

# CLIENT ACCOUNT AGREEMENT

## Terms and Conditions and Other Disclosures

### Part One – Client Account Agreement (for Individual and Non-Individual Client Accounts)

In consideration of BMO Nesbitt Burns opening or maintaining one or more accounts (individually or collectively, the “Account”) for the customer (the “Client”), the Client understands and agrees to the following terms and conditions for the operation of the Account.

#### 1. Applicable by-laws, laws, rules, etc.

Each Transaction executed for the Account will be subject to, and the Client will abide by, the prevailing by-laws, laws, rules, regulations, policies and customs of the appropriate Regulatory Authorities.

#### 2. Settlement, commissions and interest

Full and timely settlement will be made of each Transaction in Securities for the Account. The Client will pay to BMO Nesbitt Burns all commissions and other Transaction charges in respect of each Transaction (including any Transaction pursuant to item 8 below) and interest, calculated daily and compounded monthly, on outstanding indebtedness. Such commissions and other charges shall be at BMO Nesbitt Burns’ customary rates in the circumstances or as negotiated from time to time. Some of these charges, commissions and fees are set forth in BMO Nesbitt Burns Fee and Interest Rate Schedule (the “Fee Brochure”), incorporated herein by reference, as amended from time to time. The interest rate shall be the interest rate designated from time to time by BMO Nesbitt Burns as being its effective rate for determining interest on debit balances in accounts with BMO Nesbitt Burns. The interest rates charged by BMO Nesbitt Burns on debit balances are based upon prevailing rates and are disclosed in the Fee Brochure which may be obtained upon request from the Client’s Investment Advisor. The Client waives notice of all changes in such rates. In addition to the commission, interest or other fees applicable to the transaction, BMO Nesbitt Burns (or parties related to us) may earn revenue from a foreign currency conversion.

#### 3. Operation of the account

- (a) BMO Nesbitt Burns has the right to determine in its discretion whether or not any order for Transactions in Securities for the Account is acceptable and whether to execute said order.
- (b) BMO Nesbitt Burns will credit to the Account any interest, dividends or other monies received in respect of Securities held in the Account, and any monies (net of all charges) received as proceeds from the sale or other disposition of Securities from the Account, and will debit to the Account any amounts owing, including interest, by the Client to BMO Nesbitt Burns pursuant to this Agreement. BMO Nesbitt Burns will maintain a record of receipts and deliveries of Securities and the Client’s resulting positions in the Account. As BMO Nesbitt Burns offers Canadian and US currency denominated registered accounts (excluding Registered Education Savings Plans), any non US foreign currency deposited into a registered account, including dividends, interest and proceeds from the sale of foreign securities, will be converted in Canadian funds or US funds depending on the side of the account the security is held, and BMO Nesbitt Burns (or parties related to us) may earn revenue from the foreign currency conversion. To avoid other foreign

currency exchange related to your Canadian or US securities you may wish to hold these securities in a Canadian or US dollar denominated account, where available.

- (c) The Client will pay any service fees or service charges relating to the services provided by BMO Nesbitt Burns for the administration of the Account.
- (d) BMO Nesbitt Burns has the right to terminate, in its sole and unfettered discretion, this Agreement and close the Account by providing written notice to the Client of its intention to do so. BMO Nesbitt Burns reserves the right to accept only liquidating instructions from the Client from the date of notice. If following such notice, the Client fails to take action to close the Account or transfer assets out of the Account, BMO Nesbitt Burns may take such action as is necessary to close the Account. Such action may include re-registering securities in the Client’s name and, if applicable, mailing to the Client at the Client’s last known address, certificates representing securities and cheques representing cash balances that remain in the Account. The liquidation of the Securities in the Account may have significant financial consequences for the Client, including but not limited to tax consequences for which the Client will be solely liable. The Client agrees that BMO Nesbitt Burns is not liable in any way to the Client with respect to the termination, closure, transfer or liquidation of the Account.

