager believes that large discounts or premiums to the NAV of the Units should not be sustained.

### ***Absence of an Active Market for the Units and Lack of Operating History Risk***

Although the BMO ETFs are and the New BMO ETFs, New Hedged Units and New USD Units will (subject to satisfying the listing requirements of the Exchange) be listed on an Exchange, there can be no assurance that an active public market for the Units will develop or be sustained. The New BMO ETFs are newly organized investment trusts with no previous operating history.

### ***Reliance on the Manager Risk***

Unitholders will be dependent on the ability of the Manager to effectively manage the BMO ETFs in a manner consistent with the investment objectives, strategies and restrictions of the BMO ETFs. There is no certainty that the individuals who are principally responsible for providing administration, portfolio management services and portfolio management advice to the BMO ETFs will continue to be employed by the Manager.

### ***Risk of Loss***

Your investment in any of the BMO ETFs is not guaranteed by any entity, including Bank of Montreal. Unlike bank accounts or guaranteed investment certificates, your investment in a BMO ETF is not covered by the Canada Deposit Insurance Corporation or any other government deposit insurer.

### ***Rebalancing and Adjustment Risk***

Adjustments to Baskets of Securities held by the BMO ETFs to reflect rebalancing of and adjustments to the Indices with respect to the Index BMO ETFs or the portfolio with respect to the Non-Index BMO ETFs may depend on the ability of the Manager and the Designated Brokers to perform their respective obligations under the Designated Broker Agreement(s). If a Designated Broker fails to perform, the BMO ETFs may be required to sell or purchase, as the case may be, securities in the market. If this happens, the BMO ETFs would incur additional transaction costs and security mis-weights that would cause the performance of the BMO ETFs to deviate more significantly from the performance than would otherwise be expected.

### ***Changes in Legislation Risk***

There can be no assurance that tax, securities or other laws will not be changed in a manner that adversely affects a BMO ETF or the distributions received by the BMO ETFs or by the Unitholders. There can be no assurance that Canadian federal income tax laws and the administrative policies and assessing practices of the CRA respecting the treatment of mutual fund trusts will not be changed in a manner that adversely affects either the BMO ETFs or the Unitholders.

For example, changes to tax legislation or the administration thereof could affect the taxation of a BMO ETF or the issuers in which it invests.

### **Other Tax-Related Risks**

Each BMO ETF will qualify, or will be deemed to qualify, as a “mutual fund trust” for purposes of the Tax Act at all material times. If a BMO ETF were to not qualify as a “mutual fund trust” for the purposes of the Tax Act for any period of time, there could be negative tax consequences for the BMO ETF and the Unitholders. For example, if a BMO ETF does not qualify as a “mutual fund trust” for the purposes of the Tax Act throughout a taxation year, the BMO ETF may be liable to pay alternative minimum tax and for tax under Part XII.2 of the Tax Act, and would not be entitled to the Capital Gains Refund (as defined herein). In addition, if a BMO ETF does not qualify as a “mutual fund trust”, it may be subject to the “mark-to-market” rules under the Tax Act if more than 50% of the fair market value of the Units are held by “financial institutions” within the meaning of the Tax Act for purposes of the “mark-to-market” rules.

There can be no assurances that the CRA will agree with the tax treatment adopted by a BMO ETF in filing its tax return and the CRA could reassess a BMO ETF on a basis that results in tax being payable by the BMO ETF.

The Tax Act contains tax loss restriction event rules that apply to trusts such as the BMO ETFs. The loss restriction event rules generally apply at any time when a unitholder of a trust (counted together with its affiliates) becomes a majority-interest beneficiary of the trust (i.e., holds more than 50% of the fair market value of the units of the trust) or a group of unitholders of the trust becomes a majority interest group of beneficiaries of the trust. If applicable to a BMO ETF, then the taxation year of the BMO ETF would be deemed to end and an automatic distribution of income and net capital gains may occur under the terms of the Declaration of Trust. In addition, accrued capital losses and certain other realized losses of a BMO ETF would be unavailable for use by a BMO ETF in future years. However, trusts that qualify as an “investment fund” as defined in the loss restriction event rules are exempt from such adverse consequences. An “investment fund” for this purpose includes a trust that meets certain conditions, including satisfying certain of the conditions necessary to qualify as a “mutual fund trust” for purposes of the Tax Act, not using any property in the course of carrying on a business and complying with certain asset diversification requirements. Because of the way exchange traded units of the BMO ETFs are bought and sold, it may not be possible for a BMO ETF to determine if or when a loss restriction event has occurred. Therefore, there can be no assurance that a BMO ETF has not been, or will not in the future, become subject to the loss restriction event rules and there can be no assurance regarding when distributions resulting from a loss restriction event will be made.

Legislative proposals released by the Minister of Finance (Canada) on July 30, 2019 proposed amendments to the Tax Act that would (a) effective for taxation years of a BMO ETF beginning on or after March 19, 2019, deny the BMO ETF a deduction for any income of the BMO ETF designated to a Unitholder on a redemption of Units, where the Unitholder’s proceeds of disposition are reduced by the designation, and (b) effective for taxation years of a BMO ETF beginning on or after March 20, 2020, deny the BMO ETF a deduction for the portion of a capital gain of the BMO ETF designated to a Unitholder on a redemption of Units that is greater than the Unitholder’s accrued gain on those Units, where, the Unitholder’s proceeds of disposition are reduced by the designation. Given their creation date, the New BMO ETFs will not be eligible for the 2020 taxation year deferral on capital gains designations. If such proposed amendments to the Tax Act are enacted in their current form, any income or taxable capital gains that would otherwise have been designated to redeeming Unitholders may be made payable to the remaining, non-redeeming Unitholders to ensure the BMO ETF will not be liable for non-refundable income tax thereon. Accordingly, the amounts of taxable distributions made to Unitholders of a BMO ETF may be greater than they would have been in the absence of such amendments.

Under the SIFT Rules, trusts or partnerships (defined as “SIFT trusts” and “SIFT partnerships”, respectively), the securities of which are listed or traded on a stock exchange or other public market and that hold one or more “non-portfolio properties” (as defined in section 122.1 of the Tax Act), are effectively taxed on income and capital gains in respect of such non-portfolio properties at combined rates comparable to the rates that apply to income earned and distributed by Canadian corporations. Distributions of such income received by unitholders of SIFT trusts (and allocations of such income made to members of SIFT partnerships) are treated as eligible dividends from a taxable Canadian corporation. Each BMO ETF is subject to investment restrictions intended to ensure that it will not be a SIFT trust (as defined in the Tax Act). If a BMO ETF were to qualify as a SIFT trust, the income tax considerations described under “Income Tax Considerations” would be materially and adversely different in certain respects.

### ***Cyber Security Risk***

With the increased use of technologies such as the internet to conduct business, the Manager and each of the BMO ETFs are susceptible to operational, information security, and related risks. In general, cyber incidents can result from deliberate attacks or unintentional events. Cyber-attacks include, but are not limited to, gaining unauthorized access to digital systems (e.g., through “hacking” or malicious software coding) for purposes of misappropriating assets or sensitive information, corrupting data, or causing operational disruption. Cyber-attacks also may be carried out in a manner that does not require gaining unauthorized access, such as causing denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users). Cyber incidents affecting the funds, the Manager or the BMO ETFs’ service providers (including, but not limited to, a BMO ETF’s portfolio manager, transfer agent, custodian and sub-custodians) have the ability to cause disruptions and impact each of their respective business operations, potentially resulting in financial losses, interference with the BMO ETFs’ ability to calculate their net asset value, impediments to trading, the inability of unitholders to transact business with the BMO ETFs and the inability of the BMO ETFs to process transactions including redeeming securities, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs associated with the implementation of any corrective measures. Similar adverse consequences could result from cyber incidents affecting the issuers of securities in which the BMO ETFs invest and counterparties with which the BMO ETFs engage in transactions.

In addition, substantial costs may be incurred to prevent any cyber incidents in the future. While the Manager and the BMO ETFs have established business continuity plans in the event of, and risk management systems to prevent, such cyber incidents, inherent limitations exist in such plans and systems including the possibility that certain risks have not been identified. Furthermore, the Manager and the BMO ETFs cannot control the cyber security plans and systems of the BMO ETFs’ service providers, the issuers of securities in which the BMO ETFs invest or any other third parties whose operations may affect the BMO ETFs or their unitholders. As a result, the BMO ETFs and their unitholders could be negatively affected.

### ***Potential Conflicts of Interest Risk***

The Manager and its directors and officers and their respective affiliates (including BMO Financial Group entities) and associates may engage in the promotion, management or investment management of other accounts, funds or trusts that invest primarily in the securities held by one or more BMO ETFs.

Although officers, directors and professional staff of the Manager will devote as much time to the BMO ETFs as is deemed appropriate to perform the Manager’s duties, the staff of the Manager may have conflicts in allocating their time and services among the BMO ETFs and the other funds managed by the Manager or BMO Financial Group entities.

### **Base Metals Risk**

BMO Equal Weight Global Base Metals Hedged to CAD Index ETF may be subject to a number of risks specific to industrial metals, such as: (i) changes in industrial, government and consumer demand, which will be affected by the levels of activities using industrial metals and the availability of man-made and synthetic substitutes; (ii) disruptions in the supply chain, from mining to storage to smelting or refining; (iii) adjustments to inventories; (iv) variations in production costs, including storage, labour and energy costs; and (v) costs associated with regulatory compliance, including environmental regulations. These factors interrelate in complex ways, and the effect of one factor on BMO Equal Weight Global Base Metals Hedged to CAD Index ETF and the value of its Units may increase or reduce the effect of another factor.

### ***Calculation and Termination of the Indices Risk***

If the computer or other facilities of the Index Providers or the Exchange or other relevant stock exchange malfunction for any reason, calculation of value of the Indices and the determination by the Manager of the Prescribed Number of Units and Baskets of Securities may be delayed and trading in Units may be suspended for a period of time.

In the event that an Index Provider ceases to calculate the applicable Index or a License Agreement is terminated, the Manager may terminate the relevant Index BMO ETF on 60 days' notice, change the investment objective of the Index BMO ETF, seek to replicate an alternative index or make such other arrangements as the Manager considers appropriate and in the best interests of Unitholders of the Index BMO ETF in the circumstances.

### ***Call Risk***

During periods of falling interest rates, an issuer of a callable security may repay a security prior to its stated maturity, which may result in a BMO ETF reinvesting the proceeds of that security at a lower interest rate, reducing the applicable BMO ETF's income.

BMO Canadian MBS Index ETF is subject to prepayment risk, which is a type of call risk that results when the borrower repays a portion of their loan before it matures, such that the BMO ETF will need to reinvest the proceeds at current market conditions. To the extent current market conditions provide less favourable interest rates than those available under the original loan, the BMO ETF will have lower future interest payments generated by the replacement loan than it would if the original loan had not been prepaid.

### ***China-focused ETF Risks***

The following risks apply to BMO ETFs that have a focus on China:

#### ***Geographic Concentration in China***

Because BMO China Equity Index ETF concentrates its investments in Chinese companies, its performance is expected to be closely tied to social, political, and economic conditions within China and to be more volatile than the performance of more geographically diversified funds. Although the Chinese economy has grown rapidly during recent years and the Chinese government has implemented significant economic reforms to liberalize trade policy, promote foreign investment, and reduce government control of the economy, there can be no guarantee that economic growth or these reforms will continue. The Chinese economy may also experience slower growth if global or domestic demand for Chinese goods decreases significantly and/or key trading partners apply trade tariffs or implement other protectionist measures. The Chinese economy is also susceptible to rising rates of inflation, economic recession, market inefficiency, volatility, and pricing anomalies that may be connected to governmental influence, a lack of publicly-available information and/or political and social instability. The government of China maintains strict currency controls in order to achieve economic trade and political objectives and regularly intervenes in the currency market. The Chinese government also plays a major role in the country's economic policies regarding foreign investments. Foreign investors are subject to the risk of loss from expropriation or nationalization of their investment assets and property, governmental restrictions on foreign investments and the repatriation of capital invested. The Chinese securities markets are subject to more frequent trading halts and low trading volume, resulting in substantially less liquidity and greater price volatility. These and other

factors could have a negative impact on BMO China Equity Index ETF's performance and increase the volatility of an investment in such BMO ETFs.

#### ***Geographic Concentration in Hong Kong***

BMO China Equity Index ETF may invest a significant portion of its assets in investments in Hong Kong. Investing in companies organized or traded in Hong Kong involves special considerations not typically associated with investing in countries with more democratic governments or more established economies or securities markets. China is Hong Kong's largest trading partner, both in terms of exports and imports. Any changes in the Chinese economy, trade regulations or currency exchange rates may have an adverse impact on Hong Kong's economy.

#### ***Impact of US Regulatory Scrutiny on ADRs of Chinese Companies***

The US has recently taken a harder line on Chinese businesses, including: requiring US investors to pull out of Chinese companies linked to China's military, requiring Chinese companies to adhere to US auditing standards in order to remain on US stock exchanges and banning U.S. transactions with eight Chinese apps linked to various Chinese companies. As a result of these and other actions, and assuming some or all restrictions remain in place, the ADRs of numerous Chinese companies could be de-listed from U.S. stock exchanges which has resulted in significant political and regulatory uncertainty for Chinese companies that have issued ADRs. A de-listing of ADRs could make such ADRs less liquid and depress their value, which would have a corresponding impact on the value of BMO China Equity Index ETF due to its investment in ADRs. If BMO China Equity Index ETF is not able to invest in ADRs through US stock exchanges, it may incur additional expenses and increased currency risk associated with purchasing securities directly on non-US exchanges .

#### ***Concentration Risk***

The Index BMO ETFs, which seek to replicate the performance of one or more Indices, may have more of their net assets invested in one or more issuers than is usually permitted for mutual funds. Consequently, an Index BMO ETF's portfolio may be less diversified when compared to a less concentrated investment portfolio. Also, the NAV of such Index BMO ETFs may be more volatile than that of a more broadly-diversified portfolio and may fluctuate substantially over short periods of time. Although a more concentrated portfolio can sometimes result in increased liquidity risk, which may, in turn, have an effect on the ability of a mutual fund to satisfy redemptions, the Manager does not believe these risks are material for the Index BMO ETFs.

#### ***Credit Rating Related Risk***

Securities held by certain BMO ETFs that are considered below investment grade may be subject to greater levels of credit or default risk than higher-rated securities. High yield securities are often issued by highly-leveraged firms or by smaller, less creditworthy firms. These securities may be more volatile than higher-rated securities of similar duration. In addition, the possibility that any security could have its credit rating downgraded or that it could default by failing to make scheduled interest and/or principal payments could potentially reduce a BMO ETF's income and Unit price.

#### ***Currency Hedging Risk***

Any exposure that the portfolio of a Hedged ETF or the Hedged Units of a Hedged Unit ETF has to any currency other than the Canadian dollar will be hedged back to the Canadian dollar. The Hedged ETFs, and Hedged Unit ETFs in respect of the Hedged Units, seek to hedge direct foreign currency exposure back to the Canadian dollar by entering into currency forward transactions with financial institutions that have a "designated credit rating" as defined in NI 81-102. Although there is no assurance that these currency forward transactions will perfectly match the underlying exposure in the ETFs, the Manager expects these currency forward transactions to be substantially effective.

For Hedged ETFs that are also Index BMO ETFs, some deviations from the returns of an applicable Index are expected to occur as a result of the costs, risks or other performance impacts of this currency hedging strategy. For Hedged ETFs that are also Non-Index BMO ETFs and for Hedged Units, some deviations from the underlying local

returns of the BMO ETF are expected to occur as a result of the costs, risks or other performance impacts of this currency hedging strategy.

The effectiveness of this currency hedging strategy will, in general, be affected by the volatility of (i) the Canadian dollar relative to the currencies to be hedged, (ii) the point in time at which hedging is applied to the BMO ETF, (iii) for Index BMO ETFs, the applicable constituent securities, and (iv) for Non-Index BMO ETFs and Hedged Units, the applicable underlying portfolio securities.

Increased volatility will generally reduce the effectiveness of the currency hedging strategy. The effectiveness of this currency hedging strategy may also be affected by any significant difference between Canadian interest rates and foreign currency interest rates.

Except as described above, BMO ETFs will not hedge any foreign currency exposure back to the currency in which the applicable class of Units is denominated.

The ability to purchase USD Units is offered only as a convenience for investors and does not act as a currency hedge between the Canadian dollar and the US dollar.

#### ***Emerging Markets Risk***

Certain BMO ETFs may be subject to a number of risks specific to having exposure to issuers in emerging market countries. Investments in the securities of issuers in emerging market countries involve risks not associated with investments in the securities of issuers in developed countries. Emerging markets can be substantially more volatile, and substantially less liquid, than more developed markets such as Canada. Emerging markets are subject to greater political and economic instability, uncertainty regarding the existence of trading markets and more governmental limitations on foreign investment than more developed markets.

There may be less information publicly available with regard to emerging market issuers and such issuers are not subject to the uniform accounting, auditing and financial reporting standards applicable to Canadian issuers. There may be no single centralized securities exchange on which securities are traded in emerging market countries and the systems of corporate governance to which companies in emerging markets are subject may be less advanced than that to which Canadian issuers are subject, and therefore, shareholders in such companies may not receive many of the protections available to shareholders in Canada.

Securities laws in many emerging markets countries are relatively new and unsettled. In addition, laws regarding foreign investment in emerging market securities, securities regulation, title to securities and shareholder rights may change quickly and unpredictably. Further, the enforcement of systems of taxation at federal, regional and local levels in emerging market countries may be inconsistent, and subject to sudden change.

#### ***Energy Risk***

Certain BMO ETFs may be subject to a number of risks specific to the energy sector, such as: (i) changes in industrial, government and consumer demand, which will be affected by levels of industrial and commercial activities that are associated with high levels of energy demand; (ii) price changes in alternative sources of energy; (iii) disruptions in the supply chain or in the production or supply of energy sources; (iv) adjustments to inventories; (v) variations in production and shipping costs; and (vi) costs associated with regulatory compliance, including environmental regulations. These factors interrelate in complex ways, and the effect of one factor on a BMO ETF and the value of its Units may increase or reduce the effect of another factor.

#### ***Equity Investment Risk***

Equities such as common shares give the holder part ownership in a company. The value of an equity security changes with the fortunes of the company that issued it. General market conditions and the health of the economy as a whole can also affect equity prices. Certain securities may be particularly sensitive to general market movements, which may result in a greater degree of price volatility for such securities and in the NAV of a BMO ETF that invests in such securities under specific market conditions and over time. Equity related securities that provide indirect exposure to the equity securities of an issuer, such as convertible debentures, can also be affected by equity risk.

### ***Exchange Rate Risk***

Changes in foreign currency exchange rates may affect the NAV of BMO ETFs that hold investments denominated in currencies other than the currency in which the Units of the BMO ETFs are denominated. The Units of the BMO ETFs may either be Canadian dollar denominated or US dollar denominated.

The ability to purchase USD Units is offered only as a convenience for investors and does not act as a currency hedge between the Canadian dollar and the US dollar.

### ***Extension Risk***

During periods of rising interest rates, an issuer may exercise its right to pay principal on an obligation later than expected. Under these circumstances, the value of the obligation will decrease and the BMO ETF's performance may suffer from its inability to invest in higher yielding securities.

### ***Factor-Based Investment Strategy Risk***

The types and number of investment opportunities available to the BMO ETFs that seek to maximize exposure to certain target factors, such as ESG, innovation, dividends, low volatility, quality and value, may be limited due to the use of a factor-based investment strategy. Although the target factors are generally considered positive characteristics, they also introduce unique risks. The mathematical and statistical models that guide the disciplined securities selection used in factor-based investing rely on historical and/or other data. Rules-based models can generate unanticipated results that may impact the performance of a BMO ETF for a variety of reasons, including when markets behave in an unpredictable manner, errors or omissions in the data used by the model, the weight placed on each factor and/or assumption in the model and technical issues in the design, development, implementation and maintenance of the model. These BMO ETFs may underperform other funds that do not seek exposure to the particular target factors. In addition, for Index BMO ETFs, the Index Providers may be unsuccessful in creating an Index composed of issuers that exhibit the target factors. Similarly, for Non-Index BMO ETFs that use an active rules-based investment strategy to target certain factors, the Manager may be unsuccessful in identifying issuers that exhibit the desired factors. The methodology used will generally not eliminate the possibility that these BMO ETFs may have exposure to factors other than the target factors, including negative factors.

In the case of Index BMO ETFs, those Indices that are constructed based on target factors use a weighting methodology that is not based on market capitalization, which may lead to higher turnover relative to capitalization-weighted methodologies. Higher turnover may result in a BMO ETF realizing capital gains more frequently and incurring higher trading costs.

### ***Foreign Investment Risk***

A BMO ETF's investments in non-Canadian and non-United States issuers may expose the BMO ETF to unique risks compared to investing in securities of Canadian or United States issuers, including, among others, greater market volatility than Canadian or United States securities and less complete financial information than for Canadian or United States issuers. In addition, adverse political, economic or social developments could undermine the value of the BMO ETF's investments or prevent the BMO ETF from realizing the full value of its investments. Finally, the value of the currency of the country in which the BMO ETF has invested could decline relative to the value of the Canadian dollar.

Investment income received, and capital gains realized, by a BMO ETF from sources within foreign countries may be subject to foreign withholding taxes. Canada has entered into tax treaties with certain foreign countries which may entitle the BMO ETFs to a reduced rate of tax on such income. Some countries require the filing of a tax reclaim or other forms to receive the benefit of the reduced tax rate. Whether or when a BMO ETF will receive the tax reclaim is within the control of the particular foreign country. Information required on these forms may not be available (such as Unitholder information); therefore, a BMO ETF may not receive the reduced treaty rates or potential reclams. Certain countries have conflicting and changing instructions and restrictive timing requirements which may cause a BMO ETF not to receive the reduced treaty rates or potential reclams. If a BMO ETF obtains a refund of foreign taxes, the NAV of the BMO ETF will not be restated and the amount will remain in the BMO ETF to the benefit of the then-existing Unitholders.

### ***General Risks of Debt Instruments***

Investment in certain of the BMO ETFs should be made with an understanding that the value of the underlying debt securities will be affected by changes in the general level of interest rates. Generally, debt securities will decrease in value when interest rates rise and will increase in value when interest rates decline. Securities with longer durations tend to be more interest rate sensitive, which may make them more volatile than securities with shorter durations. The NAV of certain BMO ETFs will fluctuate with interest rate changes and the corresponding changes in the value of the securities held by the BMO ETF. The value of the bonds held by a BMO ETF may be affected by price changes due to a change in general economic conditions. In addition, to the extent a BMO ETF invests in instruments with a negative yield (e.g. where there are negative interest rates), its value could be impaired.

### ***General Risks of Preferred Shares***

Investment in a BMO ETF that primarily invests in preferred shares should be made with an understanding that the value of the underlying securities will be affected by changes in the general level of interest rates. Generally, preferred shares will decrease in value when interest rates rise and will increase in value when interest rates decline. Securities with longer durations tend to be more interest rate sensitive, which may make them more volatile than securities with shorter durations. The NAV of the applicable BMO ETF will fluctuate with interest rate changes and the corresponding changes in the value of the securities held by the BMO ETF. The value of the securities held by the BMO ETF may be affected by price changes due to a change in general economic conditions.

### ***Geographic Concentration in India Risk***

Investments in Indian issuers involve risks that are specific to India, including legal, regulatory, political and economic risks. Political and legal uncertainty, greater government control over the economy, currency fluctuations or blockage, and the risk of nationalization or expropriation of assets may result in higher potential for losses. The securities markets in India are relatively underdeveloped and may subject the BMO ETF to higher transaction costs or greater uncertainty than investments in more developed securities markets.

