Tracking securities using a watchlist

Create a list of securities to get quotes on your homepage, updated automatically throughout your session. Keep on top of trading or investing opportunities related to securities you're interested in.

You can create up to five watchlists and use them to monitor the performance of your holdings or other equities, ETFs, options and indices.

My watchlist					Update list
1	2	3	4	5	
Symbol	Last	Change	%		
AC	28.57	-0.43	-1.48		
BMO	99.57	+0.26	+0.26		

Just follow our interactive tool and we'll show you how to set one up.