#### 4. Payment of indebtedness

The Client will promptly pay indebtedness when due except to the extent covered by a margin facility.

#### 5. Margin

If the Client applies for a margin facility, BMO Nesbitt Burns may, in its sole discretion, grant the facility to the Client provided that BMO Nesbitt Burns may, at any time and from time to time:

- (a) reduce or cancel any margin facility made available to the Client or refuse to grant any additional margin facility to the Client; or
- (b) require the Client to provide margin in addition to the margin requirements of the applicable Regulatory Authorities.

*The Client acknowledges that, for certain option strategies producing a credit, the Regulatory Authorities may require significant additional margin.* The Client will provide BMO Nesbitt Burns with any margin which is requested by BMO Nesbitt Burns and will promptly pay any indebtedness due as a result of any reduction or cancellation of any margin facility.

In the event that the Client has opened a non-individual Account, the Client hereby authorizes its directors, officers, trustees and/or agents, as applicable, to incur indebtedness under the margin facility of the Client. The Client represents and warrants that all such directors, officers, trustees and/or agents of the Client, as applicable, are duly authorized by the Client’s constating documents and resolutions of the Client’s board of directors to incur indebtedness under the margin facility. The Client acknowledges that BMO Nesbitt Burns is relying on such representation and warranty and that BMO Nesbitt Burns would not otherwise grant the Client a margin facility without such representation and warranty having been made by the Client.

## 6. Pledge of securities

As continuing collateral security for the payment of any indebtedness, which is now or may in the future be owing by the Client to BMO Nesbitt Burns, the Client hereby hypothecates and pledges to BMO Nesbitt Burns all of the Client's Securities and cash, including any free credit balances, which may now or hereafter be held by BMO Nesbitt Burns (collectively, the "Collateral"), whether held in the Account or any other account in which the Client has an interest and whether or not such indebtedness relates to the Collateral hypothecated and pledged. With respect to any Collateral which is subject to the laws of Quebec, since the laws of such province require that the amount of the hypothec be specified, the Client hereby acknowledges that the hypothec and pledge granted in favour of BMO Nesbitt Burns as described herein are limited to a maximum amount of ten (10) million dollars. The interest rate applicable to the hypothec shall be a rate of interest expressed as a rate per annum, which is equal to the rate established by Bank of Montreal, as the reference rate of interest used by it to determine interest rates charged for demand loans in Canadian dollars to Canadian commercial borrowers, plus two per cent, and, in the event that such bank does not publish such a rate, a substitute rate from any financial institution selected by BMO Nesbitt Burns.

## 7. Use of collateral by BMO Nesbitt Burns

So long as any indebtedness remains unpaid, the Client authorizes BMO Nesbitt Burns, without notice, to use at any time and from time to time the Collateral in the conduct of BMO Nesbitt Burns' business, including the right to:

- (a) combine any of the Collateral with the property of BMO Nesbitt Burns or other customers or both;
- (b) pledge any of the Collateral which is held in BMO Nesbitt Burns' possession as security for its own indebtedness;
- (c) loan any of the Collateral to BMO Nesbitt Burns for its own purposes; or
- (d) use any of the Collateral for making delivery against a sale, whether a short sale or otherwise, and whether such sale is for the Account or for BMO Nesbitt Burns' own account or for any account in which BMO Nesbitt Burns, or any director thereof, is directly or indirectly interested, or for the account of any other BMO Nesbitt Burns customers.