### ***IBOR Transition Risk***

Various regulators and industry bodies are working globally on transitioning from interbank offered rates (“IBORs”), including the London Interbank Offered Rate (LIBOR), to alternative rates. The effect of such a transition on a BMO ETF and the securities in which it invests cannot yet be determined, and may depend on factors that include, but are not limited to: (i) existing fallback or termination provisions in individual contracts; and (ii) whether, how, and when industry participants develop and adopt new reference rates and fallbacks for both legacy and new products and instruments. Such transition may result in a reduction in the value of IBOR-based instruments held by a BMO ETF and increased illiquidity and volatility in markets that currently rely on an IBOR to determine interest rates, any of which could adversely impact a BMO ETF’s performance.

### ***Index Investment Strategy Risk***

The Indices were not created by the Index Providers solely for the purpose of the Index BMO ETFs. The Index Providers have the right to make adjustments or to cease calculating the Indices without regard to the particular interests of the Manager, the Index BMO ETFs or the Unitholders. Further, the Manager will seek to replicate, to the extent possible, the performance of the Index applicable to each Index BMO ETF. The Manager will “passively manage” the Index BMO ETFs by employing an investment strategy of buying and holding, in respect of each Index BMO ETF, a proportionate share of the constituent securities of the applicable Index in the same proportion as they are reflected in that Index or securities intended to replicate the performance of the Index including by a sampling methodology that is consistent with the investment objective of the Index BMO ETF. In general, if an Index BMO ETF uses a sampling methodology, or Other Securities, to construct its portfolio holdings, then that Index BMO ETF will tend to have greater tracking error to the Index versus an Index BMO ETF that fully replicates its respective Index. In selecting securities for the Index BMO ETFs, the Manager will not “actively manage” the Index BMO ETFs by undertaking any fundamental analysis of the securities it invests in for the Index BMO ETFs nor will the Manager buy or sell securities for the Index BMO ETFs based on Manager’s market, financial or economic analysis. Because the Manager will not attempt to take defensive positions in declining markets, the adverse financial condition of an issuer represented in an Index will not necessarily result in the Index BMO ETF ceasing to hold the issuer’s securities, unless such securities are removed from the applicable Index.

### ***Index Tracking Risk***

The Index BMO ETFs will not replicate exactly the performance of the Indices because the total return generated by the Units will be reduced by the management fee payable to BMO Asset Management and transaction costs incurred in adjusting the portfolio of securities held by the Index BMO ETFs and other expenses of the Index BMO ETFs, whereas such transaction costs and expenses are not included in the calculation of the Indices.

Also, deviations in the tracking of the Indices by the Index BMO ETFs could occur for a variety of reasons, including as a result of Other Securities being included in the portfolio of securities held by the Index BMO ETFs. It is also possible that, for a period of time, the Index BMO ETFs may not fully replicate the performance of the Indices due to extraordinary circumstances.

Adjustments to the Basket of Securities necessitated by the rebalancing of or adjustment to the Indices could affect the underlying market for the constituent securities of the applicable Index, which in turn would be reflected in the value of that Index. Similarly, subscriptions for Units by Designated Brokers and Dealers may impact the market for constituent securities of the Index, as the Designated Broker or Dealer seeks to buy or borrow such securities to constitute Baskets of Securities to deliver to the Index BMO ETF as payment for the Units to be issued.

### ***Precious Metals Risk***

BMO Equal Weight Global Gold Index ETF and BMO Junior Gold Index ETF may be subject to a number of risks specific to precious metals, such as: (i) changes in industrial, government and consumer demand, including industrial and jewellery demand and the degree to which governments, corporate and financial institutions and consumers hold precious metals, such as physical gold, as a safe haven asset, which may be affected by the structure of and confidence in the global monetary system or a rapid change in the value of other assets; (ii) disruptions in the supply chain, from mining to storage to smelting or refining; (iii) adjustments to inventories; (iv) variations in production costs, including storage, labour and energy costs; (v) costs associated with regulatory compliance, including environmental regulations; (vi) interest rates and borrowing and lending rates relating to precious metals; (vii) currency exchange rates, including the relative strength of, and confidence in, exchange rates relating to currencies in which precious metals prices are quoted; and (viii) levels of economic growth and inflation. These factors interrelate in complex ways, and the effect of one factor on BMO Equal Weight Global Gold Index ETF or BMO Junior Gold Index ETF and the value of their respective Units may increase or reduce the effect of another factor. In addition, BMO Equal Weight Global Gold Index ETF provides exposure to a commodities market, which has historically been more volatile than other markets, including the broader equity markets.

### ***Put Writing Risk***

BMO US Put Write ETF and BMO US Put Write Hedged to CAD ETF will collect premiums on the options it writes. BMO US Put Write ETF's and BMO US Put Write Hedged to CAD ETF's risk of loss, if one or more of its options is exercised and expires in-the-money, may substantially outweigh the gains to BMO US Put Write ETF and BMO US Put Write Hedged to CAD ETF from the receipt of such option premiums. BMO US Put Write ETF and BMO US Put Write Hedged to CAD ETF will either earmark or segregate sufficient liquid assets to cover their obligations under each option on an ongoing basis. While the put option strategy is intended to be profitable in neutral, rising and moderately declining markets, large market declines may negatively impact BMO US Put Write ETF's and BMO US Put Write Hedged to CAD ETF's performance.

### ***Tax Treatment of Options Risk***

In determining its income for tax purposes, certain BMO ETFs will treat option premiums received on the writing of call options and put options and any gains or losses sustained on closing out such options in accordance with the CRA's published administrative practice. The CRA's practice is not to grant advance income tax rulings on the characterization of items as capital or income and no advance income tax ruling has been applied for or received from the CRA. Accordingly, there is a risk that the CRA may not agree with the tax treatment adopted by such BMO ETFs. In such case, the net income of the applicable BMO ETFs for tax purposes and the taxable component of distributions to Unitholders could increase, and such BMO ETFs could be liable for income tax. Any such redetermination by the CRA may also result in such BMO ETFs being liable for unremitted withholding taxes on prior distributions made to Unitholders who were not resident in Canada for the purposes of the Tax Act at the time of the distribution. Such potential liability may reduce NAV, NAV per Unit or the trading prices of the Units.

### ***Use of Options Risk***

Certain of the BMO ETFs are subject to the full risk of their investment position in the securities in their portfolio, including the securities that are subject to call options written by the BMO ETF, should the market price of such securities decline. In addition, such BMO ETFs are not expected to participate in a gain on a security subject to a call option, if the gain results in the market price of the security exceeding the exercise price of the option. In such circumstances, the holder of the option will likely exercise the option. The premiums associated with writing covered call options may not exceed the returns that would have resulted if any of the applicable BMO ETFs had remained directly invested in the securities subject to call options. The use of options may have the effect of limiting or reducing the total returns of a BMO ETF if the Manager's expectations concerning future events or market conditions prove to be incorrect.

There can be no assurance that a liquid exchange or over-the-counter market will exist to permit any of the BMO ETFs to write covered call options on desired terms or to close out option positions should it desire to do so. The ability of a BMO ETF to close out its positions may also be affected by exchange-imposed daily trading limits. In addition, exchanges may suspend the trading of options in volatile markets. If a BMO ETF is unable to repurchase a call option that is in-the-money, it will be unable to realize its profits or limit its losses until such time as the option it has written becomes exercisable or expires.

### ***Risk Ratings of the BMO ETFs***

The Manager assigns an investment risk rating to each BMO ETF to provide further information to help investors determine whether the BMO ETF is appropriate for an investor. The methodology that the Manager uses to determine the investment risk level of each BMO ETF, for purposes of disclosure in this prospectus and in the ETF Facts, is required to be determined in accordance with a standardized risk classification methodology that is based on a BMO ETF's historical volatility as measured by the 10-year standard deviation of the monthly returns of the BMO ETF, assuming the reinvestment of all income and capital gains distributions in additional securities of the BMO ETF. However, other types of risk, both measurable and non-measurable, may exist. It is also important to note that a BMO ETF's historical volatility may not be indicative of its future volatility.

Using this methodology, the Manager will generally assign an investment risk level based on a BMO ETF's historical 10-year standard deviation in one of the following categories:

- Low
- Low to medium
- Medium
- Medium to high
- High

In certain instances, the methodology set forth above may produce an investment risk level for a BMO ETF which the Manager believes may be too low and not indicative of the BMO ETF's future volatility. As a result, in addition to using the standardized risk classification methodology described above, the Manager may increase a BMO ETF's investment risk level if it determines that to be reasonable in the circumstances by taking into account other qualitative factors including, but not limited to, economic climate, portfolio management styles, sector concentration and types of investments made by the BMO ETF and the liquidity of those investments.

In addition, if a BMO ETF does not have at least 10 years of performance history, then the return history of a reference index that reasonably approximates, or in the case of a newly established BMO ETF is expected to reasonably approximate, the standard deviation of the BMO ETF, will be used for the remainder of the 10-year period when calculating the standard deviation of the BMO ETF. In the case of a BMO ETF that has a change to its investment objectives, the BMO ETF will use its own performance history following the change and use the return history of a reference index that reasonably approximates the standard deviation of the BMO ETF for the remainder of the 10-year period. This risk classification may change once the BMO ETF has sufficient performance history. The investment risk level and the reference index for each BMO ETF are reviewed at least annually and when it is no longer reasonable in the circumstances, such as where there is a material change in a BMO ETF's investment objectives and/or investment strategies.

Details about the standardized risk classification methodology used to identify the investment risk level of each BMO ETF are available on request, at no cost to you, by calling the BMO Investment Centre at 1-800-665-7700, or writing to the Manager, BMO Asset Management Inc., at 250 Yonge Street, 7th Floor, Toronto, Ontario M5B 2M8.

The risk ratings set forth in the tables below do not necessarily correspond to an investor's risk tolerance assessment. Investors are advised to consult their financial advisor for advice regarding an individual investor's personal circumstances.

BMO Aggregate Bond Index ETF's risk classification is based on the BMO ETF's returns.

BMO BBB Corporate Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of the FTSE Canada Universe Corporate BBB Bond Index™. The FTSE Canada Universe Corporate BBB Bond Index™ consists of semi-annual pay fixed rate corporate bonds denominated in Canadian dollars, with a credit rating of BBB and greater than \$100 million outstanding.

BMO Canadian MBS Index ETF's risk classification is based on the BMO ETF's returns and the returns of the FTSE Canada Short Term Federal (Canada) Total Return Index™. The FTSE Canada Short Term Federal (Canada) Total Return Index™ consists of semi-annual pay fixed rate federal bonds denominated in Canadian dollars, with an effective term to maturity less than five years and greater than one year.

BMO China Equity Index ETF's risk classification is based on the BMO ETF's returns.

BMO Clean Energy Index ETF's risk classification is based on the returns of the S&P Global Clean Energy Index.

BMO Corporate Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Bloomberg Barclays Canadian Corporate Index. The Bloomberg Barclays Canadian Corporate Index measures the Canadian investment-grade, fixed-rate, corporate bond market. Eligible securities must have greater than one year to maturity and greater than \$150 million outstanding and issued by industrial, utility and financial issuers.

BMO Discount Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of the FTSE Canada Universe Total Return Index™. The FTSE Canada Universe Total Return Index™ is designed to be a broad measure of the Canadian investment-grade fixed income market consisting of federal, provincial and corporate bonds.

BMO Dow Jones Industrial Average Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns.

BMO Emerging Markets Bond Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns.

BMO Equal Weight Banks Index ETF's risk classification is based on the BMO ETF's returns.

BMO Equal Weight Global Base Metals Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns.

BMO Equal Weight Global Gold Index ETF's risk classification is based on the BMO ETF's returns and the returns of the S&P/TSX Global Gold Index. The S&P/TSX Global Gold Index includes global securities in the gold industry.

BMO Equal Weight Industrials Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Solactive Equal Weight Canada Industrials Index and the S&P/TSX Equity Index Industrials Total Return Index. The Solactive Equal Weight Canada Industrials Index includes securities in the industrials sector. Each security is allocated an equal weight rather than a market capitalization weight. The S&P/TSX Equity Index Industrials Total Return Index includes an investable set of Canadian securities within the GICs Industrials sector that meet specific market capitalization and liquidity criteria.

BMO Equal Weight Oil & Gas Index ETF's risk classification is based on the BMO ETF's returns.

BMO Equal Weight REITs Index ETF's risk classification is based on the BMO ETF's returns.

BMO Equal Weight US Banks Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns.

BMO Equal Weight US Banks Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Dow Jones U.S. Large-Cap Banks Equal Weight Total Stock Market Total Return Index and the Solactive Equal Weight US Bank Index. The Dow Jones U.S. Large-Cap Banks Equal Weight Total Stock Market Total Return Index and the Solactive Equal Weight US Bank Index consist of large capitalization United States banks. Each security in the index is allocated an equal weight rather than a market capitalization weight.

BMO Equal Weight US Health Care Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns.

BMO Equal Weight U.S. Health Care Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Dow Jones U.S. Large-Cap Health Care Equal Weight Total Stock Market Total Return Index. The Dow Jones U.S. Large-Cap Health Care Equal Weight Total Stock Market Total Return Index consists of the

securities of large capitalization United States health care companies. Each security in the index is allocated an equal weight rather than a market capitalization weight.

BMO Equal Weight Utilities Index ETF's risk classification is based on the BMO ETF's returns.

BMO ESG Corporate Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Bloomberg Barclays Canada Aggregate Corporate Index. The Bloomberg Barclays Canada Aggregate Corporate Index consists of investment grade corporate bonds denominated in Canadian dollars, with greater than \$300 million outstanding.

The risk classification for the Non-Hedged Units of BMO ESG High Yield US Corporate Bond Index ETF's risk classification is based on the returns of the Bloomberg Barclays Capital U.S. High Yield Very Liquid Index. The risk classification of the Hedged Units of BMO ESG High Yield Corporate Bond Index ETF is based on the returns of the Bloomberg Barclays Capital U.S. High Yield Very Liquid Index in U.S. dollars. The Bloomberg Barclays U.S. High Yield Very Liquid Index consists of United States dollar-denominated, non-investment grade, fixed rate, corporate bonds.

BMO ESG US Corporate Bond Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Bloomberg Barclays US Corporate Index. The Bloomberg Barclays US Corporate Index consists of investment grade corporate bonds denominated in U.S. dollars, with greater than \$300 million outstanding.

BMO Global Communications Index ETF's risk classification is based on the BMO ETF's returns and the returns of the MSCI World Information Technology USD (CAD) Index and the MSCI World Telecommunication Services Sector USD (CAD) Index. The MSCI World Information Technology USD (CAD) Index is designed to capture the large and mid-capitalization segments across 23 Developed Markets countries. All securities in this index are classified in the Information Technology sector as per the Global Industry Classification Standard (GICS®). The MSCI World Telecommunication Services Sector USD (CAD) Index is designed to capture the large and mid-capitalization segments across 23 developed markets countries. All securities in the index are classified in the Telecommunication Services sector as per the Global Industry Classification Standard (GICS®).

BMO Global Consumer Discretionary Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Russell Developed Large Cap Consumer Discretionary Capped 100% Hedged to CAD Total Return Index and MSCI World Consumer Discretionary Index. The Russell Developed Large Cap Consumer Discretionary Capped 100% Hedged to CAD Total Return Index is a global equity index that includes companies classified as consumer discretionary. The MSCI World Consumer Discretionary Index is designed to capture the large and mid-capitalization segments across 23 developed markets around the world. All securities in the index are classified in the Consumer Discretionary sector as per the Global Industry Classification Standard (GICS®).

BMO Global Consumer Staples Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Russell Developed Large Cap Consumer Staples Capped 100% Hedged to CAD Total Return and the MSCI World Consumer Staples Index. The Russell Developed Large Cap Consumer Staples Capped 100% Hedged to CAD Total Return is a global equity index that includes companies classified as consumer staples. The MSCI World Consumer Staples Index is designed to capture the large and mid-capitalization segments across 23 developed markets around the world. All securities in the index are classified in the Consumer Staples sector as per the Global Industry Classification Standard. (GICS®).

BMO Global Infrastructure Index ETF's risk classification is based on the BMO ETF's returns.

BMO Government Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of Bloomberg Barclays Canadian Treasury and Government-Related Index. The Bloomberg Barclays Canadian Treasury and Government-Related Index tracks the market for CAD-denominated, fixed-rate, investment-grade treasury and government-related securities with a minimum maturity of 1 year and greater than \$150 million outstanding and issued by Canadian and non-Canadian local authorities, sovereigns, and supranationals.

The FTSE Canada Corporate A Bond Index consists of semi-annual pay fixed rate corporate bonds denominated in Canadian dollars, with a credit rating of A or higher and greater than \$100 million outstanding.

BMO High Yield US Corporate Bond Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns.

BMO High Yield US Corporate Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Bloomberg Barclays U.S. High Yield Very Liquid Index. The Bloomberg Barclays U.S. High Yield Very Liquid Index consists of United States dollar-denominated, non-investment grade, fixed rate, corporate bonds.

BMO India Equity Index ETF's risk classification is based on the BMO ETF's returns.

BMO Junior Gold Index ETF's risk classification is based on the BMO ETF's returns.

BMO Laddered Preferred Share Index ETF's risk classification is based on the BMO ETF's returns and the returns of Solactive Laddered Canadian Preferred Share Index and the S&P/TSX Preferred Total Return Index. The Solactive Laddered Canadian Preferred Share Index includes rate reset preferred shares that generally have an adjustable dividend rate and are laddered with equal weights in annual reset term buckets and the S&P/TSX Preferred Total Return Index is designed to track to the performance of the Canadian preferred stock market.

BMO Long Corporate Bond Index ETF's risk classification is based on the BMO ETF's returns.

BMO Long Federal Bond Index ETF's risk classification is based on the BMO ETF's returns.

BMO Long Provincial Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of the FTSE Canada Long Term Provincial Total Return Index<sup>TM</sup>. The FTSE Canada Long Term Provincial Total Return Index<sup>TM</sup> consists of semi-annual pay fixed rate provincial bonds denominated in Canadian dollars, with an effective term to maturity greater than ten years.

The risk classification for the Non-Hedged Units of BMO Long-Term US Treasury Bond Index ETF is based on the BMO ETF's returns and the returns of the Bloomberg Barclays US Long Treasury Total Return Index Value Unhedged CAD. The risk classification for the Hedged Units of BMO Long-Term US Treasury Bond Index ETF is based on the BMO ETF's returns and the returns of the Bloomberg Barclays US Long Treasury Total Return Index in U.S. dollars. The Bloomberg Barclays US Long Treasury Total Return Index Value Unhedged CAD provides exposure to the U.S. Treasury bond market. Eligible securities must have greater than ten years to maturity, and greater than US\$250 million outstanding. BMO Mid Corporate Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of the FTSE Canada Mid Term All Corporate Total Return Index<sup>TM</sup>. The FTSE Canada Mid Term All Corporate Total Return Index<sup>TM</sup> consists of semi-annual pay fixed rate corporate bonds denominated in Canadian dollars, with an effective term to maturity between five and 10 years.

BMO Mid Federal Bond Index ETF's risk classification is based on the BMO ETF's returns.

BMO Mid Provincial Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of the FTSE Canada Mid Term Provincial Total Return Index<sup>TM</sup>. The FTSE Canada Mid Term Provincial Total Return Index<sup>TM</sup> consists of semi-annual pay fixed rate provincial bonds denominated in Canadian dollars, with an effective term to maturity between five and ten years.

BMO Mid-Term US IG Corporate Bond Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Bloomberg Barclays US Investment Grade 5-10 Corporate Capped Index Total Return Index Value Hedged CAD. The Bloomberg Barclays US Investment Grade 5-10 Corporate Capped Index Total Return Index Value Hedged CAD measures the investment grade, fixed-rate, taxable, corporate bond market. It

includes U.S. dollar denominated securities publicly issued by U.S. and non-U.S. industrial, utility, and financial issuers.

BMO Mid-Term US IG Corporate Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Bloomberg Barclays US Investment Grade 5-10 Corporate Capped Index Total Return Index Unhedged CAD. The Bloomberg Barclays US Investment Grade 5-10 Corporate Capped Index Total Return Index Unhedged CAD measures the investment grade, fixed-rate, taxable, corporate bond market. It includes U.S. dollar denominated securities publicly issued by U.S. and non-U.S. industrial, utility, and financial issuers.

BMO Mid-Term US Treasury Bond Index ETF's risk classification is based on the BMO ETF's returns and the returns of the Bloomberg Barclays U.S. Treasury 5-10 Yr Total Return Index Value Unhedged CAD. The Bloomberg Barclays U.S. Treasury 5-10 Yr Total Return Index Value Unhedged CAD provides exposure to the U.S. Treasury bond market. Eligible securities must have between five and ten years to maturity, and greater than US\$250 million outstanding.

BMO MSCI All Country World High Quality Index ETF's risk classification is based on the BMO ETF's returns and the returns of the MSCI ACWI Quality Net Total Return CAD. The MSCI ACWI Quality Net Total Return CAD is a factor based global equity index that screens for quality companies based on three main fundamental variables: high return on equity, stable year-over-year earnings growth, and low financial leverage.

BMO MSCI Canada ESG Leaders Index ETF's risk classification is based on the BMO ETF's returns and the returns of the MSCI Canada ESG Leaders Index. The MSCI Canada ESG Leaders Index consists of large and mid-capitalization stocks across Canada that have been selected based on MSCI ESG ratings.

BMO MSCI Canada Value ETF's risk classification is based on the BMO ETF's returns and the returns of the MSCI Canada Enhanced Value Capped Index. The index is based on its parent index, MSCI Canada Index, which includes large and mid-cap representation across the Canadian equity markets exhibiting overall value style characteristics, targeting the higher of 25 securities or 50% market cap coverage of the parent index. The index is designed to represent the performance of securities that exhibit higher value characteristics relative to their peers within the corresponding GICS® sector. The value investment style characteristics for index construction are defined using three variables: Price-to-Book Value, Price-to-Forward Earnings and Enterprise Value-to-Cash flow from Operations. The index applies a 10% security capping, applied at each semi-annual rebalance.

BMO MSCI EAFE ESG Leaders Index ETF's risk classification is based on the BMO ETF's returns and the returns of the MSCI EAFE ESG Leaders Index. The MSCI EAFE ESG Leaders Index consists of large and mid-capitalization stocks across developed markets ex-North America that have been selected based on MSCI ESG ratings.

BMO MSCI EAFE Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns.

BMO MSCI EAFE Index ETF's risk classification is based on the BMO ETF's returns and the returns of the MSCI EAFE Net Total Return USD Index. The MSCI EAFE Net Total Return USD Index is an equity index that captures large and mid-capitalization representation across developed market countries around the world, excluding the U.S. and Canada.

BMO MSCI Emerging Markets Index ETF's risk classification is based on the BMO ETF's returns.

BMO MSCI Europe High Quality Hedged to CAD Index ETF's risk classification is based on the BMO ETF's returns and the returns of the MSCI Europe Quality Net Return EUR Index. The MSCI Europe Quality Net Return EUR Index is a factor based European equity index that screens for quality companies based on three main fundamental variables: high return on equity, stable year-over-year earnings growth, and low financial leverage.

BMO MSCI Fintech Innovation Index ETF risk classification is based on the returns of the MSCI ACWI IMI Fintech Innovation Index and MSCI ACWI Index. The MSCI ACWI IMI Fintech Innovation Index measures the performance of stocks from developed and emerging markets which have significant revenues from the development

of new products and services as a result of technological innovation in the financial sector. The MSCI ACWI Index measures the performance of large and mid-cap stocks across developed and emerging markets.

BMO MSCI Genomic Innovation Index ETF risk classification is based on the returns of the MSCI ACWI IMI Genomic Innovation Index and MSCI ACWI Index. The MSCI ACWI IMI Genomic Innovation Index measures the performance of stocks from developed and emerging markets which have significant revenues from the development of new products and services in the field of genomic sequencing, synthesis, analysis or instrumentation, enable bio computing, bioinformatics, molecular diagnostics and agricultural biotechnology. The MSCI ACWI Index measures the performance of large and mid-cap stocks across developed and emerging markets.

