Filtering through stocks

Screeners let you search for stocks based on your criteria or filtered by price, revenue, earnings estimates and ratings.

2. Hover over **Quotes & Tools** and under **Screeners**, select **Stocks**.

2. The **Basic Stock Screener** lets you to search by industry, exchange, or security type. You can even generate reports.

Main Selection Criteria	
Industry	All
Exchange	Toronto Stock Exchange
Security	All
Country	All
Report	Price Report - Quotes
Get Results	

3. The **Advanced Stock Screener** lets you create a dynamic list of stocks with more detailed criteria.
4. With the **Quick Pick Screener**, you can search through some of the most popular, pre-defined searches.

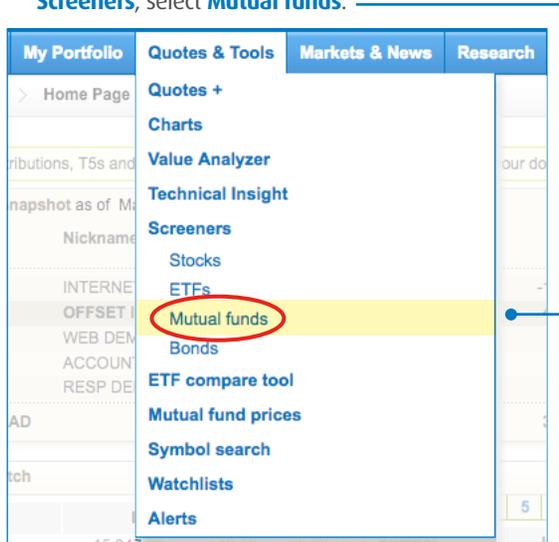

Step 1: Select a Quick Pick Screener

- ▶ **Bottom feeders** - These stocks have bottomed out and could rebound
- ▶ **Widows and orphans** - Blue-chip, capital-preservation stocks
- ▶ **Dividend and income** - Profits, cash flow and dividends get you cash in your hand
- ▶ **Quality income trusts** - Trust this filter to find trusts with sustainable distributions
- ▶ **Fishing for value** - Stocks that look to have solid intrinsic value
- ▶ **Turnarounds** - Losing money, but their price has taken a sharp turn upwards
- ▶ **High-yield, contrarian picks** - A battered share price has driven up the yield on these stocks
- ▶ **Big companies, big growth** - These super-sized companies are growing both their top and bottom lines
- ▶ **Profit growth** - Growing the widely-watched profit line
- ▶ **Great returns** - Top ROE and ROC performers over the short- and long-term
- ▶ **Beating expectations** - Companies that have beaten the Street in the latest two quarters
- ▶ **Pay day** - Cash cows showing shareholders the money with share buybacks
- ▶ **All stars** - These 5-star stocks are analysts' favourites
- ▶ **Growth potential** - Fast-growing companies with good margins and a reasonable PEG
- ▶ **Good growth, small package** - Small companies that offer growth potential at a reasonable price
- ▶ **Aggressive growth** - It's pedal to the metal for these risky stocks
- ▶ **Penny stocks, positive outlook** - Growing profits could help these stocks leave penny territory behind
- ▶ **Pick your market cap size** - Little caps
- ▶ **Pick your market cap size** - Small cap
- ▶ **Pick your market cap size** - Mid cap
- ▶ **Pick your market cap size** - Large cap
- ▶ **Pick your market cap size** - Super cap

Filtering through mutual funds

Search mutual funds based on your preferences.

1. Hover over **Quotes & Tools** and under **Screeners**, select **Mutual funds**.

2. Focus on common criteria such as, short-term funds, performance, fees and details, etc.

3. Use the **Filter** button on the right to narrow down your search by fund type, share class, fund performance and risk, fund portfolio, returns and fund fees and purchase details.