## 8. Elimination or reduction of indebtedness by BMO Nesbitt Burns:

If:

- (a) the Client fails to pay any indebtedness when due;
- (b) BMO Nesbitt Burns deems, in its sole and unfettered discretion, the margin held by it to be insufficient for its protection;
- (c) on or before any settlement date the Client fails to provide BMO Nesbitt Burns any required Securities in acceptable delivery form;
- (d) there is any unsecured or potentially unsecured indebtedness in the Client's Account;
- (e) the Client dies, becomes bankrupt or insolvent or if any of the Collateral becomes subject to execution, attachment or other process; or
- (f) the Client fails to comply with any requirement contained in this Agreement,

BMO Nesbitt Burns in its sole and unfettered discretion may, with respect to any position in a Security in the Account, take such steps as BMO Nesbitt Burns considers necessary to protect itself against loss including entering into positions in any Security or on any exchange on the Client's behalf. In addition to any other right or remedy to which BMO Nesbitt Burns is entitled, BMO Nesbitt Burns may, at any time and from time to time without notice or demand to the Client:

- (i) apply monies held to the credit of the Client in any other account with BMO Nesbitt Burns to eliminate or reduce indebtedness;
- (ii) take the Securities in payment or sell, contract to sell or otherwise dispose of any or all of the Securities held by BMO Nesbitt Burns for the Client and apply the net proceeds therefrom to eliminate or reduce indebtedness;
- (iii) purchase or borrow any Securities necessary to cover short sales or any other sales made on the Client's behalf in respect of which delivery of certificates in an acceptable delivery form has not been made; or
- (iv) cancel any outstanding orders.

Such rights may be exercised separately, successively or concurrently. BMO Nesbitt Burns shall not be required by this Agreement to exercise any such rights nor shall it be required to exercise any right prior to exercising any other right. The failure to exercise any or all of such rights or the granting of any indulgence shall not in any way limit, restrict or prevent BMO Nesbitt Burns from exercising such rights at any subsequent time and shall not limit, reduce or discharge any indebtedness or part thereof. Any such sales or purchases for the Account may be made upon any exchange or market or at a public or private sale upon such terms and in such manner as BMO Nesbitt Burns deems advisable. If demand is made or notice is given to the Client by BMO Nesbitt Burns, it shall not constitute a waiver of any of BMO Nesbitt Burns' rights to act hereunder without demand or notice. Any and all expenses (including any legal expenses) reasonably incurred by BMO Nesbitt Burns in connection with exercising any right pursuant to this item 8 may be charged to the Account. The Client acknowledges that the Client shall remain liable to BMO Nesbitt Burns for any deficiency remaining following the exercise by BMO Nesbitt Burns of any or all of the foregoing rights and that the rights which BMO Nesbitt Burns is entitled to exercise pursuant to this section are reasonable and necessary for BMO Nesbitt Burns' protection having regard to the nature of securities markets including, in particular, their volatility. The liquidation of Securities in the Account may have significant financial consequences for the Client, including but not limited to tax consequences for which the Client will be solely liable. The Client agrees that BMO Nesbitt Burns is not liable in any way to the Client with respect to the elimination, reduction or discharge of indebtedness.

## 9. Holding and return of securities

BMO Nesbitt Burns may hold the Client's Securities at its head office or any of its branches or at any other location where it is customary for BMO Nesbitt Burns to keep its Securities and BMO Nesbitt Burns' responsibilities to the Client for so holding the Client's Securities shall be limited to the same degree of care exercised by BMO Nesbitt Burns in the custody of its own Securities. Certificates for Securities of the same issue and for the same aggregate amounts may be delivered to the Client in lieu of those originally deposited by the Client. BMO Nesbitt Burns may at any time and without notice or demand to the Client cause any Securities in the Account to be registered in the Client's name.

All fully paid and excess margin Securities held by BMO Nesbitt Burns on a Client's behalf, shall be held separate and segregated from any Securities owned and held by BMO Nesbitt Burns. BMO Nesbitt Burns shall also identify and segregate all fully paid and excess margin Securities held on a Client's behalf from its total assets.

#### 10. Free credit balances

Any monies held by BMO Nesbitt Burns from time to time to the Client's credit are payable on demand, need not be segregated and may be used by BMO Nesbitt Burns in the ordinary conduct of its business. BMO Nesbitt Burns may earn revenue from the use of such credit balances. The Client acknowledges that the relationship of the Client and BMO Nesbitt Burns with respect to such monies is one of debtor and creditor only.