BMO MSCI Global ESG Leaders Index ETF's risk classification is based on the BMO ETFs returns and the returns of the MSCI World ESG Leaders Index. The MSCI World ESG Leaders Index consists of large and mid-capitalization stocks across global developed markets that have been selected based on MSCI ESG ratings.

BMO US Put Write ETF	✓		
BMO US Put Write Hedged to CAD ETF	✓		

Cash distributions on Units of a BMO ETF are expected to be paid primarily out of dividends or distributions, and other income or gains, received by the BMO ETF less the expenses of the BMO ETF, but may also consist of non-taxable amounts including returns of capital, which may be paid in the Manager's sole discretion. To the extent that the expenses of a BMO ETF exceed the income generated by such BMO ETF in any given month, quarter or year, as the case may be, it is not expected that a monthly, quarterly, or annual distribution will be paid.

Distributions in respect of the Accumulating Units of BMO Short Corporate Bond Index ETF, BMO Short Federal Bond Index ETF, BMO Short Provincial Bond Index ETF, BMO Ultra Short-Term Bond ETF and BMO Ultra Short-Term US Bond ETF, if any, will be automatically reinvested in additional Accumulating Units of the applicable BMO ETF. Following each distribution, the number of Accumulating Units of the applicable BMO ETF is immediately consolidated so that the number of outstanding Accumulating Units of the applicable BMO ETF will be the same as the number of outstanding Accumulating Units before the distribution. Non-resident investors may have the number of securities reduced due to withholding tax.

Frequency of Distributions Accumulating Units			
BMO ETF	Monthly	Quarterly	Annually
BMO Short Corporate Bond Index ETF			✓
BMO Short Federal Bond Index ETF			✓
BMO Short Provincial Bond Index ETF			✓
BMO Ultra Short-Term Bond ETF			✓
BMO Ultra Short-Term US Bond ETF			✓

For each taxation year, each BMO ETF will ensure that its income (including income received from special dividends on securities held by that BMO ETF) and net realized capital gains, if any, have been distributed to Unitholders to such an extent that the BMO ETF will not be liable for ordinary income tax thereon. To the extent that a BMO ETF has not distributed the full amount of its net income or capital gains in any taxation year, the difference between such amount and the amount actually distributed by the BMO ETF will be paid as a “reinvested distribution”. Reinvested distributions on Units, net of any required withholding taxes, will be reinvested automatically in additional Units of the BMO ETF at a price equal to the NAV per Unit of the BMO ETF and the Units will be immediately consolidated such that the number of outstanding Units following the distribution will equal the number of Units outstanding prior to the distribution. The tax treatment to Unitholders of reinvested distributions is discussed under the heading “Income Tax Considerations – Taxation of Unitholders – Distributions”.

In addition to the distributions described above, a BMO ETF may from time to time pay additional distributions on its Units, including without restriction in connection with a special dividend or in connection with returns of capital.

### **Distribution Reinvestment Plan**

Certain BMO ETFs have adopted a Distribution Reinvestment Plan, which provides that a Unitholder (a “**Plan Participant**”) may elect to automatically reinvest all cash distributions paid on Units held by that Plan Participant in additional Units (“**Plan Units**”) in accordance with the terms of the Distribution Reinvestment Plan (a copy of which is available through your broker or dealer) and the distribution reinvestment agency agreement between the Manager, on behalf of the BMO ETF, and the Plan Agent, as may be amended. The key terms of the Distribution Reinvestment Plan are as described below.

Unitholders who are not residents of Canada may not participate in the Distribution Reinvestment Plan and any Unitholder who ceases to be a resident of Canada will be required to terminate its participation in the Distribution Reinvestment Plan. No BMO ETF will be required to purchase Plan Units if such purchase would be illegal.

A Unitholder who wishes to enrol in the Distribution Reinvestment Plan as of a particular Distribution Record Date should notify the CDS Participant through which that Unitholder holds Units sufficiently in advance of that Distribution Record Date to allow such CDS Participant to notify CDS by 4:00 p.m. on the distribution record date.

Distributions that Plan Participants are due to receive will be used to purchase Plan Units on behalf of such Plan Participants in the market.

No fractional Plan Units will be purchased under the Distribution Reinvestment Plan. Any funds remaining after the purchase of whole Plan Units will be credited to the Plan Participant via its CDS Participant in lieu of fractional Plan Units.

The automatic reinvestment of the distributions under the Distribution Reinvestment Plan will not relieve Plan Participants of any income tax applicable to such distributions. See “Income Tax Considerations – Taxation of Unitholders”.

Plan Participants may voluntarily terminate their participation in the Distribution Reinvestment Plan as of a particular Distribution Record Date by notifying their CDS Participant sufficiently in advance of that distribution record date. Plan Participants should contact their CDS Participant to obtain details of the appropriate procedures for terminating their participation in the Distribution Reinvestment Plan. Beginning on the first Distribution Payment Date after such notice is received from a Plan Participant and accepted by a CDS Participant, distributions to such Plan Participant will be made in cash. Any expenses associated with the preparation and delivery of such termination notice will be borne by the Plan Participant exercising its right to terminate participation in the Distribution Reinvestment Plan. The Manager may terminate the Distribution Reinvestment Plan, in its sole discretion, upon not less than 30 days’ notice to: (i) registered participants in the Distribution Reinvestment Plan, (ii) the CDS Participants through which the Plan Participants hold their Units; (iii) the Plan Agent; and (iv) if necessary, the Exchange.

The Manager may amend, modify or suspend the Distribution Reinvestment Plan at any time in its sole discretion, provided that it receives prior approval for amendments from the TSX and gives notice of the amendment, modification or suspension to: (i) registered participants in the Distribution Reinvestment Plan, (ii) the CDS Participants through which the Plan Participants hold their Units; (iii) the Plan Agent; and (iv) if necessary, the Exchange.

## **PURCHASES OF UNITS**

### **Initial Investment in the New BMO ETFs**

In compliance with NI 81-102, the New BMO ETFs will not issue Units to the public until orders aggregating not less than \$500,000 have been received and accepted by the New BMO ETF from investors other than the Manager or its directors, officers or securityholders.

### **Continuous Distribution**

Units of the BMO ETFs are being issued and sold on a continuous basis and there is no maximum number of Units that may be issued.

### **Designated Brokers**

The Manager, on behalf of each of the BMO ETFs, has entered into a Designated Broker Agreement with a Designated Broker pursuant to which the Designated Broker agrees to perform certain duties relating to the BMO ETF including, without limitation: (i) to subscribe for a sufficient number of Units to satisfy the Exchange’s original listing requirements; (ii) to subscribe for Units on an ongoing basis in connection with the rebalancing of and adjustments to the applicable Index or portfolio as described under “Investment Strategies – Rebalancing and Adjustment” and when cash redemptions of Units occur as described under “Redemption and Exchange of Units”; and (iii) to post a liquid two-way market for the trading of Units on the Exchange. The Manager may, in its discretion from time to time, reimburse any Designated Broker for certain expenses incurred by the Designated Broker in performing these duties.

The Designated Broker Agreements provide that the Manager may from time to time and, in any event not more than once quarterly, require the Designated Broker to subscribe for Units of a BMO ETF for cash in a dollar amount not to exceed 0.30% of the NAV of the BMO ETF. The number of Units issued will be the subscription amount divided by the NAV per Unit next determined following the delivery by the Manager of a subscription notice to the Designated Broker. Payment for the Units must be made by the Designated Broker, and the Units will be issued, by no later than the second Trading Day after the subscription notice has been delivered (or such shorter period as

may be determined by the Manager in response to changes in applicable law or general changes to settlement procedures in applicable markets).

## **Issuance of Units**

### ***To Designated Brokers and Dealers***

All orders to purchase Units directly from the BMO ETFs must be placed by Designated Brokers or Dealers. The BMO ETFs reserve the absolute right to reject any subscription order placed by a Designated Broker or Dealer. No fees will be payable by a BMO ETF to a Designated Broker or Dealer in connection with the issuance of Units. On the issuance of Units, the Manager may, in its discretion, charge an administrative fee to a Designated Broker or Dealer to offset the expenses (including any applicable additional Exchange listing fees) incurred in issuing the Units.

On any Trading Day, a Designated Broker or Dealer may place a subscription order for the Prescribed Number of Units (or an integral multiple thereof or such number of Units as the Manager may permit) of a BMO ETF. If a subscription order is received by the BMO ETF by 9:00 a.m. on a Trading Day (or such later time on such Trading Day as the Manager may permit), the BMO ETF will issue to the Designated Broker or Dealer the Units (i) by no later than the third business day after the subscription notice is accepted, in the case of a BMO ETF that invests a portion of its portfolio assets in T+3 Securities, (ii) by no later than the second business day after the date on which the subscription order is accepted in the case of a BMO ETF (other than BMO Money Market ETF) that does not invest a portion of its portfolio assets in T+3 Securities, (iii) by no later than the next business day after the date on which the subscription order is accepted for BMO Money Market ETF, or (iv) in such shorter period as may be determined by the Manager in response to changes in applicable law or general changes to settlement procedures in applicable markets, in each case provided that payment for such Units has been received.

For each Prescribed Number of Units issued, a Designated Broker or Dealer must deliver payment consisting of, in the Manager's discretion: (i) one Basket of Securities and cash in an amount sufficient so that the value of the securities and the cash received is equal to the NAV of the Units next determined following the receipt of the subscription order; (ii) cash in an amount equal to the NAV of the Units next determined following the receipt of the subscription order; or (iii) a combination of securities and cash, as determined by the Manager, in an amount sufficient so that the value of the securities and cash received is equal to the NAV of the Units next determined following the receipt of the subscription order.

The Basket of Securities for each BMO ETF will be made available to such BMO ETF's Designated Broker and Dealers on each Trading Day. The Manager may, in its discretion, increase or decrease the Prescribed Number of Units from time to time.

### ***To Designated Brokers in Special Circumstances***

Units may be issued by a BMO ETF to Designated Brokers in connection with the rebalancing of and adjustments to the BMO ETF or its portfolio as described under "Investment Strategies – Rebalancing and Adjustment" and when cash redemptions of Units occur as described below under "Redemption and Exchange of Units – Redemption of Units for Cash".

### ***To Unitholders as Reinvested Distributions***

Units may be issued by a BMO ETF to Unitholders of the BMO ETF on the automatic reinvestment of special dividends and other reinvested distributions. See "Distribution Policy" and "Income Tax Considerations".

## **Buying and Selling Units**

Investors are able to buy or sell Units through registered brokers and dealers in the province or territory where the investor resides. Investors may incur customary brokerage commissions in buying or selling Units. The BMO ETFs issue Units directly to the Designated Brokers and Dealers.

From time to time as may be agreed by a BMO ETF and the Designated Brokers and Dealers, the Designated Brokers and Dealers may agree to accept securities as payment for Units from prospective purchasers.

## **Special Considerations for Unitholders**

The provisions of the so-called “early warning” requirements set out in Canadian Securities Legislation do not apply in connection with the acquisition of Units. In addition, the BMO ETFs have obtained exemptive relief from the securities regulatory authorities to permit Unitholders to acquire more than 20% of the Units of any BMO ETF through purchases on the Exchange without regard to the take-over bid requirements of Canadian Securities Legislation, provided that any such Unitholder, and any person acting jointly or in concert with the Unitholder, undertakes to the Manager not to vote more than 20% of the Units of that BMO ETF at any meeting of Unitholders.

Each BMO ETF that invests a portion of its portfolio assets in T+3 Securities has obtained exemptive relief from the securities regulatory authorities to permit such BMO ETF to settle primary market trades in Units of the BMO ETF no later than the third business day after the date upon which pricing for the Units is determined. This settlement cycle differs from the standard settlement cycle for secondary market trades in the Units of the BMO ETFs, which customarily occurs no later than the second business day after the date upon which pricing for the Units is determined (with the exception of Units of BMO Money Market ETF, where settlement occurs no later than one business day after the date upon which pricing is determined).

## **Non-Resident Unitholders**

At no time may: (i) non-residents of Canada; (ii) partnerships that are not Canadian partnerships; or (iii) a combination of non-residents of Canada and such partnerships (all as defined in the Tax Act), be the beneficial owners of a majority of the Units of a BMO ETF. The Manager may require declarations as to the jurisdictions in which a beneficial owner of Units is resident and, if a partnership, its status as a Canadian partnership. If the Manager becomes aware, as a result of requiring such declarations as to beneficial ownership or otherwise, that the beneficial owners of 40% of the Units of a BMO ETF then outstanding are, or may be, non-residents and/or partnerships that are not Canadian partnerships, or that such a situation is imminent, the Manager may make a public announcement thereof. If the Manager determines that more than 40% of such Units are beneficially held by non-residents and/or partnerships that are not Canadian partnerships, the Manager may send a notice to such non-resident Unitholders and partnerships, chosen in inverse order to the order of acquisition or in such manner as the Manager may consider equitable and practicable, requiring them to sell their Units or a portion thereof within a specified period of not less than 30 days. If the Unitholders receiving such notice have not sold the specified number of Units or provided the Manager with satisfactory evidence that they are not non-residents or partnerships other than Canadian partnerships within such period, the Manager may on behalf of such Unitholders sell such Units and, in the interim, shall suspend the voting and distribution rights attached to such Units. Upon such sale, the affected holders shall cease to be beneficial holders of Units and their rights shall be limited to receiving the net proceeds of sale of such Units.

Notwithstanding the foregoing, the Manager may determine not to take any of the actions described above if the Manager has been advised by legal counsel that the failure to take any of such actions would not adversely impact the status of the BMO ETF as a mutual fund trust for purposes of the Tax Act or, alternatively, may take such other action or actions as may be necessary to maintain the status of the BMO ETF as a mutual fund trust for purposes of the Tax Act.

## **Registration and Transfer through CDS**

Registration of interests in, and transfers of, the Units will be made only through CDS. Units must be purchased, transferred and surrendered for exchange or redemption only through a CDS Participant. All rights of an owner of Units must be exercised through, and all payments or other property to which such owner is entitled will be made or delivered by, CDS or the CDS Participant through which the owner holds such Units. Upon purchase of any Units, the owner will receive only the customary confirmation; physical certificates evidencing ownership will not be issued. References in this prospectus to a holder of Units mean, unless the context otherwise requires, the owner of the beneficial interest in such Units.

Neither the BMO ETFs nor the Manager will have any liability for: (i) records maintained by CDS relating to the beneficial interests in the Units or the book entry accounts maintained by CDS; (ii) maintaining, supervising or reviewing any records relating to such beneficial ownership interests; or (iii) any advice or representation made or

given by CDS and made or given with respect to the rules and regulations of CDS or any action taken by CDS or at the direction of the CDS Participants.

The ability of a beneficial owner of Units to pledge such Units or otherwise take action with respect to such owner's interest in such Units (other than through a CDS Participant) may be limited due to the lack of a physical certificate.

The BMO ETFs have the option to terminate registration of the Units through the book-based system in which case certificates for Units in fully registered form will be issued to beneficial owners of such Units or to their nominees.

## **REDEMPTION AND EXCHANGE OF UNITS**

### **Redemption of Units for Cash**

On any Trading Day, Unitholders may redeem Units of any BMO ETF for cash at a redemption price per Unit equal to the lesser of: (i) 95% of the closing price for the Units on the Exchange on the effective day of the redemption; and (ii) the net asset value per Unit on the effective day of the redemption. Because Unitholders will generally be able to sell Units at the market price on the Exchange through a registered broker or dealer subject only to customary brokerage commissions, Unitholders are advised to consult their brokers, dealers or investment advisors before redeeming their Units for cash.

In order for a cash redemption to be effective on a Trading Day, a cash redemption request in the form prescribed by the Manager from time to time must be delivered to the applicable BMO ETF at its registered office by 9:00 a.m. on the Trading Day (or such later time on such Trading Day as the Manager may permit). If a cash redemption request is not received by the delivery deadline noted immediately above on a Trading Day, the cash redemption request will be effective only on the next Trading Day. Payment of the redemption price will be made (i) by no later than the third business day after the effective date of the redemption, in the case of a BMO ETF that invests a portion of its portfolio assets in T+3 Securities, (ii) by no later than the second business day after the effective date of the redemption, in the case of a BMO ETF (other than BMO Money Market ETF) that does not invest a portion of its portfolio assets in T+3 Securities, (iii) by no later than the next business day after the effective date of the redemption for BMO Money Market ETF, or (iv) in each case, such shorter period as may be determined by the Manager in response to changes in applicable law or general changes to settlement procedures in applicable markets. The cash redemption request forms may be obtained from any registered broker or dealer.

Investors that redeem Units prior to the ex-dividend date for any distribution will not be entitled to receive that distribution.

In connection with the redemption of Units, a BMO ETF will generally dispose of securities or other assets to satisfy the redemption. See "Income Tax Considerations – Taxation of the BMO ETFs".

### **Exchange of Units for Baskets of Securities**

On any Trading Day, Unitholders may exchange the Prescribed Number of Units (or an integral multiple thereof) for Baskets of Securities and cash. However, at the discretion of the Manager some BMO ETFs may only pay cash on the exercise by a Unitholder of the exchange right in respect of a Prescribed Number of Units.

To effect an exchange of Units, a Unitholder must submit an exchange request in the form prescribed by the Manager from time to time to the applicable BMO ETF at its registered office by 9:00 a.m. on a Trading Day (or such later time on such Trading Day as the Manager may permit). The exchange price will be equal to the NAV of the Units on the effective day of the exchange request, payable by delivery of Baskets of Securities and cash, or, with respect to BMO China Equity Index ETF, BMO Global Infrastructure Index ETF, BMO India Equity Index ETF and BMO Money Market ETF, cash only. The Units will be redeemed in the exchange.

If an exchange request is not received by the submission deadline noted immediately above on a Trading Day, the exchange order will be effective only on the next Trading Day. Settlement of exchanges for Baskets of Securities and cash will be made (i) by no later than the third business day after the effective day of the exchange request, in the case of a BMO ETF that invests a portion of its portfolio assets in T+3 Securities, (ii) by no later than the second business day after the effective day of the exchange request in the case of a BMO ETF (other than BMO China Equity Index ETF, BMO Global Infrastructure Index ETF, BMO India Equity Index ETF and BMO Money Market ETF) that does not invest a portion of its portfolio assets in T+3 Securities, or (iii) in such shorter period as may be determined by the Manager in response to changes in applicable law or general changes to settlement procedures in applicable markets. The securities to be included in the Baskets of Securities delivered on an exchange shall be selected by the Manager in its discretion.

Unitholders should be aware that the NAV per Unit will decline on the ex-dividend date of any distribution payable in cash on Units. A Unitholder that is not a holder of record on or after the ex-dividend date will not be entitled to receive that distribution.

If securities held by a BMO ETF are cease traded at any time by order of a securities regulatory authority or other relevant regulator or stock exchange, the delivery of such securities to a Unitholder on an exchange in the Prescribed Number of Units may be postponed until such time as the transfer of the securities is permitted by law.

### **Requests for Exchange and Redemption**

A Unitholder submitting an exchange or redemption request is deemed to represent to the BMO ETF and the Manager that: (i) it has full legal authority to tender the Units for exchange or redemption and to receive the proceeds of the exchange or redemption; and (ii) the Units have not been loaned or pledged and are not the subject of a repurchase agreement, securities lending agreement or a similar arrangement that would preclude the delivery of the Units to the BMO ETF. The Manager reserves the right to verify these representations at its discretion. Generally, the Manager will require verification with respect to an exchange or redemption request if there are unusually high levels of exchange or redemption activity or short interest in the applicable BMO ETF. If the Unitholder, upon receipt of a verification request, does not provide the Manager with satisfactory evidence of the truth of the representations, the Unitholder's exchange or redemption request will not be considered to have been received in proper form and will be rejected.

### **Suspension of Exchange and Redemption**

The Manager may suspend the redemption of Units or payment of redemption proceeds of a BMO ETF in the following extraordinary circumstances: (i) during any period when normal trading is suspended on a stock exchange or other market on which securities owned by the BMO ETF are listed and traded, if these securities represent more than 50% by value or underlying market exposure of the total assets of the BMO ETF, without allowance for liabilities, and if these securities are not traded on any other exchange that represents a reasonably practical alternative for the BMO ETF; or (ii) with the prior permission of the securities regulatory authorities, for any period not exceeding 30 days during which the Manager determines that conditions exist that render impractical the sale of assets of the BMO ETF or that impair the ability of the Valuation Agent to determine the value of the assets of the BMO ETF. The suspension may apply to all requests for redemption received prior to the suspension but as to which payment has not been made, as well as to all requests received while the suspension is in effect. All Unitholders making such requests shall be advised by the Manager of the suspension and that the redemption will be effected at a price determined on the first Valuation Date following the termination of the suspension. All such Unitholders shall have and shall be advised that they have the right to withdraw their requests for redemption. The suspension shall terminate in any event on the first day on which the condition giving rise to the suspension has ceased to exist, provided that no other condition under which a suspension is authorized then exists. To the extent not inconsistent with official rules and regulations promulgated by any government body having jurisdiction over the BMO ETFs, any declaration of suspension made by the Manager shall be conclusive.

### **Costs Associated with Exchange and Redemption**

The Manager may charge to Unitholders, in its discretion, an administrative fee of up to 0.05% of the exchange or redemption proceeds of the BMO ETF to offset certain transaction costs associated with the exchange or redemption of Units of a BMO ETF.

### **Exchange and Redemption of Units through CDS Participants**

The exchange and redemption rights described above must be exercised through the CDS Participant through which the owner holds Units. Beneficial owners of Units should ensure that they provide exchange and/or redemption instructions to the CDS Participants through which they hold Units sufficiently in advance of the cut-off times described above to allow such CDS Participants to notify CDS and for CDS to notify the Manager prior to the relevant cut-off time.

### **Short-Term Trading**

At the present time, the Manager is of the view that it is not necessary to impose any short-term trading restrictions on the BMO ETFs as Units of the BMO ETFs are generally traded by investors on an exchange in the secondary market in the same way as other listed securities. In the few situations where the BMO ETFs are not purchased in the secondary market, purchases usually involve a Designated Broker or a Dealer upon whom the Manager may impose a redemption fee, which is intended to compensate the applicable BMO ETF for any costs and expenses incurred in relation to the trade.

## PRICE RANGE AND TRADING VOLUME OF UNITS

The following tables set out the market price range and monthly trading volume of the Units of the BMO ETFs on the applicable Exchange for each month or, if applicable, partial months of the 12-month period before the date of the prospectus. This information is not yet available for the Units of the New BMO ETFs, the New Hedged Units and the New USD Units and partial data reflects that certain BMO ETFs were recently created.

## INCOME TAX CONSIDERATIONS

In the opinion of Borden Ladner Gervais LLP, the following is a summary of the principal Canadian federal income tax considerations under the Tax Act for the BMO ETFs and for a prospective investor in a BMO ETF that, for the purpose of the Tax Act, is an individual, other than a trust, is a resident of Canada, holds Units of the BMO ETF, and any portfolio securities of the BMO ETF accepted as payment for Units of a BMO ETF, as capital property, has not with respect to Units or portfolio securities of the BMO ETF accepted as payment for Units of a BMO ETF entered into a “derivative forward agreement” as that term is defined in the Tax Act, and is not affiliated and deals at arm’s length with the BMO ETF. This summary is based on the current provisions of the Tax Act and regulations thereunder, all specific proposals to amend the Tax Act and such regulations that have been publicly announced by the Minister of Finance (Canada) prior to the date hereof (“**Tax Proposals**”), and counsel’s understanding of the current published administrative policies and assessing practices of the CRA. This summary does not take into account or anticipate any other changes in law whether by legislative, administrative or judicial action and it does not take into account provincial, territorial or foreign income tax legislation or considerations, which may differ from the considerations described below.

