

Annual Management Report of Fund Performance

BMO Private Diversified Yield Portfolio

For the period ended December 31, 2023

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the Portfolio. If the annual financial statements of the Portfolio do not accompany the mailing of this report, you may obtain a copy of the annual financial statements at your request, and at no cost, by calling 1-855-852-1026, by e-mailing us at contact.centre@bmo.com, by writing to us at BMO Private Investment Counsel Inc., 1 First Canadian Place, 100 King St. W., 41st Floor, Toronto, Ontario, M5X 1A1 or by visiting our website at www.bmo.com/privatewealth/regulatory-documents/bpic/ or SEDAR+ at www.sedarplus.ca. You may also contact us using one of these methods to request a copy of the Portfolio's interim financial report, proxy voting policies and procedures, proxy voting disclosure record and/or quarterly portfolio disclosure.

Management Discussion of Fund Performance

BMO Private Investment Counsel Inc. ("BPIC" or the "Manager"), the manager and portfolio manager, is responsible for the management of the overall business, investments and operations of the BMO Private Portfolios and has engaged BMO Asset Management Inc. ("BMO AM Inc." or the "sub-advisor") as the sub-advisor of BMO Private Diversified Yield Portfolio (the "Portfolio").

Investment Objective and Strategies

The Portfolio's investment objective is to provide income by investing primarily in a diversified portfolio of Canadian securities.

To achieve the Portfolio's objectives, the sub-advisor employs bottom-up security selection that is based on quantitative and traditional fundamental analyses that consider each company's projected earnings growth, cash flows, payout ratios, business fundamentals, balance sheet strength, credit ratings, relative valuation considerations and management quality. In order to help ensure the Portfolio is not overly sensitive to a particular line of business, the Portfolio will be diversified across various industries.

The Portfolio may invest in, but is not limited to investing in, common equities, preferred equity, income trusts, royalty trusts, real estate investment trusts, convertible debentures, and fixed income securities. The Portfolio may use derivative instruments, primarily options, to attempt to generate income in the Portfolio.

Risk

The risks associated with an investment in the Portfolio remain as disclosed in the Portfolio's most recent simplified prospectus or any amendments thereto and fund facts. During the period, there were no changes to the Portfolio's investment objective, strategies or management that materially affected the overall risk level associated with an investment in the Portfolio. The Manager reviewed the Portfolio using the standardized investment risk classification methodology prescribed by National Instrument 81-102 *Investment Funds* and determined on May 18, 2023, that the risk rating of the Portfolio had not changed. The Manager reviews the Portfolio's investment risk level and reference index, if any, at least annually.

Results of Operations

Over the 12-month period ended December 31, 2023, the Portfolio returned 6.49%, after expenses. The Portfolio's benchmark is the S&P/TSX Composite Index (the "S&P/TSX"), which generated a 11.75% total return over the same 12-month period.

Canadian equities were volatile over the period. The S&P/TSX traded largely range-bound in the first quarter of 2023. The subsequent interest in artificial intelligence proved less helpful for the Canadian market compared to the U.S. market because of its lack of exposure to technology companies. Financials also contributed to this volatility as Canadian banks suffered from the instability caused by Silicon Valley Bank. The S&P/TSX Composite Index gained over the period, led by the Financials, Information Technology and Industrials sectors.

Private Wealth

BMO Private Diversified Yield Portfolio

Preferred shares benefitted from the peak interest rate environment of the fourth quarter of 2023, staging a similar recovery to the bond market. The preferred shares market's high concentration of banks and Industrials holdings also proved helpful as these two areas delivered results that more than offset the drag from Energy companies. The S&P/TSX Preferred Share Index gained over the period, tracking closely to the Canadian bond market and underperforming the broader Canadian equity market.

Canadian Real Estate Investment Trusts ("REITs"), as measured by the S&P/TSX Capped REIT Index, gained over the period, but underperformed the Canadian equity and Canadian bond markets. Canada's slowing economy and cooling housing market led to pessimism towards the sector. Despite the weak sentiment toward REITs, the sector still managed to post a gain as a result of the Bank of Canada's (the "BoC") change in tone regarding interest rates.