#### 11. Transfers to other accounts

BMO Nesbitt Burns may at any time, and from time to time, take any monies or Securities in the Account and any proceeds from the sale or other disposition of such Securities to pay or cover any obligations of the Client to BMO Nesbitt Burns, including obligations of the Client in respect of any other account with BMO Nesbitt Burns, whether or not such account is a joint account or is an account guaranteed by the Client.

#### 12. Declaration of short sales

If at the time of a sale order, the Client does not hold the subject Securities in the Account, the Client must satisfy BMO Nesbitt Burns that the Client will be making delivery of the Securities in negotiable form on or before the settlement date. Otherwise, if the Client does not hold the Securities in the Account or is not making delivery in to BMO Nesbitt Burns of the Securities to the Account on or before the settlement date, the Client must immediately advise BMO Nesbitt Burns. BMO Nesbitt Burns must be able to borrow the Securities for the Client in order to accept the order and make delivery of the sold Securities on the settlement date. In this situation the order will be marked as a short sale. A lending fee may apply and the Client may be required to replace the borrowed Securities on demand and without notice. The lending fee is set based on general market availability, may vary significantly and is subject to change on a daily basis. The client agrees to pay the prevailing lending fee and waives notice of any and all changes in such lending fee. In addition to the commission, interest or other fees applicable to the transaction, BMO Nesbitt Burns (or parties related to same) may earn revenue from borrowing or lending Securities to cover short positions. In the event that a short sale is not declared and Securities are not delivered on settlement date, as expected, and BMO Nesbitt Burns is required to deliver Securities to settle the transaction, then the Client shall bear all costs related to BMO Nesbitt Burns acquiring shares for that purpose.

#### 13. Good delivery of securities

Except for any declared short sale, the Client will not order any sale or other disposition of any Securities not owned by the Client or of which the Client will be unable to make delivery in acceptable delivery form on or before the settlement date.

#### 14. Client information changes

The Client will immediately advise BMO Nesbitt Burns if any information provided in the Client Account Agreement form, which forms part of this Agreement, changes. This includes, but is not limited to, if the Client acquires a controlling interest in or otherwise becomes an insider and/or a reporting insider of any reporting issuer.

#### 15. Account statements

The contents of every confirmation, statement or other communication sent by BMO Nesbitt Burns to the Client shall be deemed to have been acknowledged as correct, approved and consented to by the Client unless BMO Nesbitt Burns receives written notice to the contrary within forty-five days after it is sent to the Client.

#### 17. Communication to the client

Any notice or communication to the Client may be given by prepaid mail or facsimile to any address of record of the Client with BMO Nesbitt Burns, or may be delivered personally to the Client or to any such address of record and shall be deemed to have been received, if mailed, on the second business day after mailing or, if sent by facsimile on the day sent or, if delivered, when delivered. Nothing in this section shall be interpreted as requiring BMO Nesbitt Burns to give any notice to the Client which is not otherwise required to be given by BMO Nesbitt Burns.

- (a) This Agreement shall be construed in conjunction with any other agreements between BMO Nesbitt Burns and the Client in connection with the Account, provided that, to the extent necessary, the terms and provisions of this Agreement shall supersede the terms and provisions of such other agreements, and provided further that this Agreement shall in no way limit or restrict any rights of BMO Nesbitt Burns under any such other agreements. The Client may not waive or change any of the terms and conditions of this Agreement without the prior written approval of a duly authorized officer of BMO Nesbitt Burns. If any statute or any statutory regulation or any bylaw, rule, regulation, policy or custom of the Regulatory Authorities is enacted, made, amended or otherwise changed with the result that any term or condition of this Agreement is, in whole or in part, invalid, then such term or condition will be deemed to be varied or superseded to the extent necessary to give effect to such statute, statutory regulation, by-law, rule, regulation, policy or custom. In the case of a joint account maintained in a branch located in Quebec for a Canadian non-resident of Quebec who has designated the provincial/territorial law of his or her residence as the governing law with respect to the right of survivorship, such provincial/territorial law elected by the Client shall govern. Where one or more of the Clients is a Quebec resident, "No Right of Survivorship" must be selected on the appropriate form and will apply.
- (g) Whenever this Agreement entitles BMO Nesbitt Burns to alternative courses of action, BMO Nesbitt Burns shall be entitled to choose any, none or all of such alternatives in its sole and unfettered discretion.