**This summary is of a general nature only and is not exhaustive of all possible income tax considerations. Prospective investors should therefore consult their own tax advisors about their individual circumstances.**

This summary is also based on the assumptions that: (i) none of the BMO ETFs will be subject to the tax for “SIFT trusts” for purposes of the Tax Act; (ii) none of the issuers of securities held by a BMO ETF will be a foreign affiliate of the BMO ETF or any Unitholder; (iii) none of the securities held by a BMO ETF will be a “tax shelter investment” within the meaning of subsection 143.2(1) of the Tax Act; (iv) none of the securities held by a BMO ETF will be an interest in a non-resident trust other than an “exempt foreign trust” as defined in Section 94 of the Tax Act relating to non-resident trusts; (v) none of the securities held by a BMO ETF will be an interest in a trust (or a partnership which holds such an interest) which would require a BMO ETF (or the partnership) to report significant amounts of income in connection with such interest pursuant to the rules in section 94.1 or 94.2 of the Tax Act; and (vi) no BMO ETF will enter into any arrangement where the result is a dividend rental arrangement for the purposes of the Tax Act.

### **Status of the BMO ETFs**

This summary is based on the assumption that each BMO ETF will comply at all material times with the conditions prescribed in the Tax Act and otherwise so as to qualify as a “mutual fund trust” as defined in the Tax Act. Counsel is advised that each of the BMO ETFs has qualified, or is expected to qualify (as the case may be), as a “mutual fund trust” under the Tax Act at all material times. If a BMO ETF were to not qualify as a “mutual fund trust” for the purposes of the Tax Act for any period of time, the tax considerations could be materially different from those described below.

### **Taxation of the BMO ETFs**

A BMO ETF will include in computing its income taxable distributions received on securities held by it, including any special dividends, the taxable portion of capital gains realized by the BMO ETF on the disposition of securities held by it and income earned by any securities lending activity and futures trading activity and taxable capital gains or income realized through transactions in options. Under the SIFT Rules, certain income earned by issuers of portfolio securities of a BMO ETF that are SIFT trusts or SIFT partnerships, when such income is distributed or allocated to a BMO ETF, would be treated as eligible dividends from a taxable Canadian corporation. To the extent a BMO ETF earns income from “non-portfolio property” (as defined in the Tax Act), or realizes net taxable capital gains on the disposition of such property, the BMO ETF will generally be subject to tax under Part I of the Tax Act at corporate income tax rates. A BMO ETF will include in computing its income any interest accruing to it on bonds held by that BMO ETF. In the case of BMO Real Return Bond Index ETF, or any other BMO ETF holding real return or inflation-adjusted bonds, any amounts in respect of inflation-related adjustments to the principal amount of the bonds will be deemed to be interest for this purpose. Any such amounts of accrued interest and amounts deemed to be interest will be reflected in distributions to Unitholders.

The Declaration of Trust governing each of the BMO ETFs requires that each BMO ETF distribute its net income and net realized capital gains, if any, for each taxation year of the BMO ETF to Unitholders to such an extent that the BMO ETF will not be liable in any taxation year for ordinary income tax (after taking into account any applicable losses of the BMO ETF and any Capital Gains Refunds to which the BMO ETF is entitled). If in a taxation year the income for tax purposes of a BMO ETF exceeds the cash available for distribution by the BMO ETF, such as in the case of the receipt by the BMO ETF of special dividends, the BMO ETF will distribute its income through a payment of reinvested distributions.

If a BMO ETF invests in another fund (an “**Underlying Fund**”) that is a Canadian resident trust other than a SIFT trust, the Underlying Fund may designate a portion of amounts that it distributes to the BMO ETF as may reasonably be considered to consist of: (i) taxable dividends (including eligible dividends) received by the Underlying Fund on shares of taxable Canadian corporations; and (ii) net taxable capital gains realized by the Underlying Fund. Any such designated amounts will be deemed for tax purposes to be received or realized by the BMO ETF as a taxable dividend or taxable capital gain, respectively. An Underlying Fund that pays foreign withholding tax may make designations such that a BMO ETF may be treated as having paid its share of such foreign tax. If a BMO ETF owns 10% or more of the securities of a class of a non-resident trust, the BMO ETF will generally be required to include in the calculation of its income its proportionate share of the non-resident trust’s undistributed net income (including net taxable capital gains), as calculated under the Tax Act.

The BMO ETFs may be subject to the suspended loss rules contained in the Tax Act. A loss realized on a disposition of property may be considered to be a suspended loss when a BMO ETF acquires a property (a “**substituted property**”) that is the same or identical to the property disposed of, within 30 days before and 30 days after the disposition and the BMO ETF owns the substituted property 30 days after the original disposition. If a loss is suspended, the applicable BMO ETF cannot deduct the loss from the BMO ETF’s gains until the substituted property is sold and is not reacquired within 30 days before and after the sale.

In determining the income of a BMO ETF, gains or losses realized upon transactions in securities undertaken by the BMO ETF will constitute capital gains or capital losses of the BMO ETF in the year realized unless the BMO ETF is considered to be trading or dealing in securities or otherwise carrying on a business of buying and selling securities or the BMO ETF engaged in a transaction or transactions considered to be an adventure in the nature of trade. The Manager has advised counsel that each BMO ETF that holds “Canadian securities” (as defined in the Tax Act) has elected or will elect in accordance with the Tax Act to have each such security treated as capital property. Such election will ensure that gains or losses realized by a BMO ETF on the disposition of Canadian securities are taxed as capital gains or capital losses.

A BMO ETF will be entitled for each taxation year throughout which it is a mutual fund trust to reduce (or receive a refund in respect of) its liability, if any, for tax on its net realized capital gains by an amount determined under the Tax Act based on the redemptions of its Units during the year (“**Capital Gains Refund**”). The capital gains refund in a particular taxation year may not completely offset the tax liability of the BMO ETF for such taxation year which may arise upon the sale of its investments in connection with the redemption of Units.

The Manager has advised counsel that, generally, each BMO ETF will include gains and deduct losses on income account, rather than as capital gains and capital losses, in connection with investments made through derivative transactions, except where such derivatives are not “derivative forward agreements” (as defined in the Tax Act), and are entered into in order to hedge and are sufficiently linked with securities that are held on capital account by the BMO ETF. Gains or losses on derivatives will be recognized for tax purposes at the time they are realized by the BMO ETF. An election to realize gains and losses on “eligible derivatives” (as defined in the Tax Act) of a BMO ETF on a mark-to-market basis may be available. The Manager will consider whether such election, if available, would be advisable for any BMO ETF.

Having regard to the investment strategy of BMO US Put Write ETF and BMO US Put Write Hedged to CAD ETF, the Manager intends that option transactions undertaken by such a BMO ETF will be treated and reported as arising on income account. Each BMO ETF is required to compute its income and gains for tax purposes in Canadian dollars. Therefore, the amount of income, cost, proceeds of disposition and other amounts in respect of investments that are not Canadian dollar denominated will be affected by fluctuations in the exchange rate of the Canadian dollar against the relevant foreign currency.

A BMO ETF may pay foreign withholding or other taxes in connection with investments in foreign securities.

### **Taxation of Unitholders (other than Registered Plans)**

#### ***Distributions***

A Unitholder will be required to include in the Unitholder's income for tax purposes for any year the Canadian dollar amount of net income and net taxable capital gains of the BMO ETF, if any, paid or payable to the Unitholder in the year and deducted by the BMO ETF in computing its income, whether or not such amounts are reinvested in additional Units (including Plan Units acquired under the Distribution Reinvestment Plan), including in the case of Unitholders who receive Management Fee Distributions to the extent they are paid out of net income and net taxable capital gains of the BMO ETF.

The non-taxable portion of any net realized capital gains of a BMO ETF that is paid or payable to a Unitholder in a taxation year will not be included in computing the Unitholder's income for the year and will not reduce the adjusted cost base of the Unitholder's Units of that BMO ETF. Any other non-taxable distribution, such as a return of capital, will not be included in computing the Unitholder's income for the year but will reduce the Unitholder's adjusted cost base (unless the BMO ETF elects to treat such amount as a distribution of additional income). To the extent that a Unitholder's adjusted cost base would otherwise be a negative amount, the negative amount will be deemed to be a capital gain realized by the Unitholder and the Unitholder's adjusted cost base will be nil immediately thereafter.

Each BMO ETF will designate, to the extent permitted by the Tax Act, the portion of the net income distributed to Unitholders as may reasonably be considered to consist of, respectively: (i) taxable dividends (including eligible dividends) received or considered to be received by the BMO ETF on shares of taxable Canadian corporations; and (ii) net taxable capital gains realized or considered to be realized by the BMO ETF. Any such designated amount will be deemed for tax purposes to be received or realized by Unitholders in the year as a taxable dividend and as a taxable capital gain, respectively. The dividend gross-up and tax credit treatment normally applicable to taxable dividends (including eligible dividends) paid by a taxable Canadian corporation will apply to amounts designated by the applicable BMO ETF as such taxable dividends. Capital gains so designated will be subject to the general rules relating to the taxation of capital gains described below. In addition, a BMO ETF may make designations in respect of income from foreign sources, if any, so that Unitholders may be able to claim a foreign tax credit in accordance with the provisions of and subject to the general limitations under the Tax Act for a portion of foreign tax, if any, paid or considered to be paid by the BMO ETF. Any loss realized by the BMO ETF for purposes of the Tax Act cannot be allocated to, and cannot be treated as a loss of, the Unitholders of such BMO ETF.

#### ***Composition of Distributions***

Unitholders will be informed each year of the composition of the amounts distributed to them, including amounts in respect of both cash and reinvested distributions. This information will indicate whether distributions are to be treated as ordinary income, taxable dividends (including eligible dividends), taxable capital gains, non-taxable amounts or foreign source income, and as to foreign tax deemed paid by the Unitholder as those items are applicable.

#### ***Disposition of Units***

Upon the actual or deemed disposition of a Unit, including the exchange or redemption of a Unit, and including upon the termination of a BMO ETF, a capital gain (or a capital loss) will generally be realized by the Unitholder to the extent that the proceeds of disposition of the Unit exceed (or are less than) the aggregate of the adjusted cost base to the Unitholder of the Unit and any reasonable costs of disposition. In general, the adjusted cost base of all Units of a particular BMO ETF held by the Unitholder is the total amount paid for the Units (including brokerage commissions paid and the amount of reinvested distributions), regardless of when the investor bought them, less any non-taxable distributions (other than the non-taxable portion of capital gains) such as a return of capital and less the adjusted cost base of any Units of that BMO ETF previously redeemed/exchanged by the Unitholder. For the purpose of determining the adjusted cost base of Units to a Unitholder, when Units of a BMO ETF are acquired, the cost of the newly acquired Units will be averaged with the adjusted cost base of all Units of that BMO ETF owned by the Unitholder as capital property immediately before that time. The cost of Units acquired on the reinvestment of distributions, including under the Distribution Reinvestment Plan, will be the amount so reinvested.

Where Units of a BMO ETF are exchanged by a redeeming Unitholder for Baskets of Securities, or where securities are received by a Unitholder on a distribution *in specie* on the termination of a BMO ETF, the proceeds of disposition to the Unitholder of the Units will be equal to the fair market value of the securities so received, plus the amount of any cash received on the exchange, and less any capital gain or income realized by the BMO ETF as a result of the transfer of those securities that has been designated by the BMO ETF to the Unitholder. Where a capital gain realized by the BMO ETF as a result of the transfer of securities on the redemption of Units has been designated by the BMO ETF to a redeeming Unitholder, the Unitholder will be required to include in income the taxable portion of the capital gain so designated.

As described under “Risk Factors – Other Tax-Related Risks”, Tax Proposals released by the Minister of Finance (Canada) on July 30, 2019 proposed amendments to the Tax Act that would (a) effective for taxation year of a BMO ETF beginning on or after March 19, 2020, deny the BMO ETF a deduction for any income of the BMO ETF designated to a unitholder on a redemption of units, where the unitholder’s proceeds of disposition are reduced by the designation, and (b) effective for taxation years of a BMO ETF beginning on or after March 20, 2020, deny the BMO ETF a deduction for the portion of a capital gain of the BMO ETF designated to a unitholder on a redemption of units that is greater than the unitholder’s accrued gain on those units, where the unitholder’s proceeds of disposition are reduced by the designation. Given their creation dates, the New BMO ETFs will not be eligible for the 2020 taxation year deferral on capital gains designations. The cost for tax purposes of securities acquired by a redeeming Unitholder on the exchange or redemption of Units will generally be the fair market value of such securities at that time.

Where a Unitholder holds USD Units, any capital gain or capital loss for tax purposes on a disposition of such USD Units will be determined by converting the U.S. dollar cost and proceeds of disposition into Canadian dollars using the applicable rate of exchange on the date of acquisition and disposition, respectively.

#### ***Where Portfolio Securities of a BMO ETF are Accepted as Payment for Units of a BMO ETF***

Where portfolio securities of a BMO ETF are accepted as payment for Units acquired by a Unitholder, such Unitholder will generally realize a capital gain (or capital loss) in the taxation year of the Unitholder in which the disposition of such securities takes place to the extent that the proceeds of disposition for such securities, net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of such securities to the Unitholder. For this purpose, the proceeds of disposition to the Unitholder will equal the aggregate of the fair market value of the Units received and the amount of any cash received in lieu of fractional Units. The cost to a Unitholder of Units so acquired will be equal to the fair market value of the portfolio securities of the BMO ETF disposed of in exchange for such Units at the time of disposition less any cash received in lieu of fractional Units, which sum would generally be equal to or would approximate the fair market value of the Units received as consideration for the portfolio securities of the BMO ETF. In computing the adjusted cost base of a Unit so acquired by a Unitholder, the cost of such Unit must be averaged with the adjusted cost base of any other Units then held by that Unitholder as capital property. Where the securities so disposed of by a Unitholder are denominated in a currency other than Canadian dollars, any capital gain or capital loss realized by the Unitholder will be determined by converting the Unitholder’s cost and proceeds of disposition into Canadian dollars using the applicable rate of exchange on the date of acquisition and disposition, respectively.

#### ***Taxation of Capital Gains and Capital Losses***

One-half of any capital gain realized by a Unitholder and the amount of any net taxable capital gains realized or considered to be realized by a BMO ETF and designated by the BMO ETF in respect of a Unitholder will be included in the Unitholder’s income as a taxable capital gain. One-half of a capital loss realized by a Unitholder will be an allowable capital loss that may be deducted from taxable capital gains subject to and in accordance with detailed rules in the Tax Act.

#### ***Taxation of Registered Plans***

In general, a Registered Plan will not be taxable on the amount of a distribution paid or payable to a Registered Plan from a BMO ETF, nor on gains realized by a Registered Plan on a disposition of a Unit. As is the case for all investments held in Registered Plans, amounts withdrawn from a Registered Plan (other than from a TFSA or a return of contributions from an RESP or RDSP) will generally be subject to tax.

## **Tax Implications of the BMO ETFs' Distribution Policy**

When an investor purchases Units, a portion of the price paid may reflect income or capital gains accrued or realized before such person acquired such Units. When these amounts are payable to such Unitholder as distributions, they must be included in the Unitholder's income for tax purposes subject to the provisions of the Tax Act, even though the BMO ETF earned or accrued these amounts before the Unitholder owned the Units. This may particularly be the case if Units are purchased near year-end before the final year-end distributions have been made.

## **Exchange of Tax Information**

The BMO ETFs have due diligence and reporting obligations under the Foreign Account Tax Compliance Act (as implemented in Canada by the Canada-United States Enhanced Tax Information Exchange Agreement and Part XVIII of the Tax Act, collectively "FATCA") and the OECD's Common Reporting Standard (as implemented in Canada by Part XIX of the Tax Act, the "CRS Provisions"). Generally, unitholders (or in the case of certain unitholders that are entities, the "controlling persons" thereof) will be required by law to provide their dealer with information related to their citizenship or tax residence and, if applicable, their foreign tax identification number. If a unitholder (or, if applicable, any of its controlling persons), (i) is identified as a U.S. Person (including a U.S. resident or a U.S. citizen); (ii) is identified as a tax resident of a country other than Canada or the U.S.; or (iii) does not provide the required information and indicia of U.S. or non-Canadian status is present, information about the unitholder (or, if applicable, its controlling persons) and their investment in the BMO ETF will generally be reported to the CRA unless the units are held within a Registered Plan. The CRA will provide that information to, in the case of FATCA, the U.S. Internal Revenue Service and in the case of CRS, the relevant tax authority of any country that is a signatory of the Multilateral Competent Authority Agreement on Automatic Exchange of Financial Account Information or that has otherwise agreed to a bilateral information exchange with Canada under CRS.

## **ELIGIBILITY FOR INVESTMENT**

In the opinion of counsel, provided that a BMO ETF qualifies as a mutual fund trust within the meaning of the Tax Act, or that the Units of the BMO ETF are listed on a designated stock exchange within the meaning of the Tax Act, which includes the TSX and the NEO Exchange, or are registered investments under the Tax Act, the Units of that BMO ETF will be qualified investments for trusts governed by Registered Plans.

Notwithstanding the foregoing, in the case of a tax-free savings account ("TFSA"), a registered retirement savings plan ("RRSP"), registered education savings plan ("RESP"), registered disability savings plans ("RDSP") and a registered retirement income fund ("RRIF"), if the holder of the TFSA or RDSP, the subscriber of the RESP or the annuitant of the RRSP or RRIF (a "controlling individual") holds a "significant interest" in a BMO ETF, or if such controlling individual does not deal at arm's length with a BMO ETF for purposes of the Tax Act, the Units of such BMO ETF will be a "prohibited investment" for such TFSA, RRSP, RESP, RDSP, or RRIF. If Units of a BMO ETF are a "prohibited investment" for a TFSA, RRSP, RESP, RDSP or RRIF that acquires such Units, the controlling individual will be subject to a penalty tax as set out in the Tax Act. Generally, a controlling individual will not be considered to have a "significant interest" in a BMO ETF unless the controlling individual owns 10% or more of the value of the outstanding Units of such BMO ETF, either alone or together with persons and partnerships with which the controlling individual does not deal at arm's length. In addition, the Units of the BMO ETF will not be a "prohibited investment" at any time during the first 24 months of existence of the BMO ETF provided that the BMO ETF qualifies as a mutual fund trust or as a registered investment under the Tax Act and remains in substantial compliance with NI 81-102 during that period or if such Units are otherwise "excluded property" as defined in the Tax Act for trusts governed by a TFSA, RRSP, RESP, RDSP or RRIF.

In the case of an exchange of Units of a BMO ETF for a Basket of Securities of the BMO ETF, or a distribution *in specie* on the termination of a BMO ETF, the investor will receive securities. The securities received by an investor as a result of an exchange of Units or a distribution *in specie* may or may not be qualified investments for Registered Plans. Investors should consult their own tax counsel for advice on whether or not such securities would be qualified investments for Registered Plans or prohibited investments for TFSAs, RESPs, RDSPs, RRSPs or RRIFs.

## ORGANIZATION AND MANAGEMENT DETAILS OF THE BMO ETFs

### Officers and Directors of the Trustee, Manager, Portfolio Manager and Promoter

The name and municipality of residence of each of the directors and executive officers of BMO Asset Management Inc., which is the Trustee, Manager, Portfolio Manager and Promoter of the BMO ETFs, and their principal occupations are as follows:

<b>Name and Municipality of Residence</b>	<b>Position with Manager</b>	<b>Principal Occupation</b>
NELSON AVILA Toronto, Ontario	Chief Financial Officer	Lead Financial Officer, BMO Global Asset Management – Canada
THOMAS BURIAN Mississauga, Ontario	Director	Vice President and Chief Financial Officer, Wealth Management, BMO Financial Group
WILLIAM CHINKIWSKY Toronto, Ontario	Chief Compliance Officer	Head, Global Asset Management Compliance
KEVIN GOPAUL Oakville, Ontario	Head of Exchange Traded Funds and Director	Head of Exchange Traded Funds, BMO Global Asset Management

Prior to April 2017, Lena Zecchino was Senior Manager – Wealth Management Regulatory Programs, Bank of Montreal from July 2014 to April 2017.

### **Trustee, Manager, Portfolio Manager and Promoter of the BMO ETFs**

BMO Asset Management Inc. is the Trustee, Manager, Portfolio Manager and Promoter of the BMO ETFs and is responsible for the administration of the BMO ETFs. The Manager is registered as a portfolio manager and exempt market dealer in each of the provinces and territories of Canada, as a commodity trading manager in Ontario, and as an investment fund manager in Ontario, Newfoundland and Labrador and Quebec.

BMO Asset Management Inc. is a Canadian investment manager. Its clients include pension funds, endowments, trusts, insurance company reserves, corporations and mutual funds. The Manager is an indirect, wholly-owned subsidiary of Bank of Montreal. The office for service of notice to the BMO ETFs and the Manager is located at 250 Yonge Street, 7th Floor, Toronto, Ontario M5B 2M8 (the registered office of the BMO ETFs and the Manager is located at 100 King Street West, 43rd Floor, Toronto, Ontario M5X 1A1).

#### ***Duties and Services to be Provided by the Trustee, Manager, Portfolio Manager and Promoter***

BMO Asset Management Inc. is the trustee, manager, portfolio manager and promoter of each of the BMO ETFs and, as such, is responsible for providing, or causing to be provided, managerial, administrative and compliance services to the BMO ETFs including, without limitation, acquiring or arranging to acquire securities on behalf of the BMO ETFs, calculating or causing to be calculated NAV, NAV per Unit, net income and net realized capital gains of the BMO ETFs, authorizing the payment of operating expenses incurred on behalf of the BMO ETFs, preparing or causing to be prepared financial statements and financial and accounting information as required by the BMO ETFs, ensuring that Unitholders are provided with financial statements (including interim and annual financial statements) and other reports as are required by applicable law from time to time, ensuring that the BMO ETFs comply with regulatory requirements and applicable stock exchange listing requirements, preparing or causing to be prepared the BMO ETFs' reports to Unitholders and the securities regulatory authorities, determining the amount of distributions to be made by the BMO ETFs and negotiating contractual agreements with third-party providers of services, including Index Providers, Designated Brokers, the Custodian, the Registrar and Transfer Agent, the auditor and printers.

#### ***ESG Promotion and Advancement***

As a member of the BMO Financial Group, the Manager is committed to advancing ESG investing and other ESG initiatives. The Manager has chosen to allocate a percentage of the management fees it receives from its role as manager of the BMO ESG ETFs to the advancement and promotion of ESG.

The Manager currently intends to allocate, at a minimum, the following amounts to ESG advancement and promotion activities:

<b>Collective BMO ESG ETF Assets Under Management</b>	<b>Amount Allocated to ESG Advancement and Promotion</b>
Less than \$1 billion	10% of the Manager's revenue from management fees charged to BMO ESG ETFs
\$1 billion to less than \$10 billion	10% of the Manager's revenue from management fees charged to BMO ESG ETFs up to \$1 billion in assets under management <b>Plus</b> 5% of the Manager's revenue from management fees charged to BMO ESG ETFs between \$1 billion and \$10 billion in assets under management
\$10 billion or more	Minimum of \$1,000,000

The Manager's decision to spend a portion of its management fee revenues on ESG initiatives does not impact the management fees that are charged to the BMO ESG ETFs. The Manager may choose to increase, decrease or eliminate this allocation of its management fee revenue for ESG initiatives at any time in its sole discretion, and any such change will not have an impact on the management fees charged to the BMO ESG ETFs.

#### ***Details of the Declaration of Trust***

The Manager is required to exercise its powers and discharge its duties honestly, in good faith and in the best interests of Unitholders, and in connection therewith, to exercise the degree of care, diligence and skill that a reasonably prudent trustee and manager would exercise in similar circumstances.

