

Identify undervalued stocks with the Value Analyzer

Get to know Value Investing

This investing strategy is used by some of the most successful investors, who select stocks that appear to trade below their value.

The Value Analyzer simplifies Value Investing to a click of a button.

- See how to pick companies with a history of consistently growing revenue and Earnings per Share.
- Then see if the current stock price is above or below "Fair Value".

If you have questions call 1-888-776-6886.

How to get started

1. Sign into your [BMO InvestorLine](#) account.
2. From **Quotes & Tools**, click **Value Analyzer**.

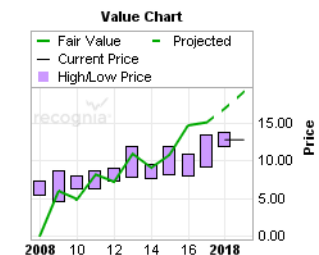

3. You'll see a green light when a stock appears under valued.

Under Valued
Rate of Return Estimate: 19%

4. See a stock's track record. Steep lines indicate a history of higher growth. Straighter lines reflect consistency.

5. See whether a stock's price is tracking below fair value.

6. Check out the **Education Materials** on the Value Analyzer page.