## Part Two – Specific Terms and Conditions Applicable to Trading in Options

In addition to the terms and conditions set out in the previous section, the following terms and conditions apply specifically to options trading.

### 1. Options trading

With respect to any trading for the Account in options:

- (a) Rights of BMO Nesbitt Burns: BMO Nesbitt Burns may from time to time:
  - (i) reject any order placed by the Client;
  - (ii) act through its market maker or options attorney as principal on the other side of any Transaction executed for the Client;
  - (iii) require any Transaction to be on a cash-only basis during the last 10 days prior to expiry of an option;
  - (iv) limit or restrict short positions of, or short sales by, the Client;
  - (v) limit or restrict the timing by which options orders or exercise instructions must be placed; or
  - (vi) disclose the Client's trading and positions to any responsible exchange or clearing corporation.
- (b) Client Obligations: The Client will:
  - (i) whether acting alone or in concert with others, comply with the position and exercise limits and all requirements set by any relevant exchange or clearing corporation; and
  - (ii) give BMO Nesbitt Burns timely instructions regarding the exercise or disposition of any option position or Transaction.
  - (iii) in the event that the Client is a non-individual, the Client hereby authorizes its directors, officers, trustees and/or agents, as applicable, to add options to the Options Account of the Client. The Client represents and warrants that all such directors, officers, trustees and/or agents of the Client, as applicable, are duly authorized by the Client's constating documents and resolutions of the board of directors to add options to the Account at the level requested, and acknowledges that BMO Nesbitt Burns is relying on such representation and warranty and that BMO Nesbitt Burns would not otherwise grant the Client an options Account without such representation and warranty having been made by the Client.

- (c) Amendments to Rules: The Client acknowledges that rules may be enacted, amended or repealed by any relevant exchange or clearing corporation which will affect existing positions or subsequent Transactions.
- (d) Exercise Assignment Notices: The Client acknowledges that exercise assignment notices are allocated by the relevant clearing corporation at any time during the day. BMO Nesbitt Burns will allocate such notices when received on a random basis unless the Client is notified otherwise by prior written notice. BMO Nesbitt Burns is not responsible for any delay with respect to the assignment by the clearing corporation or the receipt by BMO Nesbitt Burns of such notices. The Client confirms that the Client will accept an allocation on this basis and will instruct BMO Nesbitt Burns to act accordingly.
- (e) Liability of BMO Nesbitt Burns: Errors or omissions with respect to any Transaction for the Account which are caused by BMO Nesbitt Burns will be adjusted by BMO Nesbitt Burns. BMO Nesbitt Burns will not be liable to the Client in any way for errors or omissions caused by persons, or by conditions, over which BMO Nesbitt Burns has no control.
- (f) Absence of Instructions: If the Client fails to give BMO Nesbitt Burns timely instructions then BMO Nesbitt Burns may, but is not obliged to:
  - (i) exercise or sell any valuable option on behalf of the Client, in which case the Client will pay any resulting transaction costs; and
  - (ii) exercise for the account and risk of the Client or sell or close out any expiring valuable option.
- (g) Writing Covered Options: If the Client is authorized to write (sell) covered Call options, then the Client must have the underlying Securities covered by any such option in the Account, or an acceptable escrow receipt made available to BMO Nesbitt Burns evidencing ownership of such Securities and their availability to BMO Nesbitt Burns upon exercise of the option, at the time of writing such options. The Client will not sell or withdraw from the Account such Securities or any Securities accruing thereto during the term of such options and acknowledges that BMO Nesbitt Burns may prohibit the withdrawal from the Account of any cash dividends or other cash distributions accruing thereon during the term of such options.
- (h) Writing Uncovered Options: If the Client is authorized to write uncovered (sell short) Put or Call options, then prior to doing so the Client shall have in the Account any margin required by BMO Nesbitt Burns and shall maintain in the Account such margin.