The Manager may resign as trustee and/or manager of any of the BMO ETFs upon 60 days' notice to the Unitholders. If the Manager resigns it may appoint its successor but, unless its successor is an affiliate of the Manager, its successor must be approved by the Unitholders. If the Manager is in material default of its obligations under the Declaration of Trust and such default has not been cured within 30 days after notice of the same has been given to the Manager, the Unitholders may remove the Manager and appoint a successor trustee and/or manager.

The Manager is entitled to fees for its services as manager under the Declaration of Trust as described under "Fees and Expenses – Management Fees". In addition, the Manager and its affiliates and each of their directors, officers, employees and agents will be indemnified by each of the BMO ETFs for all liabilities, costs and expenses incurred in connection with any action, suit or proceeding that is proposed or commenced or other claim that is made against any of them in the exercise of the Manager's duties under the Declaration of Trust, if they do not result from the Manager's wilful misconduct, bad faith, negligence or breach of its obligations thereunder.

The management and trustee services of the Manager are not exclusive and nothing in the Declaration of Trust or any agreement prevents the Manager from providing similar services to other investment funds and other clients (whether or not their investment objectives and policies are similar to those of the BMO ETFs) or from engaging in other business activities.

The Manager has taken the initiative in founding and organizing the BMO ETFs and is, accordingly, the promoter of the BMO ETFs within the meaning of securities legislation of certain provinces and territories of Canada.

#### ***Portfolio Advisors***

As the portfolio manager of the BMO ETFs, the Manager buys and sells investments on behalf of the BMO ETFs in accordance with the investment objectives and investment strategies of the BMO ETFs. Investment decisions are made by a portfolio management team that has a manager or lead person. The table below sets forth information about the individual(s) principally responsible for managing the investments of the BMO ETFs.

<b>Individual Principally Responsible</b>	<b>Length of Service with BMO Asset Management Inc.</b>
Rob Bechard, Head of ETF Portfolio Management	Since 2009

#### ***Brokerage Arrangements***

The Manager utilizes various brokers to effect securities transactions on behalf of the BMO ETFs. These brokers may directly provide the Manager with research and related services, as outlined below, in addition to executing transactions – often referred to as "bundled services". Although each BMO ETF may not benefit equally from each research and related service received from a broker, the Manager will endeavour to ensure that all of the BMO ETFs receive an equitable benefit over time.

The Manager maintains a list of brokers that have been approved to effect securities transactions on behalf of the BMO ETFs. When determining whether a broker should be added to that list there are numerous factors that are considered including: (a) with respect to trading: (i) level of service; (ii) response time; (iii) availability of securities (liquidity); (iv) account management; (v) idea generation; and (vi) access to alternative markets/liquidity

pools; (b) with respect to research: (i) proprietary research reports; (ii) industry knowledge; (iii) access to analysts; and (iv) access to staff; (c) with respect to personnel: (i) back office support; and (ii) sales contacts; and (d) with respect to infrastructure: (i) trade settlement; (ii) confirmations; and (iii) reporting.

Approved brokers are monitored on a regular basis to ensure that the value of the goods and services, as outlined above, provides a reasonable benefit as compared to the amount of brokerage commissions paid for the goods and services. In conducting this analysis, the Manager considers the use of the goods and services, execution quality in terms of trade impact and the ability to achieve the target benchmark price, as well as the amount of brokerage commissions paid relative to other brokers and the market in general. The selection and monitoring processes are the same regardless of whether the broker is affiliated with the Manager or is an unrelated third party.

Since the date of the last prospectus of the BMO ETFs, the Manager has received proprietary research reports, industry knowledge and access to both analysts and staff from BMO NB, an affiliated broker. In addition, the Manager has received proprietary research reports, industry knowledge and access to analysts, staff and alternative trading systems from various unrelated third party brokers. Additional information including the services supplied by each broker can be obtained from the Manager upon request, at no cost, by calling 1-800-361-1392.

### **Conflicts of Interest**

The directors and officers of the Manager may be directors, officers, shareholders or unitholders of one or more issuers in which the BMO ETFs may acquire securities. The Manager and its affiliates, including other BMO Financial Group entities, may be managers or portfolio managers of one or more issuers in which the BMO ETFs may acquire securities and may be managers or portfolio managers of funds that invest in the same securities as the BMO ETFs. Such transactions will only be undertaken where permitted by applicable securities legislation and upon obtaining any required regulatory or IRC approvals.

When a BMO ETF invests in Underlying Funds, it will predominantly, if not exclusively, invest in Underlying Funds managed by the Manager or its affiliates (“**BMO Funds**”).

Where the Manager chooses to invest in BMO Funds, it generally does so because there are economic efficiencies that can be accessed when investing in BMO Funds and because it has greater familiarity with (i) the capabilities of the investment teams proving investment management to those BMO Funds, (ii) the consistency of the underlying investment strategy of the BMO Funds with the BMO ETF’s overall investment objective, and (iii) how those BMO Funds will react to a wide range of market conditions. In particular, investing in BMO Funds gives the Manager an increased ability to waive management fees, thereby helping to keep the BMO ETFs themselves commercially viable.

The predominant use of BMO Funds creates conflicts of interest because it provides collateral benefits to the Manager, including both an increase in the Manager’s total assets under management and an increase in the assets of BMO ETFs and BMO Funds, potentially increasing the commercial viability of BMO ETFs and BMO Funds through an increase in assets and greater economies of scale. Despite the predominant use of BMO Funds for the reasons mentioned above, the Manager has the sole discretion to select unaffiliated Underlying Funds in any asset class at any time even if a BMO Fund exists in a similar asset class.

The Manager, on behalf of each of the BMO ETFs, has entered into a Designated Broker Agreement with a Designated Broker pursuant to which the Designated Broker agrees to perform certain duties relating to the BMO ETFs including, without limitation: (i) to subscribe for a sufficient number of Units to satisfy the Exchange’s original listing requirements; (ii) to subscribe for Units on an ongoing basis in connection with the rebalancing of and adjustments to the applicable Index or portfolio and when cash redemptions of Units occur; and (iii) to post a liquid two-way market for the trading of Units on the Exchange. BMO NB, an affiliate of the Manager, has agreed to act as a Designated Broker for the BMO ETFs set out in the following tables and also acts as a Dealer for all of the BMO ETFs.

<b>Index BMO ETFs for which BMO NB acts as Designated Broker</b>

#### **Independent Review Committee**

The Manager has appointed an IRC for the BMO ETFs under NI 81-107. The IRC currently consists of four members, each of whom is independent of the Manager.

The mandate of the IRC is to review conflict of interest matters identified and referred to the IRC by the Manager and to give an approval or a recommendation, depending on the nature of the conflict of interest matter. At all times, the members of the IRC are required to act honestly and in good faith in the best interests of the BMO ETFs and, in connection therewith, will exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

The Manager has established written policies and procedures for dealing with conflict of interest matters. At least annually, the IRC will review and assess the adequacy and effectiveness of the Manager's written policies and procedures relating to conflict of interest matters and will conduct a self-assessment of the IRC's independence, compensation and effectiveness.

The Manager will maintain records of all matters and/or activities subject to the review of the IRC, including a copy of the Manager's written policies and procedures dealing with conflict of interest matters, minutes of IRC meetings, and copies of materials, including any written reports, provided to the IRC. The Manager will also provide the IRC with assistance and information sufficient for the IRC to carry out its responsibilities under NI 81-107.

The members of the IRC are entitled to be compensated by the BMO ETFs and reimbursed for all reasonable costs and expenses for the duties they perform as IRC members. In addition, the members of the IRC are entitled to be indemnified by the BMO ETFs, except in cases of wilful misconduct, bad faith, negligence or breach of their standard of care.

The name and municipality of residence of each of the members of the IRC is as follows:

JACQUELINE ALLEN	Toronto, Ontario
MARLENE DAVIDGE (CHAIR)	Toronto, Ontario
JIM FALLE	Port Perry, Ontario
WENDY HANNAM	Toronto, Ontario

Each IRC member receives compensation for the duties he or she performs as an IRC member. The annual retainer for each IRC member (other than the Chair of the IRC) in respect of all of the exchange traded funds managed by the Manager is approximately \$31,687; the annual retainer for the Chair of the IRC is approximately \$45,550. In addition, each IRC member is entitled to the reimbursement of all reasonable expenses in connection with his or her duties as an IRC member.

The Manager will not reimburse the exchange traded funds for any costs incurred in relation to compliance with NI 81-107.

The IRC is subject to requirements to conduct regular assessments and, for each financial year of the BMO ETFs, will prepare a report to Unitholders that describes the IRC and its activities for the financial year. A copy of this report can be obtained from the Manager upon request, at no cost, by calling 1-800-361-1392 or is available on the BMO ETFs' website at [www.bmo.com/etflegal](http://www.bmo.com/etflegal) or SEDAR at [www.sedar.com](http://www.sedar.com).

### **Officers of the BMO ETFs**

Robert J. Schauer of Toronto, Ontario is the Chief Financial Officer of each of the BMO ETFs. Mr. Schauer's principal occupation is Head of GAM Business Transformation for North America, BMO Global Asset Management.

### **Custodian**

Pursuant to the Custodian Agreement, State Street Trust Company Canada is the custodian of the assets of the BMO ETFs and has been given authority to appoint sub-custodians. The principal office of the Custodian is located in Toronto, Ontario. The Manager on behalf of the BMO ETFs or State Street Trust Company Canada may terminate the Custodian Agreement upon at least 90 days' written notice. The Manager on behalf of the BMO ETFs or State Street Trust Company Canada may terminate the Custodian Agreement immediately if there is a change of control, if there is a material breach of the Custodian Agreement not remedied within 60 days or upon the bankruptcy of any party. The Manager on behalf of the BMO ETFs may terminate the Custodian Agreement immediately if the Custodian ceases to be qualified to act as a custodian of the BMO ETFs under applicable law or the Manager is required to cease acting as an investment fund manager of the BMO ETFs. The Custodian may terminate the Custodian Agreement immediately if the Manager on behalf of the BMO ETFs fails to pay the Custodian invoiced fees and expenses of greater than two months of charges when due and fails to cure such breach within 60 days. The Custodian is entitled to receive fees from the Manager as described under "Fees and Expenses" and to be reimbursed for all expenses and liabilities that are properly incurred by the Custodian in connection with the activities of the BMO ETFs.

### **Auditor**

The auditor of the BMO ETFs is PricewaterhouseCoopers LLP, Chartered Professional Accountants, Licensed Public Accountants, located at 18 York Street, Suite 2600, Toronto, ON M5J 0B2.

### **Transfer Agent and Registrar**

State Street Trust Company Canada at its principal offices in Toronto, Ontario, is the registrar and transfer agent for the Units. The register of the BMO ETFs is kept in Toronto, Ontario.

## **Plan Agent**

State Street Trust Company Canada, at its principal offices in Toronto, Ontario, is the Plan Agent for the Distribution Reinvestment Plan of the BMO ETFs.

## **Securities Lending Agent**

On behalf of the BMO ETFs, the Manager has entered into a securities lending authorization agreement with State Street Bank and Trust Company. The securities lending program is administered by the Securities Lending Agent. The Securities Lending Agent acts as agent for securities lending transactions for those BMO ETFs that engage in securities lending. The Securities Lending Agent is independent of the Manager. The securities lending program administrator will value the loaned securities and the collateral daily to ensure that the collateral is worth at least 105% of the value of the securities. Pursuant to the terms of the Securities Lending Agreement, the Securities Lending Agent will indemnify the BMO ETFs from all direct losses, damages, liabilities, costs or expenses actually incurred and arising from a claim of a third party arising from the Securities Lending Agent's failure to satisfy its standard of care, provided such failure is not caused by events beyond its control or from the BMO ETFs or its agent's negligent act or omission. The Securities Lending Agreement may be terminated at any time at the option of any party upon 5 business days' prior notice to the other parties.

## **CALCULATION OF NET ASSET VALUE**

The NAV and NAV per Unit of a class of a BMO ETF will be calculated by the Valuation Agent as of the Valuation Time on each Valuation Date. The NAV of the Units of a class of a BMO ETF on a particular date will be equal to the aggregate value of the assets of that BMO ETF attributable to that class less the aggregate value of the liabilities attributable to the class of that BMO ETF including any income, net realized capital gains or other amounts payable to Unitholders on or before such date and the value of the liabilities of that BMO ETF for management fees, expressed in Canadian dollars at the applicable exchange rate on such date. The NAV per Unit of a class on any day will be obtained by dividing the NAV on such day by the number of units of that class then outstanding.

## **Valuation Policies and Procedures**

In determining the NAV of each BMO ETF at any time, the Valuation Agent uses the following principles:

- (a) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received, are valued at the carrying amount or at what the Valuation Agent considers to be the fair value;
- (b) bonds, debentures and other debt securities shall be marked-to-market based on prices obtained from a recognized pricing service at the Valuation Time on the Valuation Date. Short-term investments, including notes and money market instruments, shall be recorded at their fair value;
- (c) any security that is listed or dealt in on a stock exchange shall be valued at the closing sale price (or such other value as the securities regulatory authorities may permit) last reported at the Valuation Time on the Valuation Date on the principal stock exchange on which such security is traded, or, if no reliable closing sale price is available at that time, the security shall be fair valued;
- (d) securities of any mutual funds held by a BMO ETF shall be valued at the reported net asset value of that mutual fund;
- (e) foreign currency accounts shall be expressed in Canadian dollars on the following basis: (i) investments and other assets shall be valued by applying the applicable exchange rate at the end of the relevant valuation period; and (ii) purchases and sales of investments, income and expenses shall be recorded by applying the applicable exchange rate on the dates of such transactions;
- (f) a BMO ETF's holdings shall be valued in Canadian dollars before its NAV is calculated;

- (g) forward foreign exchange contracts shall be valued as the difference between the value of the contract on the date the contract was originated and the value of the contract on the Valuation Date. Foreign exchange options shall be valued at their quoted market value. When the contract or option closes or expires, a realized foreign exchange gain or loss shall be recognized;
- (h) forward contracts shall be valued as the difference between the value of the contract on the date the contract originated and the value of the contract on the Valuation Date;
- (i) clearing corporation options shall be valued at the current market value;
- (j) should a BMO ETF write a covered clearing corporation option, the premium received shall be considered a deferred credit with a value equal to the current market value of an option that would have the effect of closing the position. Any difference resulting from revaluation will be treated as an unrealized gain or loss. Deferred credits will be deducted to arrive at the net asset value of the BMO ETF;
- (k) futures contracts shall be valued at the outstanding current margin payable or receivable;
- (l) bullion, coins, certificates or other evidences of precious metals shall be valued at current market value;
- (m) restricted securities shall be valued according to reported quotations in common use, or according to the following method, whichever is less: restricted securities shall be valued at that percentage of the market value of unrestricted securities which the BMO ETF paid to acquire them, provided that if the time period during which the restrictions on these securities will apply is known, the price may be adjusted to reflect this time period;
- (n) all other assets shall be valued at our best estimate of fair value; and
- (o) if any investment cannot be valued under the foregoing principles or if the foregoing principles are at any time considered by the Valuation Agent to be inappropriate under the circumstances, then, notwithstanding the foregoing rules, the Valuation Agent shall make such valuation as it considers fair and reasonable.

The value of any security or property to which, in the opinion of the Valuation Agent, the above valuation principles cannot be applied (whether because no price or yield equivalent quotations are available as above provided, or for any other reason) shall be the fair value thereof determined in such manner as the Valuation Agent from time to time provides. The Valuation Agent may also fair value securities in the following circumstances: (i) when there is a halt trade on a security which is normally traded on an exchange; (ii) on securities that trade on markets that have closed prior to the time of calculation of the NAV of a BMO ETF and for which there is sufficient evidence that the closing price on the market is not the most appropriate value at the time of valuation; and (iii) when there are investment or currency restrictions imposed by a country that affect the BMO ETFs' ability to liquidate the assets held in that market.

Each portfolio transaction will be reflected in the calculation of NAV per Unit no later than the calculation of NAV per Unit next made after the date on which the transaction becomes binding. The issue, exchange or redemption of Units will be reflected in the calculation of NAV per Unit next made after the calculation made for the purpose of such issue, exchange or redemption.

#### **Reporting of Net Asset Value**

Following the Valuation Time on the Valuation Date, the NAV and NAV per Unit for each BMO ETF will usually be published in the financial press and will be posted on the BMO ETFs' website at [www.bmo.com/etflegal](http://www.bmo.com/etflegal).

## ATTRIBUTES OF THE UNITS

### Description of the Securities Distributed

Each of the BMO ETFs is authorized to issue an unlimited number of redeemable, transferable Units of an unlimited number of classes of Units, each of which represents an equal, undivided interest in the net assets of that BMO ETF. Except for the USD Units, which are denominated in U.S. dollars, the Units of the BMO ETFs are Canadian dollar denominated.

On December 16, 2004, the *Trust Beneficiaries' Liability Act, 2004* (Ontario) came into force. This statute provides that holders of units of a trust are not, as beneficiaries, liable for any default, obligation or liability of the trust if, when the default occurs or the liability arises: (i) the trust is a reporting issuer under the *Securities Act* (Ontario); and (ii) the trust is governed by the laws of the Province of Ontario. Each of the BMO ETFs is or will be a reporting issuer under the *Securities Act* (Ontario) prior to the initial issuance of Units and each BMO ETF is governed by the laws of the Province of Ontario by virtue of the provisions of the Declaration of Trust.

### Certain Provisions of the Units

All Units of a BMO ETF have equal rights and privileges. Each whole Unit is entitled to one vote at all meetings of Unitholders and is entitled to participate equally with respect to any and all distributions made by a BMO ETF to Unitholders, other than Management Fee Distributions, including distributions of net income and net realized capital gains and distributions upon the termination of the BMO ETF. Units are issued only as fully-paid and are non-assessable.

#### *Exchange of Units for Baskets of Securities*

On any Trading Day, Unitholders may exchange the Prescribed Number of Units (or an integral multiple thereof) for Baskets of Securities and cash or, with respect to certain BMO ETFs, cash only. See "Redemption and Exchange of Units – Exchange of Units for Baskets of Securities".

#### *Redemption of Units for Cash*

On any Trading Day, Unitholders may redeem Units of any BMO ETF for cash at a redemption price per Unit equal to the lesser of: (i) 95% of the closing price for the Units on the Exchange on the effective day of the redemption; and (ii) the net asset value per Unit on the effective day of the redemption. See "Redemption and Exchange of Units – Redemption of Units for Cash".

#### *No Voting Rights*

Unitholders of a BMO ETF will not have any right to vote securities held by that BMO ETF.

### Modification of Terms

The rights attached to the Units of a BMO ETF may only be modified, amended or varied in accordance with the terms of the Declaration of Trust. See "Unitholder Matters – Matters Requiring Unitholders' Approval".

## UNITHOLDER MATTERS

### Meetings of Unitholders

A meeting of the Unitholders of a BMO ETF voting as a single class (unless the circumstances are such that one class is affected differently in which case the holders of each class of the BMO ETF will vote separately) may be called at any time by the Manager and shall be called by the Manager upon written request of Unitholders of a BMO ETF holding in the aggregate not less than 10% of the Units of the BMO ETF. Except as otherwise required or permitted by law, meetings of Unitholders of a BMO ETF will be held if called by the Manager upon written notice of not less than 21 days nor more than 50 days before the meeting. At any meeting of Unitholders of a BMO ETF, a quorum shall consist of two or more Unitholders of the BMO ETF present in person or by proxy and holding 10% of the Units of the BMO ETF. If no quorum is present at such meeting within one-half hour after the time fixed for the

holding of such meeting, the meeting, if convened upon the request of Unitholders or for the purpose of considering a change in the manager of the BMO ETF, shall be cancelled, but in any other case, the meeting shall stand adjourned and will be held at the same time and place on the day which is not less than 10 days later. the Manager will give at least three days' notice by press release to Unitholders of the date of the reconvened meeting, and at the reconvened meeting, Unitholders present in person or represented by proxy will constitute a quorum.

### **Matters Requiring Unitholders' Approval**

NI 81-102 requires a meeting of Unitholders of a BMO ETF to be called to approve certain changes as follows:

- (a) the basis of the calculation of a fee or expense that is charged to the BMO ETF is changed in a way that could result in an increase in charges to the BMO ETF, except where:
  - (i) the BMO ETF is at arm's length with the person or company charging the fee;
  - (ii) the Unitholders have received at least 60 days' notice before the effective date of the change; and
  - (iii) the right to notice described in (ii) is disclosed in the prospectus of the BMO ETF;
- (b) a fee or expense is introduced that is to be charged to a BMO ETF or directly to its Unitholders by the BMO ETF or the Manager in connection with the holding of Units of the BMO ETF that could result in an increase in charges to the BMO ETF or its Unitholders;
- (c) the Manager is changed, unless the new manager of the BMO ETF is an affiliate of the Manager;
- (d) the fundamental investment objective of the BMO ETF is changed;
- (e) the BMO ETF decreases the frequency of the calculation of its NAV per Unit;
- (f) the BMO ETF undertakes a reorganization with, or transfers its assets to, another mutual fund, if the BMO ETF ceases to continue after the reorganization or transfer of assets and the transaction results in the Unitholders of the BMO ETF becoming securityholders in the other mutual fund, unless:
  - (i) the IRC of the BMO ETF has approved the change;
  - (ii) the BMO ETF is being reorganized with, or its assets are being transferred to, another mutual fund that is managed by the Manager, or an affiliate of the Manager;
  - (iii) the Unitholders have received at least 60 days' notice before the effective date of the change;
  - (iv) the right to notice described in (iii) is disclosed in the prospectus of the BMO ETF; and
  - (v) the transaction complies with certain other requirements of applicable Canadian Securities Legislation;
- (g) the BMO ETF undertakes a reorganization with, or acquires assets from, another mutual fund, if the BMO ETF continues after the reorganization or acquisition of assets, the transaction results in the securityholders of the other mutual fund becoming Unitholders of the BMO ETF, and the transaction would be a material change to the BMO ETF; or
- (h) any matter which is required by the constating documents of the BMO ETF or by the laws applicable to the BMO ETF or by any agreement to be submitted to a vote of the Unitholders of the BMO ETF.

Approval of Unitholders of a BMO ETF will be deemed to have been given if expressed by resolution passed at a meeting of Unitholders of the BMO ETF duly called and held for the purpose of considering the same, by at least a majority of the votes cast. Unitholders are entitled to one vote per whole Unit held on the record date established for voting at any meeting of Unitholders.

A BMO ETF may, without Unitholders' approval, enter into a merger or other similar transaction that has the effect of combining the funds or their assets (a "**Permitted Merger**") with any other investment fund or funds managed by the Manager or an affiliate of the Manager that have investment objectives that are substantially similar to those of the BMO ETF, subject to:

- (a) approval of the merger by the IRC;
- (b) compliance with certain merger pre-approval conditions set out in section 5.6 of NI 81-102; and
- (c) written notice to Unitholders at least 60 days before the effective date of the merger.

In connection with a Permitted Merger, the merging funds will be valued at their respective net asset values for the purpose of such transaction.

In addition, the auditor of a BMO ETF may not be changed unless:

- (a) the IRC has approved the change; and
- (b) Unitholders have received at least 60 days' notice before the effective date of the change.

#### ***Amendments to the Declaration of Trust***

Pursuant to the terms of the Declaration of Trust, Unitholder approval is only required if the nature of an amendment to the Declaration of Trust is a matter for which applicable laws provide such approval is required.

Except for changes to the Declaration of Trust described below that do not require approval of or prior notice to Unitholders, the Declaration of Trust may be amended from time to time by the Manager upon not less than 30 days' prior written notice to Unitholders.