Stock selection within the Financials, Utilities and Materials sectors detracted from the Portfolio's performance. Underweight exposure to the Information Technology sector also detracted from the Portfolio's performance as investors favoured durable growth companies and those exposed to artificial intelligence. The Portfolio's position in Northland Power Inc. detracted from performance. Its stock was weaker amid rising project costs and lower investment returns associated with its development program. The company also faced negative sentiment around Utilities stocks, which are sensitive to interest rates. A holding in Franco-Nevada Corp. also detracted from performance following the shutdown of a key Panamanian mine on which it collects a royalty stream. A position in Nutrien Ltd. was another detractor from the Portfolio's performance. Its stock price declined amid a softening in agriculture, crop and fertilizer markets.

Overweight exposure to equities contributed to the Portfolio's performance, as did stock selection within the Industrials and Consumer Discretionary sectors. Underweight allocations to Materials and Energy contributed to performance amid a weakening of commodity prices. Overweight exposure to Industrials contributed to performance. Underweight exposure to REITs and preferred shares also contributed to performance as higher interest rates led to negative returns for those asset classes. Top individual

contributors to the Portfolio's performance included positions in WSP Global Inc., Brookfield Corp. and Element Fleet Management Corp. WSP Global Inc. was rewarded for making progress on its growth strategy, completing acquisitions and posting good results in an uncertain economic environment. Brookfield Corp. benefitted from the decline in government bond yields in the back half of the year and continued interest in alternative assets. Element Fleet Management Corp.'s stock appreciated as a result of strong business execution, new customer wins and the ongoing normalization of the auto supply chain.

The sub-advisor added a new holding in Canadian Natural Resources Ltd., a leading energy producer in Canada. It was added based on the company's portfolio of long-life, low-decline oil reserves, its low-cost producer status, its capital allocation discipline and its strong, consistent history of dividend growth through the commodity cycle. A new position in Tourmaline Oil Corp., a leading natural gas producer, was also added to the Portfolio. It was introduced on the strength of its production footprint in leading basins in Western Canada, its low-cost status, balance sheet strength and history of unlocking value for shareholders. The sub-advisor also added Restaurant Brands International Inc. based on its generation of high levels of free cash. The company appears well positioned to generate attractive returns based on a reinvigorated business strategy, a change in leadership and an enhanced capital return profile.

The Portfolio's positions in Parkland Corp., Manulife Financial Corp. and Algonquin Power & Utilities Corp. were sold on weakening investment cases. The proceeds were redeployed into other opportunities.

For information on the Portfolio's longer-term performance and composition, please refer to the Past Performance section and Summary of Investment Portfolio section of this report.

Recent Developments

December 2023 marked a change in messaging from the U.S. Federal Reserve Board, as it signalled that interest rate decreases are in its outlook for 2024. This drove bond yields sharply lower and is expected to be supportive of higher-risk assets and equities.

BMO Private Diversified Yield Portfolio

The sub-advisor believes that the equity market is likely to remain volatile as investors work to determine the ultimate paths of the real economy, inflation, interest rates, credit and earnings.

Dividend and dividend-growth strategies have underperformed on a relative basis throughout this round of policy rate increases by major central banks. However, as yield expectations taper, the sub-advisor believes that dividend-paying and growing stocks should come back into focus for investors.

The Portfolio continues to focus on investing in high-quality, sustainable businesses with safe and growing dividend streams that the sub-advisor believes will be attractive to investors as interest rates ease.

Related Party Transactions

BMO Trust Company, an indirect, wholly-owned subsidiary of Bank of Montreal (“BMO”), is the trustee (the “trustee”) and BPIC is the manager of the Portfolio. From time to time, BPIC may, on behalf of the Portfolio, enter into transactions or arrangements with or involving other members of BMO Financial Group, or certain other persons or companies that are related or connected to the Portfolio (each, a “related party” and collectively, the “related parties”). The purpose of this section is to provide a brief description of any transaction involving the Portfolio and a related party. In each instance where a conflict of interest is identified, it will be referred to the Portfolio’s independent review committee (the “IRC”). The primary focus of the IRC is to determine whether the proposed action of the Manager in respect of the conflict of interest matter achieves a fair and reasonable result for the Portfolio.