## Part Three – Risk Disclosure Statement for Futures and Options

This disclosure statement is being provided as required by applicable securities laws in Canada to describe certain of the risks and other significant aspects of trading in futures and options.

This brief statement does not disclose all of the risks and other significant aspects of trading in futures and options. In light of the risks, the Client should undertake such transactions only if the Client understands the nature of the contracts (and contractual relationships) into which the Client is entering and the extent of the Client's exposure to risk. Trading in futures and options is not suitable for many members of the public. The Client should carefully consider whether trading is appropriate for the Client in light of Client's experience, objectives, financial resources and other relevant circumstances.

**Part 3A – Futures**

## 1. Effect of “leverage” or “gearing”

Transactions in futures carry a high degree of risk. The amount of initial margin is small relative to the value of the futures contract so that transactions are “leveraged” or “geared”. A relatively small market movement will have a proportionately larger impact on the funds the Client has deposited or will have to deposit: this may work against the Client as well as for the Client. The Client may sustain a total loss of initial margin funds and any additional funds deposited with the firm to maintain the Client’s position. If the market moves against the Client’s position or margin levels are increased, the Client may be called upon to pay substantial additional funds on short notice to maintain the Client’s position. If the Client fails to comply with a request for additional funds within the time prescribed, the Client’s position may be liquidated at a loss and the Client will be liable for any resulting deficit.

## 2. Risk-reducing orders or strategies

The placing of certain orders (e.g. “stop-loss” order, where permitted under local law, or “stop-limit” orders) which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders. Strategies using combinations of positions, such as “spread” and “straddle” positions, may be as risky as taking simple “long” or “short” positions.

**Part 3B – Options**

## 1. Variable degree of risk

Transactions in options carry a high degree of risk. Purchasers and sellers of options should familiarize themselves with the type of option (i.e., put or call) which they contemplate trading and the associated risks. The Client should calculate the extent to which the value of the options must increase for the Client’s position to become profitable, taking into account the premium and all transaction costs.

The purchaser of options may offset or exercise the options or allow the options to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the option is on a future, the purchaser will acquire a futures position with associated liabilities for margin (see the section on Futures above). If the purchased options expire worthless, the Client will suffer a total loss of the Client’s investment which will consist of the option premium plus transaction costs. If the Client is contemplating purchasing deep-out-of-the-money options, the Client should be aware that the chance of such options becoming profitable ordinarily is remote.

Selling (“writing” or “granting”) an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will be liable for additional margin to maintain the position if the market moves unfavourably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obligated to either settle the option in cash or to acquire or deliver the underlying interest. If the option is on a future, the seller will acquire a position in a future with associated liabilities for margin (see the section on Futures above). If the option is “covered” by the seller holding a corresponding position in the underlying interest or a future or another option, the risk may be reduced. If the option is not covered, the risk of loss can be unlimited.

Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The

purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.

**Part 3C – Additional risks common to futures and options**

## 1. Terms and conditions of contracts

The Client should ask the firm with which the Client deals about the terms and conditions of the specific futures or options which the Client is trading and associated obligations (e.g., the circumstances under which the Client may become obligated to make or take delivery of the underlying interest of a futures contract and, in respect of options, expiration dates and restrictions on the time for exercise). Under certain circumstances the specifications of outstanding contracts (including the exercise price of an option) may be modified by the exchange or clearing house to reflect changes in the underlying interest.