The Declaration of Trust may be amended by the Manager without the approval of or notice to Unitholders for the following purposes: (i) to remove any conflicts or other inconsistencies which may exist between any terms of the Declaration of Trust and any provisions of any law or regulation applicable to or affecting the BMO ETFs; (ii) to make any change or correction in the Declaration of Trust which is of a typographical nature or is required to cure or correct any ambiguity or defective or inconsistent provision, clerical omission, mistake or manifest error contained therein; (iii) to bring the Declaration of Trust into conformity with applicable laws, rules and policies of the securities regulatory authorities or with current practice within the securities industry, provided that any such amendment does not adversely affect the rights, privileges or interests of Unitholders; (iv) to maintain, or permit the Manager to take such steps as may be desirable or necessary to maintain the status of a BMO ETF as a "mutual fund trust" for the purposes of the Tax Act; (v) to change the taxation year end of a BMO ETF as permitted under the Tax Act; (vi) to establish one or more new BMO ETFs; (vii) to change the name of a BMO ETF; (viii) to create additional classes of Units of a BMO ETF and to redesignate existing classes of Units of a BMO ETF, unless the rights attaching to such Units are changed or are adversely affected thereby; (ix) to provide added protection to Unitholders; or (x) if in the opinion of the Manager, the amendment is not prejudicial to Unitholders and is necessary or desirable. Any amendments to the Declaration of Trust made by the Manager without the consent of Unitholders will be disclosed in the next regularly scheduled report to Unitholders.

#### **Reporting to Unitholders**

A BMO ETF's fiscal year is the calendar year or such other fiscal period permitted or deemed under the Tax Act. The annual financial statements of a BMO ETF shall be audited by the BMO ETF's auditor in accordance with

Canadian generally accepted auditing standards. The auditor will be asked to report on the fair presentation of the annual financial statements in accordance with International Financial Reporting Standards, which is one of the financial reporting frameworks included in Canadian generally accepted accounting principles. The Manager will ensure that the BMO ETF complies with all applicable reporting and administrative requirements.

The Manager, on behalf of each BMO ETF, will furnish Unitholders of that BMO ETF with unaudited interim financial statements, audited annual financial statements, interim MRFPs and the most recently filed annual MRFPs of that BMO ETF, in accordance with applicable laws.

Any tax information necessary for Unitholders to prepare their annual federal income tax returns will be distributed to them within 90 days after the end of each financial year of the BMO ETFs occurring in December of each calendar year.

The Manager will keep adequate books and records reflecting the activities of the BMO ETFs. A Unitholder or his or her duly authorized representative has the right to examine the books and records of the applicable BMO ETF during normal business hours at the registered office of the Manager. Notwithstanding the foregoing, a Unitholder shall not have access to any information that, in the opinion of the Manager, should be kept confidential in the interests of the BMO ETFs.

## **TERMINATION OF THE BMO ETFS**

A BMO ETF may be terminated by the Manager on at least 60 days' notice to Unitholders of such termination and the Manager will issue a press release in advance thereof. The Manager may also terminate an Index BMO ETF in the event that the Index Provider ceases to calculate the Index or the respective License Agreement is terminated, as described above under "Investment Objectives – Termination of the Indices". Upon termination of a BMO ETF, the securities, cash and other assets remaining after paying or providing for all liabilities and obligations of the BMO ETF shall be distributed *pro rata* among the Unitholders of the BMO ETF.

The rights of Unitholders to exchange and redeem Units described under "Redemption and Exchange of Units" will cease as and from the date of termination of the applicable BMO ETF.

## **PRINCIPAL HOLDERS OF SECURITIES**

CDS & Co., the nominee of CDS, is the registered owner of the Units of all of the BMO ETFs, which it holds for various brokers and other persons on behalf of their clients and others. From time to time, a BMO ETF or another investment fund managed by the Manager or an affiliate of the Manager may beneficially own, directly or indirectly, more than 10% of the Units of a BMO ETF.

## **INTERESTS OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS**

The Manager, on behalf of the BMO ETFs, may enter into various Continuous Distribution Agreements with registered dealers (that may or may not be Designated Brokers) pursuant to which the Dealers may subscribe for Units of one or more of the BMO ETFs as described under "Purchases of Units – Issuance of Units".

The Manager will receive fees for its services to the BMO ETFs. See "Fees and Expenses".

## **PROXY VOTING DISCLOSURE FOR PORTFOLIO SECURITIES HELD**

The Manager is responsible for the voting of proxies on behalf of the BMO ETFs and must vote proxies on behalf of a BMO ETF in the best interests of the BMO ETF and its securityholders.

The Manager has appointed its affiliate, BMO Asset Management Ltd. (formerly, F&C Management Ltd.), to provide proxy voting services using its Responsible Investment Governance Team ("RI Team") (formerly called the Governance and Sustainable Investment Team or GSI Team), comprising environmental, social, and governance ("ESG") experts, and any other existing or future resources appropriate for this purpose. The ESG experts work

alongside, but independently from, the portfolio management teams. The RI Team undertakes proxy voting research and analysis and also supports the development of BMO Global Asset Management's ( of which the Manager is a part, "**BMO GAM**") publicly available Corporate Governance Guidelines ("**CGG**"), which set out BMO GAM's expectations of companies regarding good governance.

The Manager has established proxy voting policies and procedures for the BMO ETFs, which includes adopting BMO GAM's global proxy voting policies and procedures, including the CGG and standing voting instructions, and which includes generally following such CGG (collectively, the "**Proxy Voting Guidelines**"). The Proxy Voting Guidelines inform the voting on matters for which the BMO ETFs receive proxy materials for an issuer and are used in conjunction with the Manager's own proxy voting policies and procedures.

In providing proxy voting services to the Manager, BMO Asset Management Ltd. employs International Shareholder Services ("**ISS**"), a third-party independent proxy voting administrator (the "**Proxy Agent**") who auto-executes, without further guidance, the majority of votes in accordance with the Proxy Voting Guidelines. When the Proxy Agent needs guidance on the Proxy Voting Guidelines or when the RI Team wishes to further consider how to vote on certain matters, the Proxy Agent consults with the RI Team and obtains instructions on how to proceed.

Although the RI Team generally adheres to the CGG and relies on ISS to execute votes, any proxy issues that differ from the CGG are considered by taking into account the particular circumstances involved. This provides needed flexibility in making prudent judgments in the proxy voting process. Further, the Manager may depart from the Proxy Voting Guidelines or its own proxy voting policies and procedures, as applicable, in order to avoid voting decisions that may be contrary to the best interests of a BMO ETF and its securityholders.

Due to the variety of proxy voting issues that may arise, the following summary of the Proxy Voting Guidelines is not exhaustive and is intended to provide guidance but does not necessarily dictate how each issue must be voted in each instance.

The Proxy Voting Guidelines include:

- (a) a standing policy for dealing with routine matters on which a BMO ETF may vote, such as election of directors, appointment of auditors and an issuance of shares;
- (b) the circumstances under which a BMO ETF will deviate from the standing policy for routine matters. For example, the Proxy Voting Guidelines provide that BMO ETFs will typically support management's recommendation regarding appointing auditors, but may vote against such recommendation where auditor independence is in question;
- (c) the policies under which, and the procedures by which, a BMO ETF will determine how to vote on non-routine matters such as mergers and acquisitions, spin-offs and other corporate restructurings, shareholder rights (other than the issuance of shares), corporate governance, compensation, and social and environmental responsibility. For example, with respect to mergers and acquisitions, spin-offs and other corporate restructurings, the Proxy Voting Guidelines provide that the BMO ETFs will typically support incumbent management provided that the financial terms, synergistic benefits and management quality are sound; and
- (d) procedures to ensure that a BMO ETF's portfolio securities are voted in accordance with the BMO ETF's instructions. Where applicable, this may include the requirement for portfolio managers or sub-advisors to certify that they have voted all securities held by the BMO ETFs they manage in accordance with the Proxy Voting Guidelines and/or its own proxy voting policy.

BMO GAM has a policy in place to identify and deal with potential conflicts of interest in proxy voting such as the following proxy voting situations:

- (a) voting proxies at a company meeting where the company is a client of, or has another type of business relationship with BMO Financial Group;

- (b) voting proxies at a Bank of Montreal shareholder meeting (including meetings of funds managed by the Manager or its affiliates) or a company meeting relating to a corporate action such as a merger or acquisition involving the company (or any of its affiliates) or a member of BMO Financial Group;
- (c) voting proxies at a meeting involving a BMO GAM officer, director or employee;
- (d) voting proxies on a matter with a potential voting outcome that favours one fund over another; and
- (e) voting proxies at a meeting where the Manager's affiliated portfolio managers prefer different outcomes.

The securities of Underlying Funds held by a BMO ETF that the Manager, or one of its affiliates or associates, manage will not be voted unless, at the Manager's discretion, the Manager arranges for securities of the Underlying Fund to be voted by the securityholders of the BMO ETF.

The Proxy Voting Guidelines and the proxy voting policies and procedures of the Manager are available on request, at no cost, by calling 1-800-668-7327 or by writing to the Manager at 100 King Street West, 43rd Floor, Toronto, Ontario M5X 1A1.

Each BMO ETF's proxy voting record for the most recent period ended June 30 of each year is, or will be, available free of charge to any securityholder of the BMO ETF upon request at any time after August 31 of the relevant year by calling 1-800-668- 7327. The proxy voting record is also available on the BMO ETF's websites at [www.bmo.com/etfs](http://www.bmo.com/etfs) or at [www.bmo.com/gam/ca](http://www.bmo.com/gam/ca).

## **MATERIAL CONTRACTS**

The following contracts can reasonably be regarded as material to purchasers of Units:

- (a) the Declaration of Trust;
- (b) the Custodian Agreement; and
- (c) the License Agreements.

Details of the Declaration of Trust can be found under "Organization and Management Details – Trustee, Manager, Portfolio Manager and Promoter – Details of the Declaration of Trust". Details of the Custodian Agreement can be found under "Organization and Management Details – Custodian". Details of the License Agreements can be found under "Material Contracts – License Agreements". Copies of the agreements referred to above may be inspected during business hours at the registered office of the Manager.

### **License Agreements**

#### **S&P Dow Jones Indices LLC**

##### ***Special Definitions***

For purposes of this Section only, the "S&P Indices" means the following indices:

S&P 500® Index

S&P 500® Hedged to Canadian Dollars Index

S&P Global Clean Energy Index

S&P MidCap 400® Index

S&P SmallCap 600® Index

S&P/BNY Mellon India Select DR Index CAD

S&P/BNY Mellon China Select ADR Index CAD

S&P/TSX Capped Composite Index

For purposes of this Section only, the “**Dow Jones Indices**” means the following indices:  
Dow Jones Brookfield Global Infrastructure North American Listed Index  
Dow Jones Industrial Average (CAD hedged)  
Dow Jones North America Select Junior Gold Index

The S&P Indices and Dow Jones Indices together are referred to as the “**Indices**.”

For purposes of this Section only, “**Products**” means the following BMO ETFs:  
BMO China Equity Index ETF  
BMO Clean Energy ETF  
BMO Corporate Bond Index ETF  
BMO Dow Jones Industrial Average Hedged to CAD Index ETF  
BMO Global Infrastructure Index ETF  
BMO Government Bond Index ETF  
BMO Junior Gold Index ETF  
BMO India Equity Index ETF  
BMO S&P 500 Hedged to CAD Index ETF  
BMO S&P 500 Index ETF  
BMO S&P/TSX Capped Composite Index ETF  
BMO S&P US Mid Cap Index ETF  
BMO S&P US Small Cap Index ETF  
BMO Short-Term Bond Index ETF

#### ***License Agreements***

Bank of Montreal and the Manager have entered into an agreement dated October 16, 2009, as amended from time to time, with S&P Opcos, LLC, a subsidiary of S&P Dow Jones Indices LLC (each, an “**S&P Opcos License Agreement**” and collectively, the “**S&P Opcos License Agreements**”) under which the Manager has the right, on and subject to the terms of the S&P Opcos License Agreements, to use the S&P Indices and certain related trademarks as a basis for the operation of the related Products.

The initial terms of the licenses for the S&P MidCap 400® Index and S&P SmallCap 600® Index is three years ending on December 31, 2022 and they will then renew annually. The initial term of the licenses for the S&P Global Clean Energy Index is three years ending on December 14, 2022 and it will then renew annually. The licenses for the S&P 500® Hedged to Canadian Dollars Index and S&P/TSX Capped Composite Index renew every three years. The licenses for the S&P 500® Index, S&P/BNY Mellon India Select DR Index CAD and S&P/BNY Mellon China Select ADR Index CAD renew annually. Each license may be renewed in accordance with the terms of the S&P Opcos License Agreement. If all or part of the S&P Opcos License Agreement is terminated for any reason, the Manager will no longer be able to operate the applicable Products affected by such termination.

The Manager has entered into an agreement dated May 29, 2009, as amended from time to time, with Dow Jones Opcos, LLC (the “**Dow Jones License Agreement**”) under which the Manager has the right, on and subject to the terms of the Dow Jones License Agreement, to use the Dow Jones Indices and certain related trademarks as a basis for the operation of the related Products.

The Dow Jones License Agreement automatically renews for successive one-year periods unless terminated by either party. If all or part of the Dow Jones License Agreement is terminated for any reason, the Manager will no longer be able to operate the applicable Products affected by such termination.

#### ***Trademark Information and Disclaimers***

Each of the Indices is a product of S&P Dow Jones Indices LLC, its affiliates and/or third party licensors and has been licensed for use by the Manager.

Standard & Poor’s®, S&P®, and S&P 500® S&P MidCap 400® and S&P Smallcap 600® are registered trademarks of Standard & Poor’s Financial Services LLC (“**S&P**”); Dow Jones®, Dow Jones Industrial Average®, and DJIA® are registered trademarks of Dow Jones Trademark Holdings LLC (“**Dow Jones**”); TSX® is a registered

trademark of TSX, Inc. (“**TSX**”); BNY Mellon® is a registered trademark of The Bank of New York Mellon (“**BNY**”), and Brookfield® is a registered trademark of Brookfield Office Properties Inc. and/or its affiliates (“**Brookfield**”). These trademarks have been licensed to S&P Dow Jones Indices LLC and/or its affiliates and have been sublicensed for use by the Manager in connection with the Products.

The Products are not sponsored, endorsed, sold or promoted by S&P Dow Jones Indices LLC, its affiliates, or third party licensors, including, without limitation, S&P, TSX, BNY, Brookfield and/or their respective affiliates (collectively, “**S&P Dow Jones Indices Parties**”). S&P Dow Jones Indices Parties make no representation or warranty, express or implied, to the owners of the Products or any member of the public regarding the advisability of trading or investing in securities generally or in the Products particularly or the ability of the Indices to track market performance. S&P Dow Jones Indices Parties’ only relationship to the Manager is the licensing of the Indices and certain related trademarks and trade names. The Indices are determined, composed and calculated by S&P Dow Jones Indices LLC without regard to the Manager or the Products. S&P Dow Jones Indices Parties have no obligation to take the needs of the Manager or the owners of the Products into consideration in determining, composing or calculating the Indices. S&P Dow Jones Indices Parties are not responsible for and have not participated in the determination of the timing of, prices at, or quantities of the Products to be sold or in the determination or calculation of the equation by which the Products are to be converted into cash. S&P Dow Jones Indices Parties have no obligation or liability in connection with the administration, marketing or trading of the Products. There is no assurance that investment products based on the Indices will accurately track index performance or provide positive investment returns. S&P Dow Jones Indices LLC is not an investment advisor. Inclusion of a security within an Index is not a recommendation by S&P Dow Jones Indices Parties or its affiliates to buy, sell, or hold such security, nor is it considered to be investment advice.

**S&P DOW JONES INDICES PARTIES DO NOT GUARANTEE THE ADEQUACY, ACCURACY, TIMELINESS, AND/OR THE COMPLETENESS OF THE INDICES OR ANY DATA RELATED THERETO OR ANY COMMUNICATION, INCLUDING BUT NOT LIMITED TO, ORAL OR WRITTEN COMMUNICATION (INCLUDING ELECTRONIC COMMUNICATIONS) WITH RESPECT THERETO. S&P DOW JONES INDICES PARTIES SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS, INTERRUPTIONS, OR DELAYS IN CALCULATING THE INDICES. S&P DOW JONES INDICES PARTIES MAKE NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY BMO ASSET MANAGEMENT, OWNERS OF THE PRODUCTS, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE INDICES OR ANY DATA INCLUDED THEREIN. S&P DOW JONES INDICES PARTIES MAKE NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIM ALL WARRANTIES, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE INDICES OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL S&P DOW JONES INDICES PARTIES HAVE ANY LIABILITY FOR ANY LOST PROFITS OR INDIRECT, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES OR LOSSES, INCLUDING BUT NOT LIMITED TO LOST TIME, GOODWILL, OR LOST PROFITS, EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES. THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN S&P DOW JONES INDICES LLC AND BMO ASSET MANAGEMENT, OTHER THAN THE THIRD PARTY LICENSORS OF S&P DOW JONES INDICES LLC.**

#### **FTSE Canada and FTSE**

The Manager has entered into an agreement dated October 16, 2009, as amended from time to time, with FTSE Canada (the “**2009 FTSE Agreement**”) and an agreement dated January 30, 2017, as amended from time to time, with FTSE, FTSE Canada, Frank Russell Company and FTSE Fixed Income LLC (the “**FTSE Agreement**”, collectively with the 2009 FTSE Agreement, the “**FTSE License Agreements**”) under which the Manager has the right, on and subject to the terms of the FTSE License Agreements, to use “FTSE Canada 1-10 year A+ Corporate Bond Index™”, “FTSE Canada 1-10 year BBB Corporate Bond Index™”, “FTSE Canada All Corporate Bond Index™”, “FTSE Canada All Government Bond Index™”, “FTSE Canada Long Term Corporate Bond Index™”, “FTSE Canada Long Term Federal Bond Index™”, “FTSE Canada Long Term Provincial Bond Index™”, “FTSE Canada Mid Term Corporate Bond Index™”, “FTSE Canada Mid Term Federal Bond Index™”, “FTSE Canada Mid Term Provincial Bond Index™”, “FTSE Canada NHA MBS 975 Index”, “FTSE Canada Real Return Federal Non-Agency Bond Index™”, “FTSE Canada Short Term Corporate Bond Index™”, “FTSE Canada Short Term Federal

Bond Index™”, “FTSE Canada Short Term Overall Bond Index™”, “FTSE Canada Short Term Provincial Bond Index™”, “FTSE Canada Universe Discount Bond Index™”, “FTSE Canada Universe Bond Index™”, “FTSE Developed ex Korea Consumer Discretionary Capped 100% Hedged to CAD Index” and “FTSE Developed ex Korea Consumer Staples Capped 100% Hedged to CAD Index” (collectively, the “**FTSE BMO ETF Indices**”) as a basis for the operation of BMO Aggregate Bond Index ETF, BMO BBB Corporate Bond Index ETF, BMO Canadian MBS Index ETF, BMO Corporate Bond Index ETF, BMO Discount Bond Index ETF, BMO Global Consumer Discretionary Hedged to CAD Index ETF, BMO Global Consumer Staples Hedged to CAD Index ETF, BMO Government Bond Index ETF BMO High Quality Corporate Bond Index ETF, BMO Long Corporate Bond Index ETF, BMO Long Federal Bond Index ETF, BMO Long Provincial Bond Index ETF, BMO Mid Corporate Bond Index ETF, BMO Mid Federal Bond Index ETF, BMO Mid Provincial Bond Index ETF, BMO Real Return Bond Index ETF, BMO Short-Term Bond Index ETF, BMO Short Corporate Bond Index ETF, BMO Short Federal Bond Index ETF and BMO Short Provincial Bond Index ETF (collectively, the “**FTSE BMO ETFs**”), respectively, and to use certain trademarks in connection with these Indices and the FTSE BMO ETFs. The right to use the FTSE ETF Indices renews on an annual basis unless terminated earlier in accordance with the terms of the FTSE License Agreements. If all or certain parts of either of the FTSE License Agreements are terminated for any reason with respect to a FTSE BMO ETF, the Manager will no longer be able to operate the applicable FTSE BMO ETF based on the applicable FTSE Canada Indices.

The FTSE BMO ETFs are not in any way sponsored, endorsed, sold or promoted by FTSE Global Debt Capital Markets Inc. (“**FGDCM**”), FTSE International Limited (“**FTSE**”), Frank Russell Company (“**Frank Russell**”), FTSE Fixed Income LLC (“**FTSE FI**”) or the London Stock Exchange Group companies (together with FGDCM, FTSE, Frank Russell and FTSE FI, the “**Licensor Parties**”). The Licensor Parties make no claim, prediction, warranty or representation whatsoever, expressly or impliedly, either as to (i) the results to be obtained from the use of the FTSE BMO ETF Indices, (ii) the figure at which any of the FTSE BMO ETF Indices stands at any particular time on any particular day or otherwise, or (iii) the suitability of an Underlying Index for the particular purpose to which it is being put in connection with the FTSE BMO ETFs. Each of the FTSE BMO ETF Indices is compiled and calculated by FGDCM of FTSE and all copyright in any of the FTSE BMO ETF Indices values and constituent lists vests in FGDCM or FTSE, respectively. The Licensor Parties shall not be liable (whether in negligence or otherwise) to any person for any error in any of the FTSE BMO ETF Indices and the Licensor Parties shall not be under any obligation to advise any person of any error therein. The Licensor Parties do not accept any liability whatsoever to any person arising out of the use of the FTSE BMO ETFs or the underlying data. “**FTSE®**” is a trade mark of the London Stock Exchange Group companies and is used under licence.

None of the Licensor Parties have provided or will provide any financial or investment advice or recommendation in relation to the Index to the Manager or to its clients. The FTSE BMO ETF Indices are calculated by or on behalf of FTSE or its affiliate, agent or partner. None of the Licensor Parties shall be (a) liable (whether in negligence or otherwise) to any person for any error in the FTSE BMO ETF Indices or (b) under any obligation to advise any person of any error therein.

#### **Bloomberg Barclays**

BLOOMBERG® is a trademark and service mark of Bloomberg Finance L.P. BARCLAYS® is a trademark and service mark of Barclays Bank Plc, used under license. Bloomberg Finance L.P. and its affiliates, including Bloomberg Index Services Limited (“**BISL**”) (collectively, “**Bloomberg**”), or Bloomberg’s licensors own all proprietary rights in the Bloomberg Barclays Indices. The Manager has entered into an agreement dated March 26, 2010, as amended from time to time, with Bloomberg (the “**Bloomberg License Agreement**”) under which the Manager has the right, on and subject to the terms of the Bloomberg License Agreement, to use the Bloomberg Barclays Emerging Markets Tradable External Debt (EMTED) GDP Weighted Capped Index CAD Hedged, the Bloomberg Barclays U.S. High Yield Very Liquid Index CAD Hedged, the Bloomberg Barclays U.S. High Yield Very Liquid Index, the Bloomberg Barclays MSCI US High Yield Liquid Corporate Sustainability SRI Index, the Bloomberg Barclays US Government Inflation-Linked 0-5 Year Bond Index, the Bloomberg Barclays U.S. Long Treasury Bond Index, the Bloomberg Barclays U.S. Treasury 20+ Year Index, the Bloomberg Barclays U.S. Treasury 5-10 Year Bond Index, the Bloomberg Barclays US Investment Grade 5 to 10 Year Corporate Bond Capped Index CAD Hedged, the Bloomberg Barclays US Investment Grade 5 to 10 Year Corporate Bond Capped Index, the Bloomberg Barclays U.S. Treasury 1-5 Year Bond Index and the Bloomberg Barclays US Investment Grade 1 to 5 Year Corporate Bond Capped Index CAD Hedged, (collectively, the “**Bloomberg Barclays Indices**”) as a basis for the operation of BMO Corporate Bond Index ETF, BMO Emerging Markets Bond Hedged to CAD Index ETF, BMO

Government Bond Index ETF, BMO High Yield US Corporate Bond Hedged to CAD Index ETF, BMO High Yield US Corporate Bond Index ETF, BMO Long-Term US Treasury Bond Index ETF, BMO Mid-Term US Treasury Bond Index ETF, BMO Mid-Term US IG Corporate Bond Hedged to CAD Index ETF, BMO Mid-Term US IG Corporate Bond Index ETF, BMO Short-Term Bond Index ETF, BMO Short-Term US TIPS Index ETF, BMO Short-Term US Treasury Bond Index ETF and BMO Short-Term US IG Corporate Bond Hedged to CAD Index ETF, respectively (collectively, the “**BMO ETF Products**”) and to use certain trademarks in connection with these Bloomberg Barclays Indices and these BMO ETF Products. The initial term of the Bloomberg License Agreement is one year, unless the agreement is terminated earlier as provided therein. The Bloomberg License Agreement automatically renews on an annual basis, unless either party gives at least 90 days’ notice of termination prior to the end of the term or unless the agreement is otherwise terminated earlier in accordance with its terms. If the Bloomberg License Agreement is terminated for any reason, the Manager will no longer be able to operate the BMO ETF Products based on the Bloomberg Barclays Indices.