Sub-advisor

BPIC has hired BMO AM Inc., a related party, to provide investment advice and make investment decisions for the Portfolio’s investment portfolio. BMO AM Inc. receives a sub-advisory fee based on assets under management, which is paid monthly. BMO AM Inc. is paid by BPIC.

Buying and Selling Securities

During the period, the Manager relied on Standing Instructions provided by the Portfolio’s IRC for any of the following related party transactions that may have occurred in the Portfolio:

- (a) investments in securities issued by BMO, an affiliate of the Manager, or any other issuer related to the Manager;
 - (b) investments in a class of securities of an issuer during the distribution period of those securities or the 60-day period following the completion of the distribution where BMO Nesbitt Burns Inc., an affiliate of the Manager, or any other affiliate of the Manager acts as an underwriter in the distribution of those securities;
 - (c) trades in over-the-counter debt securities in the secondary market with BMO Nesbitt Burns Inc., or any other affiliate of the Manager, acting as principal in the Canadian debt securities market; and
 - (d) trades of a security of any issuer from or to, another investment fund managed by the Manager or an affiliate of the Manager or a managed account managed by an affiliate of the Manager
- (each, a “Related Party Transaction”).

In accordance with the IRC’s Standing Instructions, in making a decision to cause the Portfolio to make a Related Party Transaction, the Manager and the sub-advisor of the Portfolio are required to comply with the Manager’s written policies and procedures governing the Related Party Transaction and report periodically to the IRC, describing each instance that the Manager and/or the sub-advisor relied on the Standing Instructions and their compliance or non-compliance with the governing policies and procedures. The governing policies and procedures are designed to ensure that each Related Party Transaction (i) is made free from any influence of BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt Burns Inc. and without taking into account any considerations relevant to BMO, BMO Nesbitt Burns Inc. or an associate or affiliate of BMO and/or BMO Nesbitt

BMO Private Diversified Yield Portfolio

Burns Inc., (ii) represents the business judgment of the Manager and/or the sub-advisor, uninfluenced by considerations other than the best interests of the Portfolio, and (iii) achieves a fair and reasonable result for the Portfolio. The IRC has reviewed the related party transactions described above and has provided an approval that each transaction achieves a fair and reasonable result for the Portfolio.

Brokerage Commissions

The Portfolio pays standard brokerage commissions at market rates to BMO Nesbitt Burns Inc., an affiliate of the Manager, for executing a portion of its trades. The brokerage commissions charged to the Portfolio during the periods were as follows:

	Period ended Dec. 31, 2023 (\$000s)	Period ended Dec. 31, 2022 (\$000s)
Total Brokerage Commissions	142	67
Brokerage Commissions paid to BMO Nesbitt Burns Inc.	13	2

Wealth Management Fee

Units of the Portfolio are only available through the wealth management service offered by BMO Financial Group. The trustee, a related party, and the Manager receive an annual fee from each investor for the wealth management service offered by BMO Financial Group. A tiered schedule is applied to calculate the annual fee for this service. The fee schedule starts at 1.95% and declines to 0.20% (depending on the nature and size of the investor's investment portfolio), and is calculated as a percentage of the assets under management.

The actual wealth management fee payable by each investor is set out in BPIC's *Investment Management Fee Schedule* that is provided to the investor when the investor enters into an investment management agreement with the trustee and BPIC. The wealth management fee is paid directly by the investor to the trustee and the Manager. The trustee may compensate financial institutions and securities registrants within BMO Financial Group for client referrals to the wealth management service.

Unitholder Services

The Portfolio is provided with certain facilities and services by related parties. BPIC is the registrar of the Portfolio. The trustee and BPIC are paid by the Portfolio for fees relating to the custodial and administrative services they provide, respectively. Administrative services include fund accounting, record keeping and purchases/redemption order processing.

The fees charged to the Portfolio during the periods were as follows:

	Period ended Dec. 31, 2023 (\$000s)	Period ended Dec. 31, 2022 (\$000s)
Unitholder Services	245	241

Management Fee

There is no management fee charged to the Portfolio. The trustee and the Manager receive an annual wealth management fee from investors for the wealth management service offered by BMO Financial Group.