## 2. Suspension or restriction of trading and pricing relationships

Market conditions (e.g. illiquidity) and/or the operation of the rules of certain markets (e.g. the suspension of trading in any contract or contract month because of price limits or “circuit breakers”) may increase the risk of loss by making it difficult or impossible to effect transactions or liquidate/offset positions. If the Client has sold options, this may increase the risk of loss.

Further, normal pricing relationships between the underlying interest and the future, and the underlying interest and the option may not exist. This can occur when, for example, the futures contract underlying the option is subject to price limits while the option is not. The absence of an underlying reference price may make it difficult to judge “fair” value.

## 3. Deposited cash and property

The Client should become familiar with the protections accorded to money or other property the Client deposits for domestic and foreign transactions, particularly in the event of a firm insolvency or bankruptcy. The extent to which the Client may recover money or property owned by the Client may be governed by specific legislation or local rules. In some jurisdictions, property which had been specifically identifiable as the Client’s own will be prorated in the same manner as cash for purposes of distribution in the event of a shortfall.

## 4. Commission and other charges

Before the Client begins to trade, the Client should obtain a clear explanation of all commission, fees and other charges for which the Client will be liable. These charges will affect the Client’s net profit (if any) or increase the Client’s loss.

## 5. Transactions in other jurisdictions

Transactions on markets in other jurisdictions, including markets formally linked to a domestic market, may expose the Client to additional risk. Such markets may be subject to regulation which may offer different or diminished investor protection. Before the Client trades the Client should enquire about any rules relevant to their particular transactions. The Client’s local regulatory authority will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where the Client’s transactions have been effected. The Client should ask the firm with which the Client deals for details about the types of redress available in both the Client’s home jurisdiction and other relevant jurisdictions before the Client starts to trade.

#### 6. Currency risks

The profit or loss in transactions in foreign currency-denominated contracts (whether they are traded in the Client's own or another jurisdiction) will be affected by fluctuations in currency rates where there is a need to convert from the currency denomination of the contract to another currency.

#### 7. Trading facilities

Most open-outcry and electronic trading facilities are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. The Client's ability to recover certain losses may be subject to limits on liability imposed by the system provider, the market, the clearing house and/or member firms. Such limits may vary; the Client should ask the firm with which the Client deals for details in this respect.

#### 8. Electronic trading

Trading on an electronic trading system may differ not only from trading in an open-outcry market but also from trading on other electronic trading systems. If the Client undertakes transactions on an electronic trading system, the Client will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that the Client's order is either not executed according to the Client instructions or is not executed at all. The Client's ability to recover certain losses that are particularly attributable to trading on a market using an electronic trading system may be limited to less than the amount of the Client's total loss.

#### 9. Off-exchange transactions

In some jurisdictions, and only then in restricted circumstances, BMO Nesbitt Burns is permitted to effect off-exchange transactions. BMO Nesbitt Burns may be acting as the Client's counterparty to the transaction. It may be difficult or impossible to liquidate an existing position, to assess the value, to determine a fair price or to assess the exposure to risk. For these reasons, these transactions may involve increased risks.

Off-exchange transactions may be less regulated or subject to a separate regulatory regime. Before the Client undertakes such transactions, the Client should become familiar with applicable rules.

## Part Six – Communication with Beneficial Owners of Securities of a Reporting Issuer

Based on the Client's instructions, the securities in the Client's account with BMO Nesbitt Burns are not registered in the Client's name but in BMO Nesbitt Burns' name or the name of another person or company holding the Client's securities on the Client's behalf. The issuers of the securities in the Client's account may not know the identity of the beneficial owner of these securities.

BMO Nesbitt Burns is required under securities law to obtain the Client's instructions concerning various matters relating to the Client's holding of securities in the Client's account.

