

Deposit cheques on your terms

BMO® DepositEdge™ — the seamless and secure cheque scanning solution for business

Imagine depositing cheques 24/7¹, from your office or from wherever it's convenient for your business. Imagine making deposits more quickly and improving your cash flow. Imagine seamlessly and securely scanning cheques at your desk and depositing them online. And, just imagine the time and money you'll save by not having to make trips to the bank. It's all possible, with BMO DepositEdge – a seamless and secure cheque scanning solution for business.

How it works

BMO DepositEdge takes advantage of an easy-to-use desktop scanner and web-based software to securely image and deposit your cheques into your designated BMO business account.

- Cheques are inserted into the scanner, which automatically captures the cheque images – front and back – along with the remitter bank account information.
- Once the scanning process is complete, a summarized view of all the scanned items is presented to you for review.
- The funds can then be deposited into your designated BMO business account.

How it can benefit your business

Whether your business has a number of locations in Canada and the US, or a single office processing hundreds of cheques, BMO DepositEdge can help you control and streamline your collection process, accelerate your cash flow, and save you time and money.

- **Increase Security & Efficiency:** Mitigate the risk of errors and fraud by automating the cheque deposit process to reduce manual touch points. Furthermore, ensure cheque deposit information is captured accurately through the secure, web-based software, which automatically checks for potential duplicate items.
- **Save Time:** Make deposits at your location(s) 24 hours, 7 days a week¹ and receive same-day credit for funds deposited before 7 pm^{2,3}. Arrange your deposit schedule to suit your business rather than rushing to make cut-off times.
- **Save Money:** Reduce transportation and courier costs by depositing cheques online to one designated business account.

Information Reporting & Risk Management

For greater visibility and control of your business, you need timely, accurate information reporting and minimal risk exposure. BMO's comprehensive reporting and risk management solutions can help you manage your business while saving you time and money.

BMO DepositEdge can help reduce risk by automating the cheque deposit process. Cheques are securely scanned and the software automatically verifies for potential duplicates. A summarized list of all scanned items provides you with visibility and control over your deposits.

Automated cheque deposits can help accelerate your cash flow while saving you time and money.

BMO offers a full range of treasury and payment solutions to help you maximize your working capital.