Neither Barclays Bank PLC, Barclays Capital Inc., nor any affiliate (collectively “**Barclays**”) nor Bloomberg is the issuer or producer of the BMO ETF Products and neither Bloomberg nor Barclays has any responsibilities, obligations or duties to investors in the BMO ETF Products. The Bloomberg Barclays Indices are licensed for use by the Manager as the issuer of the BMO ETF Products. The only relationship of Bloomberg and Barclays with the Manager in respect of the Bloomberg Barclays Indices is the licensing of the Bloomberg Barclays Indices, which is determined, composed and calculated by Bloomberg, or any successor thereto, without regard to the Manager or the BMO ETF Products or the owners of the BMO ETF Products.

Additionally, the Manager may for itself execute transaction(s) with Barclays in or relating to the Bloomberg Barclays Indices in connection with the BMO ETF Products. Investors acquire BMO ETF Products from the Manager and investors neither acquire any interest in Bloomberg Barclays Indices nor enter into any relationship of any kind whatsoever with Bloomberg or Barclays upon making an investment in BMO ETF Products. The BMO ETF Products are not sponsored, endorsed, sold or promoted by Bloomberg or Barclays. Neither Bloomberg nor Barclays makes any representation or warranty, express or implied, regarding the advisability of investing in the BMO ETF Products or the advisability of investing in securities generally or the ability of the Bloomberg Barclays Indices to track corresponding or relative market performance. Neither Bloomberg nor Barclays has passed on the legality or suitability of the BMO ETF Products with respect to any person or entity. Neither Bloomberg nor Barclays is responsible for or has participated in the determination of the timing of, prices at, or quantities of the BMO ETF Products to be issued. Neither Bloomberg nor Barclays has any obligation to take the needs of the issuer or the owners of the BMO ETF Products or any other third party into consideration in determining, composing or calculating the Bloomberg Barclays Indices. Neither Bloomberg nor Barclays has any obligation or liability in connection with administration, marketing or trading of the BMO ETF Products.

The licensing agreement between Bloomberg and Barclays is solely for the benefit of Bloomberg and Barclays and not for the benefit of the owners of the BMO ETF Products, investors or other third parties. In addition, the licensing agreement between the Manager and Bloomberg is solely for the benefit of the Manager and Bloomberg and not for the benefit of the owners of the BMO ETF Products, investors or other third parties.

**NEITHER BLOOMBERG NOR BARCLAYS SHALL HAVE ANY LIABILITY TO THE ISSUER, INVESTORS OR OTHER THIRD PARTIES FOR THE QUALITY, ACCURACY AND/OR COMPLETENESS OF THE BLOOMBERG BARCLAYS INDICES OR ANY DATA INCLUDED THEREIN OR FOR INTERRUPTIONS IN THE DELIVERY OF THE BLOOMBERG BARCLAYS INDICES. NEITHER BLOOMBERG NOR BARCLAYS MAKES ANY WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY THE ISSUER, THE INVESTORS OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE BLOOMBERG BARCLAYS INDICES OR ANY DATA INCLUDED THEREIN. NEITHER BLOOMBERG NOR BARCLAYS MAKES ANY EXPRESS OR IMPLIED WARRANTIES, AND EACH HEREBY EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE BLOOMBERG BARCLAYS INDICES OR ANY DATA INCLUDED THEREIN. BLOOMBERG RESERVES THE RIGHT TO CHANGE THE METHODS OF CALCULATION OR PUBLICATION, OR TO CEASE THE CALCULATION OR PUBLICATION OF THE BLOOMBERG BARCLAYS INDICES, AND NEITHER BLOOMBERG NOR BARCLAYS SHALL BE LIABLE FOR ANY MISCALCULATION OF OR ANY INCORRECT, DELAYED OR INTERRUPTED PUBLICATION WITH RESPECT TO ANY OF THE**

**BLOOMBERG BARCLAYS INDICES. NEITHER BLOOMBERG NOR BARCLAYS SHALL BE LIABLE FOR ANY DAMAGES, INCLUDING, WITHOUT LIMITATION, ANY SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES, OR ANY LOST PROFITS, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH, RESULTING FROM THE USE OF THE BLOOMBERG BARCLAYS INDICES OR ANY DATA INCLUDED THEREIN OR WITH RESPECT TO THE BMO ETF PRODUCTS.**

None of the information supplied by Bloomberg or Barclays and used in this publication may be reproduced in any manner without the prior written permission of both Bloomberg and Barclays Capital, the investment banking division of Barclays Bank PLC. Barclays Bank PLC is registered in England No. 1026167, registered office 1 Churchill Place London E14 5HP.

#### **NASDAQ OMX**

The Manager has entered into an agreement dated January 6, 2010, as amended from time to time, with Nasdaq, the successor in interest to the Nasdaq OMX Group Inc. (the “**Nasdaq License Agreement**”) under which the Manager has the right, on and subject to the terms of the Nasdaq License Agreement, to use the NASDAQ-100 Index® Hedged to CAD as a basis for the operation of BMO Nasdaq 100 Equity Hedged to CAD Index ETF and the NASDAQ-100 Index® as a basis for the operation of the BMO Nasdaq 100 Equity Index ETF and to use certain trademarks in connection with these Indices and BMO ETFs. The Nasdaq License Agreement automatically renews in respect of each index included in the Nasdaq License Agreement on an annual basis, unless either party gives at least 90 days’ notice of termination prior to the end of the term or unless the agreement is otherwise terminated earlier in accordance with its terms. If the Nasdaq License Agreement is terminated in respect of an index for any reason, the Manager will no longer be able to operate the applicable BMO ETF which utilizes such index.

BMO Nasdaq 100 Equity Index ETF and BMO Nasdaq 100 Equity Hedged to CAD Index ETF (for the purposes of this section only, the “**Products**”) are not sponsored, endorsed, sold or promoted by Nasdaq, Inc. or its affiliates (Nasdaq, with its affiliates, are referred to as the “**Corporations**”). The Corporations have not passed on the legality or suitability of, or the accuracy or adequacy of descriptions and disclosures relating to the Products. The Corporations make no representation or warranty, express or implied to the owners of the Products or any member of the public regarding the advisability of investing in securities generally or in the Products particularly, or the ability of the NASDAQ-100 Index® or NASDAQ-100 Index® Hedged to CAD to track general stock market performance. The Corporations’ only relationship to the Manager (the “**Licensee**”) is in the licensing of the NASDAQ®, NASDAQ-100 Index® and NASDAQ-100 Index® Hedged to CAD registered trademarks, and certain trade names of the Corporations and the use of the NASDAQ-100 Index® and NASDAQ-100 Index® Hedged to CAD which is determined, composed and calculated by NASDAQ without regard to Licensee or the Products. Nasdaq has no obligation to take the needs of the Licensee or the owners of the Products into consideration in determining, composing or calculating the NASDAQ-100 Index® or NASDAQ-100 Index® Hedged to CAD. The Corporations are not responsible for and have not participated in the determination of the timing of, prices at, or quantities of the Products to be issued or in the determination or calculation of the equation by which the Products are to be converted into cash. The Corporations have no liability in connection with the administration, marketing or trading of the Product.

**THE CORPORATIONS DO NOT GUARANTEE THE ACCURACY AND/OR UNINTERRUPTED CALCULATION OF THE NASDAQ-100 INDEX® OR NASDAQ-100 INDEX® HEDGED TO CAD OR ANY DATA INCLUDED THEREIN. THE CORPORATIONS MAKE NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY LICENSEE, OWNERS OF THE PRODUCTS, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE NASDAQ-100 INDEX® OR NASDAQ-100 INDEX® HEDGED TO CAD OR ANY DATA INCLUDED THEREIN. THE CORPORATIONS MAKE NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIM ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE NASDAQ-100 INDEX® OR NASDAQ-100 INDEX® HEDGED TO CAD OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL THE CORPORATIONS HAVE ANY LIABILITY FOR ANY LOST PROFITS OR SPECIAL, INCIDENTAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES, EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.**

## **MSCI**

The Manager has entered into an agreement dated January 29, 2013, as amended from time to time, with MSCI (the “**MSCI License Agreement**”) under which the Manager has the right, on and subject to the terms of the MSCI License Agreement, to use the MSCI ACWI IMI Autonomous Technology & Industrial Innovation Index, the MSCI ACWI IMI Fintech Innovation Index, the MSCI ACWI IMI Genomic Innovation Index, the MSCI ACWI IMI Next Generation Internet Innovation Index, the MSCI ACWI IMI Innovation Index, the MSCI ACWI Quality Index, the MSCI Canada Enhanced Value Capped Index, the MSCI Canada ESG Leaders Index, the MSCI EAFE 100% Hedged to CAD Index, the MSCI EAFE Index, the MSCI Emerging Markets Index, the MSCI Europe Quality 100% Hedged to CAD Index, the MSCI EAFE ESG Leaders Index, the MSCI World ESG Leaders Index, the MSCI USA Quality Index, the MSCI USA Enhanced Value Capped Index and the MSCI USA ESG Leaders Index (collectively, the “**MSCI Indexes**”) as a basis for the operation of BMO MSCI All Country World High Quality Index ETF, BMO MSCI Canada ESG Leaders Index ETF, BMO MSCI Canada Value Index ETF, BMO MSCI EAFE Hedged to CAD Index ETF, BMO MSCI EAFE ESG Leaders Index ETF, BMO MSCI EAFE Index ETF, BMO MSCI Emerging Markets Index ETF, BMO MSCI Europe High Quality Hedged to CAD Index ETF, BMO MSCI Fintech Innovation Index ETF, BMO MSCI Genomic Innovation Index ETF, BMO MSCI Global ESG Leaders Index ETF, BMO MSCI Innovation Index ETF, BMO MSCI Next Gen Internet Innovation Index ETF, BMO MSCI Tech & Industrial Innovation Index ETF, BMO MSCI USA ESG Leaders Index ETF, BMO MSCI USA High Quality Index ETF and BMO MSCI USA Value Index ETF, respectively, and to use certain trademarks in connection with these Indices and these BMO ETFs. The initial term of the MSCI License Agreement is three years, unless the agreement is terminated earlier as provided therein. The MSCI License Agreement automatically renews on an annual basis, unless either party gives at least 90 days’ notice of termination prior to the end of the term or unless the agreement is otherwise terminated earlier in accordance with its terms. If the MSCI License Agreement is terminated in whole or in part for any reason, the Manager will no longer be able to operate BMO MSCI All Country World High Quality Index ETF, BMO MSCI Canada ESG Leaders Index ETF, BMO MSCI Canada Value Index ETF, BMO MSCI EAFE Hedged to CAD Index ETF, BMO MSCI EAFE ESG Leaders Index ETF, BMO MSCI EAFE Index ETF, BMO MSCI Emerging Markets Index ETF, BMO MSCI Europe High Quality Hedged to CAD Index ETF, BMO MSCI Fintech Innovation Index ETF, BMO MSCI Genomic Innovation Index ETF, BMO MSCI Global ESG Leaders Index ETF, BMO MSCI Innovation Index ETF, BMO MSCI Next Gen Internet Innovation Index ETF, BMO MSCI Tech & Industrial Innovation Index ETF, BMO MSCI USA ESG Leaders Index ETF, BMO MSCI USA High Quality Index ETF and BMO MSCI USA Value Index ETF based on the applicable MSCI Index.

**THE BMO ETFS ARE NOT SPONSORED, ENDORSED, SOLD OR PROMOTED BY MSCI INC. (“MSCI”), ANY OF ITS AFFILIATES, ANY OF ITS INFORMATION PROVIDERS OR ANY OTHER THIRD PARTY INVOLVED IN, OR RELATED TO, COMPILING, COMPUTING OR CREATING ANY MSCI INDEX (COLLECTIVELY, THE “MSCI PARTIES”). THE MSCI INDEXES ARE THE EXCLUSIVE PROPERTY OF MSCI. MSCI AND THE MSCI INDEX NAMES ARE SERVICE MARK(S) OF MSCI OR ITS AFFILIATES AND HAVE BEEN LICENSED FOR USE FOR CERTAIN PURPOSES BY BMO ASSET MANAGEMENT. NONE OF THE MSCI PARTIES MAKES ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, TO THE ISSUER OR OWNERS OF THESE BMO ETFS OR ANY OTHER PERSON OR ENTITY REGARDING THE ADVISABILITY OF INVESTING IN BMO ETFS GENERALLY OR IN THESE BMO ETFS PARTICULARLY OR THE ABILITY OF ANY MSCI INDEX TO TRACK CORRESPONDING STOCK MARKET PERFORMANCE. MSCI OR ITS AFFILIATES ARE THE LICENSORS OF CERTAIN TRADEMARKS, SERVICE MARKS AND TRADE NAMES AND OF THE MSCI INDEXES WHICH ARE DETERMINED, COMPOSED AND CALCULATED BY MSCI WITHOUT REGARD TO THESE BMO ETFS OR THE ISSUER OR OWNERS OF THESE BMO ETFS OR ANY OTHER PERSON OR ENTITY. NONE OF THE MSCI PARTIES HAS ANY OBLIGATION TO TAKE THE NEEDS OF THE ISSUER OR OWNERS OF THESE BMO ETFS OR ANY OTHER PERSON OR ENTITY INTO CONSIDERATION IN DETERMINING, COMPOSING OR CALCULATING THE MSCI INDEXES. NONE OF THE MSCI PARTIES IS RESPONSIBLE FOR OR HAS PARTICIPATED IN THE DETERMINATION OF THE TIMING OF, PRICES AT, OR QUANTITIES OF THESE BMO ETFS TO BE ISSUED OR IN THE DETERMINATION OR CALCULATION OF THE EQUATION BY OR THE CONSIDERATION INTO WHICH THESE BMO ETFS ARE REDEEMABLE. FURTHER, NONE OF THE MSCI PARTIES HAS ANY OBLIGATION OR LIABILITY TO THE ISSUER OR OWNERS OF THESE BMO ETFS OR ANY OTHER PERSON OR ENTITY IN CONNECTION WITH THE ADMINISTRATION, MARKETING OR OFFERING OF THESE BMO ETFS.**

ALTHOUGH MSCI SHALL OBTAIN INFORMATION FOR INCLUSION IN OR FOR USE IN THE CALCULATION OF THE MSCI INDEXES FROM SOURCES THAT MSCI CONSIDERS RELIABLE, NONE OF THE MSCI PARTIES WARRANTS OR GUARANTEES THE ORIGINALITY, ACCURACY AND/OR THE COMPLETENESS OF ANY MSCI INDEX OR ANY DATA INCLUDED THEREIN. NONE OF THE MSCI PARTIES MAKES ANY WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY THE ISSUER OF THESE BMO ETFS, OWNERS OF THESE BMO ETFS, OR ANY OTHER PERSON OR ENTITY, FROM THE USE OF ANY MSCI INDEX OR ANY DATA INCLUDED THEREIN. NONE OF THE MSCI PARTIES SHALL HAVE ANY LIABILITY FOR ANY ERRORS, OMISSIONS OR INTERRUPTIONS OF OR IN CONNECTION WITH ANY MSCI INDEX OR ANY DATA INCLUDED THEREIN. FURTHER, NONE OF THE MSCI PARTIES MAKES ANY EXPRESS OR IMPLIED WARRANTIES OF ANY KIND, AND THE MSCI PARTIES HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO EACH MSCI INDEX AND ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL ANY OF THE MSCI PARTIES HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, SPECIAL, PUNITIVE, CONSEQUENTIAL OR ANY OTHER DAMAGES (INCLUDING LOST PROFITS) EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

No purchaser, seller or holder of this security, product or BMO ETF, or any other person or entity, should use or refer to any MSCI trade name, trademark or service mark to sponsor, endorse, market or promote this security without first contacting MSCI to determine whether MSCI's permission is required. Under no circumstances may any person or entity claim any affiliation with MSCI without the prior written permission of MSCI.

#### **MSCI ESG Research**

The Manager has entered into an addendum to the MSCI License Agreement with MSCI ESG Research (the "MSCI ESG Research License Agreement") under which the Manager has the right, on and subject to the terms of the MSCI ESG Research License Agreement, to use the Bloomberg Barclays MSCI Canada Corporate Sustainability SRI Index, Bloomberg Barclays MSCI US Corporate Sustainability SRI Index and Bloomberg Barclays MSCI US High Yield Liquid Corporate Sustainability SRI Index (collectively, the "MSCI ESG Research Indexes") as a basis for the operation of BMO ESG Corporate Bond Index ETF, BMO ESG High Yield Corporate Bond Index ETF and BMO ESG US Corporate Bond Hedged to CAD Index ETF, respectively, and to use certain trademarks in connection with these Indices and these BMO ETFs. The initial term of the MSCI ESG Research License Agreement is three years, unless the agreement is terminated earlier as provided therein. The MSCI ESG Research License Agreement automatically renews on an annual basis, unless either party gives at least 90 days' notice of termination prior to the end of the term or unless the agreement is otherwise terminated earlier in accordance with its terms. If the MSCI ESG Research License Agreement is terminated in whole or in part for any reason, the Manager will no longer be able to operate BMO ESG Corporate Bond Index ETF and BMO ESG US Corporate Bond Hedged to CAD Index ETF based on the applicable MSCI ESG Research Index.

THE BMO ETFS ARE NOT SPONSORED, ENDORSED, SOLD OR PROMOTED BY MSCI ESG RESEARCH LLC ("MSCI ESG RESEARCH"), BLOOMBERG INDEX SERVICES LIMITED ("BLOOMBERG"), BARCLAYS BANK PLC ("BARCLAYS") OR ANY OF THEIR RESPECTIVE AFFILIATES, INFORMATION PROVIDERS OR ANY OTHER THIRD PARTY (COLLECTIVELY THE "INDEX PARTIES") INVOLVED IN, OR RELATED TO, COMPILING, COMPUTING OR CREATING ANY BLOOMBERG BARCLAYS MSCI ESG INDEX (EACH, AN "INDEX"). THE INDEXES ARE THE EXCLUSIVE PROPERTY OF THE APPLICABLE INDEX PARTY. "BLOOMBERG", "BARCLAYS", "MSCI ESG RESEARCH" AND THE INDEX NAMES, ARE THE RESPECTIVE TRADE AND/OR SERVICE MARKS OF BLOOMBERG, BARCLAYS, MSCI ESG RESEARCH OR THEIR AFFILIATES AND HAVE BEEN LICENSED FOR USE FOR CERTAIN PURPOSES BY BMO ASSET MANAGEMENT INC. NONE OF THE INDEX PARTIES MAKES ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, TO THE ISSUER OR OWNERS OF THESE BMO ETFS OR ANY OTHER PERSON OR ENTITY REGARDING THE ADVISABILITY OF INVESTING IN BMO ETFS GENERALLY OR IN THESE BMO ETFS PARTICULARLY OR THE ABILITY OF ANY INDEX TO TRACK CORRESPONDING STOCK MARKET PERFORMANCE. MSCI ESG RESEARCH, BLOOMBERG, BARCLAYS, OR THEIR AFFILIATES ARE THE LICENSORS OF CERTAIN TRADEMARKS, SERVICE MARKS AND TRADE NAMES AND OF THE INDEXES WHICH ARE DETERMINED, COMPOSED AND CALCULATED BY BLOOMBERG AND/OR MSCI ESG RESEARCH WITHOUT REGARD TO THESE

BMO ETFs OR THE ISSUER OR OWNERS OF THESE BMO ETFs OR ANY OTHER PERSON OR ENTITY. NONE OF THE INDEX PARTIES HAS ANY OBLIGATION TO TAKE THE NEEDS OF THE ISSUER OR OWNERS OF THESE BMO ETFs OR ANY OTHER PERSON OR ENTITY INTO CONSIDERATION IN DETERMINING, COMPOSING OR CALCULATING THE INDEXES. NONE OF THE INDEX PARTIES IS RESPONSIBLE FOR OR HAS PARTICIPATED IN THE DETERMINATION OF THE TIMING OF, PRICES AT, OR QUANTITIES OF THESE BMO ETFs TO BE ISSUED OR IN THE DETERMINATION OR CALCULATION OF THE EQUATION BY OR THE CONSIDERATION INTO WHICH THESE BMO ETFs ARE REDEEMABLE. FURTHER, NONE OF THE INDEX PARTIES HAS ANY OBLIGATION OR LIABILITY TO THE ISSUER OR OWNERS OF THESE BMO ETFs OR ANY OTHER PERSON OR ENTITY IN CONNECTION WITH THE ADMINISTRATION, MARKETING OR OFFERING OF THESE BMO ETFs.

ALTHOUGH THE INDEX PARTIES SHALL OBTAIN INFORMATION FOR INCLUSION IN OR FOR USE IN THE CALCULATION OF THE INDEXES FROM SOURCES CONSIDERED RELIABLE, NONE OF THE INDEX PARTIES WARRANTS OR GUARANTEES THE ORIGINALITY, ACCURACY AND/OR THE COMPLETENESS OF ANY INDEX OR ANY DATA INCLUDED THEREIN. NONE OF THE INDEX PARTIES MAKES ANY WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY THE ISSUER OF THESE BMO ETFs, OWNERS OF THESE BMO ETFs, OR ANY OTHER PERSON OR ENTITY, FROM THE USE OF ANY INDEX OR ANY DATA INCLUDED THEREIN. NONE OF THE INDEX PARTIES SHALL HAVE ANY LIABILITY FOR ANY ERRORS, OMISSIONS OR INTERRUPTIONS OF OR IN CONNECTION WITH ANY INDEX OR ANY DATA INCLUDED THEREIN. FURTHER, NONE OF THE INDEX PARTIES MAKES ANY EXPRESS OR IMPLIED WARRANTIES OF ANY KIND, AND THE INDEX PARTIES HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, WITH RESPECT TO EACH INDEX AND ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL ANY OF THE INDEX PARTIES HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, SPECIAL, PUNITIVE, CONSEQUENTIAL OR ANY OTHER DAMAGES (INCLUDING LOST PROFITS) EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

No purchaser, seller or holder of this security, product or BMO ETF, or any other person or entity, should use or refer to any MSCI ESG Research, Bloomberg or Barclays trade name, trademark or service mark to sponsor, endorse, market or promote this security without first contacting MSCI ESG Research to determine whether permission is required. Under no circumstances may any person or entity claim any affiliation with MSCI ESG Research, Bloomberg, or Barclays without prior written permission.

