CREDIT RATING:

Moodys: A2 S&P: A- DBRS: AAL

The Notes have not been rated. The ratings above apply to the senior bail-inable liabilities of the Issuer with a term to maturity of more than one year as of the date of this document. There can be no assurance that, if the Notes were specifically rated by these rating agencies, they would have the same rating as the conventional deposit liabilities of the Issuer. A rating is not a recommendation to buy, sell or hold investments, and may be subject to revision or withdrawal at any time by the relevant rating agency.

NO CDIC:

The Notes do not constitute or evidence deposits that are insured under the Canada Deposit Insurance Corporation Act.

BAIL-INABLE:	The Notes are bail-inable notes subject to conversion in whole or in part – by means of a transaction or series of transactions and in one or more steps – into common shares of the Issuer or any of its affiliates under subsection 39.2(2.3) of the "CDIC Act" and to variation or extinguishment in consequence, and subject to the application of the laws of the Province of Ontario and the federal laws of Canada applicable therein in respect of the operation of the "CDIC Act" with respect to the Notes. For a description of Canadian bank resolution powers and the consequent risk factors attaching to the Notes reference is made to https://www.bmo.com/home/about/banking/investor-relations/regulatory-disclosure which information is hereby incorporated by reference.
SECONDARY MARKET:	BMO Capital Markets will arrange for a secondary market for the sale of Notes on any day that commercial banks are open for business in Toronto, Ontario, subject to the occurrence of a Market Disruption Event (as defined below). The price that BMO Capital Markets will pay for Notes sold in the secondary market prior to the Maturity Date will be determined by BMO Capital Markets, in its sole discretion. If a noteholder sells his or her Notes prior to the Maturity Date, such noteholder may receive less than the Principal and may suffer losses.
SUBSEQUENT HOLDERS:	Each holder or beneficial owner of a Note that acquires an interest in the Note in the secondary market and any successors, assigns, heirs, executors, administrators, trustees in bankruptcy and legal representatives of any such holder or beneficial owner shall be deemed to acknowledge, accept, agree to be bound by and consent to the same provisions specified in the Note to the same extent as the holders or beneficial owners that acquire an interest in the Note upon its initial issuance, including, without limitation, with respect to the acknowledgement and agreement to be bound by and consent to the terms of the Note related to the bail-in regime.
MARKET DISTRUPTION EVENT:	<p>"Market Disruption Event" means, in respect of the Notes, any bona fide event, circumstance or cause (whether or not reasonably foreseeable) beyond the reasonable control of the Issuer or any person that does not deal at arm's length with the Issuer which has or will have a material adverse effect on the ability of a party to acquire, place, establish, re-establish, substitute, maintain, modify, unwind or dispose of any hedge transaction in respect of the Notes or to realize, recover or remit proceeds of any such hedge transaction. A Market Disruption Event may include, without limitation, any of the following events: (a) any event that disrupts or impairs (as determined by the calculation agent of the Notes) the ability of market participants in general (i) to effect transactions in, or obtain market values for, the Notes, or (ii) to effect transactions in, or obtain market values for, futures or options contracts relating to the Notes;</p> <p>(b) the adoption, change, enactment, publication, decree or other promulgation of any statute, regulation, rule or notice, however described, or any order of any court or other governmental or regulatory authority or any issuance of any directive or promulgation of, or any change in the interpretation, whether formal or informal, by any court, tribunal, regulatory authority or similar administrative or judicial body of any law, order, regulation, decree or notice, however described or any other event that (as determined by the calculation agent of the Notes) makes or would make it unlawful or impracticable for the Issuer to perform its obligations in respect of the Notes or for dealers generally to acquire, place, establish, re-establish, substitute, maintain, modify or unwind or dispose of any hedge transaction for the Note or to realize, recover or remit the proceeds of any such hedge transaction for the Note or otherwise has or would have a material adverse effect on the Notes or a Holder or for any hedge transaction for the Notes;</p> <p>(c) the taking of any action by any governmental, administrative, legislative or judicial authority or power of Canada or any other country, or any political subdivision, that (as determined by the Calculation Agent) has a material adverse effect on the financial markets of Canada; or</p> <p>(d) any outbreak or escalation of hostilities or other national or international calamity or crisis (including, without limitation, natural calamities) that (as determined by the calculation agent of the Notes) has or would have a material adverse effect on the ability of the Issuer to perform its obligations under the note program in respect of the Notes or of dealers generally to acquire, place, establish, re-establish, substitute, maintain, modify or unwind or dispose of any hedge transaction for the Notes or to realize, recover or remit the proceeds of any such hedge transaction for the Notes, or has or would have a material adverse effect on the economy of Canada; or</p> <p>(e) an increase in the cost of acquiring, placing, establishing, re-establishing, substituting, maintaining, modifying, unwinding or disposing of any hedge transaction for the Notes or in the cost of realizing, recovering or remitting the proceeds of any such hedge transaction</p>
SUITABILITY AND CERTAIN RISK FACTORS:	<p>The Notes may not be suitable for all investors. An investor should decide to invest in the Notes only after carefully considering with his or her advisor whether the Notes are a suitable investment in light of this or her investment objectives. Neither the Issuer nor BMO Capital Markets makes any recommendation as to whether the Notes are a suitable investment for any person.</p> <p>An investor should also take into account various risks associated with such an investment. Certain risk factors include, but are not limited to:</p> <p>Non-Conventional Notes</p> <p>The Notes are not conventional notes or fixed income securities in that they do not track the same price movements as traditional interest rate products.</p> <p>Extension Feature</p> <p>There is no certainty as to the term to maturity of the Notes after the Initial Maturity Date because the Extension Feature embedded in the Notes is entirely in the discretion of the Issuer and may be dependent on future interest rates and market volatility. Higher interest rates in future years increase the likelihood that the Issuer will extend the Maturity Date of the Notes. Lower interest rates in future years decrease the likelihood that the Issuer will extend the Maturity Date of the Notes.</p> <p>The holders and beneficial owners of the Notes will not be entitled to exercise, or direct the exercise of, any set-off or netting rights with respect to the Notes.</p> <p>SET-OFF:</p> <p>GOVERNING LAW:</p> <p>ATTORMENT:</p>