### Part 6A disclosure of beneficial ownership information

Securities law permits reporting issuers and other persons and companies to send materials related to the affairs of the reporting issuer directly to beneficial owners of the reporting issuer's securities if the beneficial owner does not object to having information about it disclosed to the reporting issuer or other persons and companies. Part 1 of the Shareholder Communication Information section of the Client Account Agreement allows the Client to tell BMO Nesbitt Burns if the Client OBJECTS to the disclosure by BMO Nesbitt Burns to the reporting issuer or other persons or companies of the Client's beneficial ownership information, consisting of the Client's name, address, electronic mail address, securities holdings and preferred language of communication. Securities legislation restricts the use of the Client's beneficial ownership information to matters relating to the affairs of the reporting issuer.

If the Client *does not object* to the disclosure of the Client's beneficial ownership information, please mark the first box on Part 1 of the Shareholder Communication Information section of the Client Account Agreement. In those circumstances, the Client will not be charged with any costs associated with sending securityholder materials to the Client.

If the Client *objects* to the disclosure of the Client's beneficial ownership information by BMO Nesbitt Burns, please mark the second box in Part 1 of the Shareholder Communication Information section of the Client Account Agreement. If the Client does this, all materials to be delivered to the Client as a beneficial owner of securities will be delivered by BMO Nesbitt Burns, and the Client may be charged the reasonable cost of such mailings.

### Part 6B receiving securityholder materials

For securities that the Client holds through the Client's account, the Client has the right to receive proxy-related materials sent by reporting issuers to registered holders of their securities in connection with meetings of such securityholders. Among other things, this permits the Client to receive the necessary information to allow the Client to have the Client's securities voted in accordance with the Client's instructions at a securityholder meeting.

In addition, reporting issuers may choose to send out securityholder materials to beneficial owners, although they are not obliged to do so.

Securities law permits the Client to decline to receive securityholder materials. The three types of materials that the Client may decline to receive are:

- (a) proxy-related materials, including annual reports and financial statements, that are sent in connection with a securityholder meeting;
- (b) annual reports and financial statements that are not part of proxy-related materials; and
- (c) materials that a reporting issuer or other person or company sends to securityholders that are not required by corporate or securities law to be sent to registered holders.

Part 2 of the Shareholder Communication Information section of the Client Account Agreement allows the Client to receive all materials sent to beneficial owners of securities or to decline to receive the three types of materials referred to above.

If the Client wants to receive ALL materials that are sent to beneficial owners of securities, please mark the first box in Part 2 of the Shareholder Communication Information section of the Client Account Agreement. If the Client wants to DECLINE to receive the three types of materials referred to above, please mark the second box in Part 2 of the Shareholder Communication Information section of the Client Account Agreement. If the Client wants to receive only materials sent in connection with a special meeting, please mark the third box in Part 2 of the Shareholder Communication Information section of the Client Account Agreement.

Note: Even if the Client declines to receive the three types of materials referred to above, a reporting issuer or other person or company is entitled to deliver these materials to the Client, provided that the reporting issuer or other person or company pays all costs associated with the sending of these materials. These materials would be delivered to the Client through BMO Nesbitt Burns if the Client has objected to the disclosure of the Client's beneficial ownership information to reporting issuers.

### Part 6C consent to electronic delivery

Securities law permits BMO Nesbitt Burns to deliver some documents by electronic means if the consent of the recipient to the means of delivery has been obtained. Please indicate in Part 3 of the Shareholder Communication Information section of the Client Account Agreement whether the Client consents to the electronic delivery of shareholder communication documents at the primary email address which the Client provided in the "Information About You" section or whether the Client declines to receive documents electronically via email. Please note that even if the Client consents to the electronic delivery, electronic delivery of material may be precluded because of technical or other circumstances. While the Client's electronic mail address forms part of the ownership information, the reporting issuer may not use the Client's electronic mail address to deliver materials directly to the Client unless specific authorization has been granted by the Client.

### Part 6D contact

If the Client has any questions or wants to change the Client's Shareholder Communication Information instructions in the future, please contact the Client's Investment Advisor.