#### Solactive

The Manager has entered into a licensing agreement dated October 19, 2015, as amended from time to time, with Solactive (the “**Solactive License Agreement**”) under which the Manager has the right, on and subject to the terms of the Solactive License Agreement, to use Solactive Equal Weight Canada Banks Index, Solactive Equal Weight Canada Industrials Index, Solactive Equal Weight Canada Oil & Gas Index, Solactive Equal Weight Canada REIT Index, Solactive Equal Weight Global Base Metals Index Canadian Dollar Hedged, Solactive Equal Weight Global Gold Index, Solactive Equal Weight US Bank Index Canadian Dollar Hedged, Solactive Equal Weight US Bank Index, Solactive Equal Weight US Health Care Index, Solactive Equal Weight US Health Care Index Canadian Dollar Hedged, Solactive Equal Weight Canada Utilities Index, Solactive Media and Communications Index, Solactive Laddered Canadian Preferred Share Index, Solactive US Preferred Share Select Hedged to CAD Index (NTR) and Solactive US Preferred Share Select Index (NTR) (collectively, the “Indices”) as a basis for the operation of BMO Equal Weight Banks Index ETF, BMO Equal Weight Global Base Metals Hedged to CAD Index ETF, BMO Equal Weight Global Gold Index ETF, BMO Equal Weight Industrials Index ETF, BMO Equal Weight Oil & Gas Index ETF, BMO Equal Weight REITs Index ETF, BMO Equal Weight US Banks Hedged to CAD Index ETF, BMO Equal Weight US Banks Index ETF, BMO Equal Weight US Health Care Hedged to CAD Index ETF, BMO Equal Weight Utilities Index ETF, BMO Global Communications Index ETF, BMO Laddered Preferred Share Index ETF, BMO US Preferred Share Hedged to CAD Index ETF and BMO US Preferred Share Index ETF (the “**Solactive BMO ETFs**”), and to use Solactive’s trade marks in connection with the Indices and the BMO ETFs. There is no set term of the Solactive License Agreement. However, the Solactive License Agreement may be terminated in certain circumstances. If the Solactive License Agreement is terminated for any reason, the Manager will no longer be able to base the Solactive BMO ETFs on the Indices.

The BMO ETFs are not sponsored, promoted, sold or supported in any other manner by Solactive AG nor does Solactive AG offer any express or implicit guarantee or assurance either with regard to the results of using the Indices and/or Indices trademarks or the Indices Prices at any time or in any other respect. The Indices are calculated and published by Solactive AG. Solactive AG uses its best efforts to ensure that the Indices are calculated correctly. Irrespective of its obligations towards the Manager, Solactive AG has no obligation to point out errors in the Indices to third parties including but not limited to investors and/or financial intermediaries of the BMO ETFs. Neither publication of the Indices by Solactive AG nor the licensing of the Indices or Indices trademarks for the purpose of use in connection with the BMO ETFs constitutes a recommendation by Solactive AG to invest capital in the BMO ETFs nor does it in any way represent an assurance or opinion of Solactive AG with regard to any investment in the BMO ETFs.

## **LEGAL AND ADMINISTRATIVE PROCEEDINGS**

The BMO ETFs are not involved in any legal proceedings nor is the Manager aware of existing or pending legal or arbitration proceedings involving any of the BMO ETFs.

## **EXPERTS**

Borden Ladner Gervais LLP, legal counsel to the BMO ETFs and the Manager, has provided certain legal opinions on the principal Canadian federal income tax considerations that apply to an investment in the Units by an individual resident in Canada. See "Income Tax Considerations" and "Eligibility for Investment".

The auditor of the BMO ETFs is PricewaterhouseCoopers LLP, Chartered Professional Accountants, Licensed Public Accountants, who has prepared independent auditor's reports as follows:

- Dated March 20, 2020 in respect of the financial statements of the BMO ETFs (except for the New BMO ETFs and any BMO ETFs that were created in 2020) as at and for the period ended December 31, 2019 and 2018;
- Dated January 10, 2020 in respect of the statement of financial position of each of BMO Balanced ESG ETF, BMO BBB Corporate Bond Index ETF, BMO Canadian MBS Index ETF, BMO ESG Corporate Bond Index ETF, BMO ESG US Corporate Bond Hedged to CAD Index ETF, BMO Global High Dividend Covered Call ETF, BMO High Quality Corporate Bond Index ETF, BMO MSCI Canada ESG Leaders Index ETF, BMO MSCI EAFE ESG Leaders Index ETF, BMO MSCI Global ESG Leaders Index ETF, BMO MSCI USA ESG Leaders Index ETF, BMO S&P US Mid Cap Index ETF, BMO S&P US Small Cap Index ETF and BMO Premium Yield ETF; and
- Dated January 14, 2021 in respect of the statement of financial position of each of the New BMO ETFs as at January 14, 2021.

PricewaterhouseCoopers LLP has advised that they are independent with respect to the BMO ETFs within the meaning of the Code of Professional Conduct of Chartered Professional Accountants of Ontario, CPA.

## **EXEMPTIONS AND APPROVALS**

Each BMO ETF has obtained exemptive relief from the Canadian securities regulatory authorities to permit the following practices:

- (a) the purchase by a Unitholder of a BMO ETF of more than 20% of the Units of that BMO ETF through purchases on the Exchange without regard to the take-over bid requirements of Canadian Securities Legislation, subject to certain conditions;
- (b) the purchase and sale of Units of the BMO ETFs on the Exchange, which precludes the transmission of purchase or redemption orders to the order receipt offices of the BMO ETFs;

- (c) the payment for the issuance of Units of the BMO ETFs to be made partially in cash and partially in securities, provided that the acceptance of securities as payment is made in accordance with subparagraphs 9.4(2)(b)(i) and 9.4(2)(b)(ii) of NI 81-102;
- (d) the redemption of less than the Prescribed Number of Units of a BMO ETF at a price equal to 95% of the closing price of the Units of such BMO ETF on the Exchange;
- (e) to relieve the BMO ETFs from the requirement relating to the record date for the payment of distributions, provided that the BMO ETFs comply with applicable Exchange requirements;
- (f) to relieve the BMO ETFs from the requirement that a prospectus contain a certificate of the underwriters;
- (g) to relieve the BMO ETFs from the requirement to include in the prospectus a statement respecting purchasers' statutory rights of withdrawal and remedies of rescission or damages substantially in the form prescribed in item 36.2 of Form 41-101-F2 – *Information Required in an Investment Fund Prospectus*;
- (h) to permit a BMO ETF to invest up to 10% of its NAV in securities of certain ETFs listed on the Stock Exchange of Hong Kong Limited, which are managed by the Manager or an affiliate of the Manager, and to permit the BMO ETF to pay brokerage commission associate with such purchase, subject to certain conditions;
- (i) to permit the Lipper Fund Awards and Lipper Leader Ratings to be referenced in sales communications relating to a BMO ETF, subject to certain conditions;
- (j) to permit the FundGrade A+ Awards and FundGrade Ratings to be referenced in sales communications relating to a BMO ETF, subject to certain conditions;
- (k) to permit a BMO ETF that invests a portion of its portfolio assets in T+3 Securities to settle primary market trades in Units of such BMO ETF no later than the third business day after the date upon which pricing for the Units is determined;
- (l) to permit a BMO ETF to invest in debt securities of an issuer for which the Manager or an affiliate of the Manager acts as underwriter during, or 60 days after, the distribution and notwithstanding that the debt securities do not have a designated rating by a designated rating organization as contemplated by section 4.1(4)(b) of NI 81-102, subject to certain conditions;
- (m) to permit a BMO ETF to purchase debt securities from, or sell debt securities to, a related party that is a principal dealer in the Canadian debt securities market, provided that the transaction occurs in the secondary market and that certain other conditions are met;
- (n) to permit a BMO ETF to purchase securities from, or sell securities to, another public mutual fund, pooled fund or managed account managed by the Manager or an affiliate of the Manager (referred to as inter-fund trades), with such inter-fund trade to be executed at the last sale price, as defined in the Universal Market Integrity Rules of the Investment Industry Regulatory Organization of Canada, prior to the execution of the trade in lieu of the closing sale price contemplated by the definition of "current market price of the security" in NI 81-107 on that trading day; and
- (o) to permit a BMO ETF to purchase certain non-exchange-traded debt securities of a related issuer, provided that, among other requirements, the purchase occurs in the secondary market and the debt securities have a "designated rating" within the meaning of the term in NI 44-101 Short Form Prospectus Distributions.

The practices described in paragraphs (l) to (o) above must be carried out in accordance with NI 81-107 in respect of standing instructions of the IRC and reporting to securities regulatory authorities.

BMO Equal Weight Banks Index ETF has obtained exemptive relief from the securities regulatory authorities to permit the BMO ETF to purchase certain securities such that, immediately after the transaction, more than 10 percent of its net assets would be invested in the securities of one issuer for the purposes of determining compliance with the concentration restriction in subsection 2.1(1) of NI 81-102 (the “**Concentration Restriction**”), subject to certain conditions.

BMO Covered Call Canadian Banks ETF has obtained exemptive relief from the securities regulatory authorities to permit the BMO ETF to purchase certain securities or enter into specified derivatives transactions in connection therewith such that, immediately after the transaction, more than 10 percent of its net assets would be invested directly or indirectly in the securities of one issuer for the purposes of determining compliance with the Concentration Restriction subject to certain conditions.

BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF has obtained exemptive relief to permit the BMO ETF to purchase, or obtain exposure to, a security of an issuer included as a constituent in the Dow Jones Industrial Average such that, immediately after the transaction, more than 10 percent of the BMO ETF’s net asset value would be invested, either directly or indirectly, in securities of that issuer for the purposes of determining compliance with the Concentration Restriction. As conditions of the relief, BMO Covered Call Dow Jones Industrial Average Hedged to CAD ETF’s investment in a single issuer must not exceed that issuer’s weight in the Dow Jones Industrial Average at the time of purchase, and certain disclosure must be made in the prospectus, including the risks associated with investing in reliance on the relief.

BMO Canadian MBS Index ETF seeks to track a mortgage backed securities index and has obtained exemptive relief to permit the BMO ETF to invest in mortgage backed securities issued by the Bank of Montreal or a subsidiary (“**BMO MBS**”) bought in a primary offering up to the amount that is no greater than the amount in the index.

#### **PURCHASERS’ STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION**

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase ETF securities within 48 hours after the receipt of a confirmation of a purchase of such securities. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation, or for non-delivery of the ETF Facts, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory.

The Purchaser should refer to the applicable provisions of the securities legislation of the province or territory for the particulars of these rights or consult with a legal advisor.

#### **DOCUMENTS INCORPORATED BY REFERENCE**

Additional information about the BMO ETFs is or will be available in the following documents:

- (a) the most recently filed ETF Facts of the BMO ETFs;
- (b) the most recently filed comparative annual financial statements of the BMO ETFs, together with the accompanying report of the auditor;
- (c) any interim financial statements of the BMO ETFs filed after the most recently filed comparative annual financial statements of the BMO ETFs;
- (d) the most recently filed annual MRFP of the BMO ETFs; and
- (e) any interim MRFP of the BMO ETFs filed after that most recently filed annual MRFP of the BMO ETFs.

These documents are or will be incorporated by reference in this prospectus, which means that they will legally form part of this document just as if they were printed as part of this document. The above documents, if filed by the BMO ETFs after the date of this prospectus and before the end of the distribution hereunder, are also deemed to be incorporated by reference herein. An investor can get a copy of these documents, when available, upon request and at no cost by calling the Manager at 1-800-361-1392 or by contacting a registered dealer. These documents are or will also be available on the BMO ETFs' website at [www.bmo.com/etflegal](http://www.bmo.com/etflegal).

These documents and other information about the BMO ETFs are or will be available on the Internet at [www.sedar.com](http://www.sedar.com).

## INDEPENDENT AUDITOR'S REPORT

To the Unitholder and Trustee of

BMO Clean Energy Index ETF  
BMO Covered Call Technology ETF  
BMO ESG High Yield US Corporate Bond Index ETF  
BMO Money Market ETF  
BMO MSCI Fintech Innovation Index ETF  
BMO MSCI Genomic Innovation Index ETF  
BMO MSCI Innovation Index ETF  
BMO MSCI Next Gen Internet Innovation Index ETF  
BMO MSCI Tech & Industrial Innovation Index ETF  
BMO Short-Term US TIPS Index ETF

(individually, a BMO ETF)

### ***Our opinion***

In our opinion, the accompanying financial statement of each BMO ETF presents fairly, in all material respects, the financial position of each BMO ETF as at January 14, 2021 in accordance with those requirements of International Financial Reporting Standards (IFRS) relevant to preparing a statement of financial position.

### **What we have audited**

The financial statement of each BMO ETF comprises the statement of financial position as at January 14, 2021 and the notes to the financial statement, which include significant accounting policies and other explanatory information.

### ***Basis for opinion***

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statement* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Independence**

We are independent of each BMO ETF in accordance with the ethical requirements that are relevant to our audit of the financial statement in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

### ***Emphasis of matter – basis of accounting***

We draw to users' attention the fact that the financial statement of each BMO ETF does not comprise a full set of financial statements prepared in accordance with IFRS. Our opinion is not modified in respect of this matter.

### ***Responsibilities of management and those charged with governance for the financial statement***

Management is responsible for the preparation and fair presentation of the financial statement of each BMO ETF in accordance with those requirements of IFRS relevant to preparing a statement of financial position, and for such internal control as management determines is necessary to enable the preparation of the financial statement that is free from material misstatement, whether due to fraud or error.

In preparing the financial statement, management is responsible for assessing the ability of each BMO ETF to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate any BMO ETF or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the financial reporting process of each BMO ETF.

***Auditor's responsibilities for the audit of the financial statement***

Our objectives are to obtain reasonable assurance about whether the financial statement as a whole for each BMO ETF is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statement of each BMO ETF.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statement of each BMO ETF, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of each BMO ETF.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of each BMO ETF to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statement of each BMO ETF or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause any BMO ETF to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statement of each BMO ETF, including the disclosures, and whether the financial statement represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Notes to the statements of financial position

January 14, 2021

*(all amounts stated in Canadian dollars unless otherwise stated)*

### 1. General information

BMO Clean Energy Index ETF, BMO Covered Call Technology ETF, BMO ESG High Yield US Corporate Bond Index ETF, BMO Money Market ETF, BMO MSCI Fintech Innovation Index ETF, BMO MSCI Genomic Innovation Index ETF, BMO MSCI Innovation Index ETF, BMO MSCI Next Gen Internet Innovation Index ETF, BMO MSCI Tech & Industrial Innovation Index ETF and BMO Short-Term US TIPS Index ETF, (each, a “**BMO ETF**” and collectively, the “**BMO ETFs**”) are exchange traded mutual funds established as trusts under the laws of the Province of Ontario on January 14, 2021 pursuant to a master declaration of trust dated January 14, 2021, as may be amended or amended and restated from time to time. BMO Asset Management Inc. (the “**Manager**”) is the trustee, manager, portfolio manager and promoter of the BMO ETFs and is responsible for the administration of the BMO ETFs. The Manager is a wholly owned subsidiary of the Bank of Montreal.

The address of the ETFs’ registered office is 100 King Street West, Toronto, Ontario, M5X 1A1.

BMO Clean Energy Index ETF seeks to replicate, to the extent possible, the performance of a clean energy index, net of expenses.

BMO Covered Call Technology ETF seeks to provide exposure to the performance of a portfolio of technology and technology related companies to generate income and to provide long-term capital appreciation while mitigating downside risk through the use of covered call options.

BMO ESG High Yield US Corporate Bond Index ETF seeks to replicate, to the extent possible, the performance of an ESG-focused US high yield corporate bond index, net of expenses.

BMO Money Market ETF seeks to provide income and liquidity consistent with short-term money market rates while preserving capital by investing primarily in Canadian dollar-denominated money market securities and other instruments.

BMO MSCI Fintech Innovation Index ETF seeks to replicate, to the extent possible, the performance of an innovative financial technology companies index, net of expenses.

BMO MSCI Genomic Innovation ETF seeks to replicate, to the extent possible, the performance of an innovative genomic companies index, net of expenses.

BMO MSCI Innovation Index ETF seeks to replicate, to the extent possible, the performance of an innovative companies index, net of expenses.

BMO MSCI Next Gen Internet Innovation Index ETF seeks to replicate, to the extent possible, the performance of an innovative internet companies index, net of expenses.

BMO MSCI Tech & Industrial Innovation Index ETF seeks to replicate, to the extent possible, the performance of an innovative autonomous technology companies index, net of expenses.

BMO Short-Term US TIPS Index ETF seeks to replicate, to the extent possible, the performance of a U.S. government inflation-linked bond index, net of expenses.

These statements of financial position were authorized for issue by the Board of Directors of the Manager on January 14, 2021.

## **2. Summary of significant accounting policies**

The principal accounting policies applied in the preparation of these statements of financial position are set out below.

### **2a) Basis of preparation**

The financial statement of each BMO ETF has been prepared in accordance with International Financial Reporting Standards (IFRS) relevant to preparing such a financial statement. The financial statement of each BMO ETF has been prepared under the historical cost convention.

The net asset value (NAV) is the value of the total assets of each BMO ETF less the value of its total liabilities determined, on each valuation day, in accordance with Part 14 of National Instrument (NI) 81-106 Investment Fund Continuous Disclosure for the purpose of processing unitholder transactions. Net assets are determined in accordance with IFRS.

### **2b) Functional and presentation currency**

The statement of financial position of each BMO ETF is presented in Canadian dollars, which is the BMO ETF's functional currency.

### **2c) Financial instruments**

The BMO ETFs record financial instruments at fair value. Investment transactions are accounted for on the trade date.

Cash is comprised of cash and deposits with banks, which may include banker acceptances and overnight demand deposits. The carrying amount of cash approximates its fair value because it is short-term in nature.

International Accounting Standard 32 *Financial Instruments: Presentation* requires the obligation for net assets attributable to holders of redeemable units of each BMO ETF to be presented at the redemption amount. The units of the BMO ETFs are redeemable at the option of the holder in accordance with the terms described in note 5.

### **2d) Classification of redeemable units**

Redemption of units at 95% of the NAV for some unitholder redemptions results in a situation where the redemption value of this puttable instrument is not based substantially on the net assets of the ETFs. As a result, the ETFs' obligations for net assets attributable to holders of redeemable units are classified as financial liabilities and presented at the redemption amounts.

## **3. Fair value**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The carrying values of cash and the obligation for net assets attributable to holders of redeemable units for each BMO ETF approximate their fair values.

## **4. Risks associated with financial instruments**

Each BMO ETF's overall risk management program seeks to maximize the returns derived for the level of risk to which the BMO ETF is exposed and seeks to minimize potential adverse effects on the BMO ETF's financial performance.

## **Credit risk**

The BMO ETFs are exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. As at January 14, 2021, the credit risk is considered limited as the cash balance represents a deposit with an AA-rated financial institution.

## **Liquidity risk**

Liquidity risk is the risk that the BMO ETFs will encounter difficulty in meeting obligations associated with financial liabilities. Each BMO ETF maintains sufficient liquidity to fund anticipated redemptions.

## **Capital risk management**

The capital of each of the BMO ETFs is represented by the net assets attributable to holders of redeemable units. The amount of net assets attributable to holders of redeemable units can change significantly subject to the amount and frequency of subscriptions and redemptions at the discretion of unitholders. On any trading day, unitholders may redeem units of any BMO ETF for cash at a redemption price per unit equal to the lesser of: (i) 95% of the closing price for the units on the Toronto Stock Exchange (the “**TSX**”) on the effective day of the redemption; and (ii) the net asset value per Unit on the effective day of the redemption.

In order for cash redemption to be effective on a trading day, a cash redemption request in the form prescribed by the Manager from time to time must be delivered to the applicable BMO ETF at its registered office by 9:00 a.m. (EST) on the trading day (or such later time on such trading day as the Manager may permit). In addition, unitholders may exchange their units for baskets of securities and cash. To affect an exchange of units, a unitholder must submit an exchange request in the form prescribed by the Manager from time to time to the applicable BMO ETF at its registered office by 9:00 a.m. (EST) on a trading day (or such later time on such trading day as the Manager may permit). The exchange price is equal to the NAV of the units on the effective day of the exchange request, payable by delivery of baskets of securities and cash.

## **5. Redeemable units**

The capital of the BMO ETFs is represented by issued redeemable units with no par value. The units are entitled to distributions, if any, and to a proportionate share of the net assets attributable to the unitholders. In accordance with its investment objective and strategies, and the risk management practices outlined in Note 4, the BMO ETFs endeavour to invest the subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemptions, such liquidity being augmented by short-term borrowings or disposal of investments where necessary. The BMO ETFs are authorized to issue an unlimited number of units.

On any trading day, a designated broker or dealer may place a subscription or exchange order for the prescribed number of units (or an integral multiple thereof) of a BMO ETF. For each of the BMO ETFs, a trading day is a day on which the TSX is open for business and on which the primary market or exchange for the majority of the securities held by the BMO ETF is open for trading.

If the subscription or exchange order is accepted, the BMO ETF will issue or exchange units to/from the designated broker or dealer (i) by no later than the third business day after the date on which the order is accepted, in the case of a BMO ETF that invests a portion of its portfolio assets in securities the trades in respect of which customarily settle on the third business day after the date upon which pricing for the securities is determined, (ii) by no later than the second business day after the date on which the order is accepted, in the case of a BMO ETF that does not invest a portion of its portfolio assets in securities the trades in respect of which customarily settle on the third business day after the date upon which pricing for the securities is determined, or (iii) in such shorter period than (i) or (ii) as may be determined by the Manager in response to changes in applicable law or general changes to settlement procedures in applicable markets, provided that payment for such units has been received. For each prescribed number of units issued or exchanged, a designated broker or dealer must deliver or receive payment consisting of, in the Manager’s discretion:

- (b) a basket of applicable securities and cash in an amount sufficient so that the value of the securities and the cash received is equal to the NAV of the units issued or exchanged; or
- (c) cash in an amount equal to the NAV of the units issued or exchanged.

Units exchanged for a basket of securities will be exchanged at a price equal to the NAV of the units on the effective date of the exchange request, payable by delivery of baskets of securities and cash. The units will be redeemed in the exchange. On any trading day, unitholders may redeem units of a BMO ETF for cash. Units redeemed for cash will be redeemed at a redemption price per unit equal to the lesser of: (i) 95% of the closing price for the units on the TSX on the effective day of the redemption; and (ii) the net asset value per unit on the effective day of the redemption.

The NAV per unit of a series for the purposes of subscription, redemption or exchange is computed by dividing the NAV of each series of the BMO ETFs (that is, the total fair value of the assets attributable to the series of the BMO ETF less the liabilities attributable to the series) by the total number of units of the series of the BMO ETF outstanding at such time on each Valuation Day, in accordance with Part 14 National Instrument 81-106 Investment Fund Continuous Disclosure for the purpose of processing unitholder transactions. Net Assets are determined in accordance with IFRS and may differ from the BMO ETF's NAV. As at January 14, 2021, there is no difference between net assets and NAV of each BMO ETF.

## 6. Related party transactions

Each BMO ETF's investment activities are managed by the Manager. BMO Investments Inc., an affiliate of the Manager, has purchased the initial unit/units of each BMO ETF as summarized in the table below:

	Units	Amount in Canadian Dollars, unless otherwise indicated	
		Consideration (\$)	Price per Unit (\$)
BMO Clean Energy Index ETF	1	30	30
BMO Covered Call Technology ETF	1	30	30
BMO ESG High Yield US Corporate Bond Index ETF			
- CAD Units	1	30	30
- Hedged Units	1	30	30
BMO Money Market ETF	1	50	50
BMO MSCI Fintech Innovation Index ETF	1	30	30
BMO MSCI Genomic Innovation Index ETF	1	30	30
BMO MSCI Innovation Index ETF	1	30	30
BMO MSCI Next Gen Internet Innovation Index ETF	1	30	30
BMO MSCI Tech & Industrial Innovation Index ETF	1	30	30
BMO Short-Term US TIPS Index ETF			
- CAD Units	1	30	30
- Hedged Units	1	30	30
- USD Units	1	30 USD	30 USD

Each BMO ETF will pay management fees, in accordance with the Declaration of Trust, to the Manager and the Manager is entitled to a management fee as set forth in the table below based on the average daily net asset value of the applicable BMO ETF. The management fee, plus applicable taxes including HST, is accrued daily and paid quarterly in arrears. The Manager may, from time to time in its discretion, waive a portion of the management fee charged.

	Annual Management Fee (%)
BMO Clean Energy Index ETF	0.35