BMO Private Diversified Yield Portfolio

Financial Highlights

The following tables show selected key financial information about the Portfolio and are intended to help you understand the Portfolio's financial performance for the periods indicated.

The Portfolio's Net Assets Per Unit ⁽¹⁾		Years ended December 31				
		2023	2022	2021	2020	2019
Net assets, beginning of period	\$	19.72	22.74	19.09	19.49	17.31
Increase (decrease) from operations:						
Total revenue	\$	0.84	0.72	0.70	0.71	0.69
Total expenses ⁽²⁾	\$	(0.02)	(0.01)	(0.02)	(0.02)	(0.02)
Realized gains (losses) for the period	\$	0.01	0.76	1.02	(0.01)	1.26
Unrealized gains (losses) for the period	\$	0.40	(3.72)	2.78	(0.53)	1.09
Total increase (decrease) from operations ⁽³⁾	\$	1.23	(2.25)	4.48	0.15	3.02
Distributions:						
From income (excluding dividends)	\$	0.03	0.01	0.01	0.01	0.01
From dividends	\$	0.78	0.71	0.68	0.70	0.72
From capital gains	\$	—	—	—	—	—
Return of capital	\$	0.00	0.03	0.06	0.05	0.05
Total Annual Distributions ⁽⁴⁾	\$	0.81	0.75	0.75	0.76	0.78
Net assets, end of period	\$	20.16	19.72	22.74	19.09	19.49

⁽¹⁾ This information is derived from the Portfolio's audited annual financial statements.

⁽²⁾ Includes commissions and other portfolio transaction costs and withholding taxes.

⁽³⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

⁽⁴⁾ Distributions were paid in cash or reinvested in additional units of the Portfolio, or both.

Ratios and Supplemental Data		Years ended December 31				
		2023	2022	2021	2020	2019
Total net asset value (000s) ⁽¹⁾	\$	687,924	709,477	869,518	833,781	894,727
Number of units outstanding (000s) ⁽¹⁾		34,119	35,985	38,239	43,666	45,912
Management expense ratio ⁽²⁾	%	0.08	0.07	0.06	0.07	0.06
Management expense ratio before waivers or management absorptions ⁽²⁾	%	0.19	0.18	0.17	0.18	0.16
Trading expense ratio ⁽³⁾	%	0.02	0.01	0.02	0.02	0.05
Portfolio turnover rate ⁽⁴⁾	%	6.92	3.92	6.41	6.83	7.38
Net asset value per unit	\$	20.16	19.72	22.74	19.09	19.49

⁽¹⁾ This information is provided as at December 31 of the period shown.

⁽²⁾ Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁽⁴⁾ The portfolio turnover rate indicates how actively the Portfolio's sub-advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Portfolio buying and selling all of the securities in its portfolio once in the course of the year. The higher a portfolio turnover rate in a year, the greater the trading costs payable by the portfolio in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a portfolio.

BMO Private Diversified Yield Portfolio

Past Performance

General

The Portfolio's performance information assumes that all distributions made by the Portfolio in the periods shown were reinvested in additional units of the Portfolio and is based on the net asset value of the Portfolio. The reinvestment of distributions increases returns.

The performance information does not take into account sales, redemption, distribution or other optional charges that, if applicable, would have reduced returns or performance. Please remember, how the Portfolio has performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the performance for each of the financial years shown, and illustrates how the performance has changed from year to year. The bar chart shows in percentage terms how an investment made on the first day of each financial year would have increased or decreased by the last day of each financial year.

Annual Compound Returns

This chart compares the historical annual compound returns of the Portfolio with the S&P/TSX Composite Index. The S&P/TSX Composite Index reflects the price movements of a floating list of companies on the Toronto Stock Exchange that meet Standard & Poor's criteria for inclusion in the index.

	1 yr %	3 yrs %	5 yrs %	10 yrs %
BMO Private Diversified Yield Portfolio‡	6.49	5.69	7.23	5.54
S&P/TSX Composite Index	11.75	9.59	11.30	7.62

‡ The Portfolio's return is after the deduction of expenses, while the benchmark does not include any costs of investing.

A commentary on the market and/or information regarding the relative performance of the Portfolio as compared to its benchmark can be found under the Results of Operations section of this report.
